Action Requested: Contract with outside firm to provide City with sample design charrettes of various architectural standards.

History, Facts, Issues: City Council has indicated a desire to establish architectural design standards for new construction within the City. Before drafting a written ordinance, it is suggested we get a visual representation of options for Council and the community to review. A visual review of what we do and do not want for the City will help as we craft a design ordinance.

Options: Under the Mayor's authority, contract with an outside consultant to provide samples or issue RFP.

Recommended Action: As this action merely involves reviewing options available to the City, I suggest the Mayor contact several firms for a quote on providing the requested services. If under his statutory budget authority, authorize the Mayor to contract for sample design charrettes.
