Action Requested:

Evaluate the City using the Chipper Truck to pick up tree limbs and shrubs. And deposit the chip/mulch at locations throughout the city, such as community gardens, empty lots, public works storage areas, etc.

History, Facts, Issues:

The city has a contract with Advanced Disposal on the removal of yard debris if it meets certain restrictions such as length, weight and stacked or in containers. The city, previously, was sending the clam truck to pick up white goods and apparently yard debris that was not picked up by Advanced. in the recent weeks, since the city has stopped utilizing the clam truck, a number of households have yard debris, that was not bagged, remaining to be picked up. An audit of Northwoods identified 89 homes with limbs and other yard debris awaiting pick-up.

Options: _____

Recommended Action:

Continued . . . the city stopped the white goods pick-up, including trees, because we were paying a dump fee to Advanced Disposal in addition to our regular fees for sanitation. If we utilize the chipper truck, we wont have to pay the dump fee AND we can provide free mulch to residents.
