Visibility Triangle

Note: The City of Fort Atkinson Building Inspection Department has made every effort to insure the accuracy of the information provided in this document. However, due to the possibility of errors or other aspects of electronic communication that is beyond the City's control, the City of Fort Atkinson does not guarantee the accuracy of this document and is not liable for reliance on this information. This document was created as basic plan submittal guide under the Code in effect at the time of creation. It is not intended to cover all circumstances.

The purpose of this Section is to alleviate or prevent congestion of public rights-of-way so as to promote the safety and general welfare of the public by establishing minimum requirements for the provision of vehicular visibility. In order to provide a clear view of intersecting streets to motorists there shall be a triangular area of clear vision formed by the two intersecting streets and a chord connecting said centerlines, as determined by the Director of Public Works. Generally, the following standards shall apply:

Vision triangles are required to be a minimum of twenty feet. Vision triangles may be altered by the City's Engineering Dept. on an as needed basis.

Within the triangular area, the following restrictions shall apply:

Type of Object	Maximum Height Allowed
Signs	36 inches
Parking Spaces	
Structures	
Earthwork	
Vegetation	
Fencing	
Any other such obstruction
