Independent Auditors' Report

Management and the Board of Education
Garden City Public Schools

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Garden City Public Schools, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Garden City Public Schools, as of June 30, 2020, and the respective changes in financial position, and where applicable, cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the school district's proportionate share of the net pension liability, schedule of the school district's pension contributions, schedule of the school district's proportionate share of the net OPEB liability, schedule of the school district's OPEB contributions, schedule of changes in total liability and related ratios and schedule of the school district's contributions identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information, because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Garden City Public Schools' basic financial statements. The other supplementary information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements.

The other supplementary information, as identified in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information, as identified in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 4, 2020 on our consideration of Garden City Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting

and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Garden City Public Schools' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Garden City Public Schools' internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Garden City Public Schools

Management's Discussion and Analysis

This section of the Garden City Public Schools' (the "School District") annual financial report presents our discussion and analysis of the School District's financial performance during the year ended June 30, 2020. Please read it in conjunction with the School District's financial statements, which immediately follow this section.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Garden City Public Schools financially as a whole. The district-wide financial statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the district-wide financial statements by providing information about the School District's most significant funds - the General Fund, Special Education Fund and Capital Projects Fund, with all other funds presented in one column as non-major funds. The remaining statements, the statement of fiduciary net position and the statement of changes in fiduciary net position, present financial information about activities for which the School District acts solely as an agent for the benefit of students and parents.

Reporting the School District as a Whole - District-wide Financial Statements

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net position (deficit) and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid. We refer to these statements as the district-wide statements.

These district-wide statements report the School District's net position - the difference between assets and liabilities, as reported in the statement of net position - as one way to measure the School District's financial health or financial position. Over time, increases or decreases in the School District's net position - as reported in the statement of activities - are indicators of whether its financial health is improving or deteriorating. The relationship between revenue and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

The statement of net position and the statement of activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, support services, community services, and athletics. Property taxes, unrestricted state aid (foundation allowance revenue), and state and federal grants finance most of these activities.

Reporting the School District's Most Significant Funds - Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. State law and bond covenants require that certain funds be established. However, the School District establishes other funds to help it control and manage money for particular purposes (the Debt and Food Service Funds are examples) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects). The governmental funds of the School District use the following accounting approach:

Governmental Funds - All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds, and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School

District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in reconciliation.

The School District as Trustee - Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for its student activity and scholarship trust funds. All of the School District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. During the 2020-21 school year, the School District will change the way it reports these funds as required by the Governmental Accounting Standards Board rules.

Garden City Public Schools

Management's Discussion and Analysis

The School District as a Whole

Recall that the statement of net position provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net position as of June 30, 2020 and 2019.

TABLE 1	Governmental Activities June 30,	
	2020	2019
	(in millions)	
Assets & Deferred Outflows		
Current and other assets	\$ 56.8	\$ 20.3
Capital assets	22.8	23.1
Deferred Outflows	<u>36.5</u>	<u>30.8</u>
Total assets & deferred outflows	116.1	74.2
Liabilities		
Current liabilities	8.0	10.9
Long-term liabilities	170.8	123.0
Deferred Inflows	<u>20.0</u>	<u>23.4</u>
Total liabilities & deferred inflows	198.8	157.3
Net Position		
Net investment in capital assets	4.5	3.3
Restricted	39.5	3.6
Unrestricted (deficit)	<u>(126.7)</u>	<u>(90.0)</u>
Total net position	<u>\$ (82.7)</u>	<u>\$ (83.1)</u>

The above analysis focuses on the net position (see Table 1). The change in net position (see Table 2) of the School District's governmental activities is discussed below. The School District's net position was (\$82.7) million at June 30, 2020. Capital assets, net of related debt totaling approximately \$4.5 million, compares the original cost, less depreciation of the School District's capital assets to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School District's ability to use those net position for day-to-day operations. The remaining amount of net position, (\$126.7) million, was unrestricted. The (\$126.7) million in unrestricted net

Garden City Public Schools

Management's Discussion and Analysis

position of governmental activities represents the accumulated results of all past years' operations. The operating results of the General Fund will have a significant impact on the change in unrestricted net position from year to year.

The results of this year's operations for the School District as a whole are reported in the statement of activities (see Table 2), which shows the changes in net position for fiscal years 2020 and 2019.

TABLE 2	Governmental Activities	
	June 30,	
	2020	2019
	(in millions)	
Revenue		
Program revenue:		
Charges for services	\$ 0.6	\$ 0.8
Operating grants and contributions	27.4	26.3
General revenue:		
Property taxes	6.7	6.4
State aid	23.3	23.7
Other	1.1	1.3
Total revenue	<u>59.1</u>	<u>58.5</u>
Functions/program expenses		
Instruction	35.5	31.4
Supporting services	20.4	18.6
Food services	1.4	1.5
Community services and other	0.6	0.6
Interest and long-term debt	0.8	0.6
Total functions/program costs	<u>58.7</u>	<u>52.7</u>
Change in net position	0.4	5.8
Beginning net position (deficit)	<u>(83.1)</u>	<u>(88.9)</u>
Ending net position (deficit)	<u>\$ (82.7)</u>	<u>\$ (83.1)</u>

Garden City Public Schools

Management's Discussion and Analysis

As reported in the statement of activities, the cost of all of our governmental activities this year was \$58.7 million. Certain activities were partially funded from those who benefited from the programs (*i.e.*, Charges for Services of \$0.6 million), or by other governments and organizations that subsidized certain programs with grants and contributions, (*i.e.*, Operating Grants and Contributions of \$27.4 million). We paid for the remaining public benefit portion of our governmental activities with \$6.7 million in taxes, \$23.3 million in state foundation allowance, and \$1.1 million with our other revenue (*i.e.*, interest and general entitlements).

The School District experienced a \$0.4 million increase in net position. More detailed information is presented in the reconciliation of the statement of revenue, expenditures, and changes in fund balances (deficit) of governmental funds to the statement of activities.

As discussed above, the net cost shows the financial burden that was placed on the State and the School District's taxpayers by each of these functions. Since property taxes for operations and unrestricted state aid constitute the vast majority of district operating revenue sources, the Board of Education and administration must annually evaluate the needs of the School District and balance those needs with state-prescribed available unrestricted resources.

The School District's Funds

As we noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

As the School District completed this year, the governmental funds reported a combined fund balance of \$48,127,527, which is an increase of \$37.4 million from last year. The primary reasons for the increase was due to sale of voter-approved Building & Site bonds in June 2020, and the continuation of the District's cost saving measures through wage concessions and a voter-approved county-wide millage that was approved in November of 2017. Voters authorized the levy of this enhancement millage for a six-year period ending in December of 2022, and a six-year renewal request is on the ballot on November 3, 2020. These items accounted for a \$35.8 million increase in the 2020 Capital Projects Fund, and a \$1.5 million increase in the General Fund Balance. The Sinking Fund Balance, The Food Service Fund Balance, and the Debt Fund Balance increased by approximately \$28,000 combined.

General Fund Budgetary Highlights

Over the course of the year, the School District revises its budget as it attempts to deal with unexpected changes in revenue and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. The final amendment to the budget was adopted in June 2020. A schedule showing the School District's original and final budget amounts compared with amounts actually paid and received is provided in the required supplementary information of these financial statements.

Garden City Public Schools

Management's Discussion and Analysis

During the year, the budget was amended in a legally permissible manner. The budget for the 2019-2020 school year was especially challenging due to the uncertainty at the State level related to the impact of the COVID-19 pandemic. When the School District adopted the final budget, estimates included a State-wide reduction in funding equivalent to \$700 per pupil, which was the amount of reduction required through the statutory proration language. Due to the uncertainty, the School District decided to budget conservatively to account for the full predicted shortfall in State revenue. The 2019-20 State School Aid Fund Budget was not adopted until after June 30, 2020. The decrease in funding for 2019-2020 was \$175 per pupil for a total loss of revenue of \$638,000. The actual amount of State per pupil revenue was a \$1.7 million increase when compared to the final budget.

Significant amendments between the original and final budgets adopted during the year include a \$174,000 increase in Incoming Transfers & Other revenue, and a \$950,000 decrease in Other Operating Transfers. The increase in Incoming Transfers & Other revenue was primarily due to an increase of \$100,000 in tax collections related to the Wayne County Regional Enhancement Millage and an increase in reimbursement of \$73,000 for Independence Paraprofessionals. The decrease on Other Operating Transfers was related to updated estimates related transfer of funds for operating the Burger Center Program.

On the expenditure side of the budget, amendments between the original and final budgets totaled a \$238,000 decrease in projected costs primarily due to a decrease in utilities costs related to the closure of buildings during the COVID-19 pandemic and decrease in salary and benefits. The variance between the final estimated June 30, 2020 fund balance and the actual June 30, 2020 fund balance was \$2,057,565 with \$1,700,000 of this variance resulting from the late-adopted budget by the State.

Special Education Special Revenue Fund Budgetary Highlights

The program is operated by the School District for Wayne County RESA to provide instructional and non-instructional services for autistic impaired students from Wayne County. During the year, the budget was amended in a legally permissible manner. Revenue was amended to include a \$327,000 increase in Act 18 Revenue. Amendments to expenditures totaled an \$821,000 increase to instruction related to updates in staffing estimates and impacts of the settlement of collective bargaining.

The variance between budgeted Special Education Fund revenue and actual Special Education Fund revenue was \$184,000. The change on the revenue was primarily due to lower than anticipated 51c state aid special education revenue allocation in the current year. The variance between budgeted Special Education Fund expenditures and actual Special Education Fund expenditures was \$25,000, primarily due to lower than projected salaries and benefits.

Garden City Public Schools

Management's Discussion and Analysis

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2020, the School District had \$22.8 million invested in a broad range of capital assets, including construction in progress, buildings, vehicles, furniture, and equipment. This amount represents a net decrease (including additions, disposals, and depreciation) of approximately \$336,000.

	<u>2020</u>	<u>2019</u>
Construction in progress	\$ 332,757	\$ 239,566
Building and site improvements	59,680,144	58,485,521
Equipment and furniture	5,428,116	5,403,117
Buses and other vehicles	<u>2,251,246</u>	<u>2,067,028</u>
Total capital assets	67,359,506	65,955,666
Less accumulated depreciation	<u>(44,894,942)</u>	<u>(43,062,210)</u>
Net capital assets	<u>\$22,797,321</u>	<u>\$23,133,022</u>

This year's capital asset additions included building improvements, furniture and equipment, and vehicles. We present more detailed information about our capital assets in the notes to the financial statements.GS

Debt

At the end of this year, the School District had \$45.8 million in bonds outstanding versus \$17.9 million in the previous year. Those bonds consisted of the following:

	<u>2020</u>	<u>2019</u>
2016 General Obligation Bonds	\$ 16,520,000	\$ 17,920,000
2020 Building & Site Bonds	<u>29,320,000</u>	<u>-</u>
Total	<u>\$45,840,000</u>	<u>\$ 17,920,000</u>

The School District's general obligation bond rating was rated by S&P as an AA due to the District's participation in the School Bond Qualification and Loan Program. The District received an underlying rating from S&P of A-. The District issued approximately \$36.0 million of a total \$50 million in voter approved building and site bonds in June 2020. We present more detailed information about our long-term liabilities in the notes to the financial statements.

Economic Factors and Next Year's Budgets and Rates

Our elected officials and administration consider many factors when setting the School District's 2020 fiscal year budget. Approximately 80 percent of total General Fund revenue is from the state aid. Under state law, the School District cannot assess additional property tax revenue for general operations. As a result, district funding is heavily dependent on the State's ability to fund local school operations. In November 2016, voters in Wayne County passed a Regional Enhancement Millage for a period of six years ending in December 2022. The District's share of this millage was approximately \$1.3 million in fiscal year 2020 and is expected to be less in 2020-2021 based on projected enrollment data. Voters were asked to vote on a renewal of this millage on November 3, 2020. The official results of the election were not available at the time report was issued.

One of the most important factors affecting the budget is our student count. The District has been experiencing declining enrollment for a decade. That trend is expected to continue for several more years based on birth rates in Wayne County. The initial 2020 budget adopted in June 2020 was based on an estimate of students that will be enrolled in October 2020. Once the final student count and related per pupil funding are validated, state law requires the School District to amend the budget if actual district resources are not sufficient to fund original appropriations. Concessions from all bargaining units within the District are being realized again in the 2020-2021 School Year. The District was able to continue making significant progress towards long-term fiscal health during 2019-2020 as the District's accumulated equity fund balance in the General Fund increased by approximately \$1.5 million to \$8.48 million.

The COVID-19 pandemic has created considerable challenges to predicting the revenues and expenditures required to operate the School District in 2020-2021 and beyond. The District has received over \$2.0 million dollars in Federal funding in 2020-21 to help offset the added costs of dealing with the impacts of the pandemic. Enrollment continues to be uncertain, but the State changed the perp pupil funding formula for 2020-2021, which will help mitigate any potential loss of pupils in the short term. The School District maintains a healthy fund balance, which to date, has not been required to meet the financial challenges of dealing with the impacts of the pandemic.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the financial resources it receives. If you have any questions about this report or need additional information, contact Andrew McMechan, Chief Financial Officer, Garden City Public Schools, 1333 Radcliff, Garden City, MI 48135.

Notes to the Financial Statements
June 30, 2020

Note 1 – Summary of Significant Accounting Policies

The accounting policies of Garden City Public Schools (School District) conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the School District's significant accounting policies:

Reporting Entity

The School District is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate component units of the School District. The School District has no component units.

District-wide Financial Statements

The School District's basic financial statements include both district-wide (reporting for the district as a whole) and fund financial statements (reporting the School District's major funds). The district-wide financial statements categorize all nonfiduciary activities as either governmental or business type. All of the School District's activities are classified as governmental.

The statement of net position presents governmental activities on a consolidated basis, using the economic resources measurement focus and accrual basis of accounting. This method recognizes all long-term assets and receivables as well as long-term debt and obligations. The School District's net position is reported in three parts (1) net investment in capital assets, (2) restricted net position, and (3) unrestricted net position.

The statement of activities reports both the gross and net cost of each of the School District's functions. The functions are also supported by general government revenues (property taxes and certain intergovernmental revenues). The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The net costs (by function) are normally covered by general revenue (property taxes, state sources and federal sources, interest income, etc.). The School District does not allocate indirect costs. In creating the district-wide financial statements the School District has eliminated interfund transactions.

The district-wide focus is on the sustainability of the School District as an entity and the change in the School District's net position resulting from current year activities.

Fund Financial Statements

Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

absences and claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted state aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the government.

The proprietary fund and the fiduciary fund statements also are reported using the economic resources measurement focus and the accrual basis of accounting.

Proprietary funds distinguish operating revenue and expenses from non-operating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The only proprietary fund maintained is an Internal Service Fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The School District reports the following major governmental funds:

General Fund – The General Fund is used to record the general operations of the School District pertaining to education and those operations not required to be provided for in other funds.

Special Education Fund – The Special Education Fund consists of those activities involved in operating the programs necessary to provide for the education of students identified as needing special education services. The Fund's revenue sources include property taxes, federal and state sources, and inter-governmental reimbursements.

2020 Capital Projects Fund – The 2020 Capital Projects Fund is used to record bond proceeds or other revenue and the disbursement of

invoices specifically designated for acquiring new school sites, buildings, equipment, and for remodeling and repairs. The fund is kept open until the purpose for which the fund was created has been accomplished.

Additionally, the School District reports the following fund types:

Special Revenue Fund – Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes. The School District's Special Revenue Fund include the Food Service Fund.

Debt Service Funds – Debt Service Funds are used to record tax, interest, and other revenue and the payment of interest, principal, and other expenditures on the 2016 refunding issue of long-term debt.

Sinking Fund – The Sinking Fund is used to record the property tax levy and other revenue and the disbursement of invoices specifically for acquiring new technology.

Internal Service Fund – The School District's proprietary fund is the Internal Service Fund. The purpose of the fund is to finance services provided to other funds of the School District on a cost-reimbursement basis. The Internal Service Fund maintained by the School District accounts for early retirement incentives and other postemployment benefits. It is funded through charges primarily from the General Fund.

Fiduciary Funds – Fiduciary Funds are used to account for assets held by the School District in a trustee capacity or as an agent. The Trust Funds are funds entrusted to the School District for scholarship awards. The Agency Fund is custodial in nature (assets equal liabilities) and does not involve the measurement of results of operations. This fund is used to record the transactions of student groups for school and school-related purposes.

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

Assets, Liabilities and Net Position or Equity

Receivables and Payables – Generally, outstanding amounts owed between funds are classified as “due from/to other funds”. These amounts are caused by transferring revenues and expenses between funds to get them into the proper reporting fund. These balances are paid back as cash flow permits.

All trade and property tax receivables are shown net of an allowance for uncollectible amounts. The School District considers all accounts receivable to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded.

Property taxes collected are based upon the approved tax rate for the year of levy. For the fiscal year ended June 30, 2020, the rates are as follows per \$1,000 of assessed value.

General Fund	
Non-principal residence exemption	18.0000
Commercial personal property	6.0000
Debt Service Funds	4.7500
Sinking Fund	1.9395

School property taxes are assessed and collected in accordance with enabling state legislation by cities and townships within the School District’s boundaries. All of the School District’s tax roll lies within Wayne County.

The property tax levy runs from July 1 to June 30. Property taxes become a lien on the first day of the levy year and are due on or before September 14 or February 14. Collections are forwarded to the School District as collected by the assessing municipalities. Real property taxes uncollected as of February 28 are purchased by Wayne County and remitted to the School District by June 30.

Inventories and Prepaid Items – Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed, rather than when purchased.

Certain payments to vendors reflect costs applicable to future fiscal years. For such payments in governmental funds the School District follows the consumption method, and they therefore are capitalized as prepaid items in both district-wide and fund financial statements.

Capital Assets – Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair market value at the date of donation. The School District defines capital assets as assets with an initial individual cost in excess of \$5,000. Costs of normal repair and maintenance that do not add to the value or materially extend asset lives are not capitalized.

The School District does not have infrastructure assets. Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings and additions	25-50 years
Equipment and furniture	5-20 years
Buses and other vehicles	5-8 years

Deferred Outflows of Resources – A deferred outflow of resources is a consumption of net position by the government that is applicable to a future reporting period. Deferred amounts on bond refundings are included in the district-wide financials statements. The amounts represent the difference between the reacquisition price and the net carrying amount of the prior debt. For district-wide financial statements, the School District reports deferred outflows of resources as a result of pension and OPEB plan earnings. This amount is the result of a difference between what the plan expected to earn from plan investments and what is actually earned. This amount will be amortized over the next four years and included in pension and OPEB

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

expense. Changes in assumptions and experience differences relating to the net pension and OPEB liabilities are deferred and amortized over the expected remaining services lives of the employees and retirees in the plans. The School District also reported deferred outflows of resources for pension and OPEB contributions made after the measurement date. This amount will reduce the net pension and OPEB liabilities in the following year.

Deferred Inflows of Resources – A deferred inflow of resources is an acquisition of net position by the government that is applicable to a future reporting period. For governmental funds this includes unavailable revenue in connection with receivables for revenues that are not considered available to liquidate liabilities of the current period. Deferred amounts on bond refundings are included in the district-wide financials statements. The amounts represent the difference between the reacquisition price and the net carrying amount of the prior debt. For district-wide financial statements, the School District reports deferred inflows of resources as a result of pension and OPEB plan earnings. This amount is the result of a difference between what the plan expected to earn from the plan investments and what the plan actually earned. This amount will be amortized over the next four years and included in pension and OPEB expense. Changes in assumptions and experience differences relating to the net pension and OPEB liabilities are deferred and amortized over the expected remaining service lives of the employees and retirees in the plans. Deferred inflows of resources also includes revenue received relating to the amounts included in the deferred outflows for payments related to MPERS Unfunded Actuarial Accrued Liabilities (UAAL) Stabilization defined benefit pension statutorily required contributions.

Compensated Absences – The liability for compensated absences reported in the district-wide financial statements consists of earned but unused accumulated vacation and sick leave benefits and early retirement incentive obligations. A liability for these amounts is reported in governmental funds as it comes due for payment. The liability has been calculated using the vesting method, in which leave amounts for

both employees who are currently eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

Other Postemployment Benefits – Single Employer Plan – The liability for other postemployment benefits reported in the district-wide statements consists of contractual obligations for the School District to reimburse eligible retirees for health insurance premiums.

Long-term Obligations – In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. In the fund financial statements, governmental fund types recognize bond premiums and discounts, during the current period.

In the School District's fund financial statements, the face amount of the debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts are reported as other financing uses.

Pension – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees Retirement System (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions – For purposes of measuring the net OPEB liability, deferred outflows of resources and

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Michigan Public School Employees Retirement System (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Balance – In the fund financial statements, governmental funds report fund balance in the following categories:

Non-spendable – amounts that are not available in a spendable form.

Restricted – amounts that are legally imposed or otherwise required by external parties to be used for a specific purpose.

Committed – amounts that have been formally set aside by the Board of Education for a specific purpose. A fund balance commitment may be established, modified, or rescinded by a resolution of the Board of Education.

Assigned – amounts intended to be used for specific purposes, as determined by Board of Education. The Board of Education has the authority to assign funds. Residual amounts in governmental funds other than the General Fund are automatically assigned by their nature.

Unassigned – all other resources; the remaining fund balances after non-spendable, restrictions, commitments and assignments.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the School District's policy is to consider restricted funds spent first.

When an expenditure is incurred for purposes for which committed, assigned, or unassigned amounts could be used, the School District's policy is to consider the funds to be spent in the following order: (1) committed, (2) assigned, (3) unassigned.

The School District has adopted a minimum fund balance policy. The fund balance policy prescribes the minimum fund balance as 15 percent of the current fiscal year's total budgeted expenditures. This is deemed to be a prudent amount to maintain the School District's ability to meet obligations as they come due throughout the year. The District is in compliance with their policy.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, as well as deferred inflows and deferred outflows of resources at the date of the financial statements and the reported amounts of revenue and expenditures during the reporting period. Actual results could differ from those estimates.

Eliminations and Reclassifications

In the process of aggregating data for the statement of net position and the statement of activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

Adoption of New Accounting Standards

Statement No. 90, *Majority Equity Interests* improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and improves the relevance of financial statement information for certain components.

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

Statement No. 92, *Omnibus 2020* enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics and includes specific provisions about the following: (1) The effective date of Statement No. 87, Leases, and Implementation Guide No. 2019-3, Leases, for interim financial reports (2) Reporting of intra-entity transfers of assets between a primary government employer and a component unit defined benefit pension plan or defined benefit other postemployment benefit (OPEB) plan. (3) The applicability of Statements No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, as amended, and No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, to reporting assets accumulated for postemployment benefits. (4) The applicability of certain requirements of Statement No. 84, Fiduciary Activities, to postemployment benefit arrangements. (5) Measurement of liabilities (and assets, if any) related to asset retirement obligations (AROs) in a government acquisition. (6) Reporting by public entity risk pools for amounts that are recoverable from reinsurers or excess insurers. (7) Reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature. (8) Terminology used to refer to derivative instruments. Management has implemented the required portions of this Statement and will implement the remaining requirements as each Statement referenced becomes effective.

Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance* provides a temporary relief to governments and other stakeholders in light of the COVID-19 pandemic and provides a postponement of certain GASB Statements. This statement was effective upon issuance in May of 2020.

Upcoming Accounting and Reporting Changes

Statement No. 84, *Fiduciary Activities* improves the guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The focus of the criteria includes the following: (1) is the government controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. The four fiduciary funds that should be reported, if applicable are: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally will report fiduciary activities that are not held in a trust or similar arrangement that meets specific criteria. The requirements of this Statement are effective for the fiscal year ending June 30, 2021.

Statement No. 87, *Leases* increases the usefulness of the District's financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. A lessee will be required to recognize a lease liability and an intangible right-to-use a lease asset, and a lessor will be required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about the District's leasing activities. The requirements of this Statement are effective for the fiscal year ending June 30, 2022.

Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period* enhances the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period. It requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reporting in a business-type activity or enterprise fund. Interest cost incurred before the end of a construction period should be recognized as an expenditure for financial statements prepared using the current financial resources measurement. The requirements of this Statement are effective for the fiscal year ending June 30, 2022.

Statement No. 91, *Conduit Debt Obligations* provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. This statement is effective for the year ending June 30, 2023.

Statement No. 93, *Replacement of Interbank Offered Rates* establishes accounting and financial reporting requirements related to the replacement of IBORs in hedging derivative instruments and leases. It also identifies appropriate benchmark interest rates for hedging derivative instruments. The requirements of this Statement apply to the financial statements of all state and local governments. The requirements of this Statement apply to the financial statements of all state and local governments. This statement is effective for the year ending June 30, 2022.

Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an

operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. This statement is effective for the year ending June 30, 2023.

The School District is evaluating the impact that the above GASBs will have on its financial reporting.

Note 2 – Stewardship, Compliance, and Accountability

Budgetary Information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America and state law for the General and Special Revenue Funds. All annual appropriations lapse at fiscal year end, thereby canceling all encumbrances. These appropriations are reestablished at the beginning of the year.

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body is the activity level. State law requires the School District to have its budget in place by July 1. A school district is not considered in violation of the law if reasonable procedures are in use by the School District to detect violations.

The Superintendent and Chief Financial Officer are authorized to transfer budgeted amounts between functions within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education.

Budgeted amounts are as originally adopted or as amended by the Board of Education throughout the year.

During the year, the School District incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated, as follows:

Function	Final Budget	Amount of Expenditures	Budget Variances
General Fund			
School administration	\$ 2,763,278	\$ 2,771,143	\$ 7,865
Business	995,486	1,010,227	14,741
Operations and maintenance	3,171,448	3,183,959	12,511
Central	1,370,846	1,383,199	12,353
Food Service Fund	1,467,475	1,487,522	20,047
Special Education Fund			
Supporting services	2,823,001	2,926,232	103,231

Compliance Sinking Funds

The Sinking Fund records capital project activities funded with Sinking Fund millage. For this fund, management believes the School District has complied, in all material respects with the applicable provisions of §1212(1) of the Revised School Code and the State of Michigan Department of Treasury Letter No. 2004-4.

Note 3 – Deposits and Investments

The School District's deposits and investments were reported in the basic financial statements in the following categories:

	Governmental Activities	Fiduciary Funds	Total Primary Government
Cash	<u>\$ 49,617,160</u>	<u>\$ 669,685</u>	<u>\$ 50,286,845</u>

The breakdown between deposits and investments for the School District is as follows:

Deposits (checking, savings accounts, money markets, certificates of deposit)	<u>\$ 50,286,845</u>
---	----------------------

Interest rate risk – This is the risk that the value of investments will decrease as a result of a rise in interest rates. The School District's policy minimized interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market, and investment operating funds primarily in short-term securities, liquid asset funds, money market mutual funds, or similar instrument pools and limiting the average maturity in accordance with the School District's cash requirements.

Credit risk – State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The School District does not have an investment policy further limiting its investment choices. The School District does not have a policy for credit risk and does not have any investments held at year end subject to credit risk.

State statutes and the School District's investment policy authorize the School District to make deposits in the accounts of federally insured

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

banks, credit unions, and savings and loan associations that have an office in Michigan; the School District is allowed to invest in U.S. Treasury or Agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

Concentration of credit risk – The School District places no limit on the amount the School District may invest in any one issuer. The School District does not have investments in any one issuer of more than 5 percent of the School District's total investments.

Custodial credit risk – deposits – In the case of deposits, this is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. As of year-end, \$50,092,738 of the School District's bank balance of \$50,440,505 was exposed to custodial credit risk because it was uninsured and uncollateralized.

Custodial credit risk – investments – For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have a policy for custodial credit risk of investments and does not have investments with custodial credit risk.

Note 4 – Capital Assets

A summary of the changes in governmental capital assets is as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Governmental activities				
Capital assets not being depreciated				
Construction in progress	\$ 239,566	\$ 332,757	\$ 239,566	\$ 332,757
Capital assets being depreciated				
Buildings and site improvements	58,485,521	1,194,623	-	59,680,144
Equipment and furniture	5,403,117	24,999	-	5,428,116
Buses and other vehicles	<u>2,067,028</u>	<u>452,105</u>	<u>267,887</u>	<u>2,251,246</u>
Total capital assets being depreciated	<u>65,955,666</u>	<u>1,671,727</u>	<u>267,887</u>	<u>67,359,506</u>
Less accumulated depreciation for				
Buildings and site improvements	37,324,115	1,626,678	-	38,950,793
Equipment and furniture	4,320,605	286,362	-	4,606,967
Buses and other vehicles	<u>1,417,490</u>	<u>187,579</u>	<u>267,887</u>	<u>1,337,182</u>
Total accumulated depreciation	<u>43,062,210</u>	<u>2,100,619</u>	<u>267,887</u>	<u>44,894,942</u>
Net capital assets being depreciated	<u>22,893,456</u>	<u>(428,892)</u>	<u>-</u>	<u>22,464,564</u>
Net capital assets	<u>\$ 23,133,022</u>	<u>\$ (96,135)</u>	<u>\$ 239,566</u>	<u>\$ 22,797,321</u>

Depreciation expense was charged to activities of the School District as follows:

Governmental activities	
Instruction	\$ 1,470,433
Supporting services	<u>630,186</u>
Total governmental activities	<u>\$ 2,100,619</u>

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

Construction Contracts

As of year end, the School District has the following construction contracts in progress:

	Total Contract	Remaining Construction Commitment at Year End	Contract Payable at Year End
HS/MS Bathroom Remodel	\$ 331,414	\$ 235,083	\$ 96,331
Windows Replacements	418,892	211,700	207,192

Note 5 – Interfund Receivables, Payables, and Transfers

Individual interfund receivable and payable balances at year end were:

Receivable Fund	Payable Fund	Amount
Special Education Fund	General Fund	\$ 1,388,626
Nonmajor Governmental Funds	General Fund	340,914
Internal Service Fund	General Fund	753,691
Nonmajor Governmental Funds	2020 Capital Projects Fund	130,608
		<u>\$ 2,613,839</u>

The outstanding balances between funds result mainly from the time lag between the dates that transactions are recorded in the accounting system and payments between pooled cash funds are made.

Interfund transfers consist of the following:

	Transfers Out			
	General Fund	Special Education Fund	Internal Service Fund	Total
Transfers in				
General Fund	\$ -	\$ 40,675	\$ 71,983	\$ 112,658
Special Education Fund	4,633,581	-	14,773	4,648,354
	<u>\$ 4,633,581</u>	<u>\$ 40,675</u>	<u>\$ 86,756</u>	<u>\$ 4,761,012</u>

Transfers from the General Fund to the Special Education Fund were for excess costs related to operations of the Special Education Fund. The transfers from the Special Education Fund to the General Fund were for indirect costs related to operating the Special Education Fund.

Note 6 – Unearned Revenue

Governmental funds report revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the components of unearned revenue are as follows:

	Unearned
Grant and categorical aid payments received prior to meeting all eligibility requirements	<u>\$ 892,457</u>

Note 7 – Leases

The School District has a capital lease for copiers. The future minimum lease payments are as follows:

Year ending June 30,	
2021	\$ 57,230
2022	<u>26,005</u>
Total minimum lease payments	\$ 83,235
Less amount representing interest	<u>(4,394)</u>
Present value of minimum lease payments	<u>\$ 78,841</u>

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

The assets acquired through capital leases are as follows:

Machinery and equipment	\$ 241,849
Less accumulated depreciation	<u>(168,294)</u>
Total	<u>\$ 73,555</u>

Note 8 – Long-Term Debt

The School District issues bonds, notes, and other contractual commitments to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. The State can withhold state aid if it has to make a bond payment on behalf of the School District related to qualified bonds. Other long-term obligations include compensated absences, retirement incentives, and certain risk liabilities.

Long-term obligation activity is summarized as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Amount Due Within One Year
Bonds payable					
General obligation bonds	\$ 17,920,000	\$ 29,320,000	\$ 1,400,000	\$ 45,840,000	\$ 1,570,000
Premium on bonds	<u>2,235,333</u>	<u>6,760,255</u>	<u>342,234</u>	<u>8,653,354</u>	<u>-</u>
Total bonds payable	20,155,333	36,080,255	1,742,234	54,493,354	1,570,000
Other liabilities					
Capital leases	129,219	-	50,378	78,841	53,497
Compensated absences	1,221,535	699,103	406,703	1,513,935	410,000
Other postemployment benefits	<u>576,791</u>	<u>24,821</u>	<u>84,024</u>	<u>517,588</u>	<u>-</u>
Total other liabilities	1,927,545	723,924	541,105	2,110,364	463,497
Total	<u>\$ 22,082,878</u>	<u>\$ 36,804,179</u>	<u>\$ 2,283,339</u>	<u>\$ 56,603,718</u>	<u>\$ 2,033,497</u>

General obligation bonds payable at year end, consist of the following:

\$22,085,000 of 2016 refunding bond due in annual installments of \$1,335,000 to \$1,540,000 through 5/1/2031, interest at 5.00%	\$ 16,520,000
\$29,320,000 of 2020 Building & Site bond due in annual installments of \$125,000 to \$2,450,000 through 5/1/2046, interest at 3.00 - 5.00%	<u>29,320,000</u>
Total general obligation bonded debt	<u>\$ 45,840,000</u>

Future principal and interest requirements for bonded debt are as follows:

	Principal	Interest	Total
Year Ending June 30,			
2021	\$ 1,570,000	\$ 2,000,743	\$ 3,570,743
2022	1,605,000	2,132,050	3,737,050
2023	1,525,000	2,054,300	3,579,300
2024	1,540,000	1,978,050	3,518,050
2025	1,625,000	1,901,050	3,526,050
2026 - 2030	8,755,000	8,288,500	17,043,500
2031 - 2035	7,455,000	6,211,000	13,666,000
2036 - 3040	8,575,000	4,316,000	12,891,000
2041 - 2045	10,740,000	2,142,050	12,882,050
2046 - 2050	<u>2,450,000</u>	<u>122,500</u>	<u>2,572,500</u>
Total	<u>\$ 45,840,000</u>	<u>\$ 31,146,243</u>	<u>\$ 76,986,243</u>

The general obligation bonds are payable from the Debt Service Funds. As of year end, the fund had a balance of \$1,560,215 to pay this debt. Future debt and interest will be payable from future tax levies. Capital leases and compensated absences will be liquidated

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

with funds from the General Fund and the Special Education Fund. The notes will be liquidated with funds from the General Fund and the other post-employment benefits will be paid from the Internal Service Fund.

Compensated Absences

Accrued compensated absences at year end, consist of \$420,257 of vacation hours earned and vested, and \$1,093,678 in accrued sick time benefits. The amount anticipated to be paid out per the next year is included within the amounts listed as due within one year.

Deferred Amount on Refunding

The 2016 advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$599,089. This amount is reported in the accompanying statement of net position as a deferred inflow of resources and is being charged to activities through fiscal year 2031.

Debt refunding activity is summarized as follows:

	Beginning Balance	Additions	Deductions	Ending Balance
Deferred amount on refunding	\$ 479,272	\$ -	\$ 39,939	\$ 439,333

Note 9 – Risk Management

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, employee injuries (workers' compensation) and certain medical benefits provided to employees. The School District participates in the Michigan Association for Improved School Legislation (MAISL) risk pool for claims relating to property loss, torts, errors and omissions, cyber liability and employee injuries (workers' compensation); the School District is insured for vision and dental claims.

The shared-risk pool program in which the School District participates operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

Note 10 – Pension Plans

Plan Description

The Michigan Public School Employees' Retirement System (System or MPERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board's authority to promulgate or amend the provisions of the System. The board consists of twelve members— eleven appointed by the Governor and the State Superintendent of Instruction, who serves as an ex-officio member.

The System's pension plan was established by the State to provide retirement, survivor and disability benefits to public school employees. In addition, the System's health plan provides all retirees with the option of receiving health, prescription drug, dental and vision coverage under the Michigan Public School Employees' Retirement Act (1980 PA 300 as amended).

The System is administered by the Office of Retirement Services (ORS) within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State Treasurer serves as the investment officer and custodian for the System.

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

The System's financial statements are available on the ORS website at www.michigan.gov/orsschools.

Benefits Provided

Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan. Depending on the plan option selected, member retirement benefits are determined by final average compensation, years of service, and a pension factor ranging from 1.25 percent to 1.50 percent. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

A DB plan member who leaves Michigan public school employment may request a refund of his or her member contributions to the retirement system account if applicable. A refund cancels a former member's rights to future benefits. However, returning members who previously received a refund of their contributions may reinstate their service through repayment of the refund upon satisfaction of certain requirements.

Contributions

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability as of the September 30, 2018

valuation will be amortized over a 20-year period beginning Oct. 1, 2018 and ending Sept. 30, 2038.

The schedule below summarizes pension contribution rates in effect for fiscal year ended September 30, 2019.

Pension Contribution Rates		
Benefit Structure	Member	Employer
Basic	0.0 - 4.0%	18.25%
Member Investment Plan	3.0 - 7.0%	18.25%
Pension Plus	3.0 - 6.4%	16.46%
Pension Plus 2	6.2%	19.59%
Defined Contribution	0.0%	13.39%

Required contributions to the pension plan from the School District were \$7,479,525 for the year ending September 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the School District reported a liability of \$93,240,391 for its proportionate share of the MPERS net pension liability. The net pension liability was measured as of September 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation rolled forward from September 2018. The School District's proportion of the net pension liability was determined by dividing each employer's statutorily required pension contributions to the system during the measurement period by the percent of pension contributions required from all applicable employers during the measurement period. At September 30, 2019, the School District's proportion was .2816 percent, which was an increase of .0100 percent from its proportion measured as of September 30, 2018.

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

For the plan year ending September 30, 2019, the School District recognized pension expense of \$10,620,166 for the measurement period. For the reporting period ending June 30, 2020, the School District recognized total pension contribution expense of \$7,907,228. At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	Total
Difference between expected and actual experience	\$ 417,933	\$ (388,804)	\$ 29,129
Changes of assumptions	18,256,534	-	18,256,534
Net difference between projected and actual earnings on pension plan investments	-	(2,988,196)	(2,988,196)
Changes in proportion and differences between the School District contributions and proportionate share of contributions	<u>1,971,148</u>	<u>(4,407,066)</u>	<u>(2,435,918)</u>
Total to be recognized in future School District contributions subsequent to the measurement date	<u>7,417,616</u>	<u>(3,251,862)</u>	<u>4,165,754</u>
Total	<u>\$ 28,063,231</u>	<u>\$ (11,035,928)</u>	<u>\$ 17,027,303</u>

Contributions subsequent to the measurement date reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. The District will offset the contribution expense in the year ended June 30, 2021 with the 147c supplemental income received subsequent to the measurement date which is included in the deferred inflows of resources. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be

recognized in pension expense as follows during the following plan years:

Deferred (Inflow) and Deferred Outflow of Resources by Year
(To Be Recognized in Future Pension Expenses)

2020	\$ 3,685,276
2021	4,221,869
2022	3,444,914
2023	<u>1,509,490</u>
	<u>\$ 12,861,549</u>

Actuarial Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Additional information as of the latest actuarial valuation follows:

Summary of Actuarial Assumptions:

- Valuation Date: September 30, 2018
- Actuarial Cost Method: Entry Age, Normal
- Wage inflation rate: 2.75%
- Investment Rate of Return:
 - MIP and Basic Plans: 6.80%
 - Pension Plus Plan: 6.80%
 - Pension Plus 2 Plan: 6.0%
- Projected Salary Increases: 2.75 - 11.55%, including wage inflation at 2.75%

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

- Cost-of-Living Pension Adjustments: 3% Annual Non-Compounded for MIP Members
- Mortality:
 - Retirees: RP-2014 Male and Female Healthy Annuitant Mortality Tables, scaled by 82% for males and 78% for females and adjusted for mortality improvements using projection scale MP-2017 from 2006.
 - Active Members: Male and Female Employee Annuitant Mortality Tables, scaled 100% and adjusted for mortality improvements using projection scale MP-2017 from 2006

Assumption changes as a result of an experience study for the period 2012 through 2017 have been adopted by the System for use in the annual pension valuations beginning with the September 30, 2017 valuation. The total pension liability as of September 30, 2019, is based on the results of an actuarial valuation date of September 30, 2018, and rolled forward using generally accepted actuarial procedures, including the experience study.

Recognition period for liabilities is the average of the expected remaining service lives of all employees in years: 4.4977

Recognition period for assets is 5 years.

Full actuarial assumptions are available in the 2018 MPSERS Comprehensive Annual Financial Report found on the ORS website at www.michigan.gov/orsschools.

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of

return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2019, are summarized in the following table:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return*
Domestic Equity Pools	28.0 %	5.5 %
Alternative Investment Pools	18.0	8.6
International Equity	16.0	7.3
Fixed Income Pools	10.5	1.2
Real Estate and Infrastructure Pools	10.0	4.2
Absolute Return Pools	15.5	5.4
Short Term Investment Pools	2.0	0.8
	<u>100.0%</u>	

**Long-term rates of return are net of administrative expenses and 2.3% inflation.*

Rate of Return

For the fiscal year ended September 30, 2019, the annual money-weighted rate of return on pension plan investment, net of pension plan investment expense, was 5.14%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

A discount rate of 6.80% was used to measure the total pension liability (6.8% for the Pension Plus plan, 6.0% for the Pension Plus 2, hybrid plans provided through non-university employers only). This discount rate was based on the long-term expected rate of return on pension plan investments of 6.80% (6.80% for the Pension Plus plan, 6.0% for the Pension Plus 2 plan). The projection of cash flows used to

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 6.80% (6.80% for the Pension plus plan, 6.0% for the Pension Plus 2 plan), as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage higher:

1% Decrease *	Current Single Discount Rate Assumption *	1% Increase *
5.80% / 5.80% / 5.00%	6.80% / 6.80% / 6.00%	7.80% / 7.80% / 7.00%
\$ 121,218,473	\$ 93,240,391	\$ 70,045,597

**Discount rates listed in the following order: Basic and Member Investment Plan (MIP), Pension Plus, and Pension Plus 2.*

Michigan Public School Employees' Retirement System (MPSERS) Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued MPSERS CAFR, available on the ORS website at www.michigan.gov/orsschools.

Payables to the Michigan Public School Employees' Retirement System (MPSERS)

There were no significant payables to the pension plan that are not ordinary accruals to the School District.

Note 11 – Postemployment Benefits Other Than Pensions (OPEB)

Plan Description

The Michigan Public School Employees' Retirement System (System or MPSERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board's authority to promulgate or amend the provisions of the System. The board consists of twelve members— eleven appointed by the Governor and the State Superintendent of Instruction, who serves as an ex-officio member.

The System's health plan provides all eligible retirees with the option of receiving health, prescription drug, dental and vision coverage under the Michigan Public School Employees' Retirement Act (1980 PA 300 as amended).

The System is administered by the Office of Retirement Services (ORS) within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State Treasurer serves as the investment officer and custodian for the System.

The System's financial statements are available on the ORS website at www.michigan.gov/orsschools.

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

Benefits Provided

Benefit provisions of the postemployment healthcare plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions. Retirees have the option of health coverage, which, through 2012, was funded on a cash disbursement basis. Beginning fiscal year 2013, it is funded on a prefunded basis. The System has contracted to provide the comprehensive group medical, prescription drug, dental and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by the System with the balance deducted from the monthly pension of each retiree healthcare recipient. For members who first worked before July 1, 2008, (Basic, MIP-Fixed, and MIP Graded plan members) the subsidy is the maximum allowed by statute. To limit future liabilities of Other Postemployment Benefits, members who first worked on or after July 1, 2008 (MIP-Plus plan members) have a graded premium subsidy based on career length where they accrue credit towards their insurance premiums in retirement, not to exceed the maximum allowable by statute. Public Act 300 of 2012 sets the maximum subsidy at 80% beginning January 1, 2013; 90% for those Medicare eligible and enrolled in the insurances as of that date. Dependents are eligible for healthcare coverage if they meet the dependency requirements set forth in Public Act 300 of 1980, as amended.

Public Act 300 of 2012 granted all active members of the Michigan Public School Employees Retirement System, who earned service credit in the 12 months ending September 3, 2012 or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their retirement healthcare. Any changes to a member's healthcare benefit are effective as of the member's transition date, which is defined as the first day of the pay period that begins on or after February 1, 2013.

Under Public Act 300 of 2012, members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above, or choosing not to pay the

3% contribution and instead opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 401(k) account. Members who selected this option stop paying the 3% contribution to retiree healthcare as of the day before their transition date, and their prior contributions were deposited into their 401(k) account.

Contributions

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer OPEB contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability as of the September 30, 2018 valuation will be amortized over a 20-year period beginning Oct. 1, 2018 and ending Sept. 30, 2038.

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

The schedule below summarizes OPEB contribution rates in effect for fiscal year 2019.

OPEB Contribution Rates		
Benefit Structure	Member	Employer
Premium Subsidy	3.0%	7.93%
Personal Healthcare Fund (PHF)	0.0%	7.57%

Required contributions to the OPEB plan from the School District were \$2,000,018 for the year ended September 30, 2019.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the School District reported a liability of \$20,908,045 for its proportionate share of the MPSERS net OPEB liability. The net OPEB liability was measured as of September 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation rolled forward from September 2018. The School District's proportion of the net OPEB liability was determined by dividing each employer's statutorily required OPEB contributions to the system during the measurement period by the percent of OPEB contributions required from all applicable employers during the measurement period. At September 30, 2019, the School District's proportion was .2913 percent, which was an increase of .0220% from its proportion measured as of September 30, 2018.

For the plan year ending September 30, 2019, the School District recognized OPEB expense of \$700,838 for the measurement period. For the reporting period ending June 30, 2020, the School District recognized total OPEB contribution expense of \$2,019,030.

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	Total
Difference between expected and actual experience	\$ -	\$ (7,671,753)	\$ (7,671,753)
Changes of assumptions	4,530,350	-	4,530,350
Net difference between projected and actual earnings on OPEB plan investments	-	(363,601)	(363,601)
Changes in proportion and differences between the School District contributions and proportionate share of contributions	<u>1,614,404</u>	<u>(656,353)</u>	<u>958,051</u>
Total to be recognized in future School District contributions subsequent to the measurement date	<u>1,795,903</u>	<u>-</u>	<u>1,795,903</u>
Total	<u>\$ 7,940,657</u>	<u>\$ (8,691,707)</u>	<u>\$ (751,050)</u>

Contributions subsequent to the measurement date reported as deferred outflows of resources related to OPEB resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

recognized in OPEB expense as follows during the following plan years:

Deferred (Inflow) and Deferred Outflow of Resources by Year (To Be Recognized in Future OPEB Expenses)			
2020	\$	(807,311)	
2021		(807,311)	
2022		(625,766)	
2023		(280,643)	
2024		(25,922)	
	\$	(2,546,953)	

Actuarial Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Additional information as of the latest actuarial valuation follows:

Summary of Actuarial Assumptions:

- Valuation Date: September 30, 2018
- Actuarial Cost Method: Entry Age, Normal
- Wage inflation rate: 2.75%
- Investment Rate of Return: 6.95%
- Projected Salary Increases: 2.75 – 11.55%, including wage inflation of 2.75%
- Healthcare Cost Trend Rate: 7.5% Year 1 graded to 3.5% Year 12

- Mortality:
 - Retirees: RP-2014 Male and Female Healthy Annuitant Mortality Tables, scaled by 82% for males and 78% for females and adjusted for mortality improvements using projection scale MP-2017 from 2006.
 - Active Members: Male and Female Employee Annuitant Mortality Tables, scaled 100% and adjusted for mortality improvements using projection scale MP-2017 from 2006.

Other Assumptions:

- Opt Out Assumptions: 21% of eligible participants hired before July 1, 2008 and 30% of those hired after June 30, 2008 are assumed to opt out of the retiree health plan
- Survivor Coverage: 80% of male retirees and 67% of female retirees are assumed to have coverages continuing after the retiree's death
- Coverage Election at Retirement: 75% of male and 60% of female future retirees are assumed to elect coverage for 1 or more dependents.

Assumption changes as a result of an experience study for the period 2012 through 2017 have been adopted by the System for use in the annual pension valuations beginning with the September 30, 2017 valuation. The total OPEB liability as of September 30, 2019, is based on the results of an actuarial valuation date of September 30, 2018, and rolled forward using generally accepted actuarial procedures, including the experience study.

Recognition period for liabilities is the average of the expected remaining service lives of all employees in years: 5.7101

Recognition period for assets is 5 years.

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

Full actuarial assumptions are available in the 2019 MPSERS Comprehensive Annual Financial Report found on the ORS website at www.michigan.gov/orsschools.

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation as of September 30, 2019, are summarized in the following table:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return*
Domestic Equity Pools	28.0 %	5.5 %
Alternative Investment Pools	18.0	8.6
International Equity	16.0	7.3
Fixed Income Pools	10.5	1.2
Real Estate and Infrastructure Pools	10.0	4.2
Absolute Return Pools	15.5	5.4
Short Term Investment Pools	2.0	0.8
	<u>100.0%</u>	

*Long-term rates of return are net of administrative expenses and 2.3% inflation.

Rate of Return

For the fiscal year ended September 30, 2019, the annual money-weighted rate of return on OPEB plan investment, net of OPEB plan investment expense, was 5.37%. The money-weighted rate of return

expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

A discount rate of 6.95% was used to measure the total OPEB liability. This discount rate was based on the long-term expected rate of return on OPEB plan investments of 6.95%. The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the School District's proportionate share of the net OPEB liability calculated using the discount rate of 6.95%, as well as what the School District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage higher:

1% Decrease 5.95%	Current Discount Rate 6.95%	1% Increase 7.95%
\$ 25,646,859	\$ 20,908,045	\$ 16,928,757

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Healthcare Cost Trend Rate

The following presents the School District's proportionate share of the net OPEB liability calculated using assumed trend rates, as well as what the School District's proportionate share of net OPEB liability

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

would be if it were calculated using a trend rate that is 1-percentage-point lower or 1-percentage-point higher:

1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
\$ 16,760,053	\$ 20,908,045	\$ 25,646,297

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in the separately issued 2019 MPSERS CAFR, available on the ORS website at www.michigan.gov/orsschools.

Payables to the OPEB Plan

There were no significant payables to the OPEB plan that are not ordinary accruals to the School District.

Note 12 – Postemployment Benefits Other Than Pensions (OPEB) – Single Employer Plan

Plan Description

The Garden City School District administers the School District's Retiree Benefits Plan – a single employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for certain employees of the School District.

Benefits Provided

The Plan provides healthcare benefits to cover the costs of MPSERS hospitalization for certain retirees. Benefits are provided through a third-party insurer, and the full cost of benefits is covered by the plan.

Employees covered by benefit terms

At June 30, 2020, the plan membership consisted of the following:

Inactive employees or beneficiaries currently receiving benefits	53
Active Employees	107
	160

The OPEB plan is closed to new members.

Contributions

The plan is 'pay as you go', therefore no contributions are made. Plan members are not required to contribute to the plan.

Net OPEB liability

The net OPEB liability was measured as of June 30, 2020 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

Actuarial assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement.

- Inflation rate: Implicit in expected payroll increases
- Salary increases: 1.0% average, including inflation
- Investment rate of return: N/A; this plan is not pre-funded
- 20-year Aa Municipal bond rate: 2.66%
- Mortality:
 - Employees and retirees: Public Teachers 2010 Employee and Healthy Retiree, Headcount weighted
 - Spouses: Public General 2010 Employee and Healthy Retiree, Headcount weighted

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

Mortality rates were based on the MP-2019 Improvement Scale.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2019 – June 30, 2020.

Discount rate

The discount rate used to measure the total OPEB liability was 3.0%. The projection of cash flows used to determine the discount rate assumed that School District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Total OPEB Liability	
Service cost	\$ 7,692
Interest	17,129
Differences between expected and actual experience	(78,081)
Changes in assumptions	21,122
Benefit payments	<u>(27,065)</u>
Net change in total OPEB liability	(59,203)
Total OPEB liability - beginning	<u>576,791</u>
Total OPEB liability - ending (a)	<u>\$ 517,588</u>

Sensitivity of the total OPEB liability to changes in the discount rate

The following presents the total OPEB liability of the School District, as well as what the School District's total OPEB liability would be if it were

calculated using a discount rate that is 1% lower or 1% higher than the current discount rate.

1% Decrease	Current Discount Rate	1% Increase
<u>\$ 552,943</u>	<u>\$ 517,588</u>	<u>\$ 485,911</u>

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates

The following presents the total OPEB liability of the School District, as well as what the School District's total OPEB liability would be if were calculated using healthcare cost trend rates that are 1% lower or 1% higher than the current healthcare cost trend rates:

1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
<u>\$ 506,902</u>	<u>\$ 517,588</u>	<u>\$ 530,567</u>

OPEB expense and deferred outflows of resources and deferred inflows of resources related to OPEB

For the year ended June 30, 2020 the employer recognized OPEB expense of \$25,602. The employer reported deferred outflows and inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	Total
Difference between expected and actual experience	\$ -	\$(254,933)	\$(254,933)
Changes of assumptions	<u>18,830</u>	<u>-</u>	<u>18,830</u>
Total	<u>\$ 18,830</u>	<u>\$(254,933)</u>	<u>\$(236,103)</u>

Garden City Public Schools
Notes to the Financial Statements
June 30, 2020

Amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Deferred (Inflow) and Deferred Outflow of Resources by Year (To Be Recognized in Future OPEB Expenses)		
2021	\$	(84,512)
2022		(84,512)
2023		(57,784)
2024		(9,295)
	\$	(236,103)

per pupil foundation allowance calculation and allows flexibilities in the days and attendance requirements for Districts. Local districts are able to decide whether to provide instruction virtually or face to face for the 2020-2021 school year. Currently, it is not possible to estimate the full extent of any potential impacts to the District or to determine if any changes in fair values are other than temporary in nature. Accordingly, no adjustments to the financial statements were made as a result of these events.

Payable to the OPEB Plan

There were no significant payables to the OPEB plan that are not ordinary accruals to the School District.

Note 13 – Coronavirus Pandemic

As result of the global coronavirus pandemic of 2020, the financial picture for Michigan School Districts has seen an unanticipated change. The duration and full effects of the outbreak are currently unknown, as the local and global picture continues to change frequently. To reduce the chance of spreading COVID-19; in March 2020, public schools were closed for the remainder of the 2019-2020 school year. As a result of the pandemic, the State of Michigan encountered a revenue shortfall resulting in a revenue reduction for Districts of \$175 per pupil which reduced the state aid payment in August of 2020. Subsequent to year end, multiple new revenue sources were approved; including Public Act 123 of 2020 which provides Districts an approximate \$12.32 per pupil and Public Act 146 of 2020 which provides Districts \$350 per pupil. These new revenue streams approved after June 30, 2020 will be recognized in the fiscal year ended June 30, 2021 in accordance with reporting criteria established by the Governmental Accounting Standards Board. Additionally, the “Return to Learn” legislation passed subsequent to year end which modifies the

Notes to Schedule of Contributions

Valuation date: June 30, 2020

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age
Amortization method	Leval dollar
Remaining amortization period	7 years
Asset valuation method	N/A - plan is not pre-funded
Inflation	Capped reimbursement amounts - no inflation assumed
Healthcare cost trend rates	8.25% in 2021 graded to 4.25% by 0.25% per year
Salary increases	1.00%
Investment rate of return	N/A - plan is not pre-funded
20-year Aa Municipal bond rate	2.66%
Retirement age	Various
Mortality	Employees and retirees: Public Teachers 2010 Employee and Healthy Retiree, Headcount weighted Spouses: Public General 2010 Employee and Healthy Retiree, Headcount weighted
