

## Here 's the story...

In 2016 Champions of GCHS was created to help boost our at-risk students' goals of achieving excellence in education.

Sharon Kollar, principal of GCHS, and Kelly Mendez, alumnus/veteran teacher at GCHS, have a shared vision to help students reach goals they never thought were achievable.

With the help of alumnus Bill Gray, their vision is becoming reality. Each semester, students in the program team up with a staff member to work at setting and achieving high academic goals.

Once goals are met at the end of the semester, the student receives a merit scholarship for his/her efforts, not to mention an unforgettable bond with their mentor that is sure to impact them for their entire school career and beyond. We are in our 5th semester of Champions and the program continues to grow with more and more students earning scholarships for their successes. With your golf sponsorship, more

Champions can be mentored, more at-risk students can be helped, and the vision of excellence for all students at GCHS can become a reality.

Please consider being a sponsor of this great opportunity to enrich the lives of the students in the Garden City community by signing up to donate or golf today.
