

What is a Champion?

A warrior... A fighter... more importantly, at Garden City High School, a Champion is a student who is chosen by a mentor dedicated to helping the student succeed. GCHS Champions promise to do their best to achieve previously unimaginable goals. A Champion receives a financial incentive each semester his or her goals are achieved.

Students are provided with a customized academic goal that they work toward for the duration of the semester. Once final grades are posted, successful students are invited to celebrate their achievement, share a meal, and receive their rewards at the Champions banquet.

The Champions program is much more than just a way to get better grades. The program builds self-esteem and can transform a student from thinking a failure to believing a success.

Champions of Garden City is privately funded by GCHS graduates and the Garden City community. This program can help more students in our community if we can continue to receive donations from people like you who want to:

- See all students achieve excellence
- See their community schools rise in distinction
- Give back to the community where you were raised
- See their community come alive again

With your continuing support and donations, more Champions can be mentored, more at-risk students can be helped, and visions of excellence for all at GHCS can become a reality.

“Whether you think you can, or you think you can’t--you’re right.”
— Henry Ford

2017-2018 Fall Semester

Last semester we had 49 student Champions along with 41 Mentors.

On February 16, those students that made their stretch goals were honored with a dinner where parents, students, and mentors all celebrated the Champion’s successes.

14 students achieved their goals receiving scholarships for their efforts.

2018 Spring Semester

Our program enrollment has grown to 68 students!

We can’t thank you enough!
