Mina/Luning Water Systems
P.O. Box 1448
Hawthorne, NV 89415-1448
Phone: (775) 945-2486

AGREEMENT

SEWER REPLACEMENT

I hereby request that Hawthorne Utilities replace my existing sewer connect from the main line to my property line. I fully understand that I will be completely responsible for the costs of parts and labor incurred for said sewer replacement.

I have also been informed that Hawthorne Utilities will replace the line ONLY to my property line. I will be fully responsible for the replacement and costs on my property and release Hawthorne Utilities of any and all liability incurred thereon. Hawthorne Utilities recommends for the convenience of the property owner, that a clean out and back flow valve be installed on the property owner's line. The costs and maintenance of the clean out valve would be the property owner's responsibility.

I understand that Hawthorne Utilities requires approximately three days prior notification for the sewer replacement, but that it will be done as manpower and equipment are available.
