ELECTRICAL RESIDENTIAL APPLICATION

Permits are good for six (6) MONTHS from date of issue providing you have had an inspection once in a six (6) month period.

Ground fault interrupters required on all residential outside receptacles, including garages and all residential bathroom receptacles, and kitchen receptacles.

Firestopping is required where holes are drilled through any plate and cold air return.

Service and rough inspections could be covered under one inspection on new built homes if ready. Additional inspection fee due if not inspected at same time. Addition and remodeling permits require two (2) inspections (Rough & Final).

The electrical inspector will call Detroit Edison to release the service for hook-up.

All fixtures hung, lamps and plate covers installed for final inspection.

Pre-manufactured home installation requires four (4) wire installation, from disconnect to service panel.

Pre-manufactured home connectors used for two or three wire circuits need inspection before siding is installed.

Pre-manufactured home - **One-Time Use Plugs, Self Contained Power Connectors** - If these connectors are used in any installation of a pre-manufactured dwelling unit, they shall be installed and inspected to manufacturers specifications. If the installation is in a concealed area of the unit, an inspection will be required before cover.

Interconnecting smoke detectors wired 110 volt on all floors and in each bedroom and sleeping area.

Swimming pool installation required in conduit where the wire enters and exits the ground. Ground fault interrupter required. Bonding with continuous #8 bare solid copper wire around pool, tied to pool on four (4) sides, ladder, and diving board for all pools. On ground pools require one (1) inspection (Final). In ground pools require two (2) inspections (Underground & Final).

Air Conditioning Units ONLY - Inspection must be scheduled within two (2) weeks of the installation.

Generator manufacturer's specification booklet *must* be on site for inspector to approve installation.

IT IS UNDERSTOOD THAT THIS IS STRICTLY A GUIDE. IT IS HIGHLY RECOMMENDED THAT THE SPECIFIC INSPECTOR BE CONTACTED TO ANSWER ANY QUESTIONS.
