Mr. Craig Vollmer  
9727 Point Rock Rd.  
Taberg, NY 13471

May 27, 2003

Dear Mr. Vollmer,

As per your request, I have searched the Natural Heritage database for the Genesee County Park property and found no threatened or endangered species or archeological sites on the parcel.

In terms of water resources, there are no federal or New York State classified wetlands. However, there are two state classified wetlands just south of the property. Please see the enclosed wetlands map. There are no streams classified as C, T or better on the parcel. Black Creek, which runs through the property is classified as C, C.

Please contact me if you have any questions regarding the findings above.

Sincerely,

Mark C. Gooding  
NYSDEC Forester
