

TOWN OF WARE

Conservation Commission

126 Main Street, Ware, Massachusetts 01082
413.967.9648

Meeting Minutes from
Wednesday, September 08, 2021
Selectmen's Conference Room, Town Hall

Commission Members Present: Chairman Mark Swett, Vice-Chairman Thomas Barnes, Dennis Cote (arrived at 6:42pm), Kristin Rosenbeck, Peter Topper IV.

Public in Attendance: Keith Davies, William Moryl, Robert Barry, Nico Siniscalchi, Robert LeMaitre, Kevin Brooks, Brandi Estridge, Nicole Croteau, John Prenosil, Stuart Beckley, Anna Marques.

Public in Remote Participation: Atty. Clifford Eaton, Mark Stinson, Elio Qorri, Brandon Ouimette, Dominic Meringolo, Larry Donn, Bill Zinni, Marie Lauderdale.

Governor Baker's Order Suspending Certain Provisions of the Open Meeting Law, G.L. c.30A, §20, dated March 10, 2020, allows remote participation under this Order due to the Coronavirus State of Emergency.

PLEDGE OF ALLEGIANCE

Chairman called the meeting to order at 6:30 pm and led the Pledge of Allegiance.

APPLICATIONS

DEP #317-450 by Gove Law Office for Joseph Harnois, 18 Shady Path

Request for Certificate of Compliance for the work regulated by the Order of Conditions has been satisfactorily completed for the installation of a septic system.

N. Croteau stated the applicant has submitted a Request for Certificate of Compliance for work regulated by the Order of Conditions for the installation of a septic system which has been completed and John Prenosil inspected the site and had no issues. No further discussion.

MOTION by Thomas Barnes to issue a complete Certificate of Compliance. Seconded by Peter Topper, IV. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Kristin Rosenbeck	Yes	Peter Topper, IV	Yes
	All in favor. 4/0/0.		Dennis Cote	Absent

RDA-2021-10 by Stuart Salomon, 26 Beach Road

Request for Determination whether the work depicted on the plan(s) referenced is subject to the Wetland Protection Act for the removal of three (3) Pine trees.

Chairman Swett asked J. Prenosil the nature of the project. J. Prenosil stated the proposal was to remove 3 pine trees within the buffer zone. Vice-Chairman Barnes asked if the trees would be considered threat trees and J. Prenosil replied yes. No further discussion.

[Continue to next page]

MOTION by Thomas Barnes to issue a Negative Determination, sighting #2 for the proposed work. Seconded by Kristin Rosenbeck. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Kristin Rosenbeck	Yes	Peter Toper, IV	Yes
	All in favor. 4/0/0.		Dennis Cote	Absent

RDA-2021-12 by Keith Davies, off Old Church Street

Request for Determination whether the work depicted on the plan(s) referenced is subject to the Wetland Protection Act to create a path to the river for access to benefit paddlers and fisherman.

Keith Davies presented the project to the Commission. The intent is to create a new river access off the old Church Street roadway which will be used by fisherman and paddlers. The Town of Hardwick is creating an access in Gilbertville for paddlers to start above the rapids, then follow the river into Ware. Currently paddlers exit onto private property at any point they may find. This new access will allow the paddlers to exit safely and to eliminate any conflict. The intent is to create a 10-foot-wide grass walkway to the guardrail, by clearing out the invasive shrubs, remove any stumps in the pathway, and then continue a 4-foot grass path from the guardrail to the river. There is a footpath now but is so overgrown. Maintenance would happen in the Springtime by local volunteers and would include planting grass seed if needed, mowing/weed- whacking and by trimming any shrubs which have grown into the path. P. Toper, IV asked about parking. K. Davies stated the citizens would utilize the existing parking lot on Church Street. K. Davies continued to state that the busiest time would be when the river is stocked with fish, Spring and Fall. Summer would most likely be the quietest time because the river would be too low for paddlers and water temps to warm for the fish. Mark Stinson stated the work proposed is in the Flood Plain and in the Rare Species Habitat area. M. Stinson stated that the Applicant can not start work until NHESP has given approval. General discussion between the Commission and M. Stinson continued about how to close the hearing and issue the Determination with the NHESP requirement. No further discussion.

MOTION by Thomas Barnes to issue a Negative Determination, sighting #2 for the proposed project and maintenance of the path with the requirement that the applicant is required to file a MESA Application prior to starting work. T. Barnes continued to state he recommends the Applicant to reach out to East Quabbin Land Trust on how to control the invasives. Seconded by Kristin Rosenbeck. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Dennis Cote	Yes	Kristin Rosenbeck	Yes
	Peter Toper, IV	Yes	All in favor. 5/0/0.	

RDA-2021-13 by Sunny Side Storage, 313-315 Palmer Road

Request for Determination whether the work and/or area depicted on the plan(s) referenced is subject to the Wetland Protection Act or the jurisdiction of the WPA for the repair and repaving of the existing driveway at #313 and installation of approx. 25'x12' cobble stone apron at #315.

[Continue to next page]

Vice-Chairman T. Barnes asked W. Moryl if he has installed any of the imperial pavers, and applicant replied not yet.

William (Bill) Moryl presented the project to the Commission. The driveway is currently a shared paved driveway; to B. Moryl's residential home (#315) and to Sunnyside Storage commercial area (#131). The Applicant would like to mill and repave the existing main driveway entrance and install a 25'x12' cobble stone apron for #315 to decipher between the two entities. The driveway was destroyed from recent construction. There will be no increase in the size of the driveway. J. Prenosil stated the stream stats stated the stream to the left is not perennial and this would be a buffer zone project and saw no issues with the proposed work. No further discussion.

MOTION by Dennis Cote to issue a Negative Determination, sighting #2 for the proposed project as presented. Discussion among the Commission members and M. Stinson about what determination should be issued, sighting #2. No further discussion. Seconded by Peter Toper, IV.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Dennis Cote	Yes	Kristin Rosenbeck	Yes
	Peter Toper, IV	Yes	All in favor.	5/0/0.

DEP #317-293 by Attorney Cliff Heaton for Daniel Long, 40 Moriarty Road

WPA-Form 8A Request for Certificate of Compliance – For the construction of two single-family residences on two lots regulated by the Order of Conditions has been satisfactorily completed.

Brandon Kroll is the current owner of 40 Moriarty Road. From previous conversations between B. Kroll and J. Prenosil, the request for Certificate of Compliance may be denied because there was an unpermitted driveway drain installed. It was recommended by J. Prenosil to plug the drain. Therefore, B. Kroll explained to the Commission for the reasoning it was installed because the house was built too low and the driveway slopes towards the house and floods the garage area. Chairman Swett stated since the unpermitted drain was installed, the Commission cannot approve the Request. Vice-Chair T. Barnes recommended to possibly install a berm at the beginning of the driveway or even possibly in front of the garage. B. Kroll asked for direction on how to make the project compliance. It was recommended he contacted a Civil Engineer to design a drywell, French drains, etc. Chairman asked B. Kroll if he would like the Commission to continue or rule on the Request. B. Kroll asked for a continuance. No further discussion.

MOTION by Thomas Barnes to continue until next meeting. Seconded by Peter Toper, IV. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Dennis Cote	Yes	Kristin Rosenbeck	Yes
	Peter Toper, IV	Yes	All in favor.	5/0/0.

[Continue to next page]

DEP #317-384 by Attorney Cliff Heaton for Daniel Long, 40 Moriarty Road

WPA-Form 8A Request for Certificate of Compliance – For the construction of a single-family residences on subdivision Lot 12A Moriarty Road regulated by the Order of Conditions has been satisfactorily completed.

Chairman M. Swett would like to recommend to the Applicant to request a continuance until next meeting. B. Kroll agreed and requested a continuance until next meeting.

MOTION by Thomas Barnes to continue until next meeting. Seconded by Kristin Rosenbeck. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Dennis Cote	Yes	Kristin Rosenbeck	Yes
	Peter Toper, IV	Yes	All in favor.	5/0/0.

DEP #317-477 by Robert LeMaitre for Minutemen Farm, LLC, 24 East Main Street

NOI Application (Notice of Intent to re-develop a portion of the site by replacing a building burnt in 1996 with a smaller footprint for storage facility having approx. 7,700 sq ft floor area or 22,300 sq ft footprint.)

N. Croteau stated that at the site meeting, it was voted and agreed upon to send this project out for peer review quotes. Three companies provide quotes based upon some area of concerns the Commission discussed at the site walk.

General discussion about if Chairman M. Swett was an abutter or not and it was determined Mark Swett is not an abutter and will take part in the discussion and vote on this project.

Robert Berry had questions about the peer review process. It was his understanding that the Commission requested the quotes and then it was a mutual agreement between the Commission and Minuteman on who is awarded the project. R. Berry stated he would prefer McClure Engineering. Chairman Swett asked why the cost varies from each proposal. N. Croteau provided the Commission on what the consultants were asked to review: NOI application completeness, the overall design of the site plan and being within the Flood Plain and Riverfront Area, Commission’s concerns for material runoff into the river, and Drainage Report. Vice-Chair T. Barnes stated he would like to the site to be restored to a point before the asphalt and concrete and a true Riverfront Area. Chairman Swett would like to review the quotes in a further depth as well as D. Cote and suggested to the Application to postpone on voting on a consultant tonight.

R. Berry asked the Commission what specific concerns the Commission has at this point. The overall feeling was the back area. Worried about overflow of debris into the river, clean up the existing broken concrete and construction being within the Riverfront Area and Flood Plain. It is not up to the Commission to design the site based on these concerns.

[Continue to next page]

Vice-Chair T. Barnes asked M. Stinson for his opinion on the site and M. Stinson stated he had concerns for the overall project – didn't see how will it be in compliance with the Regs? Vice-Chairman T. Barnes asked A. Marques, the Building Official for her concerns. A. Marques stated the curbing in the rear of the site did give away at one point in time, the slab be restored or create the area back to natural vegetation, and other concerns would be addressed for the Planning Board and Building Department.

Chairman Swett would like to review DEP comments with M. Stinson:

1. The Historical Mill Exemption – M. Stinson said this may or may not apply and not always the best intent to use this exemption. R. LeMaitre stated this was always intent to be a redevelopment. M. Stinson disagreed and said it was not indicated as so on the application as a redevelopment. R. LeMaitre stated the Stormwater Management was based upon "redevelopment".
2. The Flood Plain elevation shown incorrectly – No further discussion
3. The compensatory storage – No further discussion
4. Stormwater Report – Show compliance with the Standards – No further discussion

T. Barnes asked M. Stinson about a wetland replication or restoration area. M. Stinson said there is no need.

Chairman Swett would like to postpone voting on a consultant. N. Croteau suggested a meeting before the regular scheduled October meeting. General discussion about a meeting date.

MOTION by Kristin Rosenbeck to continue the approval of a peer consultant until September 15, 2021, meeting at 6:30pm. Seconded by Thomas Barnes. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Dennis Cote	Yes	Kristin Rosenbeck	Yes
	Peter Toper, IV	Yes	All in favor.	5/0/0.

MOTION by Dennis Cote to continue the NOI application hearing until the next regular scheduled meeting, October 13th. Seconded by Thomas Barnes. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Dennis Cote	Yes	Kristin Rosenbeck	Yes
	Peter Toper, IV	Yes	All in favor.	5/0/0.

DEP #317-476 by Solitude Lake Management for Beaver Lake Club, Beaver Lake Aquatic Management

NOI – Aquatic plant management program to remove invasive and nuisance vegetation with USEPA/MADAR registered herbicides.

Chairman Swett reminded the applicant the Commission was looking for a plan for the past weed control and previously discussed not using algicide.

[Continued to next page]

D. Meringolo emailed N. Croteau a letter stating:

1. Withdrew the use of Copper & Peroxide Algicides
2. Development of a Lake Management Plan
3. Annual Update Meetings and Working with Commission

General discussion between the Commission and D. Meringolo continued about past data collected and what was compiled from that data. Chairman M. Swett felt 3-years was too long to grant this permit if it was approved but possibly allow 1-year. Early June is when the treatment is scheduled to start so the earliest would-be December 2022 when a draft report could be presented.

L. Donn stated he has been overseeing the Lake for the last 18 years, but treatments have been happening for about 20+ years. Continued to state that the consultant doesn't just kill everything but rather treat specific plants and locations. Once the non-native plants are present, they need to be managed.

Vice-Chairman T. Barnes stated the last time Beaver Lake was treated, citizens needed to stay out of the water for a few days and not everyone was notified. Therefore, how does Solitude notify the Beaver Lake citizens? L. Donn stated typically an email is sent to the residents around Beaver Lake and a notice is posted in the newsletter "Beaver Bit" as well as the required postings. D. Meringolo stated that no swimming/boating is just a precaution and there are really no restrictions when the treatments are applied.

J. Prenosil asked D. Meringolo how do you quantify the results from the treatments to determine if there is a net gain or population of invasives are staying the same? D. Meringolo stated a pre and post survey is completed with data collected. J. Prenosil asked if a GPS unit is being use? And continued to ask how does one keep track of invasives? D. Meringolo replied by keeping track of the acreage by a survey. The area surveyed can be increased if needed, not by GPS points. J. Prenosil recommended the survey to be a GPS survey plan. General discussion between the Commission and applicant continued about how the area treated is mapped.

Chairman M. Swett would rather not sign off on something and have nothing be delivered. L. Donn stated a full plan may not be provided until April 2022. Chairman M. Swett asked if the treatment could wait. L. Donn stated the water quality is separate than weed treatment. Beaver Lake Club has tried to interview other consultants but is a slow-moving process. If the treatment doesn't happen in Spring, there could be a large issue later. Chairman M. Swett would like to see a Lake Management Plan. If Beaver Lake Club has years of data, then submit a plan. Discussion continued about milfoil and how it is treated, at the base or surface and how it is treated every year.

J. Prenosil asked if the treatments are making a headway on invasives. D. Meringolo relied, controlled yes but not eliminating. It is more a maintenance mode. J. Prenosil would like to know more where the treatments are – by presenting a plan. Commission is wanting a plan.

General discussion about the other open DEP file numbers on record. N. Croteau asked if L. Donn had any records if they have been closed and if not to please Request a Certificate of Compliance. T. Barnes stated that the data collected will show a trend of the treatments, results and/or progress.

MOTION by Thomas Barnes to continue until the next scheduled meeting. Seconded by Peter Toper, IV. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Peter Toper, IV	Yes	Dennis Cote	Abstain
	Kristin Rosenbeck	Abstain	Vote in Favor to continue 3/0/2.	

DEP #317-478 by Steven Houle, 13 Wildflower Drive

NOI – Reduce steep slopes in yard by filling, loaming, and seeding in buffer zone.

N. Croteau reminded the Commission that the owner, S. Houle, submitted an RDA last year to add fill and the Commission voted not to allow it. MaryAnn DiPinto presented the plans to the Commission. Explained the overall project: wetlands were delineated, there is a culvert under driveway, there are invasive species on site and the homeowner would like to reduce the steep slopes in the yard by filling with loam and topping with seed. Work will be done within the buffer zone.

Vice-Chairman T. Barnes has concerns over the ice dams on Gould Road. M. DiPinto stated this project will not impact that area. There is a culvert further up the road. Chairman M. Swett would like to see a diagram on the plans (sideview of the property). Comments from Chairman M. Swett and J. Prenosil stated the plans are lacking basic information such as: topo, limits of work, erosion control measures, buffer zones and T. Barnes added he would like to have permanent boundary markers along the limits of work/disturbance. This is a buffer zone project. M. DiPinto asked if the owner could do work outside the 100-ft buffer and yes, it is out of the jurisdiction of the Commission.

Conversation continued about how much fill will be brought in and will it affect the abutting properties. M. DiPinto asked if the wetland boundaries can be accepted as shown and J. Prenosil said yes. No further discussion.

MOTION by Thomas Barnes to continue the hearing until next scheduled meeting. Seconded by Kristin Rosenbeck. Discussion: N. Croteau asked if the Commission would like to review DEP comments. M. Stinson said the first comment is really for the subdivision. M. DiPinto stated there will be a buffer strip left except the invasive species and the removal will be done by hand. Chairman M. Swett would like side profiles on the plan and erosion controls.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Dennis Cote	Yes	Kristin Rosenbeck	Yes
	Peter Toper, IV	Yes	All in favor. 5/0/0.	

[Continue to next page]

DEP #317-479 by Brandi Estridge, 67 Old Poor Farm Road

NOI – Restore altered wetland area and create lawn in the buffer zone for children’s play area and chicken coop.

MaryAnn DiPinto presented the project to the Commission. The owner would like to create a lawn area for her children to play. Chairman M. Swett stated the previous owner moved the house, well and septic according to what was approved. B. Estridge bought the house in September and unaware there were wetlands. Chairman M. Swett read DEP Comment #1 and recalled the site had a few restrictions. M. DiPinto delineated the wetlands on site.

J. Prenosil stated the plans were hard to follow (for lack of information) and suggested to have an engineer plan prepared showing the boundary lines, wetland boundaries, before and after topo, etc. But based upon the information provided, cannot quantify amount of wetland fill. General discussion continued about the existing site conditions. There are some alterations, but again, owner was unaware. Chairman M. Swett stated he wants better plans and doesn’t believe the fill in the rear yard will work. B. Estridge asked about the side yard. Chairman M. Swett that may possibly work but present plans showing that. B. Estridge asked if she can plant wild plant seed, and the reply was no, just let it be alone. No further discussion.

MOTION by Thomas Barnes to continue until next scheduled meeting. Seconded by Dennis Cote. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Dennis Cote	Yes	Kristin Rosenbeck	Yes
	Peter Toper, IV	Yes	All in favor.	5/0/0.

DEP #317-463 by Bertin Engineering for Melink Solar LLC (FT Smith)

NOI – Proposed construction of a Large-Scale Ground-Mount Solar Array on Greenwich Rd

MOTION by Thomas Barnes to continue until next scheduled meeting. Seconded by Peter Toper, IV. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Dennis Cote	Yes	Kristin Rosenbeck	Yes
	Peter Toper, IV	Yes	All in favor.	5/0/0.

DEP #317-465 by Bertin Engineering for Melink Solar LLC (Couture)

NOI – Proposed construction of a Large-Scale Ground-Mount Solar Array on Greenwich Rd

MOTION by Thomas Barnes to continue until next scheduled meeting. Seconded by Peter Toper, IV. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Dennis Cote	Yes	Kristin Rosenbeck	Yes
	Peter Toper, IV	Yes	All in favor.	5/0/0.

[Continue to next page]

DEP #317-468 by Bertin Engineering for Melink Solar LLC (*Harde*)

NOI – Proposed construction of a Large-Scale Ground-Mount Solar Array on Osborne Rd

Bill Zinni from Hardwick Conservation asked about the status of the peer review status and a general update. N. Croteau stated there are two different peer review status: 1. Stormwater Drainage and 2. the NOI application. Bertin Engineering responded in May or June with plans and drainage revisions but did not supply a response letter to BSC comment from EcoTec. B. Zinni stated they are in the same boat. B. Zinni stated then there is no reason to schedule a joint site walk at this time.

Vice-Chairman T. Barnes asked about an encroachment on the buffer on the upper part of the solar. Hardwick portion and if Hardwick will be issuing an enforcement. B. Zinni stated it was going to possibly be dealt with within the Order of Conditions and the Commission needs to decide on how much to restore. B. Zinni thought at this point, there would be joint site meeting. There is no intent to issue an Enforcement Order. M. Stinson talked with Hardwick directly regarding this issue.

MOTION by Thomas Barnes to continue until next scheduled meeting. Seconded by Peter Toper, IV. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Dennis Cote	Yes	Kristin Rosenbeck	Yes
	Peter Toper, IV	Yes	All in favor. 5/0/0.	

DEP #317-452 by Ecos Energy, Monson Turnpike Road

NOI – Proposed construction of a Large-Scale Ground-Mount Solar Array – Wetland Crossing

N. Croteau stated David Foulis from DEP is recently retired and David Cameron is taking over the 401 Water Quality review.

MOTION by Thomas Barnes to continue until next scheduled meeting. Seconded by Kristin Rosenbeck. No further discussion.

Roll Call:	Mark Swett	Yes	Thomas Barnes	Yes
	Dennis Cote	Yes	Kristin Rosenbeck	Yes
	Peter Toper, IV	Yes	All in favor. 5/0/0.	

ADMINISTRATION

a. Quarry Street – Recent storm damage

General discussion about the recent rainstorms have caused issues at Quarry Street. S. Beckley there are beaver dams on Fish and Wildlife land which may be the cause but at this time have no intentions of removing them. Options can be discussed with Senator Gobi. If the issues continue to happen then the rubble from the streams and driveway could fill the stream bed. Tighe and Bond did a plan to correct the overall drainage issue in 2006.

[Continue to next page]

Vice-Chairman T. Barnes asked if the town owns the property. If town owns it, then create a low spot and drain to it, the wetland will act like a filter before going into the Ware River. Discussion continued about surrounding houses and how some have already been affected by the rising water level. Possibly make the drain be a small trickle rather than opening a flood gate – controlling the flow of the water. Chairman M. Swett asked if Fish and Wildlife would help. A. Marques suggested to have Tighe and Bond focus on that portion in the study. J. Prenosil asked what will happen to Ms. Anair's property if this keeps flooding, especially her driveway. Ms. Anair personally fixed the driveway. S. Beckley replied to install a riprap but now it is plugged. No further discussion.

DEP #317-162 by Tracie Likaskiewicz for Patricia Likaskiewicz, 2 Ashley Street

Request for Certificate of Compliance for the work regulated by the Order of Conditions has been satisfactorily completed for the installation of a new construction septic system.

J. Prenosil asked for the Commission to table this topic until the September 15, 2021. No further discussion. No vote taken.

b. Approval of Minutes: June 9, July 14, August 11, and August 25, 2021

Topic was tabled.

c. New/Old Projects General Discussion

Marie Lauderdale, 13 Horseshoe Circle – Emergency Tree Removal Request

Marie Lauderdale from 13 Horseshoe Circle would like to discuss a fallen trees on her property – one large pine tree, approx. 60feet, part in the lake and part on soil land, pushing onto her shed and dock – would like this to be considered an emergency removal. The tree fell on August 13, 2021. Until the tree is removed, can't repair shed or dock. Concerned about the safety of the kids and animals. Requesting to move forward to remove the tree prior to filing the RDA application. The RDA application has been started but not yet submitted but would like not to wait another month for a determination. The plan is for the tree removal company to come and remove majority of the tree by hand. Some of the work will require being in a boat and the chainsaws will be using biodegradable oil. Chairman M. Swett stated the application needed to be submitted, place the legal ad, and heard at the next meeting. M. Lauderdale again requested this to be an emergency removal. Chairman M. Swett asked when the tree fell, the reply was August 13th. J. Prenosil stated the tree is indeed down, but could cover the shed and file the application, but since the consultants will be in the water and such, an RDA Application is required. This is more of an inconvenience to the owner rather than an emergency. The shed is twisted off the foundation. The neighbors gave permission for M. Lauderdale to use their driveway during the tree removal process. M. Lauderdale is worried about item inside the shed are beginning to be ruined. Chairman M. Swett said this needs to be heard at the next meeting. General discussion occurred about publication dates and deadlines for the legal ad. M. Lauderdale asked for confirmation that no work can be done until the next meeting. Chairman M. Swett confirmed no work can be done until the RDA application is heard.

[Continue to next page]

N. Croteau suggested a special meeting prior to the next scheduled meeting. The Commission agreed upon August 23rd to hear this application, meeting at 6:00pm, M. Lauderdale confirmed this date will work. No further discussion.

ADJOURNMENT

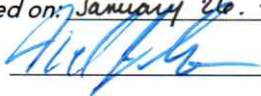

MOTION to adjourn at 9:00pm. All in Favor 5/0/0.

Next regular scheduled meeting is on October 13, 2021.

Minutes from September 08, 2021
