No Financial Report

John updated Commission about a continuing issue of the sidewalk along Pleasant Street sinking in area near the wall. The DPW has been informed. Until the problem can be addressed, it will be monitored and be filled as needed.

Discussion continued on Section O. Craig reported that Stuart confirmed that the Revolving Account cannot be used to defray the cost of surveying and marking Section O. Depending on a cost to do an amount to provide guidance in the future, Craig suggested using the trust. Everyone agrees that this project needs to get done as soon as possible.

A person (Jenny Maloney) has 3 relatives buried in the Memorial Garden where she would like to place temporary granite markers that do not meet the governing rules. There was a discussion regarding the length of time of the temporary markers, design of the markers and installation fee. No consensus was determined on the issues. Roy, based on experience in monuments, volunteered to contact the party with an idea he had to help the family.

Some time was spent discussing changing the rules and regulations. Further discussion will be forthcoming.
