***Benzie County Land Bank***

Back in the day.... The sign consisted of three 4x8 sheets of plywood, all were recovered prior to demolition.

The Infamous Question Mark building, it's about time.

September 2014 the Benzie County Land Bank purchased this tax foreclosure property from the Benzie County Treasurer, Michelle Thompson, for back taxes \$6,448. A request for proposals was immediately drafted and published. The August 14, 2014 deadline came and went so far no one has come forward with a proposal for the site. But the village would like to see it torn down.

Kirby backhoe service was awarded the contract for demolition, \$42,650.

For over a month Vincent Rodriguez and his crew worked to reclaim valuable lumber from the building. If they had had more time they would likely have taken it down to the foundation.

Terry Money **BCLB** member was project manager and chief facilitator of reclamation negotiations.
