

The County Treasurer removed a mobile home before the first foreclosure land sale. The Land Bank accepted it in December from the County Treasurer, after two foreclosure land sales did not sell the property and the local unit refused the transfer of property to them.

A trailer was removed, along with a great deal of debris, and two non-compliant septic systems. The parcel has village water, so no well.

The current investment by the LB at this point is -0-. The County Treasurer incurred all of the cost.
