## TV & mobile apps

### TV apps

Watching Kanopy on Amazon Fire TV  
Watching Kanopy on Android TV and Google TV  
Watching Kanopy on Apple TV and AirPlay  
Watching Kanopy with Chromecast  
Watching Kanopy on Roku  
Watching Kanopy on Samsung TV  
Watching Kanopy on Telstra TV

### Mobile apps

Watching Kanopy on iOS devices  
Watching Kanopy on Android phones and tablets  
Watching Kanopy on Amazon Fire tablets

It will look like this, or this depending on the page you start from.

For instruction on adding the Kanopy app to your devices click on “TV & mobile apps” in the menu bar of “Kanopy Help” and then select the type of device you wish to use. It will bring you to a page with specific directions for that device.

The Kanopy app is available in the Apple App store as well as the Google Play store.

To find a movie:

To search for a film, select **Search** at the top of the Kanopy homepage (on the Kanopy website) or in the bottom navigation bar (on the Kanopy mobile app) and search by title or keyword. Select a suggested search at the top of the results to see related titles. Use filters to further refine your results by genre, language, and whether a film has captions or public performance rights. Filter options will change dynamically with search results (e.g., the "Captions" toggle will only appear if there are films with closed captioning in your search results).

When you see a movie you would like to save for later hover over it, and click add to “My Watchlist.” If you are ready to watch it now, click “See More” and you will go to a page with more information on the movie and the “Watch Now” button.

If you add the movie to your watch list, it will appear under “My Lists” in the “My Watchlist” category. From there you can click on it, view more information and click “Watch Now.” You may also hover over the movie and then click “Remove from My Watchlist” if you are no longer interested.

To continue watching a movie that you did not finish, click on “My Lists” and the “Continue Watching” and then select the movie you are looking for.

## Creating a playlist and adding films

To create a custom playlist:

From the Custom Playlists tab, select Create New Playlist.

Give your playlist a name and click Create New Playlist.

To add films to a playlist:

Open a film's details page.

Select the Playlists tab.

Click add to playlist button next to your custom playlist.

## To share a playlist:

From the Custom Playlists tab, select a playlist.

Select the Share tab.

Select Copy Link to copy a sharable link to this playlist.

## To edit custom playlists:

From Custom Playlist tap click on the 3 dots at the corner of the movie.

Click Edit to edit your playlist, or click Delete to delete it.

While editing a playlist, you can rename the playlist and edit or delete clips.
