HOMEOWNER AFFIDAVIT - I hereby certify the mechanical work described on this permit application shall be installed **by myself in my own home** in which I am living or about to occupy. All work shall be installed in accordance with the State Mechanical Code and **shall not be enclosed, covered up**, or put into operation until it has been **inspected** and **approved** by the Local Mechanical Inspector. I will cooperate with the Local Mechanical Inspector and assume the responsibility to arrange for necessary inspections.

Signature of Homeowner

Date

PLAN REVIEW REQUIRED

Plans must be submitted with an application for plan examination before a permit can be issued as listed below.

Plans are not required for the following:

1. One and two family dwellings when the total building heating/cooling system input rating is 375,000 Btu's or less.
2. Alterations and repair work determined by the mechanical inspector to be of a minor nature.
3. Business, mercantile or storage buildings having HAVC equipment only, with one fire area not more than 3,500 square feet.
4. Work completed by a governmental subdivision or state agency costing less than \$15,000.00.

What is the building size in square footage? _____

What is the input rating of the heating system in the building? _____

Plans are required for all other building types and shall be prepared by or under the direct supervision of an architect or engineer license pursuant to 1980 PA 299 and shall bear the architect's or engineer's seal and signature.

Residential Heating System – This item is used for the installation of a heating system in a **new residential structure**. Gas piping and duct **SHOULD NOT BE CHARGED**. Replacement systems should be itemized.

Residential Boiler - A licensed boiler installer must install a residential boiler.

Tanks – A homeowner must own the tank to install it. If a homeowner does not own the tank, a licensed mechanical contractor must install the tank.
