## **8.2 Micro-Mobility Industry**

Arrange a meeting with the micro-mobility industry players who had requested locations in the City for their vehicles to operate from, as it relates to the way forward and the requirements of the COH. **(CEO/City Secretary)** The CEO/City Secretary said that a meeting had been scheduled with the most of the industry players, in order to ascertain the specific needs.

## **8.3 Angle Street Speed Bump**

Following the community survey, carry out the installation of the speed bumps on Angle Street by the end of 2021. **(COO/City Engineer)** This would be carried out on approval of the new Traffic Calming Policy.

## **8.4 Traffic Calming Policy**

As there were no regulations in Bermuda for creating speed bumps, the COH would write a Speed Bumps Policy. **(COO/City Engineer)** The COO/City Engineer presented a draft Traffic Calming Policy noting that diagrams would be added. It was thought that imperial measurements could be included and the emergency services would include the police. The Mayor noted a contradiction in the first paragraph referring to Dundonald Street which currently had several speed bumps and where there was frequent freight traffic.

## **8.5 Concessions to Encourage Building Project**

Forwarded from the Board Meeting held on 5 October 2022, to compile a list together with criteria, as it relates to potential concessions which the COH could offer to encourage building projects in the City. **(CFO/Acting City Secretary)** The Mayor said that the concessions which could be offered were limited and the COH would not be in a position to alter rates. He suggested that the matter be held over until the spring next year, to consider how the COH could be pro-active in encouraging projects in light of the Government proposal for development of North Hamilton. Perhaps the COH could consider incentives for projects in keeping with the area, at that time.

## **8.6 Demurrage Request**

Forward to the Finance Committee Meeting to be held on 15 December 2022, as it relates to the increase in demurrage charges due to container delays by Customs staffing and scanning issues. The Lease, to be determined by the COO/City Engineer, would be for a period of two (2) years, non-renewable, at an annual rent of \$1,000 and would include a market value comparison. The site would be used as a Fire Training Unit to provide safety training to mariners in emergency procedures and maintain their certifications. The training courses for 12 students would commence on 6 February 2023 until mid-March 2023, on Wednesdays.
