COMMISSIONERS

- 2) **Discussion For Possible Action Regarding Lander County's Group Insurance Program Selection Process & Other Matters Properly Relating Thereto:** Executive Director, Gene

Etcheverry, said the current Insurance Broker, John Carlson, was present and Tim Holland from L/P Insurance. He said Mr. Carlson has been Lander County's Insurance Broker for four years. Mr. Etcheverry said they go out to market each year and they look for two things, the best insurance possible at a minimal increase.

John Carlson, Benefit Intelligence, current Insurance Broker addressed the Board and said there was a 23% rate increase facing the County when he started working for the County. He said he was able to come in the first year and come in at 4% below current. Mr. Etcheverry said the 23% was the renewal rate the County was faced with and the prior year was 17%. Mr. Carlson talked about how they go out to the market place and carriers. He said they have a number of proposals back already and one was from Saint Mary's and discussed how they negotiate. He said their renewal with Anthem was due out in late April. Mr. Carlson also talked about various plans.

Commissioner Garner said he would like the County to look for other services and other carriers. He said the insurance the County has now is so poor that the bread winner can't afford to put their families on the insurance.

Mr. Carlson said it is up to the County to decide what plan they want. He said the affordability is up the County and that goes into the discussions each year. Mr. Carlson also said there are very few carriers out there.

There was discussion about using more than one Broker in the market place. Mr. Carlson was opposed to this idea.

Commissioner Garner asked Mr. Carlson, if the insurance is not so great, why hasn't he asked the County to enhance its insurance. Mr. Carlson said he has, but he doesn't make the final decision he only can provide recommendations. Commissioner Garner said nothing had come before the Commission to enhance or decrease the insurance. Mr. Etcheverry said that doesn't come before the Commission. He said that would be Risk Management, Human Resources and himself. Mr. Etcheverry said they get a narrow spectrum of plans.

There was discussion on whether the employees had complained about the insurance. Commissioner Bullock said that was what the Labor Negotiations was mainly about.

Mr. Carlson said they come in every year with the marketing results that the County has asked them to do. He said if the County wants the insurance enhanced that can be part of the marketing process and if it is a carrier issue they can check into that as well.

Executive Director, Gene Etcheverry, said the way the contracts were negotiated six years ago, was if an employee comes on board prior to July 1, 2006 the dependent coverage is 50%. Finance Director, Rogene Hill, said it was 100% employee and 50% dependent coverage. Ms. Hill said because of the outrageous insurance costs they chose to cover the employee only but would offer dependent coverage at a 100% cost to the employee.

Tim Holland, L/P Insurance Services, Inc., addressed the Board and provided them with an information packet. Mr. Holland reviewed the contents of the packet that provided information on some of the clients they insure, a copy of his license and that of his employer and a brief description of what they do and what they can do for Lander County. Mr. Holland states some of the other services that L/P provides to their clients.

Commissioner Bullock addressed the elected officials on their opinion. Lura Duvall, Assessor, said she would like to see if Mr. Holland could find something better for the County. Sadie Sullivan, Clerk, asked Mr. Holland how often he was in the area. Mr. Holland said he is here every ten to twelve days. He said it is important to make sure their clients are satisfied.

Commissioner Garner moved to direct staff to allow L/P Insurance Services, Tim Holland to price quote for Lander County for the upcoming fiscal year.

Mr. Holland said they would need a letter of authorization to give to Anthem to get the utilization reports. He said they would break down the data and take it out to market.

Commissioner Garner also added to his motion to direct staff for a letter of authorization for L/P Insurance to obtain the requested documentation. Seconded by Commissioner Stienmetz, the motion was voted and carried unanimously. **APPROVED**

William Schaeffer, Attorney at Law, addressed the Board and discussed what the County has been spending in previous year. Mr. Schaeffer said he felt he could save the County some money although it is not a guarantee. He said it would also give criminal defendants legal service locally.

James Barnes, Deputy District Attorney, said we have our Public Defender who is Mr. Herrera and he represents the entire County. Mr. Barnes said there are also some civil matters where other attorneys are appointed, usually Mr. Forgeron. He said if there are cases where Mr. Herrera or Mr. Forgeron would have a conflict of interest, they would not be able to handle those cases and they would have to be given to another attorney.

Mr. Schaeffer gave some examples of when his services would be useful. There was discussion on the County spending \$30,000.00 last year for attorneys on conflict cases. Mr. Schaeffer said he is proposing to do it for \$27,000.00.

Commissioner Garner asked if this was just a baseline at the \$27,000.00. Judge Max Bunch said it could be higher if you have a capital case. It was stated that Mr. Schaeffer would not charge more than the \$27,000.00. Mr. Schaeffer said he put a 30 day out in the contract in case this doesn't work out or if he was to be elected as Justice of the Peace in Austin. Judge Bunch explained the process of appointing attorneys and let the

Board know that there could be other money spent if Mr. Schaeffer was not able to take the case. It was also discussed that the money for this service would not be extra money spent.

Etcheverry, said the current Insurance Broker, John Carlson, was present and Tim Holland from L/P Insurance. He said Mr. Carlson has been Lander County's Insurance Broker for four years. Mr. Etcheverry said they go out to market each year and they look for two things, the best insurance possible at a minimal increase.

John Carlson, Benefit Intelligence, current Insurance Broker addressed the Board and said there was a 23% rate increase facing the County when he started working for the County. He said he was able to come in the first year and come in at 4% below current. Mr. Etcheverry said the 23% was the renewal rate the County was faced with and the prior year was 17%. Mr. Carlson talked about how they go out to the market place and carriers. He said they have a number of proposals back already and one was from Saint Mary's and discussed how they negotiate. He said their renewal with Anthem was due out in late April. Mr. Carlson also talked about various plans.

Commissioner Garner said he would like the County to look for other services and other carriers. He said the insurance the County has now is so poor that the bread winner can't afford to put their families on the insurance.

Mr. Carlson said it is up to the County to decide what plan they want. He said the affordability is up the County and that goes into the discussions each year. Mr. Carlson also said there are very few carriers out there.

There was discussion about using more than one Broker in the market place. Mr. Carlson was opposed to this idea.

Commissioner Garner asked Mr. Carlson, if the insurance is not so great, why hasn't he asked the County to enhance its insurance. Mr. Carlson said he has, but he doesn't make the final decision he only can provide recommendations. Commissioner Garner said nothing had come before the Commission to enhance or decrease the insurance. Mr. Etcheverry said that doesn't come before the Commission. He said that would be Risk Management, Human Resources and himself. Mr. Etcheverry said they get a narrow spectrum of plans.

There was discussion on whether the employees had complained about the insurance. Commissioner Bullock said that was what the Labor Negotiations was mainly about.

Mr. Carlson said they come in every year with the marketing results that the County has asked them to do. He said if the County wants the insurance enhanced that can be part of the marketing process and if it is a carrier issue they can check into that as well.

Executive Director, Gene Etcheverry, said the way the contracts were negotiated six years ago, was if an employee comes on board prior to July 1, 2006 the dependent coverage is 50%. Finance Director, Rogene Hill, said it was 100% employee and 50% dependent coverage. Ms. Hill said because of the outrageous insurance costs they chose to cover the employee only but would offer dependent coverage at a 100% cost to the employee.

Tim Holland, L/P Insurance Services, Inc., addressed the Board and provided them with an information packet. Mr. Holland reviewed the contents of the packet that provided information on some of the clients they insure, a copy of his license and that of his employer and a brief description of what they do and what they can do for Lander County. Mr. Holland states some of the other services that L/P provides to their clients.

Commissioner Bullock addressed the elected officials on their opinion. Lura Duval, Assessor, said she would like to see if Mr. Holland could find something better for the County. Sadie Sullivan, Clerk, asked Mr. Holland how often he was in the area. Mr. Holland said he is here every ten to twelve days. He said it is important to make sure their clients are satisfied.

Commissioner Garner moved to direct staff to allow L/P Insurance Services, Tim Holland to price quote for Lander County for the upcoming fiscal year.

Mr. Holland said they would need a letter of authorization to give to Anthem to get the utilization reports. He said they would break down the data and take it out to market.

Commissioner Garner also added to his motion to direct staff for a letter of authorization for L/P Insurance to obtain the requested documentation. Seconded by Commissioner Stenmetz, the motion was voted and carried unanimously. **APPROVED**
