

A collage of transportation infrastructure images. On the left, a silver and gold bus is shown from a front-three-quarter angle. In the center, a blue pickup truck is driving on a road. To the right, a multi-lane highway bridge curves through a forested area. The background features a sunset or sunrise over water with palm trees in the foreground.

# Rural Interstate Freight Network Mobility Improvement Program

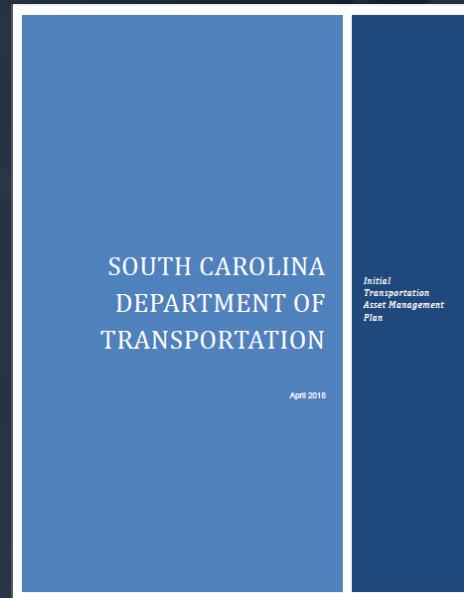

# Asset & Performance Management

- Transportation Asset Management Plan (TAMP)

# Asset & Performance Management

## Transportation Asset Management Plan (TAMP)

- TAMP Purpose –Provide a clear and transparent direction in managing the State's assets.
- Ties a planned investment level to a predicted outcome.
- Major shift in thinking – The ranking process does not drive our strategic priorities, but rather the strategic priorities drive the ranking process.
- Essential to earning the public's trust.
