In the event that the sale fails to close by November 27, 2017, this Amended MDA shall be of no further force or effect.

3. **Effect of Amended MDA**. This Amended MDA shall be the sole agreement between the parties related to the development of the Project except as it may be modified by agreement of the parties, which it is anticipated will occur after the process is completed of further amending the provisions of the JB Zone and the submission and approval of a large scale master plan for the Project as revised from what was approved by the Original MDA (excluding any separate agreements relating to development incentives). Master Developer and the City further acknowledge and agree that the current Project will be different in several important respects from what was contemplated by the Original MDA and therefore agree to cooperate in good faith to address the issues arising from those changes as part of the process described herein

including, but not limited to, clarifying and confirming the intent of §3.4 of the Original MDA that the construction and conveyance of Bingham Junction Boulevard may be done in phases, the conveyance and preservation of open space, the initiation of construction on the Cap, road realignments and the installation of utilities.

4.1 **Project Development.** Development of the Project shall be in accordance with the JB Zone to include specific development standards, the Design Guidelines, the Concept Plan, and this Amended MDA.

4.2 **Adoption of Project Guidelines.** The parties understand and acknowledge that the JB Zone, as amended as contemplated herein, currently contains intent statements regarding issues such as including, but not limited to, location of buildings, setbacks, lot coverage, building orientation, landscaping and other design features. The parties further understand that more specific, detailed standards addressing those issues will, pursuant to the JB Zone, need to be adopted in the future and shall apply to all applications for development as part of the Project. The adoption process of these specific, detailed standards shall require review and approval by the Council in the independent exercise of their legislative discretion following all required notice and public hearings before the Planning Commission and Council.

4.3 **Approval Processes.** Development approval of the Project shall follow the applicable review processes as set forth in the JB Zone and Section 17-3 of the Midvale Municipal Code and the Original MDA.

5. 4.4 **Project Fees.** The parties acknowledge that the City does not currently charge impact fees. The parties further acknowledge and agree that in the event the City adopts impact fees at any time in the future the Project is entitled to a credit, because Master Developer will be

providing the facilities necessary to service the propose Development under the terms of this Amended MDA, which might otherwise be financed by other means, and therefore no impact fees will be assessed in connection with future development approval for the Project. The City retains the right to assess all other fees which are chargeable by the City on all similar developments.

**Zoning, Vested Rights and Reserved Legislative Powers.**

5.1. **Design Guidelines and Concept Plan.** The City has approved the Zoning for the uses and density within the Project, the Concept Plan, and the Design Guidelines for the Project as a whole.

5.2. **Vested Rights Granted by Approval of this Amended MDA.** To the maximum extent permissible under the laws of Utah and the United States and at equity, the City and Master Developer intend that this Amended MDA grants Master Developer the right to develop and construct the Project consistent with the uses and density as provided in the JB Zone and this Amended MDA, including the Concept Plan and Design Guidelines, subject to compliance with the more detailed development standards of the JB Zone to be adopted in the future as set forth in §4.2 above. The Parties intend that the rights granted to Master Developer under this Amended MDA are contractual and also those rights that exist under statute, common law and at equity. The parties specifically intend that the JB Zone, this Amended MDA, and the Concept Plan, grant to Master Developer “vested rights” as that term is construed in Utah’s common law and pursuant to Utah Code Ann. § 10-9a-509. To the extent that any such conditions subsequent are not performed then vested rights shall be deemed to have lapsed. In the event that no substantial construction has been initiated as part of the Project within five (5) years of the date of this Amended MDA, absent any extensions by further agreement of the parties, then in that event this Amended MDA shall be automatically terminated.

5.3. **Reserved Legislative Powers.** Subject to the provisions of §4.2 above and consistent with the provisions of §6.2 of the Original MDA, Master Developer and the City acknowledge that any exception to the vested rights as set forth above must meet the compelling, countervailing public interest standard set forth in Utah Code Ann. §10-9a-509.

6. **Term of Agreement.** The term of this Amended MDA shall be until December 31, 2042. This Amended MDA shall also terminate automatically at Buildout.

7. **Tax Benefits.** The City acknowledges that Master Developer may seek and qualify for certain tax benefits by reason of conveying, dedicating, gifting, granting or transferring portions of the Property to the City or to a charitable organization for open space. Master Developer shall have the sole responsibility to claim and qualify for any tax benefits sought by Master Developer by reason of the foregoing. The City shall reasonably cooperate with Master Developer to the maximum extent allowable under law to allow Master Developer to take advantage of any such tax benefits.

8. **City Obligations for Improvements.** In connection with the Project, the City agrees that it will perform the following obligations:

8.1. **Utilities.** The City shall permit Master Developer and each Subdeveloper to connect to the City's utility lines, including, without limitation, water, sewer and storm drain. The City will supply, or cause to be supplied, to the Project, water in the amounts necessary to permit the Project to be used for the purposes set forth in this Amended MDA.

9. **Upsizing/Reimbursements to Master Developer.** The City shall not require Master Developer to "upsized" any future Public Infrastructure (i.e., to construct the infrastructure to a size larger than required to service the Project) unless financial arrangements reasonably acceptable to Master Developer are made to compensate Master Developer for the incremental or additive costs of such upsizing. For example, if an upsized to a water pipe size increases costs by

10% but adds 50% more capacity, the City shall only be responsible to compensate Master Developer for the 10% cost increase. Acceptable financial arrangements for upsizing of improvements include reimbursement agreements, payback agreements, pioneering agreements, and impact fee credits and reimbursements.

10. **Consent Decree.** In connection with the Project, Master Developer and each Subdeveloper, as applicable shall be required to comply with (a) the “Institutional Controls” set forth in Chapter 8.10 of the Midvale City Municipal Code, and (b) the Site Management Plan Former Sharon Steel Superfund Site Operable Unit 1, Midvale, Utah, dated May 19, 2017

Each Additional Development Agreement shall be entered into only after a Subdeveloper or Related Developer has obtained all approvals required by this Agreement
