

**MIDVALE CITY, UTAH
RESOLUTION NO. 2022-R-16**

**A RESOLUTION AUTHORIZING THE MAYOR TO SIGN TASK
ORDER #141.47.100 WITH HANSEN, ALLEN & LUCE FOR THE DESIGN
AND CONSTRUCTION MANAGEMENT SERVICES FOR THE
2022 PIPELINE REPLACEMENT PROJECT**

WHEREAS, Midvale City has budgeted funds from the Public Utilities Enterprise Fund each fiscal year for projects related to the improvement of the City’s water system; and

WHEREAS, the City wishes to continue to improve its water system by upgrading and replacing old and undersized water distribution lines; and

WHEREAS, the City has selected Hansen, Allen & Luce, Inc.(HAL) for its water consultant who have, with input from City staff, identified several waterline projects that need to be done; and

WHEREAS, the City has requested HAL prepare a task order for the design and construction management of these projects; and

WHEREAS, this fee will be covered by those budgeted funds.

NOW THEREFORE BE IT RESOLVED, that based on the foregoing, the Midvale City Council adopts this resolution authorizing the Mayor to sign Task Order #141.47.100 with Hansen, Allen, & Luce, Inc. for the design and construction management services for the Center Street & High Tech Drive Pipeline Replacement Project.

APPROVED AND ADOPTED this 19th day of April 2022.

Marcus Stevenson, Mayor

2022 PIPELINES REPLACEMENT BACKGROUND AND SCOPE OF WORK

BACKGROUND

Midvale City has proposed improvements to its existing public drinking water system. This project includes replacement of smaller than 8-inch diameter water lines within the City with new 8-inch diameter pipelines, or replacement of older pipelines which have experienced significant repairs in the past. These projects are part of the overall operation and maintenance plan for the City to replace older and/or undersized pipelines. The proposed improvements include:

1. An 8-inch diameter pipeline in Center Street from East of UTA TRAX property to a connection in State Street,
2. An 8-inch diameter pipeline in High Tech Drive from 7200 South to the northern boundary of Midvale City.

The City has requested that HAL assist the City in providing design services only at this time for the above referenced pipelines.

SCOPE OF WORK

The suggested scope of work for assisting the City in accomplishing this project is outlined by Task and Subtask below.

Task 100 DESIGN OF PIPELINE

- 101 Hold a project kickoff meeting with Midvale City.
- 102 Perform utility research and prepare base mapping.
- 103 Perform a field survey.
- 104 Prepare the design of the pipeline
- 105 Have design review meetings with the City at the 50%, and 90% level of design.
- 106 Prepare bidding documents & specifications and submit the documents and design drawings to the City for review and comment.
- 107 Perform a Plan-in-Hand Review of the design drawings.
- 108 Make final revisions and print documents.
- 109 Prepare a construction cost estimate.
- 110 Coordinate with UTA if required for connection in UTA right-of-ways.
- 111 Submit documents to Division of Drinking Water for review and comment (since this project is a pipeline replacement project, documents are not required to be submitted to the Division of Drinking Water).
- 112 Prepare the Storm Water Pollution Prevention Plan
- 113 Perform Quality Control / Quality Assurance (QA/QC)

Task 200 CONSTRUCTION MANAGEMENT, SERVICES DURING CONSTRUCTION

- 201 Solicit bids from pre-qualified contractors.
- 202 Distribute bidding documents to potential bidders.
