What's Happening to My Home Value?! A Panel on the Trend of Rising Home Values and Ties to Property Taxes and Governance
- As elected leaders are well aware, residents across the state are reaching out with a variety of concerns and complaints related to increasing home valuations. But what do these valuations actually represent? What drives these valuation changes and does a property value increase necessarily translate to a tax increase? Are these trends unique to your county? How do these valuations interplay with a resident's property tax bill and what are some possible legislative solutions to smooth these effects? This panel will explore these questions and more with issue expert presentations from the Minnesota Association of Assessing Officers as well as the Department of Revenue.
