## PLAN REQUIREMENTS

The Plan Requirements include the following:

1) **Outreach Efforts:** Provide for reasonable public notice, appraisal, examination, and comment on the activities proposed for the use of CDBG Disaster Recovery funds. These efforts shall:

   - Provide for and encourage citizen participation, particularly by low- and moderate-income persons who reside in slum or blighted areas, and areas in which CDBG-DR funds are proposed to be used
   - Ensure that citizens will be given reasonable and timely access to local meetings, information, and records relating to an entity's proposed and actual use of CDBG-DR funds
   - Furnish citizens information, including, but not limited to:
     - The amount of CDBG-DR funds expected to be made available;
     - The range of activities that may be undertaken with the CDBG-DR funds;
     - The estimated amount of the CDBG-DR funds proposed to be used for activities that will meet the national objective of benefit to low- and moderate-income persons; and
     - If applicable, the proposed CDBG-DR activities likely to result in displacement and the entity's anti-displacement and relocation plan.
   - Provide citizens with reasonable advanced notice of, and opportunity to comment on, proposed activities in an application to the state and, for grants already made, activities which are proposed to be added, deleted, or substantially changed from the entity's application to the state. "Substantially changed" means changes made in terms of purpose, scope, location, or beneficiaries as defined by criteria established by the state.
   - These outreach efforts may be accomplished through one or more of the following methods:
     - Publication of notice in a local newspaper (a published newspaper article may also be used, so long as it provides sufficient information regarding program activities and relevant dates);
     - Notices prominently posted in public buildings and distributed to local public housing authorities and other interested community groups;

- Posting of notice on the local entity website (if available);
- Public hearing; or
- Individual notice to eligible cities and other entities as applicable using one or more of the following methods:
  - Certified mail
  - Electronic mail or fax
  - First-Class (regular) Mail
  - Personal delivery (e.g., at a council of governments [COG] meeting)

Along with the application, the applicant must submit **any notices of public hearings** that the applicant may have that relate to the administration of 2016 Texas Flood CDBG-DR funds that are provided to the applicant.

2) **Complaint Procedures:** The applicant/recipient must have written citizen complaint procedures that provide a timely written response (within 15 working days) to complaints and grievances. Citizens must be made aware of the location and the days and hours when the location is open for business so they may obtain a copy of these written procedures.

3) **Technical Assistance:** When requested, the applicant/recipient shall provide technical assistance to groups representative of persons of low and moderate income in developing proposals for the use of CDBG-DR funds. The level and type of assistance shall be determined by the applicant/recipient based upon the specific needs of the community's residents.

4) **Public Hearing Provisions:** For each public hearing scheduled and conducted by a CDBG-DR applicant or recipient, the following public hearing provisions shall be observed:

- Public notice of any hearings must be published at least seventy-two (72) hours prior to the scheduled hearing. The public notice must be published in a local newspaper. Each public notice MUST include the DATE, TIME, LOCATION, and TOPICS to be considered at the public hearing. A published newspaper article may also be used to meet this requirement so long as it meets all content and timing requirements. Notices should also be prominently posted in public buildings and distributed to local public housing authorities and other interested community groups.

- Each public hearing shall be held at a time and location convenient to potential or actual beneficiaries, and will include accommodation for persons with disabilities. Persons with disabilities must be able to attend the hearings, and an applicant must make arrangements for individuals who require auxiliary aids or services if contacted at least two days prior to each hearing.

- When a significant number of non-English speaking residents can be reasonably expected to participate in a public hearing, an interpreter will be present to accommodate the needs of the non-English speaking residents.

- Applicants may conduct a public hearing via webinar if they also follow the provisions in the Outreach Efforts section above. If the webinar is used to conduct a public hearing, a physical location with associated reasonable accommodations must be made available for citizens to participate to ensure that those individuals without necessary technology are able to participate.

## CITIZEN PARTICIPATION REQUIREMENTS

The applicant must also comply with the following citizen participation requirements in the event that the applicant receives funding from the CDBG-DR program:

1) The locality is highly encouraged to hold a public hearing concerning any substantial change (as determined by GLO-CDR) proposed to be made in the use of CDBG-DR funds from one eligible activity to another.

2) Upon completion of community development program activities, the locality is encouraged to hold a public hearing to review the recovery program's performance, including the actual use of CDBG-DR funds.

3) If applicable, the locality must retain documentation of the hearing notice(s), attendance lists, minutes of the hearing(s), and any other records concerning the actual use of funds for a period of three years after the state closeout of the grant with HUD, 24 CFR 570.490. Additionally, such records must be made available to the public in accordance with Government Code Title 5. Open Government; Ethics Subtitle A. Open Government Chapter 552 Public Information.

The application must include the submission all notices of any public hearings or requests for public comment the applicant may have that relates to the administration of 2016 Texas Floods CDBG-DR funds that are provided to the applicant. The applicant certifies compliance with these Citizen Participation Plan requirements by signing Form 424.

The Civil Rights Coordinator (or his designee) will conduct an investigation of the complaint to determine its validity. This investigation may be informal, but it must be thorough, affording all interested persons an opportunity to submit evidence relevant to the complaint. The Civil Rights Coordinator will maintain the files and records of Montgomery County relating to such grievances.

The Civil Rights Coordinator will issue a written decision on the grievance no later than 30 days after its filing.

The grievant may appeal the decision of the Civil Rights Coordinator by filing an appeal in writing to the Commissioner's Court within 15 days of receiving the Civil Rights Coordinator's decision.

If the grievance is based on a disability, Montgomery County will make appropriate arrangements to assure that persons with disabilities can participate in or make use of this grievance process on the same basis as persons who do not have disabilities. Such arrangements may include, but not be limited to, the provisions of interpreters for the deaf, providing taped cassettes for the blind, or assuring a barrier-free location for the proceedings. The civil rights coordinator will be responsible for providing such arrangements.

Posting of the Title VI rights, obligations and where to get the complaint forms will be posted in the County's buildings, on the County's website and will be published yearly in the newspaper of general circulation in the county.

Any grievant who wishes to file a State or Federal complaint having to do with discrimination involving State or Federal funded services, activities or program should contact the Civil Rights Coordinator to ascertain the appropriate State or Federal funding source to which such complaints may be filed.

# Montgomery County Homeless Coalition Meeting

5-18-17

Agenda

Two disasters in 2016 – April/May Floods (DR 4269/4272)

4622 Residents registered with FEMA (duplicated number)

April – 1845 May – 2777

Possibly eligible Owners from both storms: 2215, Unmet need for LMI Owners is approximately $5.6m

Grant for $22m from GLO to assist LMI, Elderly, Disabled, Minorities

- Options include: Drainage, culverts, elevation, home repair, buyouts, infrastructure, boats, emergency equipment…

Hardest hit areas according to FEMA – Magnolia, Spring (TL/TR), Patton Village, Porter, and Conroe

VOA - Drainage @ TL/TR

| Which groups should receive priority? | Flooded Both times |
|---|---|
| Non-insured | Elderly |
| Disabled | Families with Children under 5 years old |
| Homes with the worst damage | Owners |
| Renters | Minorities |
| Other | LMI who are NOT Elderly/Disabled/with young children |

Do we assist homes, businesses or both?

When it comes to drainage, keep in mind the rate of development in the county. The county does not zone, only the city does.

✓ Discuss partial repairs such as only doing roofs, or floors, or sheetrock or septic systems, etc.

Is it okay to make a home "habitable" or decent, safe and sanitary?

Should we cap the amount of assistance for home repairs at a certain number?

Should we help neighborhoods with the lowest income first?

Should we help neighborhoods with the highest damage first?

Who are the "neediest" groups of people? Why?

LB Disabled - Limited Mobility
Elderly - Not resilient
Sm. Children
TRi - 50% "plain poor" 50% drainage

SA - $ first
% Rescue Equip 3-5%
? - ↑ % of $ in ↓ inc. area's

# Verbal Comments during CDBG-DR Public Hearing
# 11.28.2017
# Lone Star Convention Center

**Attendees-**
Commissioner Jim Clark-Montgomery County
Joanne Ducharme-Montgomery County
Rebecca Ansley-Montgomery County
Autumn Haley-Montgomery County
Wendy Dow-Montgomery County
Mireya Sanchez- Montgomery County

Approximately 45 residents from affected areas attended and we had an interpreter on staff to effectively communicate.

Meeting came to order at 7:00 pm

Welcome by Joanne Ducharme- Gave brief PowerPoint summary of grant opportunities for Home Buyout program and stated that no one will be forced out of their homes and it is completely voluntary. Then Dr. Ducharme started with the rules and stats. 4622 homes were flooded in 2016. 706 Major Damage-several feet of water. 357 are low income; those are the people we want to help using grant funds. Priorities are families whose homes were located in the Flood Way and also if possible, people in the Flood Plain. It is estimated to only be able to buy out 60 houses, which means there are more houses that need buyout than what funds are available. To be eligible, damage has to be more than half of what house was worth BEFORE the storm. Income is less than $57,200 for homes with 4 or less persons in home. Possible to be able to assist with income of up to $85,800. House must be in Flood Way or Flood Plain. Damage must have occurred in 2016. Additional hurricane Harvey damage is acceptable but damage must include 2016 Flood as well. Client must own the home and must have been living in it at the time of the storm. Priorities for selection were explained; Home must have been located in Flood Way, Home must have been purchased prior to flood dates and must have not been insured. Resident must live in River Oaks, River Plantation, Mosswood, Timerlakes, Timberidge, Patton Village, Woodloch, Whispering Oaks, and Magnolia Bend. These are priority neighborhoods, but not the only ones that will be assisted. Process/Steps explained. Congress gave money to State, State wrote a plan, and State told County to do a MOD based on Housing/Infrastructure Split. Application is due January 3, 2018. No time frame for Contract between County and General Land Office (GLO). County will hire staff and organize program. Next, applications from residents will be accepted, and estimated time frame is Summer 2018. Applications will be reviewed and ranked according to priorities stated above. Resident will receive an offer letter stating when homeowner will be able to receive funding for home. This process could take up to 2 years.

Joanne asked for general questions before Public Comment.

1. Does this buyout program was for houses or mobile homes, because the mobile home was swept away.

    **There still needs to be some remnant of the home. Electric bill would suffice, proving that there was a residence there prior to storm.**

2. If home was destroyed, would buyout only include land purchase and not the home value as well?

**Rules have not been established so we don't have an answer for that yet.**

3. If she owned the mobile home, but rented the lot, will she qualify even if home was washed away?

**No she would not qualify.**

4. Will they know how much the buyout will be prior to deciding and will decision be based on appraisal district records?

**Yes they will have a buyout amount but the decision will be based on County hiring an independent appraiser and will not be based on Appraisal District numbers.**

5. If house was substantially damaged, should she fix home and then sell or wait until buyout offer is revealed to decide?

**That is up to the homeowner and it is suggested that decision be be based on if the home was more than 50% damaged.**

Joanne stated that once buyout is complete, the land becomes green space and no buildings will ever be constructed on that property.

If there is a tie in prioritizing clients, the decision will go to the household with less income based on per person count in home.

There were multiple questions about how the Buyout Program works. Staff explained as much as possible without having concrete rules in place yet.

## PUBLIC COMMENT

Community Development made a Statement to remember to SAVE RECEIPTS in order to be reimbursed at a later date.

There were general complaints about how slow the program takes to help those affected by these natural disasters.

**There are many steps in setting up these assistance programs. The State has to write an Action Plan and get it approved by HUD. Then the Counties have to do a Method of Distribution and get it approved by the State. Then the county has to apply for the funds and get program plans approved by the State, followed by contracts. Then the county has to hire and set up the program, take applications from residents, determine eligibility and then conduct the buyouts. Each step of the way requires extensive time for citizens to comment.**

There are issues with FEMA versus Insurance companies; each claiming to be secondary in paying out for damages.

**FEMA is always secondary to Insurance.**

Several complaints regarding how long it takes to get the 1316 list published.

> **There are multiple steps in the process of formalizing a 1316 list. The key is to get permitted for any proposed rehab work and avoid that process all together.**

Clarification on FEMA payout.

> **Money not spent on home repair will be deducted from buyout total. Proof of receipts and/or bank statements based on purchases with FEMA money is on a case by case basis.**

Last year, the damages were assessed quicker than this year; so far, no one has come to determine damages.

> **This grant is specifically for floods from last year. However, Harvey assessments are taking longer because there was about five times as much damage.**

## INSTRUCCIONES

1. Esta solicitud es para actividades inmobiliarias.
Todas las actividades deben comprobar, con documentación, que fueron afectadas por las siguientes declaraciones de desastre durante 2016; DR-4266, DR-4269, y/o DR-4272. Los fondos de La Beca para el Desarrollo Comunitario (CDBG-DR) deben ser utilizados para gastos relacionados con el desastre en las zonas más impactadas y afectadas. Una actividad en marcha antes de la declaración de desastre Presidencial no calificara al menos que el desastre haya impactado el proyecto.

Todas las actividades elegibles deben relacionarse directamente con las declaraciones de desastre en el 2016; DR-4266, DR-4269, y/o DR-4272 a través de daños reales directos y permitidos bajo el Plan de Recuperación de Desastres del Estado de Texas.

2. Instamos a los solicitantes a desarrollar sus proyectos de recuperación comunitaria en manera de que considera un enfoque integrado hacia las viviendas, obligaciones de vivienda justa, revitalización económica, y recuperación comunitaria general. Los solicitantes también deben documentar cómo el uso de estos fondos trataran la recuperación a largo plazo.

3.Para información detallada sobre las instrucciones para la solicitud, ver La Guia de Proyecto de Vivienda Desarrollo y Revitalizacion Comunitaria (CDR).

## INFORMACIÓN DEL PROYECTO

## DESCRIPCIÓN DE LAS NECESIDADES EXPRESADAS EN ESTA SOLICITUD

Proveer respuestas completas a cada una de las preguntas a continuación. Las descripciones deben incluir la causa de los danos, la condición actual de la actividad, y una descripción detallada del proyecto que coincide con la información de las Tablas 1 y 2.

Todas las actividades deben tener comprobante documentada del impacto por las inundaciones y las tormentas. Los fondos CDBG-DR deben ser utilizados para los gastos en las zonas más afectadas por desastres.

1.Describe la inundación específica y condición relacionada con una tormenta que causó daños directos:
El Condado de Montgomery vivió inundaciones profundas en abril y mayo del 2016. Aguas crecientes, no vientos, causaron daños directos a varias viviendas en el condado, pero los daños más extensos fueron hacia el oeste y el sur del condado. Más de 4600 viviendas sobre aliviaderos de crecidas y zonas inundables, así como cientas de viviendas que jamás se habían inundado posteriormente, o solo se habían inundado una vez durante las inundaciones épicas del 1994, fueron inundadas con varias pulgadas y hasta varios pies de aguas turbias.

2. Describe los efectos sobre la comunidad por los daños directos.
Las inundaciones extensas dañaron calles, puentes, escuelas, negocios y vehículos junto con viviendas. Los desagües fueron sobrecargados, erosionados y bloqueados. La habitabilidad fue impactada negativamente en las comunidades a través del condado, y algunas empresas y negocios sin posibilidades de volver a operar, resultando en una pérdida de servicios y de empleos. En por lo menos dos casos, pueblos pequeños fueron inundados en su totalidad por varios pies de agua, previniendo el regreso a su hogar después de la inundación de casi 100% de los residentes. A través del condado, los residentes sufren por inundaciones repetitivas desde el 2015. Los daños pueden ser categorizados por pies de agua en los hogares, no pulgadas. La infraestructura crítica fallo, desagües existentes fueron inadecuados para manejar el volumen del agua, y los protocolos resultaron obsoletos ante un desastre tan extendido.

3. Describa cómo las actividades propuestas abordan los daños afectados por las inundaciones y tormentas:
La compra/adquisición de viviendas que han sido dañadas reiteradamente en eventos de inundación a lo largo de los años, incluyendo inundaciones de abril / mayo de 2016, permitirá que la tierra regrese a un estado verde y recuperar su capacidad de absorber y frenar las aguas de inundación, lo que ayuda a mitigar el daño de inundación a las estructuras restantes en el futuro. Reuniones con el NAACP local, el Grupo de Equidad de Vivienda y otros indicaron más interés en mejorar el drenaje para mitigar los daños futuros a la vivienda que en la reparación de la vivienda actual. Los aportes de estos grupos llevaron al condado a reservar el 40% de los fondos para la compra de viviendas y el 60% de los fondos para el drenaje en los barrios residenciales. Ambos programas mejorarán el drenaje, pero las compras también mitigarán el tizón y otros peligros.

4. Enumere los materiales sometidos como condiciones relacionadas con la tormenta:

Mapa que muestra las áreas de inundación por gravedad, superpuestas por áreas de LMI (ingresos bajos a moderados) (ingresos bajos a moderados) y Minoría, 65% y 51% Hoja de cálculo que muestra la lista de posibles direcciones de compra/adquisición (nombres redactados).

Lista de casas con daños sustanciales
1316 Lista para el Condado de Montgomery.

5. Describa el proyecto propuesto:

El Condado de Montgomery propone utilizar estos fondos para realizar compras de viviendas que se han inundado repetidamente. Al menos el 70% de los fondos se utilizarán para realizar compras/adquisiciones de viviendas propiedad de residentes de ingresos bajos / o moderados. Se PUEDE usar hasta el 30% de los fondos para realizar compras de viviendas propiedad de residentes que superen el 80% del Ingreso Medio del Área pero menos del 120% del AMI (Ingreso Medio del Área). Debido a la gran cantidad de casas inundadas y solicitudes de compra, el Condado ha priorizado lo siguiente: 1) casas de bajos ingresos en el aliviadero de crecidas, 2) casas de bajos ingresos en la llanura de inundación, 3) residentes por encima del 80% de AMI en aliviadero de crecidas, 4) residentes por encima del 80% de AMI en llanura de inundación. Los fondos se priorizarán para las víctimas de inundaciones sin seguro, que eran propietarios ocupantes en el momento de la inundación. Si bien ningún vecindario específico está dirigido a la exclusión de los residentes que vivieron en otros lugares, la calificación toma en cuenta a aquellos que viven en "vecindarios prioritarios" específicos al otorgar puntos a esas direcciones. Vecindarios identificados como prioridad son; River Oaks, River Plantation, Mosswood, Timber Lakes (al oeste de Timber Lakes Drive), Timber Ridge, Patton Village, Woodloch, Whispering Oaks y Magnolia Bend. Debido a la gran cantidad de unidades inundadas ocupadas por sus propietarios, el Condado no anticipa la necesidad de comprar unidades alquiladas.

PROCESO PARA IDENTIFICAR BENEFICIARIOS POTENCIALES

El Departamento comenzó con una lista de 4622 informes de daños del Análisis de Pérdidas Verificadas de FEMA. Esta lista se ordenó por evaluacion de $$ de pérdida, de mayor a menor, y la lista se truncó a un mínimo de $ 15,000 en pérdida estimada, dejando 706 con estimaciones de pérdida verificadas más altas. Esta lista fue seleccionada por 1316, duplicados, antiguos beneficiarios de Ike, inquilinos y personas en la Lista de Compra de la Junta de Desarrollo del Agua, lo que la llevó a 391 posibles candidatos de compra. Luego, la lista se ordenó por tamaño de hogar e ingresos, con los residentes de ingresos extremadamente bajos en la parte superior de la lista y truncando a los residentes con ingresos excesivos (a los que se accederá después de que a todos los residentes de bajos ingresos se les hayan ofrecido compras). Esto redujo la lista a 357 víctimas de inundaciones de LMI (ingresos bajos a moderados). El 43% de esta lista son residentes de ingresos extremadamente bajos. 27% son residentes de muy bajos ingresos. El 30% son residentes de bajos ingresos.

Las direcciones de las 357 víctimas de inundaciones de LMI (ingresos bajos a moderados) se trazaron en un mapa que muestra los aliviaderos de inundación y las llanuras de inundación en todo el condado. 90 de las casas ocupadas por sus propietarios de LMI (ingresos bajos a moderados) se encuentran en los aliviaderos de inundación (37 ELI, 28 VLI y 25 LMI (ingresos bajos a moderados)). 194 de las casas ocupadas por sus propietarios de LMI (ingresos bajos a moderados) se encuentran en la llanura de inundación. Las 73 casas inundadas de LMI (ingresos bajos a moderados) restantes se encuentran fuera de la llanura de inundación.

El Departamento ya tiene una lista voluntaria de 110 propietarios que han llamado para solicitar compras, sin embargo, el condado también planea realizar actividades de divulgación. Se enviarán cartas al Grupo 1 notificando la disponibilidad de fondos para compras voluntarias. Los encuestados serán procesados para elegibilidad y luego clasificados. Si queda financiación después de que este grupo prioritario haya sido aprobado tentativamente para compras, las cartas se enviarán al Grupo 2, y así sucesivamente, hasta que se hayan comprometido todos los fondos.

Dentro de cada grupo, los solicitantes serán calificados y clasificados según los siguientes parámetros:

Grupo 1: BAJOS INGRESOS EN ALIVIADERO DE CRECIDAS

| | |
|---|---|
| Casa en Aliviadero de Crecidas | 6 puntos |

| Sin seguro (1316 descalificado) | 3 puntos |
| Barrio de Prioridad | 2 puntos |
| | |
| Puntaje máximo | 20 puntos |

Para propósitos de clasificación, se rompe un empate con el hogar que tiene el Ingreso per cápita más bajo con prioridad.

Para propósitos de clasificación, se rompe un empate con el hogar con la mayor cantidad de ocupantes con prioridad.

* Los mapas de Aliviadero de Crecida / Llanura de Inundación para el Condado de Montgomery fueron rediseñados y oficialmente establecidos a partir de esta fecha. Antes de esta fecha, los compradores de viviendas que realizan la diligencia debida pueden no haber sabido que la casa estaba ubicada en un área propensa a inundaciones. Sin embargo, después de esa fecha, existe una presunción de responsabilidad por parte del comprador de verificar si la casa se encuentra en una aliviadero de inundación o planicie aluvial. La ventaja del punto es para aquellos que poseían la casa inundada antes de la documentación del riesgo.

El Condado de Montgomery ha establecido un límite de $175,000 en compras. No se ofrecerá asistencia para el pago inicial o asistencia de reubicación. Los costos totales de los proyectos, que incluyen la compra, los gastos indirectos, la entrega del proyecto y la disposición de la propiedad comprada, no excederán los $224,000 por dirección (límite actual de VIVIENDA). Las compras se basarán en el valor tasado de la unidad antes de la tormenta, junto con las estimaciones de reparación que prueban que las reparaciones costarían más que el valor posterior a la reparación. Los avalúos serán realizados por un tasador independiente y contratado. Se realizarán inspecciones y los costos de reparación se calcularán internamente. Según la Ley Stafford, la asistencia previa descalificada se deducirá de la oferta final de compra.

Es imposible predecir un número actual de compras, ya que no hay forma de saber de antemano quién aceptará una oferta y qué propiedades se seleccionarán y, por lo tanto, cuál será el monto en dólares de cada propiedad. Según los números del presupuesto actual, se puede gastar un máximo de $2,354,754 (30%) en hogares entre el 80% y el 120% del AMI (Ingreso Anual Medio) (Ingresos Anual Medio). Suponiendo que todas estas casas con un valor más alto cumplan con el límite, podría ocurrir un máximo de once (11) compras. Se gastará un mínimo de $5,494,426 (70%) en hogares con un AMI (Ingreso Anual Medio) inferior al 80%, lo que se traduce en al menos 32 compras. El Desarrollo de la Comunidad predice, sin embargo, que ocurrirán cerca de 60 compras, que es el número de reemplazos de casas que el Departamento logró con una subsidio de tamaño similar durante el huracán Ike. Dado que el Condado prioriza por ingresos, es muy probable que el 100% de los fondos se utilicen para la compra de viviendas de bajos ingresos. El AMI (Ingreso Anual Medio) actual en el Condado de Montgomery es de $71,500.

El Condado administrará el programa de compra para todas las jurisdicciones dentro del área geográfica, no solo las áreas rurales. Si bien varias ciudades tienen contratos de infraestructura separados, Montgomery County Community Development gestionará todas las actividades de vivienda dentro y fuera de las ciudades.

Todas las propiedades serán devueltas al espacio verde y el Condado las mantendrá a perpetuidad.

## PLANIFICACIÓN A LARGO PLAZO

Los solicitantes deben desarrollar sus proyectos de recuperación comunitaria de una manera que considere un enfoque integrado de vivienda, obligaciones de Vivienda Justa, infraestructura, revitalización económica y recuperación general de la comunidad. Los solicitantes también deben documentar cómo el uso de estos fondos abordará la recuperación a largo plazo.

1. Proporcione una breve descripción de cómo el proyecto abordado en esta solicitud forma parte de un enfoque integrado para la recuperación.

El Condado de Montgomery tiene un Plan Consolidado de 5 años a largo plazo para vivienda como parte de su proceso de financiamiento regular. Además, el Condado recientemente completó y presentó una evaluación y plan regional de 5 años Para la Promoción de la Vivienda Justa (5-Year Affirmatively Furthering Fair Housing Assessment and Plan), completa con metas y objetivos, junto con la Autoridad de Vivienda, bajo revisión del HUD. La ciudad de Conroe originalmente fue parte de este consorcio, y los datos de Conroe están incluidos en el plan, sin embargo, la ciudad se retiró del consorcio al final del proceso debido a un cambio en los umbrales de HUD que requerían el plan, lo que relevo a Conroe su deber de formular un plan.

Tanto en el Plan Consolidado como en el Plan AFFH (Promoción de la Vivienda Justa), el Condado estableció metas y objetivos para: 1) demoler viviendas abandonadas para eliminar barrios marginales y pestes, 2) desarrollar viviendas asequibles y 3) preservar viviendas asequibles existentes.

Esta aplicación, cubre principalmente la compra de propiedades dañadas por inundaciones y la devolución de la tierra a espacios verdes, aborda los objetivos establecidos en ambos planes para demoler viviendas abandonadas para eliminar tugurios y pestes, y en muchos casos proporcionará un ímpetu financiero a las familias de bajos ingresos para adquirir viviendas asequibles en vecindarios de mayor oportunidad (o, al menos, a mayor altitud ... En el condado de Montgomery, los vecindarios tradicionalmente identificados como minoritarios, no se inundaron).

Al menos el 70% de los fondos de CDBG-DR se destinarán a la vivienda dañada por la inundación para de residentes de bajos / moderados ingresos del condado. Además, la Junta de Desarrollo del Agua local ha identificado aproximadamente 38 casas que pagará para comprarlas. Al coordinar cuidadosamente las compras con las reglas de varias fuentes de financiación, se puede lograr un Impacto mayor y más organizado.

El Condado también dirigió específicamente a las ciudades, vla el proceso MOD, para limitar los proyectos de infraestructura en beneficio de los vecindarios y calles de bajos / mod ingresos. A largo plazo, el proceso de reparación / mejora del drenaje, la expansión de espacios verdes y el traslado de residentes propensos a inundaciones ayudará a toda la comunidad con la recuperación y la mitigación.

## EVALUACIÓN DE NECESIDADES COMUNITARIAS

### LISTA DE TODAS LAS NECESIDADES / PROBLEMAS COMUNITARIOS IDENTIFICADOS

1. Elimine los barrios marginales/pestes
2. Mejore la absorción de las aguas de la inundación en aliviaderos de crecidas
3. Reubique a los residentes en aliviaderos de crecidas y de planicies aluviales a viviendas en terrenos más altos

## CUESTIONARIO DE EVALUACIÓN DE NECESIDADES DE VIVIENDA:

Describa el suministro actual de la jurisdicción de vivienda asequible (Vivienda Pública, Sección 8, RHS(Servicios de Vivienda Rural), programa HOME (Programa HOGAR), TDHCA (Departamento de Vivienda y Asuntos de Comunidad de Texas), Local Housing Development Corp (Corporación de Desarrollo de Vivienda Local), etc.).

El condado no tiene ninguna Vivienda Pública. Cuenta con una Autoridad de Vivienda de la Sección 8 de HCV (voucher de opción de vivienda) , con 367 vouchers. Actualmente hay 19 complejos multifamiliares de crédito tributario solicitados por TDHCA (El Departamento de Vivienda y Asuntos Comunitarios) en el condado, de los cuales 13 son para personas de bajos ingresos en general y 6 son para ancianos / discapacitados.

El desarrollo rural tiene cuatro unidades: dos en Willis, Tx y dos en el este del condado de Montgomery.

Hay cinco unidades multifamiliares financiadas con fondos públicos.

La Corporación de Desarrollo de Vivienda local no ha desarrollado viviendas asequibles en general.

HOME ha financiado 24 unidades de vivienda de transición para víctimas de violencia doméstica, 14 unidades para enfermos mentales graves, 30 unidades para discapacitados intelectuales, un hogar grupal para discapacitados intelectuales graves y trece unidades ocupadas por propietarios para ancianos / discapacitados.

A través del programa HOME, actualmente hay 24 unidades de vivienda de transición para víctimas de violencia doméstica, 14 unidades de vivienda de apoyo permanente para enfermos mentales graves, 13 viviendas unifamiliares ocupadas por el propietario para ancianos y discapacitados, 30 unidades de vivienda de alquiler para adultos discapacitados intelectuales, y un hogar grupal para adultos con discapacidad intelectual.

Describa los esfuerzos anteriores del solicitante para aumentar la oferta de viviendas asequibles.

El Desarrollo de la Comunidad recibe una pequeña subvención de derecho a HOME: menos de $ 500,000 por año. Los contratos plurianuales han permitido la construcción de viviendas unifamiliares ocupadas por sus propietarios para ancianos y discapacitados, viviendas de alquiler para personas con enfermedades mentales graves, viviendas de alquiler para personas con discapacidades intelectuales, viviendas de alquiler para víctimas de violencia doméstica y un proyecto actual está construyendo viviendas de alquiler para jóvenes que llegan a la mayoría de edad en hogares de guarda y corren el riesgo de ser personas sin hogar. Además, el condado ha apoyado y financiado una contrapartida local para las competencias de crédito fiscal del 4% y del 9%, y ha ayudado con éxito a las constructoras a traer un complejo de 80 unidades para adultos mayores y 4 grandes proyectos multifamiliares para residentes de bajos ingresos. Finalmente, Community Development (Desarrollo Comunitario) financia la asistencia para el pago inicial para los compradores de vivienda por primera vez para ayudar con la asequibilidad de las viviendas existentes (aproximadamente 100 hasta la fecha), y administra un programa de Rehabilitación/Reemplazo para preservar las acciones existente de viviendas de bajos ingresos ocupadas por el propietario.

Describa cualquier esfuerzo futuro que el solicitante planee emprendido para aumentar la oferta de viviendas asequibles.
De cara al futuro, el condado planea continuar con la asistencia para el pago inicial y los programas de rehabilitación, continuar financiando a los CHDO para desarrollar viviendas asequibles para los locales de bajos ingresos y continuar financiando a los competidores de crédito fiscal según sea necesario. Además, el condado tiene un proyecto en curso para construir unidades dúplex en alquiler para jóvenes que anteriormente se encontraban sin hogar y que habían llegado a la mayoría de edad en hogares de guarda.

Describa cualquier instancia, en los últimos 10 años, en la que el solicitante haya solicitado fondos de vivienda asequible y no haya recibido la financiación.
Dado que el solicitante es un derecho, esto no se aplica. Sin embargo, hemos patrocinado proyectos de crédito fiscal que no ganaron en nuestra región.

Describa cualquier caso, en los últimos 5 años, en el que el solicitante no haya aceptado fondos para viviendas asequibles.
El desarrollo comunitario nunca ha rechazado fondos para viviendas asequibles. No se permite a los condados zonarse, y no hay planes para implementar códigos para mitigar los riesgos de peligro que no sean cumplir con el código existente, como elevar por encima de BFE (Altura Base para Prevenir Inundación).

Describa los códigos de cumplimiento planificados actuales y / o futuros para mitigar los riesgos de peligro.

Las inundaciones de agua alta inundaron varias casas a lo largo de las vías de inundación y en llanuras de inundación de 100 años en todo el Condado. Las casas abandonadas no reparables deben comprarse y demolirse, para evitar barrios marginales y tizones e

inundaciones repetitivas de ciertas casas, y para expandir el espacio verde para la absorción de las aguas de inundación y la lluvia.

2. Identifique la ubicación de cada actividad / área objetivo y cualquier actividad de adquisición.
La ortografía y las mayúsculas de los nombres del Área Objetivo que se enumeran aquí deben coincidir con la Tabla 1, por ejemplo, "Green Acres" no debe aparecer en otra parte como "subdivisión de green acres".
