

# Documentation of Public Meeting

**Project Location**  
Montgomery County

**Farm-To-Market 149 (FM 149)**

**Project Limits**  
From Existing FM 149 South of Lake Creek Bridge to State Highway (SH) 249

**Meeting Location**  
In-Person Public Meeting at:  
The Magnolia Event Center  
11659 FM 1488  
Magnolia, TX, 77354

**Meeting Date and Time**  
June 14, 2023, from 5:00 p.m. to 7:30 p.m.

**Translation Services**  
No translation services were provided

**Presenters**  
Blair Stocker, P.E., with DEC

**Elected Officials in Attendance**  
Chris Jones, Montgomery County Precinct 5 Constable

**Total Number of Attendees (approx.)**  
26

**Total Number of Comments**  
8

**Farm-To-Market (FM) 149 Extension  
From Existing FM 149 South of Lake Creek Bridge to State Highway (SH) 249  
Public Comment Response Matrix**

Comment No.	First Name	Last Name	Elected Official	Source	Address for future notifications	City	State	Zip Code	Email	Support	How did you hear about the event tonight?	Comment	Response
1	Zaldy	Daguman	—	Email	—	—	—	—	<a href="mailto:zaldy.daguman@construction.com">zaldy.daguman@construction.com</a>	—	—	Good day! I am with Dodge Construction Network. Can you confirm if the Civil Engineering firm for this project is the DE Corp? Thanks for your time!	Yes, we are the design firm for the FM 149 project.
2	Zaldy	Daguman	—	Email	—	—	—	—	<a href="mailto:zaldy.daguman@construction.com">zaldy.daguman@construction.com</a>	—	—	Thank you for confirming. Do you have an idea regarding the bidding schedule, construction start date and completion date?	We are still in the schematic stage. Bidding will not begin until the first quarter of 2025 at the earliest.
3	Dana	Findlay	—	Email	—	—	—	—	<a href="mailto:dana.findlay13@gmail.com">dana.findlay13@gmail.com</a>	—	—	Good morning Victor, I hope you had a great 4th of July! I'm curious how this new proposal will handle the volume of traffic traveling on 149 from 1488. It appears there will be a 2-lane exit on the west side of 149 near Jackson Road. I travel up 149 from 1488 every day and traffic backs up often past the Magnolia fire station. I don't see that this option will ease traffic. Also, we have a difficult time exiting from Stillwater Blvd currently. How will we be able to safely get onto 149 (especially to go west) with traffic traveling at a fast rate of speed? The railroad track and turn by the Lake Creek bridge currently aid us by forcing cars to slow down. Kind regards, Dana Findlay	Dana, I am Blair Stocker, the Project Manager for this project. As per your message below, we have done traffic studies with volumes projected 20 years in the future and have found the intersection I believe you are questioning works well. We have 2 left turn lanes from Jackson Road NB onto what we call Access Road 1 which clears the queue at that intersection. Those queues you mentioned on existing FM 149 should go away due to the new FM 149 construction. Also, the RR track crossing will be closed eliminating those related queues as well. If you would like more information or would like to discuss further, please contact me directly. I'd be more than willing to walk you through the design layout exhibited at the public meeting. If you have Teams, we could do a teams call or meet in person, whatever will work for you. Please advise. Thanks, Blair Stocker
4	Paul	Kleinpeter	—	Comment Form	21262 Hidden Bend Loop	Magnolia	TX	77354	<a href="mailto:paul.kleinpeter@flash.net">paul.kleinpeter@flash.net</a>	Undecided - convince me!	Social media	Existing 149 is a beautiful, tree lined corridor. Will the trees and shrubbery along the railroad be preserved?	Paul, As required by National Environmental Protection Act (NEPA) we have to mitigate all impacts on many environmentally sensitive areas including trees/vegetation. We will do everything we can to mitigate the trees that exist there now. However, to build the roadway we will have to cut and remove some trees. We will try and preserve what we can, and plant additional trees as required.
5	Shelly	Lane	—	Email	—	—	—	—	<a href="mailto:shellygiesinger@netscape.net">shellygiesinger@netscape.net</a>	—	—	I am working tonight and can not attend the meeting Commissioner Riley is having about the expanding 149 to 249. I looked on the Engineering site but could not find any more information or maps. I am just curious on the time line and I assume there will be a time when the current 149 coming off Jackson Road will have to be closed and wondering how traffic will be rerouted. This is my right to work and while I am excited about the project, I am also concerned about traffic issues because you can not get into Magnolia proper at 5 because of road construction and I am just curious how the two projects will overlap. Thanks, Shelly Lane	Shelly, Thanks for your inquiry. The existing FM 149 will not be closed at the RR crossing until the new FM 149 extension is completed. It will be one of the last things that's completed on the project. We are figuring around 2026-2028 for construction with opening in 2028. This may be speeded up a bit depending on how the ROW purchases go. Once the RR crossing is closed, the old FM 149 will be accessed from the new FM 149 by Access Road 2. If you need more information, please let me know. Thanks
6	Cynthia	Obrosky	—	Comment Form	PO Box 382	Magnolia	TX	77353	<a href="mailto:cyndiobrosky@att.net">cyndiobrosky@att.net</a>	No	Flyer	This project needs to not move forward, and if you are going to cram this down our throats then there should be a severe reduction in property tax as you continue to invite more building crime, congestion, violence, overpopulation, building and many other negatives that come with these sorts of projects. There is already more crime that is not being met by more police, more traffic and less patience by local and drive through residents. The time, efforts and energies associated with these projects never seem to produce the results and promises of the elected and only success in fattening their wallets and those in charge of the project at the taxpayer's expense. This is going to increase noise overall to a most unacceptable level, not to mention the displacement of people, livestock, and wildlife. The only true answer to alleviate the issue of crime, noise, violence and other unwanted activities is to not build at all - the no-build alternative.	Cynthia, I understand your feelings, but it isn't the project that's bringing the issues you mentioned. The population growth of the County specifically and the overall population growth of the state is the contributing factor. Depending on what numbers you believe, the state gains around 1,000 people a day. If you assume 50% of those go to the Houston area, that's 500 people a day, which totals 3,500 per week. That's a large number and those people have to end up somewhere. Because of the things you like about this area of Montgomery County, more people will continue to move there. The existing roadway system is already at capacity. The existing roads such as FM 149 and Jackson Road were built for a more rural area with lower traffic volumes. Congestion will continue to grow as more developments are completed. If nothing is done, gridlock may not be too far away. Then the cost to do something will be much higher. We are trying to get ahead of the growth curve by building this facility. This project will mitigate the traffic solution by taking traffic off the overcapacity of the local network and feeding them into a major arterial (SH 249) built for large volumes of traffic. Coupled with a few of the other highways Montgomery County has proposed on the 2021 Thoroughfare plan, this project will help alleviate the traffic situation. However, this will not mitigate some of the issues you bring up because they are beyond the scope of the highway project. They will need mitigated through the local political apparatus of the County. The growth I mentioned will continue whether this highway is built or not. We can plan for it and attempt to mitigate it, or allow the surrounding road system to fall into severe congestion and gridlock. In accordance with the National Environmental Protection Act (NEPA) of 1970, we are preparing an Environmental Assessment which will document why we are building this road, the purpose and need for the facility and the impacts to the surrounding area including wildlife, property, wetlands, streams, etc. Once we have a draft together, the public will be allowed to comment. Reading this document will provide a better understanding of the project to you. If you have any further comments, please contact us.
7	Rebecca	Queen	—	Email	9892 FM 149 Road	Montgomery	TX	77316	<a href="mailto:rqueen1.rq@gmail.com">rqueen1.rq@gmail.com</a>	—	—	Dear Commissioner Riley, I am a senior homeowner on the Keenan Road side of FM 149, near 7 Bridges RV Park. I've been reading about the proposed extension of FM 149 to FM 249. I think the proposed improvements are a great idea and much needed. Although I realize this is a different arm of my street, my concern is that it will most certainly bring increased traffic on an already overused road. Motorcycles and trucks speed past the small residential areas at dangerously high rates of speed, and the traffic is already so busy during rush hours that it sometimes takes 10 minutes to turn out of my driveway. Dump trucks and cement trucks already dominate the vehicles on Keenan Cutoff, slowing movement to a crawl. Traffic has definitely increased in this area during the past 2 years. It feels like a major thoroughfare between Highway 105 to FM 249. I'd like to propose that you install some breaks in the traffic flow, like speed bumps near schools and churches, caution lights on dangerous curves and intersections, and definitely a 3-way traffic light at Keenan Cutoff Road at FM 149. I have been impressed with the road construction in Precinct 2 these past few years, especially the bridge and traffic light at Keenan Cutoff at FM 2854. I hope you will take a serious look at the needs of those living on my stretch of FM 149. We could seriously use an upgrade to the city sewer! Thank you for your attention to this message.	Rebecca, Thanks for your comments and support of our project. I'm very sorry to hear about your situation. Unfortunately, you are located a good distance (almost 3 miles) beyond the northern terminus of the FM 140 Extension project. We realize FM 149 is becoming overcapacity and this project will mitigate the congestion issues for the traffic s it moves its way south along FM 149 towards the southern terminus at SH 249. However, north of the project is TxDOT's responsibility and control. We will discuss it with them the next time we see TxDOT representatives.
8	Chris	Telschow	—	Email	—	—	—	—	<a href="mailto:chris.telschow@yahoo.com">chris.telschow@yahoo.com</a>	—	—	Greetings Connor, Unfortunately I was unable to attend this public meeting as I just found out that it happened last month, today. A few questions: I have questions about how this proposed roadway will not be tolled considering it is dead ending into a current tollway...? What are the future extension plans regarding this route? What is the consideration for noise pollution on this project? What is the current issue with the current FM 149 that this route needs to be altered? Thank you for your reply.	No, the new FM 149 Extension will not be tolled. Although our project ends at the toll road, the plan is to have the new road extend further south to connect up with another proposed highway around Magnolia. In the north, the project ends at Lake Creek. Further extension of the widening to the north beyond Lake Creek is beyond the scope of our project. TxDOT would be able to answer if they have plans for widening the existing northern section of FM 149. We have completed a noise study at the present schematic stage of the project. The report indicated no mitigation regarding noise is required at this time. The current two lane roads in the area (including FM 149 and Jackson Road) are presently at their capacity. And the population growth in the surrounding area is continuing. Large developments continue to be planned and built (Woodward Ranch and Magnolia Oaks are two). This project provides a direct connection to a main artery (FM 249 Toll) to minimize the increasing congestion to a main artery (FM 249 Toll) to minimize the increasing congestion using the existing highway system. And the highway will have the capacity to handle proposed traffic volumes 20 years in the future.

## Public Meeting

Farm-To-Market (FM) 149  
Extension

*From Existing FM 149 South  
of Lake Creek Bridge to  
State Highway (SH) 249*

Wednesday, June 14, 2023  
5 – 7:30 p.m.

Magnolia Event Center,  
11659 FM 1488, Magnolia,  
TX, 77354

Montgomery County invites you to an in-person public meeting. The purpose of this public meeting is to present the proposed project, engage with the community and gather feedback.

The proposed project will begin at the south end of the Lake Creek Bridge and extend southward 3.45 miles connecting with the SH 249 toll road. This project includes replacing the Lake Creek relief bridge on FM 149; constructing a new, 6 span bridge over the BNSF railroad tracks and Jackson Road; eliminating an at-grade railroad crossing and intersection with Jackson Road; constructing a 3.45 mile, divided 4-lane highway and connecting with SH 249 toll road at a full diamond interchange allowing movements in all directions. The project will relieve future traffic congestion in the area, provide access to developments along its route, and provide a direct connection to SH 249.

---

*You are invited to participate in the project development process by reviewing the materials online or in-person at the public meeting and submitting feedback to the Project Team. Methods to comment can be found on the reverse side.*

***All comments must be received or postmarked by Friday, July 14, 2023, at 11:59 p.m.***

# In-Person Public Meeting

Montgomery County invites you to an in-person public meeting. The purpose of this public meeting is to present the proposed project, engage with the community and gather feedback.

## Farm-To-Market (FM) 149 Extension

*From Existing FM 149 South of Lake Creek Bridge to State Highway (SH) 249*

The proposed project will begin at the south end of the Lake Creek Bridge and extend southward 3.45 miles connecting with the SH 249 toll road. This project includes replacing the Lake Creek relief bridge on FM 149; constructing a new, 6 span bridge over the BNSF railroad tracks and Jackson Road; eliminating an at-grade railroad crossing and intersection with Jackson Road; constructing a 3.45 mile, divided 4-lane highway and connecting with SH 249 toll road at a full diamond interchange allowing movements in all directions. The project will relieve future traffic congestion in the area, provide access to developments along its route, and provide a direct connection to SH 249.

**Notice**  
**In-Person Public Meeting**  
**Farm-to-Market (FM) 149 Extension**  
**From Existing FM 149 South of Lake Creek Bridge to State Highway (SH) 249**  
**Montgomery County, Texas**

Montgomery County is proposing an extension of FM 149 from the existing FM 149 south of Lake Creek Bridge to SH 249 in Montgomery County, Texas. This notice advises the public that the project team will be conducting an in-person public meeting on the proposed project. **The in-person public meeting will be held on Wednesday, June 14, 2023, from 5 – 7:30 p.m. at the Magnolia Event Center, 11659 FM 1488, Magnolia, Texas 77354.** Attendees will be able to review hard copies of project materials, listen to a presentation about the project, ask questions and submit written comments.

To view project information, go to the Engineering Department page of the Montgomery County website ([www.mctx.org](http://www.mctx.org)). If you do not have internet access, you may call (713) 527-6367 between the hours of 1 p.m. and 5 p.m., on Tuesdays or Thursdays, to ask questions (including questions concerning the right-of-way acquisition process) and access project materials during the project development process. Formal comments may be provided by mail or email as explained below.

The proposed project will begin at the south end of the Lake Creek Bridge and extend southward 3.45 miles connecting with the SH 249 toll road. This project includes replacing the Lake Creek relief bridge on FM 149; constructing a new, 6-span bridge over the BNSF railroad tracks and Jackson Road; eliminating an at-grade railroad crossing and intersection with Jackson Road; constructing a 3.45 mile, divided 4-lane highway and connecting with SH 249 toll road at a full diamond interchange allowing movements in all directions. The project will relieve future traffic congestion in the area, provide access to developments along its route, and provide a direct connection to SH 249.

Although right-of-way (ROW) would be required, no residential or non-residential structures are anticipated to be displaced at this time.

The proposed project would involve minor impacts in wetlands and an action in the Lake Creek Floodplain.

Any environmental documentation or studies, maps and drawings showing the project location and design, tentative construction schedules, and other information regarding the proposed project are on file and available for review Monday through Friday between the hours of 8 a.m. and 5 p.m. at the Montgomery County Precinct 2 office located at 19110 Unity Park Drive, Magnolia, Texas 77355. Project materials are also available online at the Engineering Department page of the Montgomery County website ([www.mctx.org](http://www.mctx.org)).

If you need interpretation or translation services or are a person with a disability who requires an accommodation to attend and participate in the public meeting, please contact Connor Stokes at (713) 955-7549 or [connor@hollawayenv.com](mailto:connor@hollawayenv.com) no later than 12 p.m., on Friday, June 9, 2023. Please be aware that advance notice is required as some services and accommodations may require time for the project team to arrange.

The Environmental Assessment for the proposed project will be available for a 30-day public review and comment period. Written comments from the public regarding the proposed project are requested and may be submitted by mail to the Commissioner Charlie Riley, Montgomery County Precinct 2, 19110 Unity Park Drive, Magnolia, Texas 77355. Written comments may also be submitted by email to [connor@hollawayenv.com](mailto:connor@hollawayenv.com). The 30-day public review and comment period begins on Wednesday, June 14, 2023, and ends on Friday, July 14, 2023, at 11:59 p.m. Responses to comments received will be available online at the web address listed above once completed.

If you have any general questions or concerns regarding the proposed project or the public meeting, please contact Blair Stocker, P.E., Senior Project Manager, at (713) 527-6367 or by email at [blair.stocker@decorp.com](mailto:blair.stocker@decorp.com).

## THE STATE OF TEXAS

NOTICE TO DEFENDANT: "You have been sued. You may employ an attorney. If you or your attorney does not file a written answer with the clerk who issued this citation by 10:00 a.m. on the Monday next following the expiration of forty-two days after the date of issuance of this citation and petition, a default judgment may be taken against you."

To: The Unknown Heirs at Law of Betty Sue Bryant, Deceased

You are hereby commanded to appear by filing a written answer to the Plaintiff's Original Petition on or before 10:00 A.M. of the Monday next after the expiration of forty-two days after the date of issuance of this citation the same being Monday, the 19th day of June, 2023 before the 284th Judicial District Court of Montgomery County, Texas at the Courthouse of said County in Conroe, Texas. Said Plaintiff's Original Petition was filed in said court on this the 20th day of March, 2023, in this case, numbered 23-03-04138-CV on the docket of said court.

The names of the parties to the cause are as follows:

LL Funds Administrative Agent, LLC By and Through its Mortgage Servicer, BSI Financial Services are Plaintiffs and

The Unknown Heirs at Law of Betty Sue Bryant, Deceased are Defendants

A brief statement of the nature of this suit is as follows, to wit:

**Plaintiff is seeking a judicial declaration that, as recourse for default under that one certain voluntary security instrument, it may proceed in accordance with the terms of such security instrument and the Texas Property Code with the non-judicial foreclosure of that certain property, to wit:**

**Legal Description:** Being Lot 23 in Block 2 of Village of Grogans Mill, Section 42, a Subdivision in The Woodlands, Montgomery County, Texas, according to the Map or Plat thereof recorded in Cabinet D, Sheet 23, Map Records, Montgomery County, Texas.

as is more fully shown by Plaintiff's Original Petition on file in this suit.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates thereof, and make due as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Conroe Texas, this on this the 4th day of May, 2023.

(SEAL, District Court of Montgomery County, Texas)  
Melissa Miller, District Clerk  
Montgomery County, Texas

NOTE: ON THE PROPERTY SOLD THERE ARE NO WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. YOU HAVE BOUGHT THE PROPERTY "AS IS". BUYERS ARE FURTHER ADVISED THAT THE PURCHASE OF THE PROPERTY AT THIS CONSTABLE'S SALE MAY NOT EXTINGUISH ANY LIENS OR SECURITY INTEREST ON THE PROPERTY. YOU HAVE SIMPLY PURCHASED WHATEVER INTEREST THE DEFENDANT HAD IN THE PROPERTY. IF YOU HAVE ANY QUESTIONS, YOU SHOULD CONSULT AN ATTORNEY OF YOUR CHOICE.

Published Dates: May 17, 24, 31, 2023

## NOTICE OF CONSTABLE'S SALE

THE STATE OF TEXAS \*  
COUNTY OF MONTGOMERY \*

Notice is hereby given that by a certain Order of Sale issued out of the 284<sup>th</sup> Judicial District Court of Montgomery County, Texas on the 6<sup>th</sup> day of April, 2023 in favor of **Bentwater Property Owners Association, Inc.** recovered a judgment in Cause No. **19-06-08534-CV**, in the 284<sup>th</sup> Judicial District Court of Montgomery County, Texas on the 31<sup>st</sup> day of October, 2019, against **Kim Bethea Sykes**.

Placed in my hands for service, I, Philip Cash as Constable Precinct 1, Montgomery County, Texas, did on the **2<sup>nd</sup> day of May, 2023** levy on REAL property described below, and on the **6<sup>th</sup> day of June, 2023**, I will offer for sale and sell at 301 N. Main Street, Conroe, Texas 77301 (west side court steps), Conroe, Texas 77301, at approximately 10:00 a.m. for cash to the highest bidder, all right, title, and interest that the said defendant **Kim Bethea Sykes** had in the property described below:

## PROPERTY DESCRIPTION:

- \$13,148.43 Principle sum
- \$5,003 Attorney fees
- Post-judgment interest at the rate of five and one quarter percent (5.25%) per annum on the total judgment, including attorney's fees awarded herein, from the date this judgment is signed until fully paid.
- \$835.22 Court Costs (includes \$519.35 process server fees)
- \$0.00 Judgment Credit

And foreclosure of a lien on the following described property:

**LOT 018, BLOCK 02, BENTWATER, SECTION 29, A SUBDIVISION IN MONTGOMERY COUNTY, TEXAS ACCORDING TO THE MAP OR PLAT THEREOF RECORDED IN CABINET F SHEETS 176A & OF THE MAP RECORDS OF MONTGOMERY COUNTY, TEXAS MORE COMMONLY KNOWN AS 83 CAMDEN HILLS DRIVE, MONTGOMERY, TX 77356**

Witness my hand this 2<sup>nd</sup> day of May, 2023.

Philip Cash  
Constable PCT. 1  
Montgomery County, Texas

By: S. Closson  
Sergeant

## TERMS AND CONDITIONS OF SALE AND TIME:

CASHIER'S CHECK OR MONEY ORDER AT THE CONCLUSION OF SALE  
SALE WILL BE HELD AT APPROXIMATELY 10:00 A.M.

NOTE: ON THE PROPERTY SOLD THERE ARE NO WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. YOU HAVE BOUGHT THE PROPERTY "AS IS". BUYERS ARE FURTHER ADVISED THAT THE PURCHASE OF THE PROPERTY AT THIS CONSTABLE'S SALE MAY NOT EXTINGUISH ANY LIENS OR SECURITY INTEREST ON THE PROPERTY. YOU HAVE SIMPLY PURCHASED WHATEVER INTEREST THE DEFENDANT HAD IN THE PROPERTY. IF YOU HAVE ANY QUESTIONS, YOU SHOULD CONSULT AN ATTORNEY OF YOUR CHOICE.

Published Dates: May 17, 24, 31, 2023

CAUTION: Email from outside Hollaway

Dana,

I am Blair Stocker, the Project Manager for this project. As per your message below, we have done traffic studies with volumes projected 20 years in the future and have found the intersection I believe you are questioning works well. We have 2 left turn lanes from Jackson Road NB onto what we call Access Road 1 which clears the queue at that intersection. Those queues you mentioned on existing FM 149 should go away due to the new FM 149 construction. Also, the RR track crossing will be closed eliminating those related queues as well.

If you would like more information or would like to discuss further, please contact me directly. I'd be more than willing to walk you through the design layout exhibited at the public meeting. If you have Teams, we could do a teams call or meet in person, whatever will work for you.

Please advise.

Thanks,  
Blair Stocker, PE

***Good morning Victor,***

***I hope you had a great 4th of July!***

***I'm curious how this new proposal will handle the volume of traffic traveling on 149 from 1488. It appears there will be a 2-lane exit on the west side of 149 near Jackson Road. I travel up 149 from***

***1488 every day and traffic backs up often past the Magnolia fire station. I don't see that this option will ease traffic. Also, we have a difficult time exiting from Stillwater Blvd currently. How will we be able to safely get onto 149 (especially to go west) with traffic traveling at a fast rate of speed? The railroad track and turn by the Lake Creek bridge currently aid us by forcing cars to slow down.***

***Kind regards,***

***Dana Findlay***

CAUTION: Email from outside Hollaway

Shelly,

Thanks for your inquiry. The existing FM 149 will not be closed at the RR crossing until the new FM 149 extension is completed. It will be one of the last things that's completed on the project. We are figuring around 2026-2028 for construction with opening in 2028. This may be speeded up a bit depending on how the ROW purchases go. Once the RR crossing is closed the old FM 149 will be accessed from the new FM 149 by Access Road 2.

If you need more information, please let me know.

Thanks

**Subject:** (FM) 149 Extension

I am working tonight and can not attend the meeting Commissioner Riley is having about the expanding 149 to 249. I looked on the Engineering site but could not find any more information or maps. I am just curious on the time line and I assume there will be a time when the current 149 coming off Jackson Road will have to be closed and wondering how traffic will be rerouted. This is my right to work and while I am excited about the project I am also concerned about traffic issues because you can not get into Magnolia proper at 5 because of road construction and I am just curious how the two projects will overlap

Thanks

Shelly Lane

Comments

THIS PROJECT NEEDS TO NOT MOVE FORWARD AND IF YOU ARE GOING TO CLAM THIS DOWN OUR THROATS THEN THERE SHOULD BE A SEVERE REDUCTION IN PROJECTS THAT AS YOU CONTINUE TO INJECT MORE BUILDING CRIME, CONSTRUCTION, VIOLENCE, OVERBULIATION, BOUND AND MANY OTHER NEGATIVES THAT COME WITH THESE SORTS OF PROJECTS. THERE IS ALREADY MORE CRIME THAT IS NOT BEING MET BY MORE POLICE, MORE TRAFFIC AND LESS PATIENCE BY LOCAL AND DRIVING THROUGH RESIDENTS. THE TIME, EFFORTS AND ENERGIES ASSOCIATED WITH THESE PROJECTS NEVER SEEM TO PRODUCE THE RESULTS AND PROMISES OF THE ELECTED AND ONLY SUCCEEDS IN FATENING THEIR WALLETS AND THOSE IN CHARGE OF THE PROJECT AT THE TAXPAYER EXPENSE. THIS IS GOING TO INCREASE NOISE OVERALL TO A MOST UNACCEPTABLE AND UNACCEPTABLE LEVEL NOT TO MENTION THE DISPLACEMENT TO PEOPLE, LIVESTOCK, AND WILDLIFE. THE ONLY TRUE ANSWER TO ALLEVATE THE ISSUE OF CRIME, NOISE, VIOLENCE AND OTHER UNWANTED ACTIVITIES IS TO NOT BUILD AT ALL - THE NO BUILT ALTERNATIVE

Please attach additional sheets of paper for further comments

---

CAUTION: Email from outside Hollaway

Dear Commissioner Riley,

I am a senior homeowner on the Keenan Rd. side of FM 149, near 7 Bridges RV Park. I've been reading about the proposed extension of FM 149 to FM 249. I think the proposed improvements are a great idea and much needed. Although I realize this is a different arm of my street, my concern is that it will most certainly bring increased traffic on an already overused road. Motorcycles and trucks speed past the small residential areas at dangerously high rates of speed, and the traffic is already so busy during rush hours that it sometimes takes 10 minutes to turn out of my driveway. Dump trucks and cement trucks already dominate the vehicles on Keenan Cutoff, slowing movement to a crawl.

Traffic has definitely increased in this area during the past 2 years. It feels like a major thoroughfare between Hwy 105 to FM 249. I'd like to propose that you install some breaks in the traffic flow, like speed bumps near schools and churches, caution lights on dangerous curves & intersections, and definitely a 3-way traffic light at Keenan Cutoff Rd. @ FM 149.

I have been impressed with the road construction in Precinct 2 these past few years, especially the bridge and traffic light at Keenan Cutoff @ FM 2854. I hope you will take a serious look at the needs of those living on my stretch of FM 149. We could seriously use an upgrade to city sewer!

Thank you for your attention to this message.

CAUTION: Email from outside Hollaway

Greetings Connor,

Unfortunately I was unable to attend this public meeting as I just found out that it happened last month, today.

A few questions,

I am have questions about how this proposed roadway will not be tolled considering it is dead ending into a current tollway....?

What are the future extension plans regarding this route?

What is the consideration for noise pollution on this project?

What is the current issue with the current FM 149 that this route needs to be altered?

Thank you for your reply,

Chris Telschow

# Purpose and Need of the Proposed Project

## Needs Along the Corridor

This project is needed because:

- there is no direct connection from FM 149 to SH 249 Toll Road at this location
- the roadway geometry at the FM 149 and Jackson Road intersection, which involves and at-grade rail crossing, are inadequate for current traffic and future traffic and create unsafe conditions
- the existing system capacity needs to be expanded to relieve congestion
- the intra-county mobility for businesses and residents needs to be improved
- to promote economic development.

## Purpose of the Proposed Project

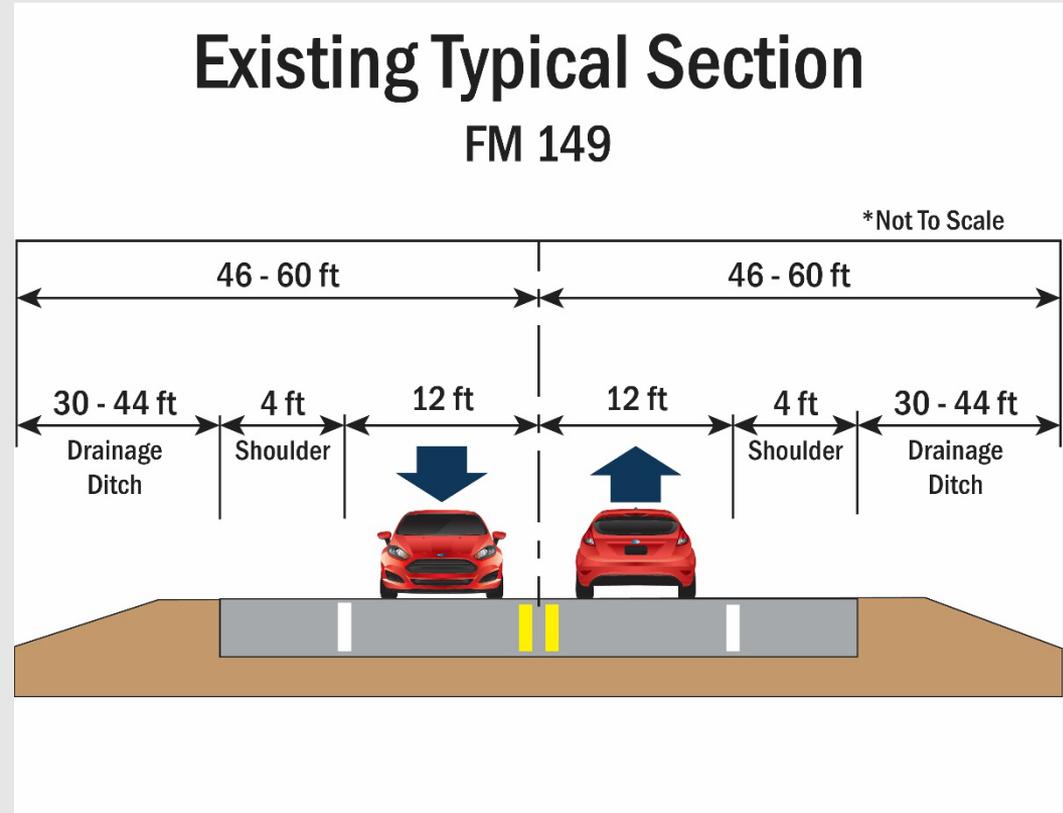

The purpose of the project is to expand system capacity, and to minimize congestion by providing a new highway that meets current FHWA and TXDOT design standards that provides direct connections to the SH 249 Toll Road and FM 149, and to enhance economic development opportunities in the corridor, improve the operational safety of existing roadways by minimizing accidents within the roadway network, and promote intra-county mobility.

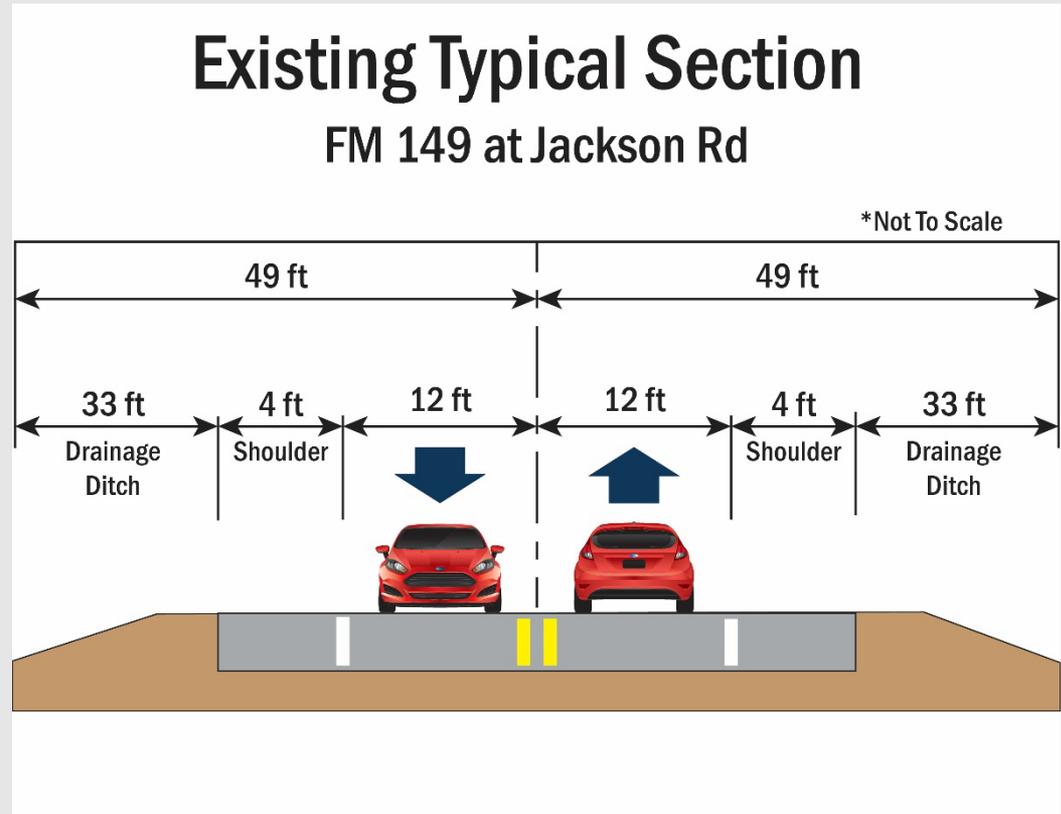

- Two-lane undivided roadway with 12-foot-wide travel lanes
- 4-foot-wide outside shoulders
- No median or traffic barrier
- Open drainage ditches
- No sidewalks
- Right-of-way (ROW) width: 106 feet (varies)

- Two-lane undivided roadway with 12-foot-wide travel lanes
- 4-foot-wide outside shoulders
- No median or traffic barrier
- Open drainage ditches
- No sidewalks
- Right-of-way (ROW) width: 98 feet

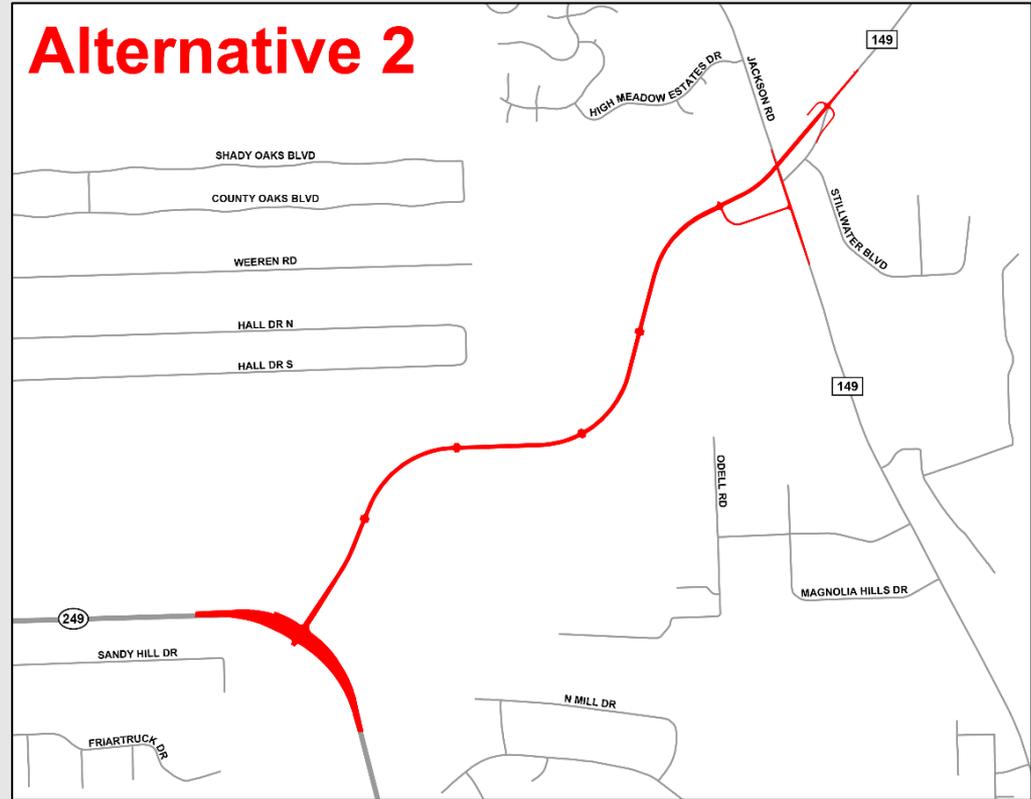

# Project Description

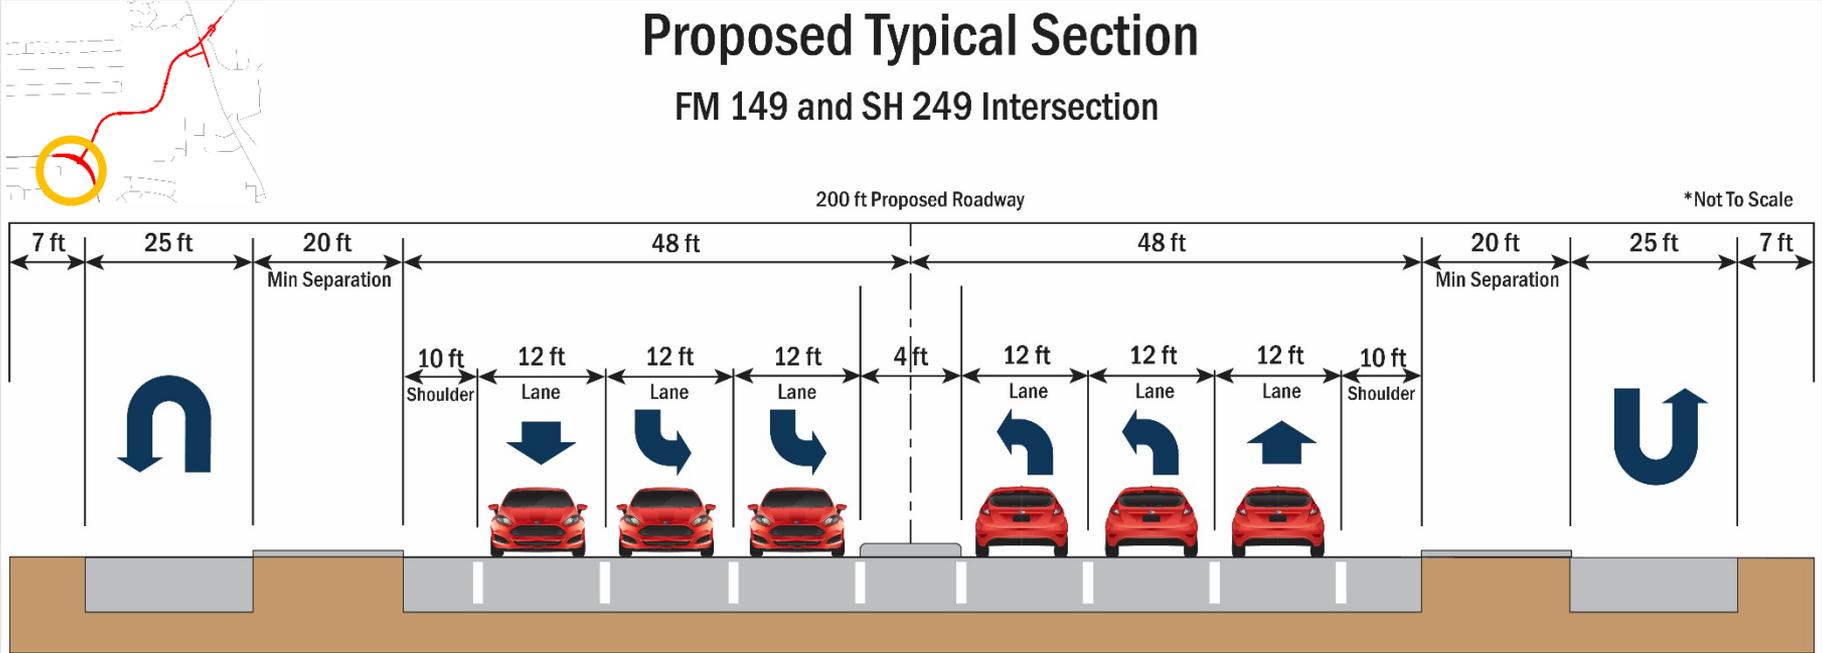

The proposed FM 149 extension includes:

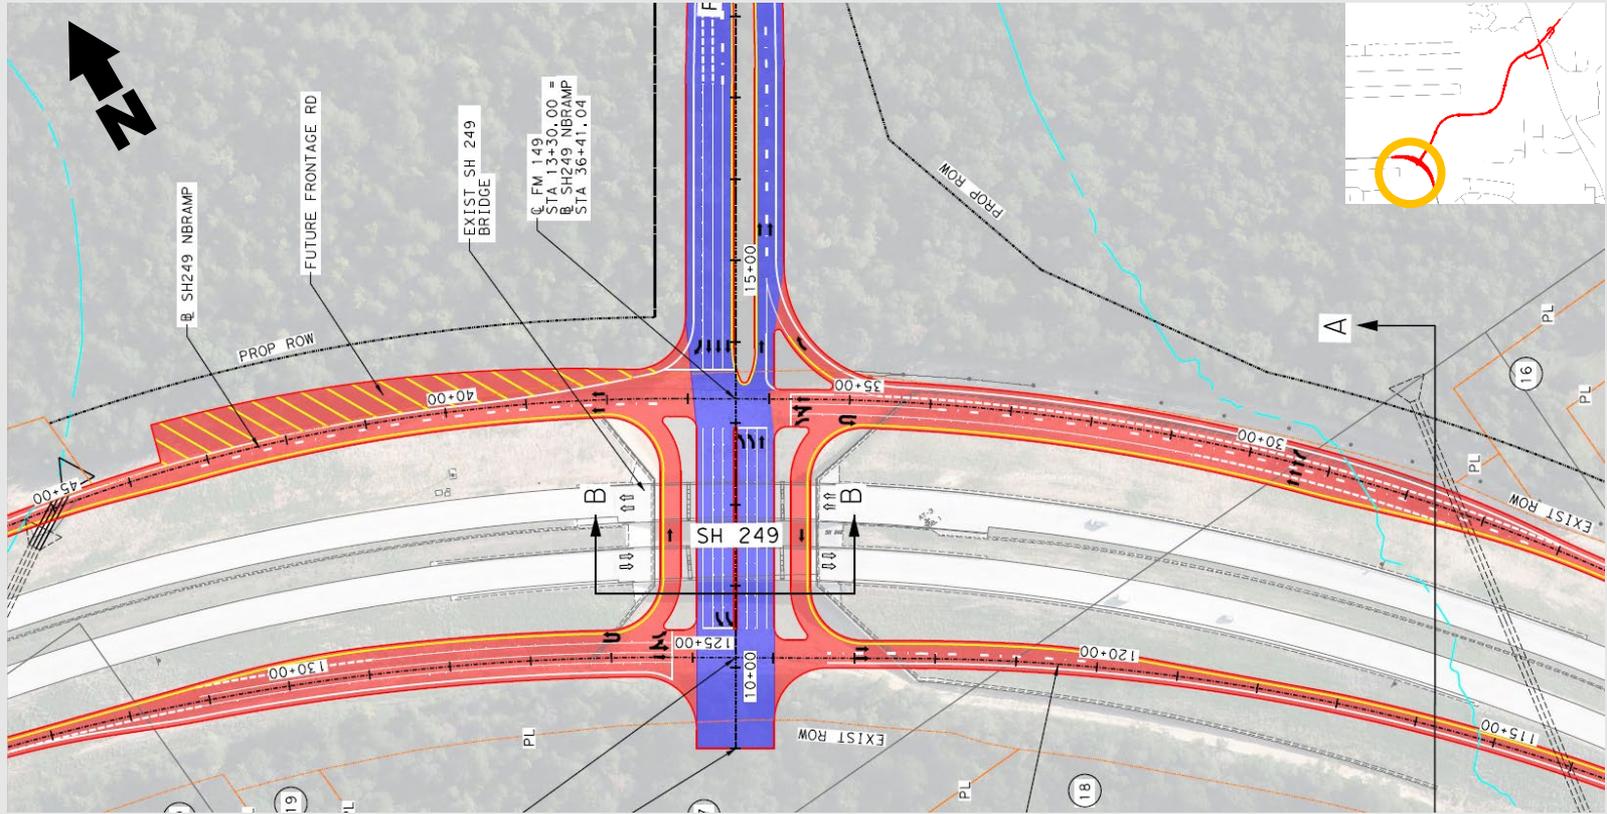

- Replacing the Lake Creek relief bridge
- Constructing a new bridge over the BNSF railroad tracks and Jackson Road
- Eliminating an at-grade railroad crossing and intersection with Jackson Road
- Constructing a 3.45 mile, divided 4-lane highway and connecting with SH 249

# Farm-to-Market (FM) 149 Extension Project

Public Meeting

June 2023

## Quick Facts

### Project Location:

FM 149

### Project Length:

Approximately 3.45 miles

### Project Limits:

Existing FM 149 South of Lake Creek Bridge to State Highway (SH) 249

### Estimated Cost & Funding:

\$110 Million

### Right-of-Way Needs:

Required

### Potential Displacements:

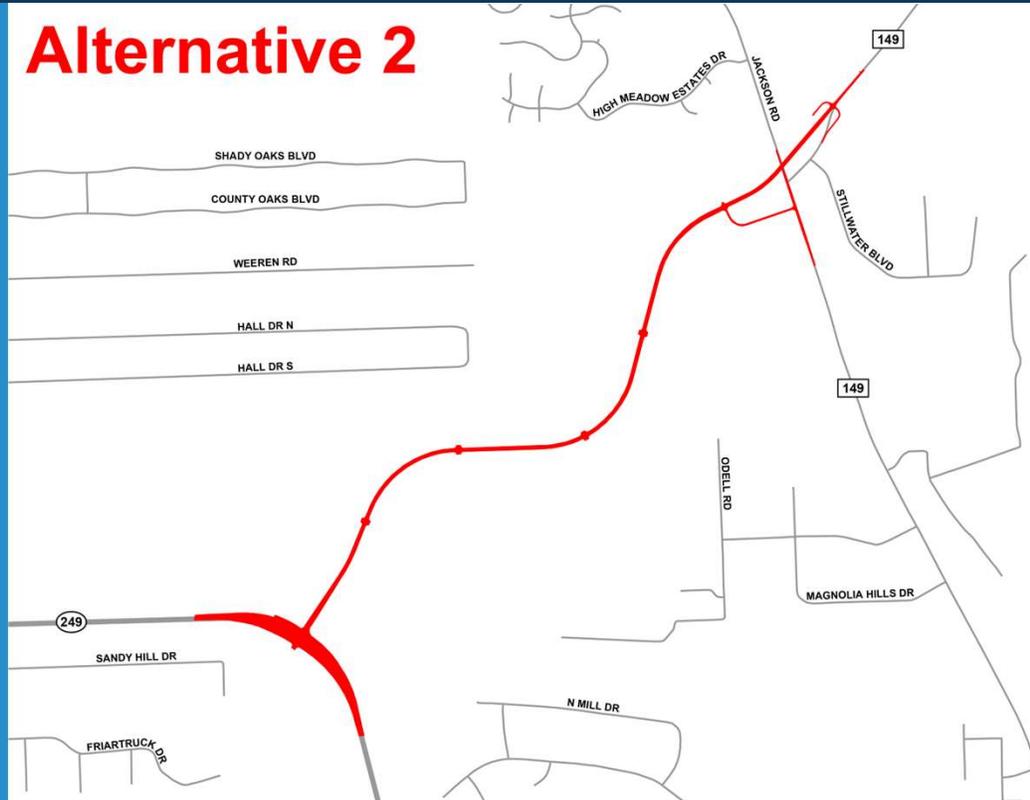

No residential or non-residential displacements are anticipated

For more information, visit the Engineering Department page of the Montgomery County website ([www.mctx.org](http://www.mctx.org)).

The project is anticipating the use of both state and local funding to complete the project. Although the project does not currently anticipate federal funding, the project team is following National Environmental Policy Act, or NEPA, guidelines if federal funding becomes available.

## Alternative 2

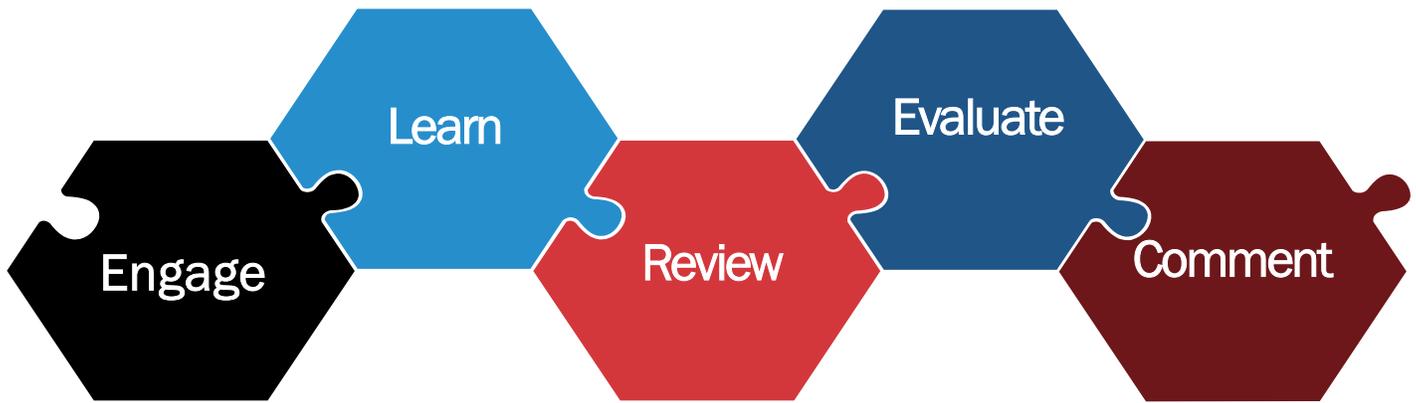

## Welcome to the Public Meeting

Montgomery County welcomes you to the public meeting. This public meeting provides an opportunity to view a presentation and provide your feedback on the proposed project. The purpose of the public meeting is to engage with the community and gather feedback on this proposed project. Your input is important in the project development process. Details on how to comment are on the following page.

## Project Description

The proposed project will begin at the south end of the Lake Creek Bridge and extend southward 3.45 miles connecting with the SH 249 toll road. This project includes replacing the Lake Creek relief bridge on FM 149; constructing a new, 6 span bridge over the BNSF railroad tracks and Jackson Road; eliminating an at-grade railroad crossing and intersection with Jackson Road; constructing a 3.45 mile, divided 4-lane highway and connecting with SH 249 toll road at a full diamond interchange allowing movements in all directions. The project will relieve future traffic congestion in the area, provide access to developments along its route, and provide a direct connection to SH 249.

## Why is this project proposed?

The purpose of the project is to expand system capacity and to minimize congestion by providing a new highway that meets current Federal Highway Administration (FHWA) and Texas Department of Transportation (TxDOT) design standards that provides direct connections to the SH 249 Toll Road and FM 149, enhances economic development opportunities in the corridor, improves the operational safety of existing roadways by minimizing accidents within the roadway network, and promotes intra-county mobility.

## Questions or Need Help?

## How to Get Involved

You are invited to participate in the development of this project by reviewing the materials and providing comments.

You may submit comments in the following ways:

- Place the comment card in the Comment Box at the in-person open house
- Send your comment via U.S. Mail postmarked by July 14, 2023:  
 Commissioner Charlie Riley  
 Montgomery County Precinct 2  
 19110 Unity Park Drive  
 Magnolia, Texas 77355
- Send your comment via email to:  
[connor@hollawayenv.com](mailto:connor@hollawayenv.com)

**All comments must be received or postmarked by July 14, 2023.**

## Next Steps

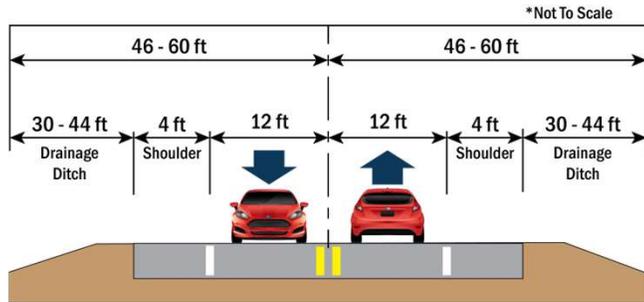

We are here

\* This schedule is approximate and subject to change

# Existing Roadway

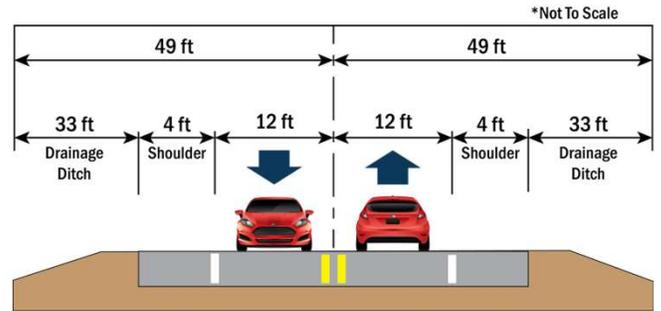

## Existing Typical Section FM 149

This is a typical section is a representative cross-section of the roadway as it looks today. The existing typical section of FM 149 is two lanes with one lane in each direction and 4-foot-wide outside shoulders. There is no median or traffic barrier present.

Drainage along the roadway is generally funneled through open ditches. The corridor's average right-of-way width is 106 feet wide and does not include sidewalks.

## Existing Typical Section FM 149 at Jackson Rd

The existing typical section of Jackson Road is similar to the existing FM 149 with two lanes, one lane in each direction, and 4-foot-wide outside shoulders. There is no median or traffic barrier present.

Drainage along the roadway is generally funneled through open ditches. The corridor's average right-of-way width is 98 feet wide and does not include sidewalks.

**Montgomery County commits to purposefully involve the public in planning and project implementation by providing for early, continuous, transparent and effective access to information and decision-making processes.**

# Proposed Roadway

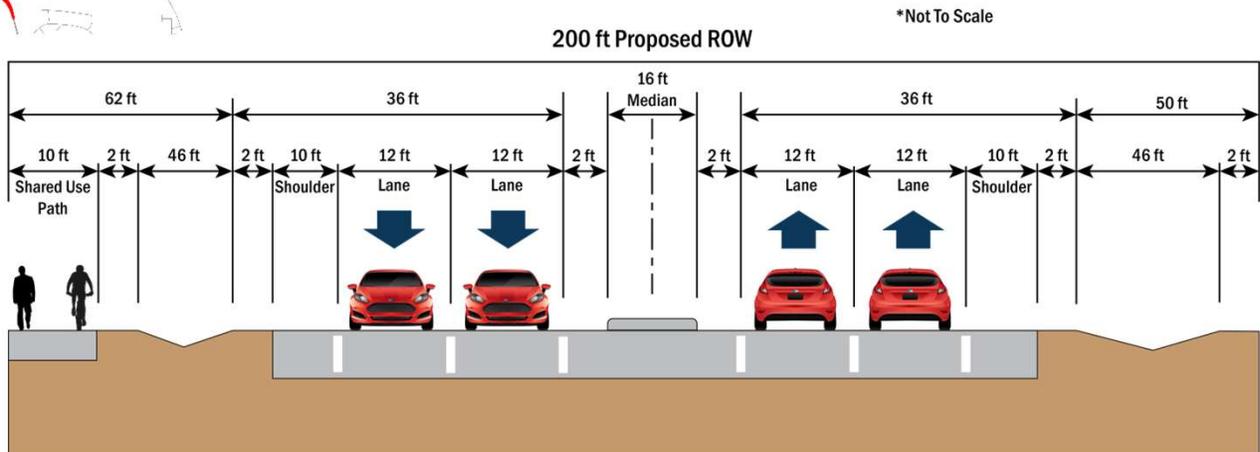

Here you can see the proposed typical section for the FM 149 corridor throughout most of the project limits.

The proposed typical section includes four 12-foot-wide lanes, two in each direction, with 10-foot-wide outside shoulders. A 16-foot-wide raised concrete median is also included to effectively channel traffic and improve safety.

A proposed 10-foot-wide shared use path on the westbound side of the roadway would safely accommodate bicyclists and pedestrians. Drainage would be accommodated within open drainage ditches.

## Proposed FM 149 Mainline
