

DISCLAIMER

Permit # _____ issued this date _____ is an "Authorization to Construct" a septic system only and is based on information supplied by myself and the Registered Sanitarian or Professional Engineer I employed. **This information to the best of my knowledge is true and accurate.** I understand that a "Notice of Approval" for the septic system will be issued **ONLY** after all criteria set up by TCEQ and Montgomery County Environmental Health Services regarding onsite sewage facilities have been met. I understand that failure to comply with TCEQ or County rules regarding on-site sewage facilities will result in non-issuance of the "Notice of Approval."

EXISTING SYSTEMS: I understand that when upgrading or improving any "existing system," all components of the existing system **MUST** be brought up to current codes or standards. I understand that in order to identify where the tanks and field lines of an existing septic system are located, holes may be dug and/or probing the area on my property may be done. If water lines, gas lines and any underground utilities are not marked, they could be damaged during the course of inspection. However, Montgomery County or its representatives will not be responsible for inadvertent damages that may be done.

NEW INSTALLED SYSTEM: I understand that an inspection by Montgomery County Environmental Health Services must be completed and approval given prior to back-fill of any newly installed or add-on modifications to existing systems. **Inspections may be scheduled by contacting the Montgomery County Environmental Health Office by 3:00 p.m. two (2) business days prior to the need for inspection. Installers must contact the Environmental Office prior to 9:00 a.m. the morning of the inspection to find out the scheduled time.**

I hereby grant permission for the Montgomery County Environmental Health Department personnel to enter upon the property described in the permit for the purpose of inspecting the septic system. I understand that the performance of the septic system will depend on many factors including correct sizing, maintenance, water usage, amount of rainfall received on the property, etc. Montgomery County or its employees will not be responsible for malfunctioning systems.
