INTRODUCTORY SECTION

CITY OF MORRISTOWN TENNESSEE

City of Morristown

JAMES H. CRUMLEY
City Administrator

December 15, 2006

To the Honorable Mayor, Members of the City Council, and Citizens of the City of Morristown:

State law requires that all general-purpose local governments publish within six months of the close of each year a complete set of financial statements presented in conformity with generally accepted accounting principals (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the Comprehensive Annual Financial Report (CAFR) of the City of Morristown for the fiscal year ended June 30, 2006.

This report consists of management's representations concerning the finances of the City of Morristown. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Morristown has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and compile sufficient reliable information for the preparation of the City of Morristown's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Morristown's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Morristown's financial statements have been audited by Craine, Thompson, and Jones, PC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Morristown for the fiscal year ended June 30, 2006, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Morristown's financial statements for the fiscal year ended June 30, 2006, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of Morristown was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements,

but also on the audited government's internal controls and legal requirements involving the administration of federal awards. These reports are available in the compliance report section of this CAFR.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Morristown's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Morristown was incorporated in 1855 and operates under a council-administrator form of government. It is located between two major Tennessee Valley Authority lakes approximately 40 miles northeast of Knoxville on Interstate-81 and approximately 60 miles southwest of the Tri-Cities area on the same highway. The City currently occupies a land area of approximately 22 square miles and serves a population of approximately 25,000. The City is authorized by state statues to levy a property tax on both real and personal properties located within its boundaries. It is also empowered by state statute to extend its corporate limits by annexation, which occurs periodically when deemed appropriate by the Board of Mayor and Alderman.

Policy-making and legislative authority are vested in the Mayor and Council members consisting of the mayor and six other members. The Council is responsible, among other things, for passing ordinances, resolutions, adopting the budget, appointing committees, and hiring the City Administrator, City Attorney, Police Chief, and Fire Chief. The City's Administrator is responsible for carrying out the policies and ordinances of the Council, for overseeing the day-to-day operations of the City and for appointing the heads of various departments.

The City of Morristown provides a full range of services, including police, fire, street construction and maintenance, planning and zoning, parks and recreation, cultural events and general administrative services. In addition, water, electric and sewer service and solid waste collection are provided under an Enterprise fund concept with user charges established by the Council to ensure adequate coverage of operating expenses and payments on outstanding debt.

The annual budget serves as the foundation for the City of Morristown's financial planning and control. All departments of the City of Morristown are required to submit requests for appropriation to the City Administrator. The City Administrator uses these requests as the starting point for developing a proposed budget. The City Administrator then presents this proposed budget to the Council for review by May 15. The Council is required to hold a public hearing on the proposed budget and to adopt a final budget no later that June 30, the close of the City of Morristown's fiscal year. The appropriated budget is prepared by fund, function, and department. The City Administrator may make transfers of appropriations within a department. Budget-to-actual comparisons are

provided in this report. The general fund comparison is presented on page 35 as part of the basic financial statements for the City's fund.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Morristown operates.

Local economy.

Major industries located within the government's boundaries or in close proximity include manufacturers of furniture, automobile components, and paper. To maintain Morristown's competitiveness in the attraction of jobs, City Council authorizes the Morristown Industrial Development Board (IDB) to negotiate in-lieu-of-tax agreements with existing and prospective industries.

City Council adopted guidelines to lead the IDB in negotiations and the resolution requires the Mayor and City Administrator to be informed on a regular basis about any on going projects. Each project still requires City Council's concurrence before any tax incentives are finalized with a prospect.

In December 2005, Colgate-Palmolive announced Morristown as the site of their only facility for their flagship toothpaste product, Colgate Total. The site chosen is on Howell Road across the Norfolk Southern Railroad from Morristown Municipal Airport. The plant will initially employ 225 people with a capital investment of over \$57 million.

Substantial commitments from the City and State were required to secure the plant's location to Morristown. The donation of approximately 40 acres that the City has owned as industrial property since 1980 was a significant part of the negotiations. An agreement for the City and State to prepare the site for construction, including the building of a rail spur to serve the facility, at a projected cost of \$3,970,000 was crucial in the decision making by Colgate. Of this total, the City General Fund obligated \$1,070,000 towards the site improvements.

The State agreed to assist the City with the construction of three legs of Veterans Parkway. Total costs of highway construction were anticipated to be \$3,500,000 with the State agreeing to fund 50 percent. The water, sewer and electric public utilities also invested significant dollars to serve the Colgate plant without any upfront contribution by Colgate.

In Morristown's first attempt, the Tennessee Department of Economic and Community Development awarded the "Three Star" designation, its highest recognition for preparedness in economic development.

In preparation for a major expansion by Kawasaki Tennessee, Inc., site preparation on 20 acres for the construction of the new plant was commenced by the City with financial assistance by the State of Tennessee. Even after normal geotechnical exploration was

completed, an S-shaped area of rock was discovered in the area of the plant floor, increasing costs by nearly \$635,000 beyond the original budget. The City and Industrial Board successfully worked with the State to have all additional funding for the rock removal covered by the State. The site was complete in late 2005.

Ethics

City Council was proactive in adopting a formal code of ethics for themselves and all City employees. With the problems of some members of the State Legislature in the Tennessee Waltz investigation, news stories from surrounding counties about corruption in local government employees and the general trend towards the public's distrust of government, Mayor Gary Johnson has asked that the ethics ordinance for Morristown become a top priority. The ordinance clearly sets a standard for conduct that all officials and employees representing the citizens of Morristown should follow.

Recreation

Continuing the use of partnerships with community organizations, the Morristown Rotary Club donates over \$32,000 and efforts with design and planning for the construction of a "Splashpad" at Fred Miller Park. Total costs of the project were \$72,000 with the City contributing the balance of the funding. Originally conceived as a 50/50 financial partnership, the extras for the park were purchased strictly by the City and City Council's request.

Four new soccer fields at a cost of \$960,000 are begun at Wayne Hansard Park on the southwest side of Morristown. The demand for soccer and the need for a championship venue for the four high school soccer teams has prompted City Council to add this park improvement project to their agenda. Funding for the work comes from the City's 2006 commitment to parks from General Obligation bonds.

The City accepts full responsibility for the renovation of Sherwood Park in April 2006. The initial development plan for \$465,000 of state, utility and private funds has now grown to nearly \$530,000. Private funds for the project have not materialized. City Council agrees to step in and complete the park renovation by March 2007 and obligate the City to fund any cost overruns.

Following City Council's policy of acquiring land adjacent to Fred Miller Park, two parcels of property were purchased during FY 2005-2006. Two additional properties are under consideration in the following fiscal year.

Public Safety

After the Insurance Service Organization's review of Morristown, the Class 3 fire rating is renewed for the vast majority of the City. However, the commercial development and the East Tennessee Progress Center near Interstate 81 Exit 8 are rated as a Class 10 due to the long distances between the development and any of the City's existing fire stations.

To meet the requirement for reestablishing the Class 3 rating city wide, City Council authorizes the construction of Fire Station Six. Funding for the construction came from General Obligation bonds, while the staffing was divided between two city operating budgets (FY 2006 and 2007). Groundbreaking occurred in November 2006 with anticipated completion in April 2007. Cost of the station is \$1,400,000.

After an April 2006 thunderstorm with straight line winds in excess of 70 miles per hour, the main communications tower for Public Safety service was demolished. A top priority was the reconstruction of the tower with stronger foundations. Designs were completed and bid, with the tower reentering service in November 2006 at a cost of \$104,000.

Roadways

The "Moving Morristown" program of roads to relieve congestion on West Andrew Johnson Highway and to open areas for commercial development proceeded during the year. Veterans Parkway, the proposed West Andrew Johnson reliever, was preliminarily designed on four of the planned seven segments. With the announcement of Colgate-Palmolive's new Total toothpaste plant, three legs have been committed to final design, right-of-way acquisition and construction. A fourth leg has moved to the right-of-way acquisition phase. Veterans Parkway from State Route 160 to Bellwood Road is anticipated to be complete by late summer 2007.

The frontage road system along the present West Andrew Johnson Highway also saw significant advances. Designs on Walters Drive, Pearce Drive and Barker Street were all completed with actual construction approved for Barker Street. Walters Drive and Pearce Drive are scheduled to begin construction mid-2007.

Much of the area around the City Center was disrupted as construction on East First North continued. This major reconstruction of over 1 mile of major arterial street in the downtown area included new roadbed, upgraded water and storm water systems and new sidewalks and landscape islands. This \$3,200,000 project is scheduled for completion in April 2007.

The construction of an interstate quality interchange on Crockett Parkway at State Route 343 in the Witt community is met by significant opposition at the public hearing held by the Tennessee Department of Transportation. In May 2006, TDOT withdraws it support for the Appalachian Regional Commission funded project. TDOT has been supportive of keeping the funding in Morristown by advancing the idea that the interchange could be built at Crockett Parkway and Cherokee Park Drive.

Education

City Council partners with the Hamblen County Board of Education, Hamblen County Government and the Jefferson Federal Foundation to renovate space controlled by Walters State Community College as the home of the International Learning Center. This project would place foreign language students of all ages in English immersion class rooms until their proficiency in English enables them to return to regular school classes. The City contributes \$60,000 as their share of renovation costs for the classrooms.

Sanitary Sewer System

The mid-course study of the ten year sewer master plan reveals that the need for major line rehabilitation has accelerated, while revenues from surcharges have dramatically decreased. The installation of pre-treatment facilities at several Morristown businesses has reduced the income from surcharges by \$500,000 per year. In addition, major trunk sewer line collapses are discovered on West First North, South Cumberland and Morris Boulevard.

To be responsive, over \$24,000,000 in rehabilitation of sewer lines needs to be completed in a four year period. Existing funding sources are able to fund approximately \$15,000,000 over the same time period. Lamar Dunn and Associates, the City's consultant for the ten year master plan, recommends a 33% sewer rate increase over a two year period to properly be able to finance the remaining work. City Council adopts the rate increases in late 2006 after proper public hearings and comment periods.

The first of three phases in the replacement of the Turkey Creek sewer trunk line begins early 2006. Turkey Creek is the main interceptor sewer for a majority of Morristown. The line is in excess of 80 years old and suffers from a number of collapses and leaks over its 3 mile length. This project replaces over 1.25 miles of old clay sewer pipe with 30" diameter PVC while maintaining the environmental integrity of the system. Funding for the completed replacement project at over \$3,200,000 is included in the City's 10 year sewer master plan.

From the bankruptcy of Liberty Fibers, the City has the opportunity to purchase a 10 million gallon per day wastewater treatment plant located on the Nolichucky River. The asset of the wastewater treatment plant was valued by McGill and Associates in excess of \$7 million. From the location of the existing plant, nearly 40% of the land area of Hamblen County can be sewered by gravity with minimal expenditures to retrofit the plant for municipal wastes. The strategic goal of having only one provider of sanitary sewer service for Hamblen County will be difficult without the capability of this wastewater plant. Negotiations with the bankruptcy trustee are on going.

The major Collinson Ford trunk sewer construction project was completed during early 2006. This \$1,900,000 project will provide sanitary sewer services to two recently annexed subdivisions, but more importantly, by City Council agreeing to sewer to the geographic end of the drainage way, at least three other developed subdivisions not presently in the City and hundreds of acres for future development can now be easily served.

The three year provision of sanitary sewer service to the four "donut hole" annexations was initiated and on time for providing both sanitary sewers and storm water drainage systems for these areas.

Cash management policies and practices. The City's investment policy is to minimize market risks while maintaining a competitive yield on its portfolio. Accordingly, deposits were either insured by Federal Depository Insurance or collateralized. Cash was invested in certificates of deposit, repurchase agreements, and the State Treasurer's investment pool. The government held all collateral, on deposit, during the fiscal year ended June 30, 2006 in the category of lowest risk as defined by Governmental Accounting Standards Board.

Risk management. The Risk Management Program includes all lines of loss exposure. These exposure areas include: Workers' compensation, Property Damage, General Liability, Error and Omission; Crime; and Accidental Death and Dismemberments. Please see page 80 to the financial statements for more information.

Pension and other post employment benefits. The City of Morristown provides pension and benefits for all of the employees through the Tennessee Consolidated Retirement System. The City of Morristown also provides post retirement health care benefits for certain retirees and their dependents. Additional information on the City's pension arrangements and post employment benefits can be found on page 55.

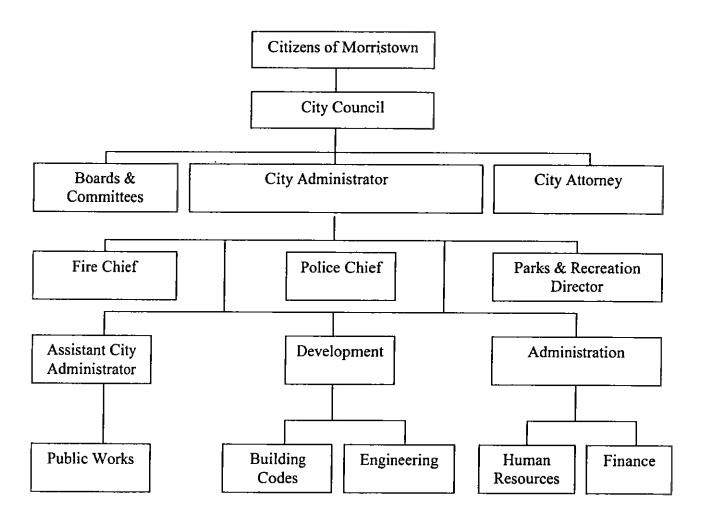

Acknowledgment. The preparation of the CFAR could not have been accomplished without the efforts and dedication of the staff of the Department of Finance. We would like to express our appreciation to the Finance staff and other personnel from various departments, agencies, and authorities that assisted in the preparation. Also, we would like to thank the Mayor and Council for their guidance and support.

Respectfully submitted,

Administrator

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Board of Aldermen City of Morristown Morristown, Tennessee

We have audited the accompanying financial statements of the governmental activities, general fund budgetary comparisons, business-type activities, major funds, and remaining fund information which collectively comprise the basic financial statements of the City of Morristown, Tennessee as of and for the year ended June 30, 2006, as listed in the table of contents. These financial statements are the responsibility of the City of Morristown, Tennessee management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of Morristown Utility Commission proprietary fund types, which statements reflect total assets of \$105,091,844 as of June 30, 2006, and total revenue of \$61,263,291 for the year then ended. Those financial statements were audited by other auditors and the reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for Morristown Utility Commission, is based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Morristown, Tennessee as of June 30, 2006, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2006, on our consideration of the City of Morristown, Tennessee internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Gaine, Thompson + Jones P. C.

The management's discussion and analysis on pages 19 through 20 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Morristown, Tennessee basic financial statements. The introductory section, combining and individual non-major fund financial statements, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining non-major fund financial statements and the schedules of expenditures of federal and state awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

December 15, 2006

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management for the City of Morristown, we offer readers of the City of Morristown's financial statements this narrative overview and analysis of the financial activities of the City of Morristown for the fiscal year ended June 30, 2006. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal, which can be found on page 3 of this report.

Financial Highlights

- The assets of the City of Morristown exceeded its liabilities at the close of the most recent fiscal year by \$118 million (net assets), a decrease of \$.4 million during FY 2006. Of this amount, \$16 million (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- As of the close of the current fiscal year, the City of Morristown's governmental funds reported combined ending fund balances of \$12.6 million, an increase of \$5.5 million in comparison with the prior year.
- At the end of the current fiscal year, unreserved fund balance for the General fund was \$ 4.1 million or 15 % of the 2007 general fund operating budget including transfers out.
- The City of Morristown's total bonded debt increased by \$7.5 million during the current fiscal year. The key factor in this increase was the issuance of \$10 million in general obligation bonds for general fund projects.

Overview of the Financial Statements

This discussion and analysis serves as an introduction to the City of Morristown's financial statements. The basic financial statements consist of three parts: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City of Morristown's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City of Morristown's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Morristown is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of

related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxed and earned but unused vacation leave).

Both the government-wide financial statements distinguish functions of the City of Morristown that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Morristown include general government, public safety, highways and streets, sanitation, economic development, and culture and recreation. The business-type activities include the City's electric, water, and sewer systems. The Morristown Utilities Commission functions for all practical purposes as a department of the City and therefore has been included as a business-type activity of the primary government.

The government-wide financial statements can be found beginning on page 30 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Morristown, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Morristown can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Morristown maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the solid waste fund, both of which are considered to be major funds. Data from

the other governmental fund are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City of Morristown adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found beginning on page 30 of this report.

Proprietary funds. The City of Morristown maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Morristown uses enterprise funds to account for its water, sewer, and electric systems.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Morristown Utilities Commission and for the sewer operations, both of which are considered to be major funds of the City of Morristown.

The basic proprietary fund financial statements can be found on page 36 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are *not* available to support the City of Morristown's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on page 39 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Morristown's progress in funding its obligation to provide pension benefits to its employees.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of the government's financial position. In the case of the City of Morristown, assets exceeded liabilities by \$118 million at the close of the most recent fiscal year. Net assets increased by \$1 million for the period.

By far the largest portion of the City of Morristown's net assets (83 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The City of Morristown uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of Morristown's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Morristown's Net Assets

	Governmenta	l activities -	Business-type activities		Total	
	2006	2005	2006	2005	2006	2005
Current and other assets	\$ 38,885,192	\$ 31,148,563	\$ 24,343,611	\$39,902,467	\$ 63,228,803	\$ 71,051,030

An additional portion of the City of Morristown's net assets (15 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net assets* (\$16,045,796) may be used to meet Morristown's ongoing obligations to citizens and creditors.

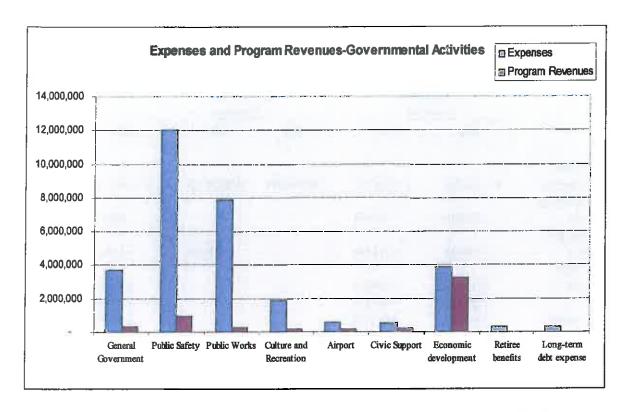

At the end of the current fiscal year, the City of Morristown is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities.

Governmental activities. Governmental activities decreased the City of Morristown's net assets by \$1,219,206. The following is a summary of financial activities for the City during the fiscal year ended June 30, 2006.

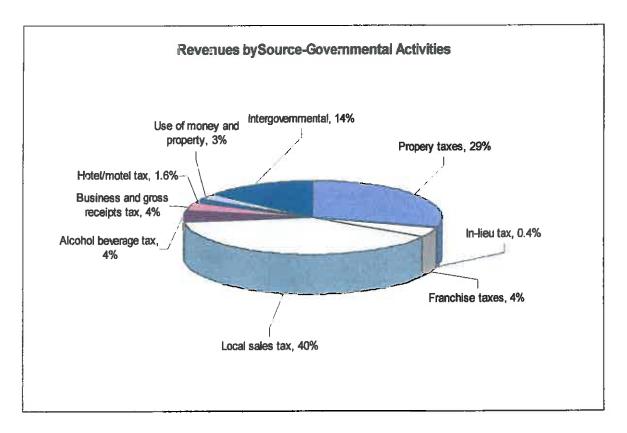

City of Morristown's Changes in Net Assets

The two largest sources of governmental activity revenue, property taxes and local sales tax, accounted for 56% of the total governmental activity revenues.

The graph below presents the major sources of revenue for governmental activities.

Business-type activities. Business-type activities increased the City of Morristown's net assets by \$1,891,263.

Financial Analysis of the Government's Funds

As noted earlier, the City of Morristown uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City of Morristown's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Morristown's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Morristown's governmental funds reported combined ending fund balances of \$12,623,330 an increase of \$5,597,539 in comparison with the prior year.

The General Fund's fund balance increased \$5,639,973. Approximately \$4.1 million of the general fund balance constitutes unreserved fund balance, which is available for spending at the government's discretion. The remainder of fund balance is reserved to liquidate contracts and to fund a variety of other capital projects.

The general fund is the chief operating fund of the City of Morristown. At the end of the current fiscal year, unreserved fund balance of the general fund was \$ 4,060,987 while total fund balance reached \$ 12,612,463. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 15 percent of total general fund expenditures, while total fund balance represents 40 percent of that same amount. This compares to 28% and 26% respectively in the FY 2005 report.

Proprietary Funds. The City of Morristown's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the Morristown Utility Commission, which operates electric, water, and telcom service for the City, at the end of the year, amounted to \$11.2 million. The city operated sewer system amounted to \$2.3 million. The growth in unrestricted net assets for Morristown Utility Commission was \$800,000 and for the city sewer fund \$1.1 million. Other factors concerning the finances of these two funds have already been addressed in the discussion of the City of Morristown's business-type activities.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget can be briefly summarized as follows:

- \$4,805,572 in increases allocated for industrial park projects.
- \$1,981,839 in increases allocated for street improvements.
- \$418,204 in increases allocated to the police department for additional cars and equipment.
- \$339,079 in increases allocated to the recreation department for park improvements.
- \$54,038 in increase allocated to the fire department for a new fire station.

The increases were funded from grants and grant sources, fund balance, and bond proceeds.

Additional budgetary highlights included:

• Funding for a 1.5% cost of living adjustment for all City employees and a 2.5% step raise for eligible employees.

Departments continue to monitor operating cost within budgetary guidelines.

Capital Asset and Debt Administration

Capital assets. The City of Morristown's investment in capital assets for it's governmental and business type activities as of June 30, 2006, amounts to \$31.7 million

and \$ 109 million, respectively (net of accumulated depreciation). Capital assets increased \$1 million and \$ 19 million respectively. This investment in capital assets includes land, buildings, system improvements, machinery and equipment, park facilities, roads, highways, and bridges.

Additional information on the City of Morristown's capital assets can be found on page 44 of this report.

Long-term debt. At the end of the current fiscal year, the City of Morristown had total bonded debt outstanding of \$ 55.9 million; of this amount \$20.9 million comprises net direct debt of the general government. The remainder of the City of Morristown's debt represents bonds secured by specified revenue sources and the full faith and credit of the government.

Additional information on the City of Morristown's long-term debt can be found on page 47 of this report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the City of Morristown is currently 4.9 percent, which is a decrease from a rate of 5.4 percent a year ago. This compares to the state's average unemployment rate of 5.0 percent and the national average rate of 5.5 percent.
- Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the City of Morristown's budget for the 2007 fiscal year.

The 2006-2007 annual budget continued the trend of holding tax rates steady.

Key elements of the General Fund budget include a 1.5% cost of living adjustment for all employees and a 2.5% step raise for eligible employees, over \$400,000 of additional retirement funding, funding for 13 firefighters to open Station 6, dollars for building tomorrow's work force through support of scholarships at Walters State and Tennessee Technology Center, funding for \$7 million of the Moving Morristown projects of roads, \$1 million in parks improvement and funding for the City's commitments to the Morristown College Revitalization area including the indoor/outdoor swimming complex. Departments have sufficient funding to continue the level of services provided to our residents and through the use of debt an adequate amount of new and replacement equipment.

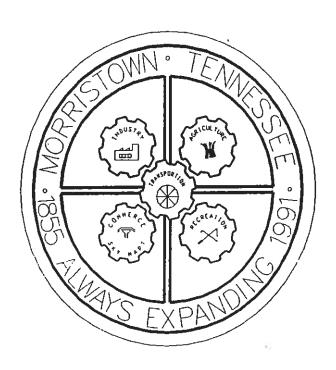

The existing co-pay PPO health insurance plan utilized by about 85% of the work force would be eliminated. All employees would enroll in the existing PPO with its \$100 deductible. The budget is balanced with this health plan option.

The local option sales tax makes up 40% of the City's revenue stream. Beginning with local retail sales in February 2006, the collections of the local option sales taxes for Morristown has not met budget expectations. Fiscal Year 2006 saw actual sales increase by 3.2 %, falling \$273,313, below the budget established. With four months collected of the Fiscal Year 2007 local option sales taxes, collections are 2.8% below the same four months of the previous year. When coupled with a 5% growth projection, the FY 2007 General Fund budget estimate for local option sales tax may finish as much as \$650,000 below the projection. Department heads have been asked to slow or stop any discretionary spending. However the large percentage of the City's budget attributable to payroll and benefits and the fact that six months of the Fiscal Year have passed indicate the difficulty of the Fiscal Year 2007 General Fund finishing in the black. New assumptions about local option sales tax growth will be in place for the Fiscal Year 2008 budget preparation.

The Sewer Fund was improved through the addition of a Construction Manager, a Resident Inspector and a four person construction crew. Sufficient dollars are budgeted to purchase the equipment required to make the crew productive. With over \$18.5 in sewer projects scheduled for the next four years, funding was provided to examine the current 10 year financial plan and recommend "mid-course" corrections if needed. Later during the year, City Council enacted a 33% sewer rate increase as a result of the mid-course master plan study.

Requests for Information

This financial report is designed to provide a general overview of the City of Morristown's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for addition financial information should be addressed to the City of Morristown, Finance Department Director, P.O. Box 1499, Morristown, Tennessee 37816-1499. The Comprehensive Annual Financial Report and other information about the City may be found on the City's website www.mymorristown.com, as part of our continuing usage of advancing technology and e-commerce.

City of Morristown, Tennessee
Reconcilation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
Year Ended June 30, 2006

Amounts reported for governmental activities in the statement of activities are different because:

different because:	
Net change in fund balancestotal governmental funds	\$ 5,597,539
Governmental funds report capital outlays as expenditures. However, in the	
statement of activities the cost of these assets is allocated over their estimated	
useful lives and reported as depreciation expense. This is the amount by which	
capital outlays exceeded depreciation in the current period.	992,596
Governmental funds report additions to the Industrial Park as expenditures,	
whereas, in the government-wide financial statement the expenditures are	
added to the cost and the profit or loss is recorded as the lots are sold.	404,000
The issuance of long-tenn debt (e. g., bonds, leases) provides current financial	
resources to government funds, while the repayment of the principal of long-term	
debt consumes the current financial resources of government funds. Neither	
transaction, however, has any effect on net assets. Also, governmental funds	
report the effect of issuance costs, premiums, discounts, and similar items when	
debt is first issued, whereas these amounts are deferred and amortized in the	
statement of activities. This amount is the net effect of these differences in the	
treatment of long-term debt and related items.	(8,594,467)
Compensated absences are considered expenditures when paid on the	
governmental fund basis, but are on the accrual basis on the government-wide	
financial statements, thus the governmental basis is adjusted to the actual liability	
naonity	(99,890)
Decrease in Deferred Property taxes	401.014
, .	 481,016
Changes in net assets of governmental activities	 (1,219,206)

The notes to financial statements are an integral part of this statement.

The notes to financial statements are an integral part of this statement.

City of Morristown, Tennessee Notes to Financial Statements
June 30, 2006

I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Morristown, Tennessee is a municipal corporation operating under the Council-Administrator form of government. The City's major operations include police and fire protection, parks and recreation, public works, sewer and general administrative services. In addition, the City owns and operates a water and electric system. The water and electric system are operated by a separate board appointed by the Mayor and approved by City Council.

The City's financial statements are prepared in accordance with Generally Accepted Accounting Principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the City has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the City has chosen not to do so. The more significant accounting policies established in GAAP and used by the City are discussed below.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, Basic Financial Statements-Management's Discussion and Analysis-for State and Local Governments. Certain of the significant changes in the statement include the following.

- A Management Discussion and Analysis (MD&A) section providing an analysis of the City's overall financial position and results of operations.
- Financial statements prepared using full accrual accounting for all of the City's activities, including infrastructure (roads, bridges, etc.)
- A change in the fund financial statements to focus on major funds.

These and other changes are reflected in the accompanying financial statements (including notes to financial statements). The City elected to implement both the general provisions and infrastructure provisions.

A. Reporting Entity

These financial statements present the City (the primary government). There are no component units.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the primary governments. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted meeting the operational or capital requirement of a particular function or segment.

Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures. Accordingly, actual results could differ from these estimates.

C. Measurement, Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligible requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due. The City accrues accumulated unpaid vacation and other compensated absences, when earned by the employee. The non-current portion (the amount estimated to be used in subsequent fiscal years) for government funds is maintained separately and represents a reconciling item between the fund and government-wide presentations. Inventory costs are reported in the period when inventory items are used, rather than in the period purchased.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue during the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except for those required to be accounted for in another fund.

The solid waste fund is the fund used to pay for all solid waste expenditures. Transfers are made from the General Fund to meet these expenditures.

The government reports the following major proprietary funds:

Morristown Utility Commission oversees the water, electric, and telcom activities. The sewer activities are directed by the City Administrator.

Additionally, the government reports the following fund types:

The narcotics fund is required by State of Tennessee.

Special revenue funds receive revenue from designated sources and transfers from the General Fund and are expended for designated purposes.

Standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Government Accounting Standards. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidelines.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenue and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal on-going operations. The principal operating revenue of the enterprise fund is charged to customers for sales and services. The City also recognizes as revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements and other activities that are outstanding at the end of the year are referred to as either "due to/from other funds." These have been eliminated in the government-wide statement of net assets.

All trade receivables were considered collectible at June 30, 2006. Based on experience, an allowance for uncollected property taxes of .1% of the tax levies for the past ten years is maintained.

Property taxes are levied as of January 1 on property values assessed as of the same date. Bills for those taxes are usually mailed the first of July. A 2% discount is offered for payment within thirty days after the bills are mailed. On December 1st, any unpaid taxes become delinquent and a penalty of 4½% is assessed with an additional 1% per month for additional delinquency. After one year and eleven months, any unpaid taxes are sent to the County Clerk and Master for collection.

3. Inventories

All inventories are valued at the lower of cost or market. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

4. Restricted Assets

This represents constraints placed on the use of assets through external restraints imposed by creditors (such as through debt covenants) or by grants, contributors, or laws and regulations of other governments or constraints imposed by law or enabling legislation.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (i.e., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets used in the government-wide financial statements are defined as those having an individual cost of more than \$5,000 and an estimated life in excess of two years.

6. Compensated Absences

It is the government's policy to permit employees to accumulate earned but unused sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

7. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary statement of net assets. Bond premiums and discounts, as well as issuance costs are deferred and amortized over the life of the bonds.

In the fund financial statements, governmental fund types recognize bond premium and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

II - Reconciliation of Government-Wide and Fund Financial Statements

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheet includes reconciliation between fund balance-total governmental funds and the government-wide statement of net assets.

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balance includes reconciliation between net changes in fund balance-total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities.

III -Stewardship, Compliance and Accountability

A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except for the capital projects funds with project-length budgets. All annual appropriations lapse at fiscal year end.

Around the first of March, the budget process begins, with the City Administrator giving direction to department heads. Toward the end of March, Department heads submit their proposed budgets, and these are reviewed by the City Administrator, who makes the final decisions before submission to City Council. City Council has work sessions and makes their revisions and publishes the proposed budget in the local newspaper. Before June 30, City Council adopts the budget ordinance with two readings.

The appropriated budget is prepared by fund, function, and department, but the budget ordinance is on the fund level. The government's department heads may make transfers of appropriations within their department. The legal level of budgetary control is the fund level. City Council amended the original budget, and the original and final amounts are presented in the financial statements included in this report.

IV - Detailed Notes on All Funds

A. Deposits and Investments

At year-end, deposits and short-term investments were as follows:

_		Cash and Equivalents		Short-term Investments
Government type funds	\$	3,177,540	\$	4,871,824
Enterprise type funds		11,712,367	\$	991,031
Totals	<u> </u>	14,889,907	\$\$	5,862,855

As of June 30, 2006, Morristown Utility Commission has approximately \$179,000 in cash and cash equivalents exposed to credit risk because the related accounts were uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the Commission's name or were not categorized at all. A portion of the City's deposits as of June 30, 2006, were not covered by the bank collateral pool administered by the Treasure of the State of Tennessee. Banks participating in the pool report the aggregate balance of their public funds to the State. Collateral to secure those deposits must be pledged to protect the State of Tennessee in the Local Government Investment Pool.

The City has a repurchase agreement with Hamblen County Bank whereby City funds are invested overnight in securities of the U.S. Treasury Department. At June 30, 2006, the City had \$4,744,792 invested in these securities and has included these in cash and cash equivalents.

The short-term investments represent un-drawn bond proceeds.

Morristown Utility Commission has \$300,000 invested in municipal bonds that have an AAA rating. This is in conformity with state statutes.

B. Receivables as of year end for the government's individual major funds and non-major funds in the aggregate were as follows:

Non-Major and General Other Funds Enterprise Totals Receivables Taxes 7,365,259 7,365,259 Accounts 1,744,013 8,309 5,722,993 7,475,315 Intergovernment 4,071,135 57,081 4,128,216 Gross receivables 13,180,407 65,390 5,722,993 18,968,790 Less: Allowance for bad debt (55,078)(55,078)Net receivables 13,125,329 65,390 18,913,712

Included in taxes receivable of the General Fund is property taxes of \$6,835,272 that were assessed on January 1, 2006, but will not be billed until after June 30, 2006. There is an offsetting deferred income for the above balance.

C. Capital Assets

Capital assets of the City of Morristown primary government were as follows:

Governmental activities: Capital assets not being	Balance July 1, 2005	Increases	Decreases	Balance June 30, 2006
depreciated:				
Land	\$ 7,373,682	\$ 1 80 ,207	\$ -	\$ 7,553,889

Depreciation expense was charged to government activities as follows:

General Government	\$	95,396
Public Safety	•	554,425
Public Works		595,076
Parks and Recreation		115,673
Airport	<u></u>	412,033
Total	_ \$	1,772,603
Denreciation expense was charged to busine		

Depreciation expense was charged to business-type activities as follows:

Sewer	\$ 1,596,610
Water and Electric Power	 3,157,088
Total	 4,753,698

D. Accounts payable and other current liabilities:

	G	overnmental	Business Type			
Accounts Payable	\$	1,970,772	\$	5,050,218		
Accrued payroll and other liabilities		322,226		2,025,342		
Total	\$	2,292,998	\$	7,075,560		

E. Interfund receivables, payables, and transfers

The interfund receivables and payables as of June 30, 2006 were as follows:

Receivable from	Payable to		Amount
Telcom System	Electric System	<u></u>	1,262,957
Sewer System	General Fund	•	1,018,310
Electric System	Sewer System		350,126
Water System	Electric System		28.477
Total	•	\$	2,659,840
		<u> </u>	<u>2,</u> 659,840

Interfund transfers for the year ended June 30, 2006, were as follows:

Transfer from	Transfer to	Amount	
General Fund Electric System General Fund Water System Total	Solid Waste Fund General Fund Narcotics Fund General Fund	\$ 1,609,584 621,279 108,336 32,020	
		 2,371,219	

F. Deferred revenue

Deferred items were all in the General Fund and consisted of the following:

June 30, 2006 and delinquent taxes receivable	\$ 6,835,262	
Advance payment for street work	 60,000	
	 6,895,262	_

G. Noncurrent liabilities

The following schedule presents the activities of the bond and notes payable of the City:

G. Changes in Long-Term Debt

The following is a summary of the changes in long-term debt for the year ended June 30, 2006.

Balance June 30, <u>2006</u>		600	3,550,000	007,000,1	1,462,000	000 029 6	1 925 000	10 000 000	20,922,286			1.360.000	2.880.000	2.664.714	918,000	3.000.000		9	307.013	000,000,0	3.0	220.000	1 160 000	415 500	200,200	433,000	18 000 000	33,790,247		1,280,000		55,992,533

Also, included in non-current liabilities is a liability for compensated absences in the sewer system of \$23,145 and in the general fund of \$944,234. In addition, there is included in the non-current liabilities \$9,079,369 proceeds from a revolving loan agreement with the State of Tennessee, wherein the Morristown Utility System has borrowed \$9,079,369 to improve the water system. In addition, Morristown Utility System has a capital lease payable of \$26,319,\$13,160 of which is included in long-term liabilities.

Telcom System Series D-1-A Bond

During 2005, the City issued variable rate \$18,000,000 Public Building Authority of Blount County Bonds (Series D-1-A) on behalf of the Telecom system. The bonds were issued for the purpose of financing the cable television and internet infrastructure of the Telcom System. The bonds are payable in annual installments ranging from \$375,000 in 2009 to \$1,525,000 in 2030. These bonds are included in the business activity liabilities.

The Bond is secured by the taxing authority of the City. As of June 30, 2006, the Commission had \$2,548,581 in proceeds from this debt issue on deposit with a financial institution which were restricted in use to acquisition, construction, improvement, renovation, equipping and repair of a cable television and internet system.

Under its loan agreement, the Public Building Authority of Blount County, Tennessee (the "Authority"), at the request of the City, has entered into an interest rate swap agreement for all of the outstanding Local Government Improvement Bonds, Series D-1-A.

In order to protect against the potential of rising interest rates and to balance its mixture of variable and fixed rate debt, the City requested the Authority, on its behalf, to enter into an interest rate swap in connection with its \$18 million Series B-1-A variable-rate bonds. The intention of the swap was to effectively change the City's variable interest rate on the bonds to a synthetic fixed rate.

Under the swap, the Authority pays the counterparty a fixed payment of 3.314% and receive a variable payment computed as 59% of the one-month London Interbank Offered Rate ("LIBOR") plus 35 basis points (0.35%). The swap has a notional amount of \$18 million and the associated variable-rate bond has an \$18 million principal amount. The interest swap agreement is based on the same amortization schedule as the outstanding principal of the Series D-I-A Bonds. The bonds' variable-rates have historically approximated the bond Market Association Municipal Index TM (the "BMA").

The bonds mature on June 1, 2030, and the related swap agreement matures on June 1, 2015. As of June 30, 2006 and 2005, rated under this agreement were as follows:

Fixed payment to counterparty Variable payment from counterparty	2006 3.31% 3.58%	2005 3.31% -2.31%
Net interest rate swap payment Variable rate bond coupon payments Synthetic interest rate on bonds	-0.27% 3.91% 3.64%	1.00% 2.30% 3.30%

The swap agreement yielded interest savings of approximately \$114,000 and \$30,000 in 2006 and 2005, respectively.

As of June 30, 2006, the swap had a positive fair value of \$236,752. The positive fair value of the swap may be countered by increases in total interest payments required under the variable-rate bond, creating higher synthetic rates. Because the rates on the government's variable-rate bonds adjust to changing interest rates, the bonds do not have a corresponding fair value increase. The fair value model calculates future cash flows by projecting forward rates, and then discounts those cash flows at their present value.

As of June 30, 2006, the City's exposure to credit risk is equal to the amount of the swap's positive fair value. However, should interest rates change and the fair value of the swap becomes negative, the City would no longer be exposed to credit risk, the Authority, on behalf of the City, received a Financial Guarantee Insurance Policy for the swap agreement from Ambac Assurance Corporation, who was rated "AAA" by Standard and Poor's and Fitch and "Aaa" by Moody's Investor Service as of June 30, 2006. If Ambac's credit rating is downgraded, the counterparty is required to post collateral with a third-party custodian.

As noted above, the swap exposes the city to basis risk should BMA increase to above 59% of LIBOR plus 35 basis points, thus increasing the synthetic rate on the bonds. If a change occurs that results in the BMA to be below 59% of LIBOR plus 35 basis points, then the synthetic rate on the bonds will decrease.

The derivative contract uses the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. The Schedule to the Master Agreement includes an "additional termination provision." The Authority or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. If the swap is terminated, the variable-rate bond would no longer carry a synthetic interest rate. Also, if at the time of the termination the swap has a negative fair value, the Authority would be liable to the counterparty for a payment equal to the swap's fair value. Likewise, if the swap has a positive fair value at termination, the counterparty would be liable to the Authority for a payment equal to the swap's fair value.

As of June 30, 2006, debt service requirements of the variable-rate debt and net swap payments, assuming current interest rates remain the same, for their term were as follows. As rates vary, variable-rate bond interest payments and net swap payments will vary.

I. Prior period adjustment

It was discovered that an accounts receivable for the general fund was overstated by \$205,073 at June 20, 2005.

J. Segment information:

There are three services provided by the City that are financed by user charges-sewer, power and water. Summary financial information for these enterprise funds is presented below:

Reserve fund balance, July 1, 2005 Add – state gasoline tax revenues Less – state gasoline tax expenditures	\$ 21,247 713,071
Reserve fund balance, June 30, 2006	\$ _0

V. Other Disclosures

A. Commitments and Contingencies:

At June 30, 2006, the City of Morristown had the following commitments:

General Fund - Uncompleted contracts	\$ 1,553,984
Sewer System – Uncompleted contracts	2,989,646
Sewer Operating Contract (approximate annual cost)	1,000,000
Telecom – Construction contracts	1,302,826

Contingent liabilities:

The government is the defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the government's counsel the resolution of these matters will not have a material affect on the financial condition of the government.

B. Concentration of Credit Risk

The City of Morristown and Morristown Utility Commission provide electric, water and sewer service to customers in the City of Morristown and Hamblen County. Loss experience has not been significant for this service.

C. Joint Ventures

Morristown-Hamblen County Library – The City of Morristown and Hamblen County jointly own the Morristown-Hamblen Library. Each appoints an equal number of members to its board by directors. The City contributed \$218,500 for the library operation during the fiscal year ended June 30, 2006.

Hamblen County-Morristown Solid Waste Authority – The City of Morristown and Hamblen County jointly own the Hamblen County-Morristown landfill. Each appoints an equal number of members to the board of directors. This operation is self-sufficient in that users are charged for services rendered. During the year ended June 30, 2006, the City was charged \$755,773.

D. Pension Plan Information

CITY OF MORRISTOWN

Plan Description

Employees of Morristown are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with 10 years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with 5 years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979, become vested after 10 years of service and members joining prior to July 1, 1979 were vested after 4 years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as City of Morristown participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at www.treasury.state.tn.us/tcrs/PS/. Copies of footnotes in PDF format can be accessed at https://www.treasury.state.tn.us/tcrs/PS/.

Funding Policy

City of Morristown requires employees to contribute 5.0% of earnable compensation.

City of Morristown is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2006 was 7.37% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for City of Morristown is established and may be amended by the TCRS Board of Trustees.

Fiscal Year Ending	Annual Pension Cost (APC)	Percentage of APC Contributed	Net ension digation
June 30, 2005	\$ 892,786	100.00%	\$ ngation
June 30, 2004	\$ 842,965	100.00%	\$ _
June 30, 2003	\$ 352,027	100.00%	\$ _

Annual Pension Cost

For the year ended June 30, 2006, City of Morristown's annual pension cost of \$892,786 to TCRS was equal to City of Morristown's required and actual contributions. The required contribution was determined as part of the July 1, 2003 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5% a year compounded annually, (b) projected salary increases of 4.75% (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (c) projected 3.5% annual increase in the Social Security wage base, and (d) projected post retirement increases of 3.0% annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a five-year period. City of Morristown's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2005 was 10 years. An actuarial valuation was performed as of July 1, 2005, which established contribution rates effective July 1, 2006.

MORRISTOWN UTILITY COMMISSION

The Commission has a defined contribution retirement plan (Morristown Power and Water System Employees' Restated 401(k) Asset Accumulation Plan) covering substantially all employees. The Commission is the administrator of the plan and is responsible for establishing or amending the plan provisions and contribution requirements.

During 2006, the amount of payroll covered by the plan was \$4,571,399 of total payroll of \$5,200,790. Under the plan terms, the Commission will match participant contributions up to 3% of the participant's salary and may also contribute an additional amount to the plan at its discretion. During 2006 and 2005, the discretionary contribution amounted to 10% and 12%, respectively, of the participants' salary. Participants are not required but may contribute up to a total of 75% of their salary subject to IRS limitations. All employees who have completed one year of service as defined by the Plan and who have attained the age of 21 are eligible to participate in the Plan.

Participants are 100% vested in the employer contributions when they are made. The Commission contributed \$692,833 in 2006 and \$619,200 in 2005 into the Plan, which represents 13% and 15% of the covered payroll and 100% of the required contribution. The participants contributed \$339,505 in 2006 and \$299,866 in 2005 that represents 7% of the covered payroll.

E. Deferred Compensation Plan

The City of Morristown Primary Government offers its employees, with the exception of those employed by Morristown Utility Commission, a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is available to certain City employees and permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. All assets of the plan are held for the exclusive benefit of participants and therefore are no longer shown in the City's Trust and Agency Fund.

F. Post-Retirement Healthcare Benefits

City of Morristown - excluding water and electric systems

It is the City's policy to supplement hospital insurance premiums until age 65 for those employees who take early retirement. During the year ended June 30, 2006, there were 49 retirees under this plan with a cost to the City of \$340,307.

Water and Electric Systems

The Commission pays health insurance premiums for former full-time employees who have retired after attaining the age of 60 and have not yet attained the age of 65. The Commission will also pay 50% of these former employees' dependent coverage. The Commission is not required to provide these benefits by any statutory, contractual or other authority. As of June 30, 2006, there were six former employees eligible to participate in the plan. Benefits relating to these retirees are expensed when paid and totaled \$22,266 in 2006 and \$23,295 in 2005.

In August 2004, the Governmental Accounting Standards Board ("GASB") issued GASB Statement No. 45, ("GASB 45") Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, which provides for employers to account for and report the annual cost of other post-employment benefits ("OPED") and the outstanding obligations and commitments related to OPED in a manner as they currently do for pensions under GASB 27, Accounting for Pensions by State and Local Governmental Employers. The Commission will be required to adopt GASB 45 in the fiscal year beginning July 1, 2009. The Commission has not assessed whether this statement will have a significant impact on the Commissions financial statements.

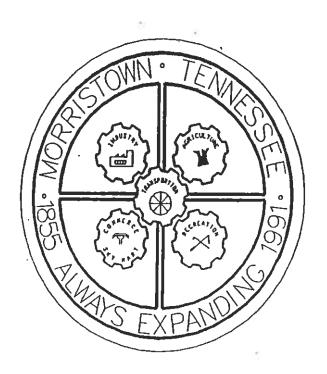

G. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries of employees for which the City carries commercial insurance purchased from independent third parties. The City has not experienced an insurance settlement in excess of insurance coverage in any of the past three fiscal years. The City bears the risk of loss up to the deductible amounts that are disclosed in the accompanying Statistical Section.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Board of Aldermen City of Morristown, Tennessee

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Morristown, Tennessee, as of and for the year ended June 30, 2006, which collectively comprise the City of Morristown, Tennessee's basic financial statements and have issued our report thereon dated December 31, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States

Internal Control Over Financial Reporting

In planning and performing our audit, we considered City of Morristown, Tennessee's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Morristown, Tennessee's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the audit committee, management, City Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

December 15, 2006
