## EXECUTIVE SUMMARY

The Pasco County Opioid Task Force, together with various community partners, has prepared this plan which aims to provide a framework for the planning and funding priorities to address opioid use and other substance disorders in Pasco County. This plan may be revised on a quarterly basis to adopt changes needed based on community needs, as a review of Pasco County's existing resources and opportunities continues with providers and stakeholders.

Historic Pasco County Courthouse Recognizing  
2024 International Opioid Overdose Awareness Day

## OPIOID SETTLEMENT BACKGROUND

In 2018, Pasco County, along with numerous other cities and counties, filed suit against manufacturers and distributors of opioids. At the time, the State of Florida also sued 11 corporate entities for their wrongful conduct in the opioid epidemic crisis. In 2021, Pasco County formalized its agreement with the State of Florida in order to obtain funds as part of the global settlement on what became later known as [The Florida Plan](#). In 2022, a global settlement of all the cases, through cooperation between the State Attorney General and local governments in Florida, resulted in the state negotiating its share of the nationwide opioid settlement. The litigation from the opioid settlements represents thousands of lawsuits across the country against opioid pharmaceutical

companies and distributors, whose practices contributed to the opioid crisis. These dollars were split into two main funds: the “City/County Fund” and the “Regional Fund.” Pasco County and two of its largest municipalities, the Cities of New Port Richey and Zephyrhills, received funding from the settlement through the City/County Fund; this is the smallest allocation available for grant opportunities.

As part of the settlement, Florida Counties could also opt to become “Qualified Counties” in order to manage additional funds for treatment, prevention, and recovery efforts, if the following requirements were met:

- Be a charter or non-chartered county within the State that has a population of at least 300,000 individuals; and
- Has an opioid task force of which it is a member or operates in connection with its municipalities or others on a local or regional basis;
- Has an abatement plan that has been either adopted or is being utilized to respond to the opioid epidemic;
- Is currently either providing or is contracting with others to provide substance abuse prevention, recovery, and treatment services to its citizens; and
- Has or enters into an agreement with a majority of Municipalities (majority is more than 50% of the municipalities' total population) related to the expenditure of Opioid Funds.

Pasco County, having met the requirements listed above, submitted formal documentation to become officially designated as a Qualified County. Below is a list of the documents that enabled the Support Services Department to seek out community members to join the Opioid Task Force; create and manage the Opioid Treatment, Prevention and Recovery Fund; and support the Board of County Commissioners’ vision for how these funds would assist the impacted population in our community:

- Resolution 21-266, approved on August 24, 2021, by the Pasco County Board of County Commissioners (BCC), “Establishing the Terms, Composition, Membership, and Quorum Requirements for the ‘Pasco County Opioid Task Force,’” and Designating the Chair and Vice-Chair for the Task Force.
- *SPS22-0002 Pasco County Florida Opioid Abatement Plan*, approved by the Pasco County BCC on November 9, 2021.
- *BayCare Behavioral Health, Inc., Managed Contract with Pasco County*, as part of the Central Florida Behavioral Health Network, to provide Substance Abuse Mental Health Services to Pasco County residents, approved by the Pasco County BCC on December 10, 2019.
- *SPS22-0005 Interlocal Agreements Governing Use of Pasco County Regional Opioid Settlement Funds – Cities of New Port Richey and Zephyrhills*, approved by the Pasco County BCC on December 7, 2021.

## **THE OPIOID TASK FORCE**

Formed in August 2021, the Opioid Task Force (OTF) recognized the serious public health problems

associated with the opioid epidemic impacting Pasco County. The OTF works with public and private partners to make recommendations that ensure that our community works collectively to gather data about the nature, extent, and problems being faced in the county; receive and report recommendations from other government and private entities about activities that should be undertaken to abate the opioid epidemic; and make recommendations to the Board about steps, actions, or plans that should be undertaken to abate the opioid epidemic in Pasco County.

### Purpose of Opioid Task Force

Serves as an advisory body to the Pasco County BCC to:

- Recommend expenditures
- Ensure the County meets requirements under the *Florida Plan*
- Develop and maintain the *Community Abatement Plan*

### Opioid Task Force Members

Member	Organization
<b>Robert Chalmers, Chief Administrative Officer</b>	Pasco County Fire Rescue
<b>Michelle Hudson, MSW, Supervisor of Social Work</b>	Pasco County Schools
<b>Toni Roach, Captain</b>	Pasco County Sheriff's Office
<b>Paula Baracaldo, Support Services Director</b>	Pasco County Public Services
<b>Lauren Letona, Deputy Chief</b>	City of New Port Richey
<b>Derek Brewer, Police Chief</b>	City of Zephyrhills
<b>Trang Chitakone, Administrator</b>	Department of Health
<b>Joey Resnick, President and Chief Executive Officer</b>	Premier Community Healthcare
<b>Tracey Kaly, Clinical Operations Director</b>	BayCare Behavioral Health
<b>The Honorable Judge Shawn Crane</b>	Sixth Judicial Circuit Court
<b>Parnia Roghani</b>	Pasco County Alliance for Substance Addiction Prevention
<b>Art Rowand, Retired Sergeant</b>	Retired Public Health or Addiction Expert

### OPIOID TREATMENT, PREVENTION, AND RECOVERY FUND

After the County received the allocations from the City/County and Regional Funds, the OTF began its process to determine the best way to distribute funds based on the Florida Plan and the County's Community Abatement Plan. As a result, the Opioid Treatment, Prevention, and Recovery Fund (Opioid Fund) was initiated. This countywide Fund returns opioid settlement allocations from the global settlement as critical investments and resources to residents impacted by the opioid crisis in Pasco County.

The Fund will award grants to community-based organizations that engage residents affected by the opioid epidemic through programs in substance use disorder treatment, overdose prevention, substance misuse awareness and education, and harm reduction. Funding can be used for evidence-based practices only if they address treatment, prevention, and recovery of substance use disorders for Pasco County residents. Funding requests for these funds must be consistent with the Community Abatement Plan and with Schedule A - Core Strategies, as stipulated in the Florida Plan.

Award amounts may vary depending on available resource levels and priorities of the OTF and the data-reflected needs of the community. In addition, there is not a specified number of grants that will be awarded. Decisions will be made based on the quality of applications received, and organizations that meet the selection criteria and submit applications will be considered.

Further, multi-year awards will be available for up to three years. Program Awardees may be eligible to apply for additional funding upon successful completion of their projects/programs and requirements under this funding program. Funding will be granted on an annual basis; and a five percent (5%) administrative cost reimbursement is allowed under this grant.

For all grants, funds must be used to support, advance, or align with at least one of the focus areas and directly reference how the project/program relates to the Community Abatement Plan, which includes community needs received by our OTF members and the public:

- *Treatment and Supportive Services:* Support treatment of Opioid Use Disorder (OUD) and any co-occurring Substance Use Disorder or Mental Health (SUD/MH) conditions through evidence-based or evidence-informed programs and promote and facilitate connections to behavioral health treatment and recovery services.
- *Prevention and Education:* Expand efforts in community-based prevention, education, and harm reduction. Reduce stigma in communities related to substance use. Support efforts to prevent over-prescribing and ensure appropriate prescribing and dispensing of opioids through evidence-based or evidence-informed programs.
- *System-Level Abatement:* Address and respond inclusively to complex, unmet community needs related to substance use disorder for underserved populations
- *Caregiver Support:* Heal individual and collective trauma related to substance use. Provide family peer mentoring, funding for reunification support, trauma treatment, child-parent psychotherapy, etc.
- *Mitigation and Enforcement:* Promote public safety and wellness for community workers in the substance use field. Create or leverage existing prevention strategies.

Overall, the fund's allowable uses are intended to be broad and all-encompassing to encourage organizations working in communities to propose novel and innovative ideas, especially those that may not be funded elsewhere, in response to the overdose crisis.

**REPORTING REQUIREMENTS TO THE STATE FOR PASCO COUNTY**

On an annual basis, a report is due by June 30th of each year on the intended uses for the settlement funds, as per the Florida Agreement to the Department of Children and Families (DCF) for the upcoming fiscal year. In addition, by August 31st of each year, a report is due to DCF detailing the expenditures and data sets to demonstrate the effectiveness of expenditures on the Approved Purposes.

**REPORTING REQUIREMENTS TO DCF AND THE COUNTY FOR SUBRECIPIENTS**

Every month, a report is due to DCF via the Opioid Database Management System (ODMS) as a requirement for the receipt of these funds. This information will include data on individuals served, diagnosis codes, demographics, and outcomes. Providers will submit 837 data through ODMS. Providers not having an electronic health record system will be provided with a .csv file for submitting their data.

Every quarter, a report is due to the County via the Neighborly platform reporting on similar information. For real property projects, additional information will be required.

**MANAGING DEPARTMENT AND CONTACT INFORMATION**

For questions about this funding opportunity, please contact the Support Services Department at (727) 847-2411 or via email to [opiodsettlementgrant@pascocountyfl.net](mailto:opiodsettlementgrant@pascocountyfl.net).

## SCHEDULE A

### Core Strategies

#### A. Naloxone or other FDA-approved drug to reverse opioid overdoses

1. Expand training for first responders, schools, community support groups and families; and
2. Increase distribution to individuals who are uninsured or whose insurance does not cover the needed service.

#### B. Medication-Assisted Treatment ("MAT") Distribution and other opioid-related treatment

1. Increase distribution of MAT to non-Medicaid eligible or uninsured individuals;
2. Provide education to school-based and youth-focused programs that discourage or prevent misuse;
3. Provide MAT education and awareness training to healthcare providers, EMTs, law enforcement, and other first responders; and
4. Treatment and Recovery Support Services such as residential and inpatient treatment, intensive outpatient treatment, outpatient therapy or counseling, and recovery housing that allow or integrate medication with other support services.

#### C. Pregnant & Postpartum Women

1. Expand Screening, Brief Intervention, and Referral to Treatment ("SBIRT") services to non-
2. Medicaid eligible or uninsured pregnant women;
3. Expand comprehensive evidence-based treatment and recovery services, including MAT, for women with co-occurring Opioid Use Disorder ("OUD") and other Substance Use Disorder ("SUD")/Mental Health disorders for uninsured individuals for up to 12 months postpartum; and
4. Provide comprehensive wrap-around services to individuals with Opioid Use Disorder (OUD)
5. including housing, transportation, job placement/training, and childcare.

#### D. Expanding Treatment for Neonatal Abstinence Syndrome

1. Expand comprehensive evidence-based and recovery support for NAS babies;
2. Expand services for better continuum of care with infant-need dyad; and
3. Expand long-term treatment and services for medical monitoring of NAS babies and their families.

**SCHEDULE B****PART ONE: TREATMENT****A. Treat Opioid Use Disorder (OUD)**

Support treatment of OUD and any co-occurring Substance Use Disorder or SUD/MH conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Expand availability of treatment for OUD and any co-occurring SUD/MH conditions, including all forms of Medication-Assisted Treatment (MAT) approved by the U.S. Food and Drug Administration.
2. Support and reimburse evidence-based services that adhere to the American Society of Addiction Medicine (ASAM) continuum of care for OUD and any co-occurring SUD/MH conditions
3. Expand telehealth to increase access to treatment for OUD and any co-occurring SUD/MH conditions, including MAT, as well as counseling, psychiatric support, and other treatment and recovery support services.
4. Improve oversight of Opioid Treatment Programs (OTPs) to assure evidence-based or evidence-informed practices such as adequate methadone dosing and low threshold approaches to treatment.
5. Support mobile intervention, treatment, and recovery services offered by qualified professionals and service providers, such as peer recovery coaches for persons with OUD and any co-occurring SUD/MH conditions and for persons who have experienced an opioid overdose.
6. Treatment of trauma for individuals with OUD (e.g., violence, sexual assault, human trafficking, or adverse childhood experiences) and family members (e.g., surviving family members after an overdose or overdose fatality), and training of health care personnel to identify and address such trauma.
7. Support evidence-based withdrawal management services for people with OUD and any co-occurring mental health conditions.
8. Training on MAT for health care providers, first responders, veterans, students, or other supporting professionals, such as peer recovery coaches or recovery outreach specialists, including tele-mentoring to assist community-based providers in rural or underserved areas.

- 8.1. **Host trainings or conferences** on addiction and drug trends for behavioral health organizations, as well as the public.
9. Support workforce development for addiction professionals who work with persons with OUD and any co-occurring SUD/MH conditions.
10. Fellowships for addiction medicine specialists for direct patient care, instructors, and clinical research for treatments.
11. Scholarships and supports for behavioral health practitioners or workers involved in addressing OUD and any co-occurring SUD or mental health conditions, including but not limited to training, scholarships, fellowships, loan repayment programs, or other incentives for providers to work in rural or underserved areas.
12. Provide funding and training for clinicians to obtain a waiver under the federal Drug Addiction Treatment Act of 2000 (DATA 2000) to prescribe MAT for OUD and provide technical assistance and professional support to clinicians who have obtained a DATA 2000 waiver.
13. Dissemination of web-based training curricula, such as the American Academy of Addiction Psychiatry's Provider Clinical Support Service - Opioids web-based training curriculum and motivational interviewing.
14. Development and dissemination of new curricula, such as the American Academy of Addiction Psychiatry's Provider Clinical Support Service for Medication-Assisted Treatment.

#### B. Support People in Treatment and Recovery

Support people in treatment for or recovery from OUD and any co-occurring SUD/MH conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Provide comprehensive wrap-around services to individuals with OUD and any co-occurring SUD/MH conditions, including housing, transportation, education, job placement, job training, or childcare.
2. Provide the full continuum of care of treatment and recovery services for OUD and any co-occurring SUD/MH conditions, including supportive housing, peer support services and counseling, community navigators, case management, and connections to community-based services.
3. Provide counseling, peer-support, recovery case management and residential treatment with access to medications for those who need it to persons with OUD and any co-occurring SUD/MH conditions.

#### 3.1. Recovery Community Organization (RCO) Coordinator (full-time position)

**3.2. RCO Navigation Center:** Resources and outsourcing options.

**3.3. Peer Support Specialist** (full-time position)

4. Provide access to housing for people with OUD and any co-occurring SUD/MH conditions, including supportive housing, recovery housing, housing assistance programs, training for housing providers, or recovery housing programs that allow or integrate FDA-approved medication with other support services.
5. Provide community support services, including social and legal services, to assist in deinstitutionalizing persons with OUD and any co-occurring SUD/MH conditions.
6. Support or expand peer-recovery centers, which may include support groups, social events, computer access, or other services for persons with OUD and any co-occurring SUD/MH conditions.
7. Provide or support transportation to treatment or recovery programs or services for persons with OUD and any co-occurring SUD/MH conditions.
8. Provide employment training or educational services for persons in treatment for or recovery from OUD and any co-occurring SUD/MH conditions.
9. Identify successful recovery programs such as physician, pilot, and college recovery programs, and provide support and technical assistance to increase the number and capacity of high-quality programs to help those in recovery.
10. Engage non-profits, faith-based communities, and community coalitions to support people in treatment and recovery and to support family members in their efforts to support the person with OUD in the family.
11. Training and development of procedures for government staff to appropriately interact and provide social and other services to individuals with or in recovery from OUD, including reducing stigma.
12. Support stigma reduction efforts regarding treatment and support for persons with OUD, including reducing the stigma on effective treatment.
13. Create or support culturally appropriate services and programs for persons with OUD and any co-occurring SUD/MH conditions, including new Americans.
14. Create and/or support recovery high schools.
15. Hire or train behavioral health workers to provide or expand any of the services or supports

listed above.

C. Connect People Who Need Help to the Help They Need (Connections to Care)

Provide connections to care for people who have – or are at risk of developing – OUD and any co-occurring SUD/MH conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Ensure that health care providers are screening for OUD and other risk factors and know how to appropriately counsel and treat (or refer if necessary) a patient for OUD treatment.
2. Fund Screening, Brief Intervention and Referral to Treatment (SBIRT) programs to reduce the transition from use to disorders, including SBIRT services to pregnant women who are uninsured or not eligible for Medicaid.

**2.1. SBIRT becoming a reimbursable service for doctors** (primary care, OBGYN, etc.)  
**Legislative Policy Change** for the State to consider.

3. Provide training and long-term implementation of SBIRT in key systems (health, schools, colleges, criminal justice, and probation), with a focus on youth and young adults when transition from misuse to opioid disorder is common.
4. Purchase automated versions of SBIRT and support ongoing costs of the technology.
5. Expand services such as navigators and on-call teams to begin MAT in hospital emergency departments.
6. Training for emergency room personnel treating opioid overdose patients on post-discharge planning, including community referrals for MAT, recovery case management or support services.
7. Support hospital programs that transition persons with OUD and any co-occurring SUD/MH conditions, or persons who have experienced an opioid overdose, into clinically-appropriate follow-up care through a bridge clinic or similar approach.
8. Support crisis stabilization centers that serve as an alternative to hospital emergency departments for persons with OUD and any co-occurring SUD/MH conditions or persons that have experienced an opioid overdose.
9. Support the work of Emergency Medical Systems, including peer support specialists, to connect individuals to treatment or other appropriate services following an opioid overdose or other opioid-related adverse event.
10. Provide funding for peer support specialists or recovery coaches in emergency departments,

detox facilities, recovery centers, recovery housing, or similar settings; offer services, supports, or connections to care to persons with OUD and any co-occurring SUD/MH conditions or to persons who have experienced an opioid overdose.

11. Expand warm hand-off services to transition to recovery services.
12. Create or support school-based contacts that parents can engage with to seek immediate treatment services for their child; and support prevention, intervention, treatment, and recovery programs focused on young people.
  - 12.1. **Early Childhood Court Coordinator:** full-time position to reduce trauma on brain development in the zero to five population due to parents with substance use disorders and child welfare involvement. Extend available treatment of children/parents in dependency cases (including dependency drug court cases) to include access to Child-Parent Psychotherapy (CPP) for families with children five and under (as well as providing CPP certified training to cadre of local counselors), provide other trauma treatment to older children, provide tutoring for children with fetal drug exposure, provide for substance abuse risk screening and subsequent treatment for school-age young, provide for young mentoring services, family peer mentoring, provide for rental deposit assistance to families in an effort to aid them to secure stable housing necessary for reunification.
13. Develop and support best practices on addressing OUD in the workplace.
14. Support assistance programs for health care providers with OUD.
15. Engage non-profits and the faith community as a system to support outreach for treatment.
16. Support centralized call centers that provide information and connections to appropriate services and supports for persons with OUD and any co-occurring SUD/MH conditions.

#### D. Address the Needs of Criminal-Justice-Involved Persons

Address the needs of persons with OUD and any co-occurring SUD/MH conditions who are involved in, are at risk of becoming involved in, or are transitioning out of the criminal justice system through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Support pre-arrest or pre-arraignment diversion and deflection strategies for persons with OUD and any co-occurring SUD/MH conditions, including established strategies such as:
  - Self-referral strategies such as the Angel Programs or the Police Assisted Addiction Recovery Initiative (PAARI);
  - Active outreach strategies such as the Drug Abuse Response Team (DART) model;

- "Naloxone Plus" strategies, which work to ensure that individuals who have received naloxone to reverse the effects of an overdose are then linked to treatment programs or other appropriate services;
  - Officer prevention strategies, such as the Law Enforcement Assisted Diversion (LEAD) model;
  - Officer intervention strategies such as the Leon County, Florida Adult Civil Citation Network or the Chicago Westside Narcotics Diversion to Treatment Initiative; or
  - Co-responder and/or alternative responder models to address OUD-related 911 calls with greater SUD expertise.
- 1.1. **New Squad** (additional full-time personnel to support all municipalities in Pasco County): to enhance our overall opioid response by adding capabilities to our current initiative (focused on heroin/fentanyl related to Pasco overdose deaths, and related sources of supply) and add an additional capability with resources focused on regional sources of supply for heroin/fentanyl overdose deaths.
  - 1.2. **Additional full-time personnel to support all municipalities in Pasco County to a DEA Opioid Task Force** that has a regional overdose source of supply focus.
2. Support pre-trial services that connect individuals with OUD and any co-occurring SUD/MH conditions to evidence-informed treatment, including MAT, and related services.
  3. Support treatment and recovery courts that provide evidence-based options for persons with OUD and any co-occurring SUD/MH conditions.
  4. Provide evidence-informed treatment, including MAT, recovery support, harm reduction, or other appropriate services to individuals with OUD and any co-occurring SUD/MH conditions who are incarcerated in jail or prison.
  5. Provide evidence-informed treatment, including MAT, recovery support, harm reduction, or other appropriate services to individuals with OUD and any co-occurring SUD/MH conditions who are leaving jail or prison, have recently left jail or prison, are on probation or parole, are under community corrections supervision, or are in re-entry programs or facilities.
- 5.1. **Substance Use Disorder Counselor/Re-Entry Planner:** Requesting an individual that would be able to instruct substance use disorder classes and provide counseling services to those that are incarcerated and demonstrate motivation for change. This individual will also assist the Program Department with making appropriate referrals and re-entry planning to assist these inmates in obtaining sober-living upon their release and scheduling follow-up services in the community, to include outpatient services.

6. Support critical time interventions (CTI), particularly for individuals living with dual-diagnosis (QUO)/serious mental illness, and services for individuals who face immediate risks and service needs and risks upon release from correctional settings.
7. Provide training on best practices for addressing the needs of criminal-justice-involved persons with OUD and any co-occurring SUD/MH conditions to law enforcement, correctional, or judicial personnel or to providers of treatment, recovery, harm reduction, case management, or other services offered in connection with any of the strategies described in this section.

E. Address the Needs of Pregnant or Parenting Women and their Families, Including Babies with Neonatal Abstinence Syndrome

Address the needs of pregnant or parenting women with OUD and any co-occurring SUD/MH conditions, and the needs of their families, including babies with Neonatal Abstinence Syndrome (NAS), through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Support evidence-based or evidence-informed treatment, including MAT, recovery services and supports, and prevention services for pregnant women – or women who could become pregnant – who have OUD and any co-occurring SUD/MH conditions, and other measures to educate and provide support to families affected by NAS.
2. Expand comprehensive evidence-based treatment and recovery services, including MAT, for uninsured women with OUD and any co-occurring SUD/MH conditions for up to 12 months postpartum.
  - 2.1. **Substance Exposed Newborn care kits** for parents to take when the babies are going home.
3. Training for obstetricians or other healthcare personnel that work with pregnant women and their families regarding treatment of OUD and any co-occurring SUD/MH conditions.
4. Expand comprehensive evidence-based treatment and recovery support for NAS babies; expand services for better continuum of care with infant-need dyad; expand long-term treatment and services for medical monitoring of NAS babies and their families.
5. Provide training to health care providers who work with pregnant or parenting women on best practices for compliance with federal requirements that children born with Neonatal Abstinence Syndrome get referred to appropriate services and receive a plan of safe care.
6. Child and family supports for parenting women with OUD and any co-occurring SUD/MH conditions.

7. Enhanced family supports and childcare services for parents with OUD and any co-occurring SUD/MH conditions.
8. Provide enhanced support for children and family members suffering trauma as a result of addiction in the family; and offer trauma-informed behavioral health treatment for adverse childhood events.
9. Offer home-based wrap-around services to persons with OUD and any co-occurring SUD/MH conditions, including but not limited to parent skills training.
10. Support for Children's Services - Fund additional positions and services, including supportive housing and other residential services, relating to children being removed from the home and/or placed in foster care due to custodial opioid use.

**PART TWO: PREVENTION****F. Prevent Over-Prescribing and Ensure Appropriate Prescribing and Dispensing of Opioids**

Support efforts to prevent over-prescribing and ensure appropriate prescribing and dispensing of opioids through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Fund medical provider education and outreach regarding best prescribing practices for opioids consistent with Guidelines for Prescribing Opioids for Chronic Pain from the U.S. Centers for Disease Control and Prevention, including providers at hospitals (academic detailing).
2. Training for health care providers regarding safe and responsible opioid prescribing, dosing, and tapering patients off opioids.
3. Continuing Medical Education (CME) on appropriate prescribing of opioids.
4. Support for non-opioid pain treatment alternatives, including training providers to offer or refer to multi-modal, evidence-informed treatment of pain.
5. Support enhancements or improvements to Prescription Drug Monitoring Programs (PDMPs), including but not limited to improvements that:
  - 5.1.1. Increase the number of prescribers using PDMPs;
  - 5.1.2. Improve point-of-care decision-making by increasing the quantity, quality, or format of data available to prescribers using PDMPs, by improving the interface that prescribers use to access POMP data, or both; or
  - 5.1.3. Enable states to use POMP data in support of surveillance or intervention strategies, including MAT referrals and follow-up for individuals identified within POMP data as likely to experience OUD in a manner that complies with all relevant privacy and security laws and rules.
6. Ensuring PDMPs incorporate available overdose/naloxone deployment data, including the United States Department of Transportation's Emergency Medical Technician overdose database in a manner that complies with all relevant privacy and security laws and rules.
7. Increase electronic prescribing to prevent diversion or forgery.
8. Educate dispensers on appropriate opioid dispensing.

### G. Prevent Misuse of Opioids

Support efforts to discourage or prevent misuse of opioids through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Fund media campaigns to prevent opioid misuse.
2. Corrective advertising or affirmative public education campaigns based on evidence.
3. Public education relating to drug disposal.
4. Drug take-back disposal or destruction programs.
5. Fund community anti-drug coalitions that engage in drug prevention efforts.
6. Support community coalitions in implementing evidence-informed prevention, such as reduced social access and physical access, stigma reduction – including staffing, educational campaigns, support for people in treatment or recovery, or training of coalitions in evidence-informed implementation, to include the Strategic Prevention Framework developed by the U.S. Substance Abuse and Mental Health Services Administration (SAMHSA).
7. Engage non-profits and faith-based communities as systems to support prevention.
8. Fund evidence-based prevention programs in schools or evidence-informed school and community education programs and campaigns for students, families, school employees, school athletic programs, parent-teacher and student associations, and others.
  - 8.1. **Facilitators in Schools** – to conduct prevention curriculum and life skills/social emotional groups.
  - 8.2. **Curriculum for Schools and Community Settings** – schools (charter and non-traditional), church groups, Department of Juvenile Justice, after-school programs, etc.
9. School-based or youth-focused programs or strategies that have demonstrated effectiveness in preventing drug misuse and seem likely to be effective in preventing the uptake and use of opioids.
  - 9.1. **STAND Youth Advocacy Coordinator** – to build a strong infrastructure for the youth coalition.
10. Create of support community-based education or intervention services for families, youth, and adolescents at risk for OUD and any co-occurring SUD/MH conditions.
11. Support evidence-informed programs or curricula to address mental health needs of young

people who may be at risk of misusing opioids or other drugs, including emotional modulation and resilience skills.

12. Support greater access to mental health services and supports for young people, including services and supports provided by school nurses, behavioral health workers or other school staff, to address mental health needs in young people that (when not properly addressed) increase the risk of opioid or other drug misuse.

#### H. Prevent Overdose Deaths and Other Harms (Harm Reduction)

Support efforts to prevent or reduce overdose deaths or other opioid-related harms through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Increase availability and distribution of naloxone and other drugs that treat overdoses for first responders, overdose patients, individuals with OUD and their friends and family members, individuals at high risk of overdose, schools, community navigators and outreach workers, persons being released from jail or prison, or other members of the general public.
2. Public health entities provide free naloxone to anyone in the community.
3. Training and education regarding naloxone and other drugs that treat overdoses for first responders, overdose patients, patients taking opioids, families, schools, community support groups, and other members of the general public.
4. Enable school nurses and other school staff to respond to opioid overdoses, and provide them with naloxone, training, and support.
5. Expand, improve, or develop data tracking software and applications for overdoses/naloxone revivals.
6. Public education relating to emergency responses to overdoses.
7. Public education relating to immunity and Good Samaritan laws.
8. Educate first responders regarding the existence and operation of immunity and Good Samaritan laws.
9. Syringe service programs and other evidence-informed programs to reduce harms associated with intravenous drug use, including supplies, staffing, space, peer support services, referrals to treatment, fentanyl checking, connections to care, and the full range of harm reduction and treatment services provided by these programs.
10. Expand access to testing and treatment for infectious diseases, such as HIV and Hepatitis C, resulting from intravenous opioid use.

11. Support mobile units that offer or provide referrals to harm reduction services, treatment, recovery supports, health care, or other appropriate services to persons that use opioids or persons with OUD and any co-occurring SUD/MH conditions.
12. Provide training in harm reduction strategies to health care providers, students, peer recovery coaches, recovery outreach specialists, or other professionals that provide care to persons who use opioids or persons with OUD and any co-occurring SUD/MH conditions.
13. Support screening for fentanyl in routine clinical toxicology testing.

**PART THREE: OTHER STRATEGIES****I. First Responders**

In addition to items in Sections C, D, and H relating to first responders, support the following:

1. Educate law enforcement or other first responders regarding appropriate practices and precautions when dealing with fentanyl or other drugs.
2. Provision of wellness and support services for first responders and others who experience secondary trauma associated with opioid-related emergency events.

**J. Leadership, Planning and Coordination**

Support efforts to provide leadership, planning, coordination, facilitation, training and technical assistance to abate the opioid epidemic through activities, programs, or strategies that may include, but are not limited to, the following:

1. Statewide, regional, local, or community regional planning to identify root causes of addiction and overdose, goals for reducing harms related to the opioid epidemic, and areas and populations with the greatest needs for treatment intervention services; to support training and technical assistance; or to support other strategies to abate the opioid epidemic described in this opioid abatement strategy list.
2. A dashboard to share reports, recommendations, or plans to spend opioid settlement funds; to show how opioid settlement funds have been spent; to report program or strategy outcomes; or to track, share, or visualize key opioid-related or health-related indicators and supports as identified through collaborative statewide, regional, local, or community processes.
3. Invest in infrastructure or staffing at government or not-for-profit agencies to support collaborative, cross-system coordination with the purpose of preventing overprescribing, opioid misuse, or opioid overdoses, treating those with OUD and any co-occurring SUD/MH conditions, supporting them in treatment or recovery, connecting them to care, or implementing other strategies to abate the opioid epidemic described in this opioid abatement strategy list.
4. Provide resources to staff government oversight and management of opioid abatement programs.

**K. Training**

In addition to the training referred to throughout this document, support training to abate the opioid epidemic through activities, programs, or strategies may include, but are not limited to,

the following:

1. Provide funding for staff training or networking programs and services to improve the capability of government, community, and not-for-profit entities to abate the opioid crisis.
2. Support infrastructure and staffing for collaborative cross-system coordination to prevent opioid misuse, prevent overdoses, and treat those with OUD and any co-occurring SUD/MH conditions, or implement other strategies to abate the opioid epidemic described in this opioid abatement strategy list (e.g., health care, primary care, pharmacies, PDMPs, etc.).
  - 2.1. **Epidemiologist Position:** to gather all data surrounding drug trends, substance exposed newborns, youth use, recovery success from treatment programs, conduct focus groups, and local surveys to keep local stakeholders informed as trends change.

#### L. Research

Support opioid abatement research that may include, but is not limited to, the following:

1. Monitoring, surveillance, data collection, and evaluation of programs and strategies described in this opioid abatement strategy list.
2. Research non-opioid treatment of chronic pain.
3. Research on improved service delivery for modalities such as SBIRT that demonstrate promising but mixed results in populations vulnerable to opioid use disorders.
4. Research on novel harm reduction and prevention efforts such as the provision of fentanyl test strips.
5. Research on innovative supply-side enforcement efforts such as improved detection of mail-based delivery of synthetic opioids.
  - 5.1. **Forensic lab costs associated with opioid use (including mass spectroscopy).**
6. Expanded research on swift/certain/fair models to reduce and deter opioid misuse within criminal justice populations that build upon promising approaches used to address other substances (e.g., HawaiiHOPE and Dakota 24/7).
7. Epidemiological surveillance of OUD-related behaviors in critical populations including individuals entering the criminal justice system, including but not limited to, approaches modeled on the Arrestee Drug Abuse Monitoring (ADAM) system.
8. Qualitative and quantitative research regarding public health risks and harm reduction

opportunities within illicit drug markets, including surveys of market participants who sell or distribute illicit opioids.

9. Geospatial analysis of access barriers to MAT and their association with treatment engagement and treatment outcomes.
