Public Notice of the Pasco County Local Mitigation Strategy Working Group Special Presentation

July 18, 2024 (1:00 p.m. to 2:00 p.m.):

Notification is hereby given to the public for the upcoming presentation to the Local Mitigation Strategy Working Group (LMSWG). Pasco County Emergency Management's Grants Manager will be discussing trends in the Pasco County Mitigation program and grant funding utilization. This presentation will explore data trends in awarded projects and will help to inform potential applicants of program details and opportunities. We think that the project could be a very useful step in tracking mitigation initiatives throughout the community.

The meeting will be held virtually via Microsoft Teams. For information on how to join please contact Nolan Ristau at nristau@mypasco.net.

For more information about Pasco County's LMS and previous LMSWG meeting minutes, please visit the Pasco County Emergency Management Mitigation webpage: mypas.co/Mitigation.

Please contact Nolan Ristau, at 727.847.8137 to request an invitation or with any other questions.
