UNIFORMS

- 20.1 During the term of this agreement, the county agrees to provide and replace uniforms, protective turnout gear, and related equipment required by the department SOG. The turnout gear and related equipment will be at no cost to the employee. It is the county's intent to immediately provide to each employee at the time of hiring or promotion the uniforms, accessories or protective clothing listed in the department's *Uniform & PPE Specifications* manual. However, should such uniforms, accessories or protective clothing not be in stock at the time of hiring or promotion, the department shall process the appropriate documentation necessary to obtain such items. The union shall have input, through the Labor Management Committee, in recommending standards and dress codes for the items provided.
- 20.2 Department-approved uniforms will be replaced through an approved online web ordering portal to purchase the uniform items. Each bargaining unit member will be allocated funds (as indicated in Article 20.4 of this agreement) by the county at the start of each fiscal year, which will be no later than October 1st and those funds will be placed in an account administered through this approved uniform ordering web portal. The catalog of items on this web ordering portal will be as all-encompassing as feasible, and will include but not be limited to, footwear, belts, cold weather gear, and hats that can be worn on duty. The agreed-upon funds applied to each bargaining unit member's uniform account may adjust each fiscal year to account for increases in replacement uniform costs. Funds deposited in each web ordering portal account are required to be expended within the current fiscal year or be forfeited. The web portal will track the funds available in each member's account deducting the appropriate amount from each executed purchase. Ninety days before the end of the fiscal year, members will receive a notification from the web portal advising them of funds still available in their account. Once funds allocated by the county have been exhausted, the member will be responsible for any additional costs for purchasing items through the web ordering portal. Each member may use the e-mail address of their choosing to receive ordering confirmations and notifications from the web portal. The web ordering portal will be accessible from the Internet at all Fire Rescue locations, as well as from any other location via the Internet. These will be used to replace uniforms damaged on emergency calls, not from normal wear and tear or negligence of the member.
- 20.3 Employees leaving the service for any cause shall deliver to Fire Rescue Supply, in a clean and orderly condition, all equipment and turnout gear assigned to them by the County. This does not include items purchased through the web ordering portal, with the exception of official regular duty uniform items displaying the department name and/or logo.

The county may, at any time, add funds to each member's account to use for the purchase of any new uniform item the department requires each member to utilize or wear. These additional funds may only be used to purchase this additional new item.
- 20.5 Uniforms and personal protective equipment (PPE) will be governed by the department's *Uniform & PPE Specifications* manual which will be created by the Labor-Management Committee with input from the Health and Safety Committee where appropriate. The company that administers the web ordering portal will be approved by the Labor-Management Committee.

ARTICLE 21
GRIEVANCE PROCEDURE

- 21.1 A grievance is defined as a dispute regarding interpretation or application of a provision of this Agreement. These procedures cover grievances or disputes that may arise, including the interpretation of this Agreement. Disciplinary actions resulting in a written reprimand or less and performance evaluations shall not be subject to review at arbitration. It is understood that neither party wishes to file unnecessary binding arbitration cases and agree that all levels of discipline shall be looked at case by case as to the merits and costs of going before an arbitrator. Both parties agree that discipline for just cause and with due process is acceptable and necessary in the functioning of the Fire Rescue Department. Time limits may be extended by written mutual consent of the parties.
- 21.2 Step 1 - An employee must first file the grievance to the Fire Chief (FRD) within twenty (20) calendar days of the alleged grievance. The Chief will conduct a meeting within twenty (20) calendar days to investigate the facts and will render a written decision within twenty (20) calendar days after the scheduled meeting.
- 21.3 Step 2 - If the grievance is not settled at Step 1, the grievance may be submitted within twenty (20) calendar days of the previous response to the County Administrator or designee who will conduct a meeting within twenty (20) calendar days to Investigate the facts and render a written decision within twenty (20) calendar days after the scheduled meeting.
- 21.4 Steps 1-2 shall not preclude the Union or the County from orally discussing and resolving a grievance. This process is not required for each grievance, but may be initiated by either the Union or the County. If a discussion is initiated by either side, the clock will stop for the time parameters outlined above. If a resolution is made during the discussion, a written response shall be made and signed by both the Union and County within five (5) calendar days of the discussion. A copy of the written response shall be provided to the grievant, upon request. The grievance procedure will cease once a resolution has been made. In the event either side determines it will not be resolved through this process, the clock will resume upon written notification to the other party.

- 21.5 Step 3 - If the grievance is not settled at Step 2, the grievance may be submitted to mediation with the Federal Mediation and Conciliation Service (FMCS) in writing within thirty (30) calendar days. Either the Union or County may request mediation. If mediation is mutually agreed upon, the timeline for arbitration shall be extended for the time necessary to conclude mediation. If the grievance is resolved in mediation, the resolution shall be reduced to writing and signed by both the County and Union.
- 21.6 Step 4 – If a grievance is not settled in Steps 1-3, the grievance may be submitted to Arbitration by the Union. An impartial arbitrator shall be selected from a seven (7) member panel supplied by the Federal Mediation and Conciliation Service upon the request of either party. The parties shall, within twenty (20) calendar days of receipt of the panel, make a selection of an arbitrator. The selection shall be by alternately striking the names from the list. The Union will strike first. The decision of the arbitrator will be final and binding upon both parties. Each party shall bear the expense of its own witnesses and representation. The cost of the arbitrator shall be shared equally by the parties. If either party requests a transcript the party requesting the transcript shall be wholly responsible for the cost of such transcript.
- 21.7 If the County fails to respond to a grievance in the prescribed time frames the grievance shall be considered denied and maybe moved to the next step of the process if the Union requests. The parties may by mutual agreement waive any step in the grievance procedure.

ARTICLE 22
DISCIPLINE AND DISCHARGE

- 22.1 No employee shall be disciplined or discharged without just cause. Discipline shall generally follow a progressive format; however progressive discipline has no application to certain severe offenses which include criminal activity; illegal use, sale or possession of drugs; fighting; or major safety violations which endanger the lives of the public or other employees. The Firefighter Bill of Rights, F.S. 112.80, shall apply to all bargaining unit members and each offense will be looked at on a case-by-case basis.
- 22.2 An employee may appeal a major discipline (termination, demotion or suspension without pay) to an arbitrator using the same procedures set forth in the Grievance Article.

ARTICLE 23
HOURS OF WORK

- 23.1 The current shift consisting of 24 hours on duty and 48 hours off duty shall remain in effect unless amended by mutual agreement by both parties. - 23.4 The hourly rate for employees shall be based on the salary divided by the actual number of hours scheduled annually. For 24-hour shift employees the number of annual hours will be 2704, for 40 hour a week employees it will be 2080.

Advanced notice of two weeks will be required for the change. Permanent changes to an employee's work schedule prompted by operational necessity will require a minimum of thirty (30) days' notice to the employee.
- 23.7 To equitably distribute holidays between the three shifts, and not overburden one shift with working more holidays than the other two shifts due to leap years. 9. A statement informing the employee or job applicant of his or her responsibility to notify the laboratory of any administrative or civil action brought pursuant to this section.
10. A list of all drugs for which the employer will test, described by brand name or common name, as applicable, as well as by chemical name.
11. A statement regarding any applicable collective bargaining agreement or contract and the right to appeal to the Public Employees Relations Commission or applicable court.
12. A statement notifying employees and job applicants of their right to consult with a medical review officer for technical information regarding prescription or nonprescription medication.
- (b) An employer not having a drug-testing program shall ensure that at least 60 days elapse between a general one-time notice to all employees that a drug-testing program is being implemented and the beginning of actual drug testing. An employer having a drug-testing program in place prior to July 1, 1990, is not required to provide a 60-day notice period.
- (c) An employer shall include notice of drug testing on vacancy announcements for positions for which drug testing is required. A notice of the employer's drug-testing policy must also be posted in an appropriate and conspicuous location on the employer's premises, and copies of the policy must be made available for inspection by the employees or job applicants of the employer during regular business hours in the employer's personnel office or other suitable locations.

(4) Types of testing.--

- (a) An employer is required to conduct the following types of drug tests:
 1. Job applicant drug testing.--An employer must require job applicants to submit to a drug test and may use a refusal to submit to a drug test or a positive confirmed drug test as a basis for refusing to hire a job applicant.
 2. Reasonable-suspicion drug testing.--An employer must require an employee to submit to reasonable-suspicion drug testing.
 3. Routine fitness-for-duty drug testing.--An employer must require an employee to submit to a drug test if the test is conducted as part of a routinely scheduled employee fitness-for-duty medical examination that is part of the employer's established policy or that is scheduled routinely for all members of an employment classification or group.
 4. Followup drug testing.--If the employee in the course of employment enters an employee assistance program for drug-related problems, or a drug rehabilitation program, the employer must require the employee to submit to a drug test as a followup to such program, unless the employee voluntarily entered the program. In those cases, the employer has the option to not require followup testing. If followup testing is required, it must be conducted at least once a year for a 2-year period after completion of the program. Advance notice of a followup testing date must not be given to the employee to be tested.
- (b) This subsection does not preclude a private employer from conducting random testing, or any other lawful testing, of employees for drugs.

(c) Limited testing of applicants, only if it is based on a reasonable classification basis, is permissible in accordance with law or with rules adopted by the Agency for Health Care Administration.

(5) Procedures and employee protection.--All specimen collection and testing for drugs under this section shall be performed in accordance with the following procedures:

(a) A sample shall be collected with due regard to the privacy of the individual providing the sample, and in a manner reasonably calculated to prevent substitution or contamination of the sample.

(b) Specimen collection must be documented, and the documentation procedures shall include:

1. Labeling of specimen containers so as to reasonably preclude the likelihood of erroneous identification of test results.

2. A form for the employee or job applicant to provide any information he or she considers relevant to the test, including identification of currently or recently used prescription or nonprescription medication or other relevant medical information. The form must provide notice of the most common medications by brand name or common name, as applicable, as well as by chemical name, which may alter or affect a drug test. The providing of information shall not preclude the administration of the drug test, but shall be taken into account in interpreting any positive confirmed test result.

(c) Specimen collection, storage, and transportation to the testing site shall be performed in a manner that reasonably precludes contamination or adulteration of specimens.

(d) Each confirmation test conducted under this section, not including the taking or collecting of a specimen to be tested, shall be conducted by a licensed or certified laboratory as described in subsection (9).

(e) A specimen for a drug test may be taken or collected by any of the following persons:

1. A physician, a physician assistant, a registered professional nurse, a licensed practical nurse, or a nurse practitioner or a certified paramedic who is present at the scene of an accident for the purpose of rendering emergency medical service or treatment.

2. A qualified person employed by a licensed or certified laboratory as described in subsection (9).

(f) A person who collects or takes a specimen for a drug test shall collect an amount sufficient for two drug tests as determined by the Agency for Health Care Administration.

(g) Every specimen that produces a positive, confirmed test result shall be preserved by the licensed or certified laboratory that conducted the confirmation test for a period of at least 210 days after the result of the test was mailed or otherwise delivered to the medical review officer. However, if an employee or job applicant undertakes an administrative or legal challenge to the test result, the employee or job applicant shall notify the laboratory and the sample shall be retained by the laboratory until the case or administrative appeal is settled. During the 180-day period after written notification of a positive test result, the employee or job applicant who has provided the specimen shall be permitted by the employer to have a portion of the specimen retested, at the employee's or job applicant's expense, at another laboratory, licensed and approved by the Agency for Health Care Administration, chosen by the employee or job applicant. The second laboratory must test at equal or greater sensitivity for the drug in question as the first laboratory. The first laboratory that performed the test for the employer is responsible for the transfer of the portion of the specimen to be retested, and for the integrity of the chain of custody during such transfer.

(h) Within 5 working days after receipt of a positive confirmed test result from the medical review officer, an employer shall inform an employee or job applicant in writing of such positive test result, the consequences of such results, and the options available to the employee or job applicant. The employer shall provide to the employee or job applicant, upon request, a copy of the test results.

(i) Within 5 working days after receiving notice of a positive confirmed test result, an employee or job applicant may submit information to the employer explaining or contesting the test result, and explaining why the result does not constitute a violation of the employer's policy.

(j) The employee's or job applicant's explanation or challenge of the positive test result is unsatisfactory to the employer, a written explanation as to why the employee's or job applicant's explanation is unsatisfactory, along with the report of positive result, shall be provided by the employer to the employee

or job applicant; and all such documentation shall be kept confidential by the employer pursuant to subsection (8) and shall be retained by the employer for at least 1 year.

(k) An employer may not discharge, discipline, refuse to hire, discriminate against, or request or require rehabilitation of an employee or job applicant on the sole basis of a positive test result that has not been verified by a confirmation test and by a medical review officer.

(l) An employer that performs drug testing or specimen collection shall use chain-of-custody procedures established by the Agency for Health Care Administration to ensure proper recordkeeping, handling, labeling, and identification of all specimens tested.

(m) An employer shall pay the cost of all drug tests, initial and confirmation, which the employer requires of employees. An employee or job applicant shall pay the costs of any additional drug tests not required by the employer.

(n) An employer shall not discharge, discipline, or discriminate against an employee solely upon the employee's voluntarily seeking treatment, while under the employ of the employer, for a drug-related problem if the employee has not previously tested positive for drug use, entered an employee assistance program for drug-related problems, or entered a drug rehabilitation program. Unless otherwise provided by a collective bargaining agreement, an employer may select the employee assistance program or drug rehabilitation program if the employer pays the cost of the employee's participation in the program.

(o) If drug testing is conducted based on reasonable suspicion, the employer shall promptly detail in writing the circumstances which formed the basis of the determination that reasonable suspicion existed to warrant the testing. A copy of this documentation shall be given to the employee upon request and the original documentation shall be kept confidential by the employer pursuant to subsection (8) and shall be retained by the employer for at least 1 year.

(p) All authorized remedial treatment, care, and attendance provided by a health care provider to an injured employee before medical and indemnity benefits are denied under this section must be paid for by the carrier or self-insurer. However, the carrier or self-insurer must have given reasonable notice to all affected health care providers that payment for treatment, care, and attendance provided to the employee after a future date certain will be denied. A health care provider, as defined in s. 440.13(1)(g), that refuses, without good cause, to continue treatment, care, and attendance before the provider receives notice of benefit denial commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(6) Confirmation testing.--

(a) If an initial drug test is negative, the employer may in its sole discretion seek a confirmation test.

(b) Only licensed or certified laboratories as described in subsection (9) may conduct confirmation drug tests.

(c) All positive initial tests shall be confirmed using gas chromatography/mass spectrometry (GC/MS) or an equivalent or more accurate scientifically accepted method approved by the Agency for Health Care Administration or the United States Food and Drug Administration as such technology becomes available in a cost-effective form.

(d) If an initial drug test of an employee or job applicant is confirmed as positive, the employer's medical review officer shall provide technical assistance to the employer and to the employee or job applicant for the purpose of interpreting the test result to determine whether the result could have been caused by prescription or nonprescription medication taken by the employee or job applicant.

(7) Employer protection.--

(a) An employee or job applicant whose drug test result is confirmed as positive in accordance with this section shall not, by virtue of the result alone, be deemed to have a "handicap" or "disability" as defined under federal, state, or local handicap and disability discrimination laws.

(b) An employer who discharges or disciplines an employee or refuses to hire a job applicant in compliance with this section is considered to have discharged, disciplined, or refused to hire for cause.

(c) No physician-patient relationship is created between an employee or job applicant and an employer or any person performing or evaluating a drug test, solely by the establishment, implementation, or administration of a drug-testing program.

(d) Nothing in this section shall be construed to prevent an employer from establishing reasonable work rules related to employee possession, use, sale, or solicitation of drugs, including convictions for drug-related offenses, and taking action based upon a violation of any of those rules.

(e) This section does not operate retroactively, and does not abrogate the right of an employer under state law to conduct drug tests, or implement employee drug-testing programs; however, only those programs that meet the criteria outlined in this section qualify for reduced rates under s. 627.0915.

(f) If an employee or job applicant refuses to submit to a drug test, the employer is not barred from discharging or disciplining the employee or from refusing to hire the job applicant. However, this paragraph does not abrogate the rights and remedies of the employee or job applicant as otherwise provided in this section.

(g) This section does not prohibit an employer from conducting medical screening or other tests required, permitted, or not disallowed by any statute, rule, or regulation for the purpose of monitoring exposure of employees to toxic or other unhealthy substances in the workplace or in the performance of job responsibilities. Such screening or testing is limited to the specific substances expressly identified in the applicable statute, rule, or regulation, unless prior written consent of the employee is obtained for other tests. Such screening or testing need not be in compliance with the rules adopted by the Agency for Health Care Administration under this chapter or under s. 112.0455. A public employer may, through the use of an unbiased selection procedure, conduct random drug tests of employees occupying mandatory-testing or special-risk positions if the testing is performed in accordance with drug-testing rules adopted by the Agency for Health Care Administration and the department.

(h) No cause of action shall arise in favor of any person based upon the failure of an employer to establish a program or policy for drug testing.

(8) Confidentiality.--

(a) Except as otherwise provided in this subsection, all information, interviews, reports, statements, memoranda, and drug test results, written or otherwise, received or produced as a result of a drug-testing program are confidential and exempt from the provisions of s. 119.07(1) and s. 24(a), Art. I of the State Constitution, and may not be used or received in evidence, obtained in discovery, or disclosed in any public or private proceedings, except in accordance with this section or in determining compensability under this chapter.

(b) Employers, laboratories, medical review officers, employee assistance programs, drug rehabilitation programs, and their agents may not release any information concerning drug test results obtained pursuant to this section without a written consent form signed voluntarily by the person tested, unless such release is compelled by an administrative law judge, a hearing officer, or a court of competent jurisdiction pursuant to an appeal taken under this section or is deemed appropriate by a professional or occupational licensing board in a related disciplinary proceeding. The consent form must contain, at a minimum:

1. The name of the person who is authorized to obtain the information.
2. The purpose of the disclosure.
3. The precise information to be disclosed.
4. The duration of the consent.
5. The signature of the person authorizing release of the information.

(c) Information on drug test results shall not be used in any criminal proceeding against the employee or job applicant. Information released contrary to this section is inadmissible as evidence in any such criminal proceeding.

(d) This subsection does not prohibit an employer, agent of an employer, or laboratory conducting a drug test from having access to employee drug test information or using such information when consulting with legal counsel in connection with actions brought under or related to this section or when the information is relevant to its defense in a civil or administrative matter.

(9) Drug-testing standards for laboratories.--

(a) The requirements of part II of chapter 408 apply to the provision of services that require licensure pursuant to this section and part II of chapter 408 and to entities licensed by or applying for such licensure

from the agency pursuant to this section. A license issued by the agency is required in order to operate a drug-free workplace laboratory.

(b) A laboratory may analyze initial or confirmation test specimens only if:

1. The laboratory obtains a license under part II of chapter 408 and s. 112.0455(17). Each applicant for licensure and each licensee must comply with all requirements of this section, part II of chapter 408, and applicable rules.
2. The laboratory has written procedures to ensure the chain of custody.
3. The laboratory follows proper quality control procedures, including, but not limited to:
 - a. The use of internal quality controls, including the use of samples of known concentrations which are used to check the performance and calibration of testing equipment, and periodic use of blind samples for overall accuracy.
 - b. An internal review and certification process for drug test results, conducted by a person qualified to perform that function in the testing laboratory.
 - c. Security measures implemented by the testing laboratory to preclude adulteration of specimens and drug test results.
 - d. Other necessary and proper actions taken to ensure reliable and accurate drug test results.

(c) A laboratory shall disclose to the medical review officer a written positive confirmed test result report within 7 working days after receipt of the sample. All laboratory reports of a drug test result must, at a minimum, state:

1. The name and address of the laboratory that performed the test and the positive identification of the person tested.
2. Positive results on confirmation tests only, or negative results, as applicable.
3. A list of the drugs for which the drug analyses were conducted.
4. The type of tests conducted for both initial tests and confirmation tests and the minimum cutoff levels of the tests.
5. Any correlation between medication reported by the employee or job applicant pursuant to subparagraph (5)(b)2. and a positive confirmed drug test result.

A report must not disclose the presence or absence of any drug other than a specific drug and its metabolites listed pursuant to this section.

(d) The laboratory shall submit to the Agency for Health Care Administration a monthly report with statistical information regarding the testing of employees and job applicants. The report must include information on the methods of analysis conducted, the drugs tested for, the number of positive and negative results for both initial tests and confirmation tests, and any other information deemed appropriate by the Agency for Health Care Administration. A monthly report must not identify specific employees or job applicants.

(10) Rules.--The Agency for Health Care Administration shall adopt rules pursuant to s. 112.0455, part II of chapter 408, and criteria established by the United States Department of Health and Human Services as general guidelines for modeling drug-free workplace laboratories, concerning, but not limited to:

- (a) Standards for licensing drug-testing laboratories and suspension and revocation of such licenses.
- (b) Urine, hair, blood, and other body specimens and minimum specimen amounts that are appropriate for drug testing.
- (c) Methods of analysis and procedures to ensure reliable drug-testing results, including standards for initial tests and confirmation tests.
- (d) Minimum cutoff detection levels for each drug or metabolites of such drug for the purposes of determining a positive test result.
- (e) Chain-of-custody procedures to ensure proper identification, labeling, and handling of specimens tested.
- (f) Retention, storage, and transportation procedures to ensure reliable results on confirmation tests and retests.

(11) Public employees in mandatory-testing or special-risk positions.--

(a) If an employee who is employed by a public employer in a mandatory-testing position enters an employee assistance program or drug rehabilitation program, the employer must assign the employee to a position other than a mandatory-testing position or, if such position is not available, place the employee on leave while the employee is participating in the program. However, the employee shall be permitted to use any accumulated annual leave credits before leave may be ordered without pay.

(b) An employee who is employed by a public employer in a special-risk position may be discharged or disciplined by a public employer for the first positive confirmed test result if the drug confirmed is an illicit drug under s. 893.03. A special-risk employee who is participating in an employee assistance program or drug rehabilitation program may not be allowed to continue to work in any special-risk or mandatory-testing position of the public employer, but may be assigned to a position other than a mandatory-testing position or placed on leave while the employee is participating in the program. However, the employee shall be permitted to use any accumulated annual leave credits before leave may be ordered without pay.

(12) Denial of benefits.--An employer shall deny an employee medical or indemnity benefits under this chapter, pursuant to this section.

(13) Collective bargaining rights.--

(a) This section does not eliminate the bargainable rights as provided in the collective bargaining process if applicable.

(b) Drug-free workplace program requirements pursuant to this section shall be a mandatory topic of negotiations with any certified collective bargaining agent for nonfederal public sector employers that operate under a collective bargaining agreement.

(14) Applicability.--A drug testing policy or procedure adopted by an employer pursuant to this chapter shall be applied equally to all employee classifications where the employee is subject to workers' compensation coverage.

(15) State construction contracts.--Each construction contractor regulated under part I of chapter 489, and each electrical contractor and alarm system contractor regulated under part II of chapter 489, who contracts to perform construction work under a state contract for educational facilities governed by chapter 1013, for public property or publicly owned buildings governed by chapter 255, or for state correctional facilities governed by chapter 944 shall implement a drug-free workplace program under this section.
