

Facts About Human Trafficking

HUMAN TRAFFICKING IS
HAPPENING IN
THE UNITED STATES

The truth about trafficking

Victims can be men, women, and children from any race, nationality or socioeconomic group.

Children are more likely to be trafficked by someone they know than a stranger.

Most traffickers groom victims over time to be exploited rather than kidnap them.

Victims remain in trafficking situations because they:

- lack the necessities to get out
- are afraid/ashamed to leave
- are so effectively manipulated that they do not identify as being under the control of another person
