

Could Human Trafficking Be in Your RV Park or Campground?

STOP Human Trafficking
Pasco County Commission on Human Trafficking

RV parks are ideal places for trafficking because...

- RV's are mobile and may be moved frequently
- Due to their mobility RV's can be hard for law enforcement to find
- Park staff do not check who is inside once someone checks in

Florida consistently ranks 3rd in the nation in the # of calls made to the National Human Trafficking Hotline.

Signs to watch for:

- ➔ Numerous men coming and going in short intervals to an RV, camper, van or truck.
- ➔ Adult men going into the restroom or shower area with a young person they just met in the parking lot.
- ➔ Minor females lingering in the parking lot, visiting multiple truck cabs, appearing solicitous.
- ➔ Vehicle parked for a long period of time or seems out of place (RV parked in back lot during the day).

Call 911 if....

- ⚠ There is imminent threat of harm
- ⚠ A child is involved

Your job is to observe and report. Do NOT get directly involved, you could put yourself and the victim in danger.
