Part I of the Virginia Uniform Statewide Building Code
2015 VIRGINIA CONSTRUCTION CODE
Effective September 4, 2018

RESIDENTIAL

(VRC/IRC) M1801.1.1 Equipment changes. Upon the replacement or new installation of any fuel-burning appliances or equipment in existing buildings, an inspection or inspections shall be conducted to ensure that the connected vent or chimney systems comply with the following:

1. Vent or chimney systems are sized in accordance with this code.
2. Vent or chimney systems are clean, free of any obstruction or blockages, defects or deterioration and are in operable condition.

Where not inspected by the local building department, persons performing such changes or installations shall certify to the building official that the requirements of Items 1 and 2 of this section are met.

(VRC/IRC) G2425.1.1 Equipment changes. Upon the replacement or new installation of any fuel-burning appliances or equipment in existing buildings, an inspection or inspections shall be conducted to ensure that the connected vent or chimney systems comply with the following:

3. Vent or chimney systems are sized in accordance with this code.
4. Vent or chimney systems are clean, free of any obstruction or blockages, defects, or deterioration and are in operable condition.

Where not inspected by the local building department, persons performing such changes or installations shall certify to the building official that the requirements of Items 1 and 2 of this section are met.

VRC/IRC-Virginia Residential Code/International Residential Code 2015

Note: The code sections listed above are added to the International codes by the "2015 VIRGINIA CONSTRUCTION CODE" (Part I of the Virginia Uniform Statewide Building Code) – Effective September 4, 2018

THIS FORM MUST BE RETURNED TO BUILDING INSPECTIONS PRIOR TO THE FINAL INSPECTION
