NOTICE OF AWARD
SOLE SOURCE VENDOR

Date March 12, 2019

Name: OBX FireTech
Address: 122 Park 4 Drive, Grandy, NC 27939
To Furnish: Quint 3 (unit 616)
Estimate No.: 249

The attached estimate is hereby accepted as a source sole purchase. Quint 3 (unit 616) will need to be outsourced due to several issues that we do not have the resources here at Fleet Management to perform. The engine water pump is leaking, due to the size of our facility we are unable to raise the ladder in order to raise the cab to gain access to replace the water pump. This apparatus has issues with the Command Zone multiplex system that controls the water pumps and valves, we do not have the tools to service this. The foam gauge is not working correctly, which we do not have the tools to service. There are very few vendors in our area that have the capability of performing the repairs to the Command Zone, therefore it will be nearly impossible to obtain three quotes to have this unit repaired. I am requesting to outsource this apparatus to OBX Fire. OBX Fire labor rates are substantially less than Atlantic and we currently do not have the manpower to transport this apparatus to their location.

For all the reasons stated above, OBX Fire is the only 'practicably available' source for meeting our need and being able to have the work completed in a manner that is necessary for the Fire Department.

This work is not to exceed **\$3,031.00**, without prior written authorization from the Fleet Manager.

Chris Talmage
Fleet Manager
