12075736896	A Little	Somewhat valuable to me	Look up my neighbors				All of my information		No	Maybe	Just depends on timing	As a cost savings measure and to be Eco friendly could we not have a digital directory that is hosted on the Shavano Park Website under a secure intranet site within the website. Or Maybe a secure app with that information. Directories are very outdated and expensive. Just my thoughts

12022996863	Frequently	Extremely valuable to me	Look up my neighbors	Use City Map	Contact info for City / HOA		All of my information	No		You know I will help with any transition!	I feel this is a service that should be provided by the City for our community. It's another "glue" that binds us together. On the other hand, a survey was a good idea as it has been extremely difficult to get a majority of residents to participate; therefore less effective/valuable. If a majority of respondents don't care, then why continue?

12007769770	Never	Not at all valuable to me	Look up my neighbors		Do not use.	Not sure, need to know more		No	No	Publishing a hard copy directory seems like an unnecessary expense - time and money. The city's published position on amenities has been focused on upgrading and elevating Shavano Park for potential new buyers and higher property tax residents. We repeatedly hear from City Council and above that we can not please every citizen and the final decision will always be to save money and promote property sales. New residents most likely will not consider a neighborhood directory to be an incentive to purchase a home in Shavano Park. All necessary information is easily and quickly available online.
