Background:

On April 18, 2017 the city received two (2) bids for the overlaying of Davis Boulevard from North Street to Wakefield and on Ruth Street from the BNSF Railroad to New Madrid Street. The proposal also included replacing the storm sewer on Davis Boulevard south of Baker Lane.

This work is part of the routine CY-17 Street improvement Program and will be completed before the start of the next school year, with funding appropriated through the Transportation Sales Tax Fund.

Apex Paving of Cape Girardeau, Missouri submitted a low bid with a price of $399,394.70. The engineer’s estimate for the project was $489,000. At this time we ask that Council award the bid to Apex Paving Company.

The bid tabulation sheet is attached for your review.

Re: 2017 Street Program
    Recommendation for Contract Award

Dear Mr. Lancaster:

Bids were opened on this date for your 2017 Street Improvement Program. Attached is a tabulation of the bids received. Our recommendation for award of a construction contract are as follows:

1. **Recommendation for Award.**

   This bid invitation was for the overlay of Davis Boulevard from North Street to Wakefield and on Ruth Street from the BNSF Railroad to New Madrid Street. The proposal also included replacing the stormsewer on Davis Boulevard south of Baker Lane.

   The low bidder for this invitation was Apex Paving Company of Cape Girardeau, MO, in the amount of $399,394.70, which is well below the budget.

   Apex Paving Company has completed many similar project in Sikeston and the surrounding area, and based upon that work we can recommend award to that firm.

2. **Project Budget.**

   The project budget would be as follows:

<table>
<thead>
<tr>
<th>Project Item</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Apex Paving Contract</td>
<td>$399,394.70</td>
</tr>
<tr>
<td>Engineering &amp; Inspection</td>
<td>43,933.30</td>
</tr>
<tr>
<td>Initial Project Budget</td>
<td>$443,328.00</td>
</tr>
</tbody>
</table>

   The project budget established for this work is $463,794, which leaves an apparent surplus of $20,466.

3. **Potential Additional Work.**

   The proposed stormsewer in the bid proposal ran piping up to just north of Baker Lane. The pipeline grade was made so that this piping could be extended up to low spot on Davis north of Wakefield Avenue, the site of a notorious drainage problem.

   Major improvements could be achieved by extending the piping up to only the first inlet north of Wakefield. The remaining portion to reach to low spot on Davis and eliminate the cross gutter could be done when the northern section of Davis is improved.

   At the unit prices offered by Apex Paving the total additional total project cost, including engineering, to extend the piping to the first inlet north of Wakefield would be $71,500. This does not include any costs that might be required for utility adjustments.
If the City is interested in adding this drainage work, this could be accomplished through a change order extending contract units to Apex. Before any commitments are made we would first need to have some utilities excavated and exposed so we can determine if utility adjustments would be required for the storm sewer to be installed and include these costs in the budget.

Please note that the storm sewer could be installed just behind the curb in the areas with trees in the media, however, it would surely be necessary to trim the trees in the median to allow for room for the excavation equipment to work.

4. **Contract Implementation.**

To get the project started the City would need to act to make an award of a construction contract to Apex Paving Company. We would then issue a formal notice of award and assemble the contract documents for execution by the City.

We should have contract documents ready for execution within 15 days after authorization.

Please call if you would like additional information.

Sincerely,

WATERS ENGINEERING, INC.

Originating Department: Public Works

To the Mayor and City Council:

Subject: Community Sheltered Workshop Contract for Park Litter Cleanup Services

Attachments:
1. 2017 CSW Park Litter Cleanup Bid
2. 2017 Parks Department Cleanup schedule

Action Options:
1. Award contract to CSW for $10,175.00 to pick up park litter
2. Other action the City Council deems appropriate.

Background:

The Parks Division budgeted $25,601.00 in Fiscal Year 2016 for two full time seasonal positions for park cleanup only. The additional two full time seasonal positions work 40 hours a week for 32 weeks for the 2017 calendar year. The staffing costs include workman’s comp and FICA into their wages.

The Community Sheltered Workshop has provided trash and restroom cleanup services to the City of Sikeston from 1995 - 2015. Their work, at an inexpensive cost, frees up Parks personnel to do major tasks including: mowing, tree trimming, field maintenance, playground maintenance, and other specific needs to maintain our parks to keep them safe. In 2016, the CSW had been contacted by the Department of Labor and reported to them they were underpaying their employees. Due to this, the CSW is required to pay their employees minimum wage which led to an escalated cost in their proposed contract from $26,706.00 to $71,840.50. This substantial increase forced the Parks Department to re-evaluate how park cleanup is done.

At the beginning of April, Community Sheltered Workshop (CSW) contacted the Parks and Recreation Department and they were willing to contract their services to pick up litter at Rotary Park, Dudley Park, Clayton Park, Roberta Rowe Park, Central Park, Malone Park, R.S. Matthews Park, Legion Park, Armory Park, Veterans’ Park, Mary Lou Montgomery Park, and Lincoln Memorial Park at a more reasonable cost. The Parks Department would still be responsible for emptying the trash barrels, cleaning all the rest room facilities and handling all trash and restroom...
cleanup at the Recreation Complex. The number of cleanings per week varies on park needs. Please refer to the attachment for a breakdown of schedule and charges.

The Parks Department currently has one seasonal park cleanup position filled, but they haven't been able to fill the other position. They have been using a full time member of their staff to fill in, but it has been a detriment in getting other parks related work accomplished.

In closing, the Parks Department would like to enter a contract agreement with the CSW for picking up litter in the specific parks per the agreement.
