Council Letter

Date of Meeting: 17-06-05

Originating Department: Governmental Services

To the Mayor and City Council:

Subject: Bill 6061 Establishing Staffing and Compensation Levels for FY-18

Attachment(s):

1. Bill 6061 with associated tables

Action Options:

1. 2nd Reading & Approval of Bill Number 6061
2. Other action Council may deem appropriate

Background:

In accordance with the City Charter, Bill 6061 establishing staffing levels and the basic compensation plan for the fiscal year ending June 30, 2018 is presented for its second reading. As set forth in Table 1-A of Bill 6061 staffing for FY2018 will consist of 120 full time employees, 13 part-time and 8 seasonal.

During FY2017, the Economic Development Division was inactivated and the City began operation of the Sikeston Memorial Municipal Airport. Both of these staffing changes are included in Bill Number 6061. The secretarial position approved last year for Parks was not budgeted or included in staffing numbers.

In the past, skilled workers were classified as entry level maintenance workers until they had completed certain training milestones. To improve compensation for the Public Works personnel, the entry-level maintenance worker position was eliminated and all new hires will begin at the higher rate of \$11.25 per hour. Additionally, skilled workers will be able to demonstrate their ability in the operation of certain equipment and be eligible for up to a \$1.00 per hour increase which results in an annual increase of \$2,080. An employee that has a good evaluation could be earning as much as \$12.75 per hour at the end of their first year.

The current mechanic receives leadman pay even though he does not supervise anyone. The adjustment was originally requested to justify an increase in the compensation for that position. The \$0.75 per hour will be added to his regular compensation and the leadman adjustment will be discontinued.

The City's entry-level salaries were significantly low for positions that had not been filled in several years. Entry-level salaries were adjusted to a more realistic number and there is no budgetary impact.

References to compensation adjustments in regards to the Employee Recognition Program were deleted. The program was revised and one-time bonuses of \$50 are given.

Commissioned officers will receive no compensation adjustment this year, per the adopted pay plan presented during the sales tax campaign. Communications officers will receive a \$500 increase as their previous adjustments were not equal to the commissioned officers.

Skilled workers will receive a \$2,080 increase, as previously discussed. All other employees will receive a \$1,000 increase in compensation.

Staff is seeking Council's approval of Bill #6061. As indicated in Section XIV: Record of Passage, the effective date of this bill will be July 1, 2017.

THIS BILL AS ADOPTED SHALL BECOME EMERGENCY ORDINANCE NUMBER 6061 AND SHALL REPEAL ORDINANCE NUMBER 6026 BEING THE FY-17 COMPENSATION PLAN AND EMPLOYEE STAFFING LEVEL AUTHORIZATION, AND ALL AMENDMENTS THERETO; AND SHALL ESTABLISH THE EMPLOYEE COMPENSATION PLAN AND STAFFING LEVELS, AND THE ADMINISTRATION THEREOF FOR FISCAL YEAR 2018 (JULY 1, 2017 THROUGH JUNE 30, 2018).

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SIKESTON, MISSOURI, AS FOLLOWS:

- A. Purpose.
- 1) To ban the use of lead materials in the public drinking water system and private plumbing connected to the public drinking water system; and
 - 2) To protect city residents from lead contamination in the city’s public drinking water system and their own private plumbing systems.
- B. Application. This section shall apply to all premises served by the public drinking water system of the city of Sikeston.
- C. Policy. This section will be reasonably interpreted by the water purveyor. It is the purveyors’ intent to ban the use of lead based material in the construction or modification of the city’s drinking water system or private plumbing connected to the city system. The cooperation of all consumers is required to implement the lead ban.

If, in the judgement of the water purveyor or his authorized representative, lead based materials have been used in new construction or modifications after January 1, 1989, due notice shall be given to the consumer. The consumer shall immediately comply by having the lead base materials removed from the plumbing system and replaced with lead free materials. If the lead base materials are not removed from the plumbing system, the water purveyor shall have the right to discontinue water service to the premises.

Section 500.050. Definitions

- A. The following definitions shall apply in the interpretation and enforcement of 500.040.
- 1) “Consumer” means the owner or person in control of any premises supplied by or in any manner connected to a public water system;
 - 2) “Lead base materials” means any material containing lead in excess of the quantities specified in Section 500.050. A.3;
 - 3) “Lead free” means:
 - a) In General.
 - 1. When used with respect to solder and flux, refers to solders and flux containing not more than 0.2 percent (0.2%) lead; and
 - 2. When used with respect to pipes and pipe fittings, refers to pipes and pipe fittings containing not more than 0.25 percent (0.25%) lead.

b) Calculation

The weighted average lead content of a pipe, pipe fitting, plumbing fitting, or fixture shall be calculated by using the following formula: For each wetted component, the percentage of lead in the component shall be multiplied by the ratio of the wetted surface area of that component to the total wetted surface area of the entire product to arrive at the weighted percentage of lead of the component. The weighted percentage of lead of each wetted component shall be added together, and the sum of these weighted percentages shall constitute the weighted average lead content of the product. The lead content of the material used to produce wetted components shall be used to determine compliance with paragraph (A) (2). For lead content of materials that are provided as a range, the maximum content of the range shall be used.

- 4) "Public drinking water system" means any publicly or privately owner water system supplying water to the general public which is satisfactory for drinking, culinary and domestic purposes and meets the requirements of the Missouri Department of Natural Resources; and
- 5) "Water purveyor" means the owner, operator, or individual in responsible charge of a public water system.
- 6) "Exemptions"
- a) pipes, pipe fittings, plumbing fittings, or fixtures, including backflow preventers, that are used exclusively for non-potable services such as manufacturing, industrial processing, irrigation, outdoor watering, or any other uses where the water is not anticipated to be used for human consumption; or
 - b) toilets, bidets, urinals, fill valves, flush-o-meter valves, tub fillers, shower valves, service saddles, or water distribution main gate valves that are 2 inches in diameter or larger.

Section 500.060. Lead Banned from Drinking Water Plumbing

- A. No water service connection shall be installed or maintained to any premises where lead base materials were used in new construction or modifications of the drinking water plumbing after January 1, 1989.
- B. If a premise is found to be in violation of Section 500.060 A., water service shall be discontinued until such time that the drinking water plumbing is lead free.
