Customers receiving service under this rate schedule are required to submit an application and sign a contract with the BMU specifying the nature of the service to be provided, the applicable BMU rate and any discounts applied to the rate, the projected demand (kw) and load factor (%) of the net incremental load, the term of the Agreement, and such other terms and conditions as are determined to be necessary and mutually agreeable. No discount will be provided without an executed Agreement. Discount will only be applied to an operating facility capable of meeting the projected demand (kw) and load factor (%) and does not apply during any construction of such facility.

As far as practical, all energy delivered under this rate schedule should pass through one point of delivery and the BMU, at its option, may meter at primary voltage.

Power sold to the Customer under this rate shall not be resold or shared with another entity or facility. Should a facility in a current Agreement under this rate be sold or otherwise change ownership, the BMU retains the right to approve or deny the transfer of the remainder of the Agreement to the new owner.

Maximum term for an agreement is five (5) years. Shorter terms may be negotiated. Any use and effect of Distributed Generation should be included in the initial application. No Distributed Generation that changes the original demand and load factor projections may be added during the term of the Agreement. No service under this rate will be offered past 12/31/23. Service existing under this rate as of 12/31/23 will continue to either the end of the term or until terminated under conditions listed herein. Beginning at the end of the second year of the Agreement and annually for the remainder of the Agreement, the Customer’s Average Demand and Load Factor will be evaluated for compliance with the requirements of the Agreement. Force Majeure conditions may be considered in this evaluation, but it is the Customer’s responsibility to report or confirm such conditions with the BMU prior to the annual evaluation.

BMU shall terminate service under this rate if (1) the Customer fails to meet the demand or load factor minimum requirements, (2) any terms of this rate or the associated Agreement are determined to be unlawful, (3) if during the term of the agreement, changes in federal law, state law, or other authorized regulatory requirements allow the Customer, in part or in total, to take electric service from a provider other than the BMU or (4) the Customer adds Distributed Generation to a degree that their demand and load factor no longer meet the levels listed on the original application. Customer will be given written notice of such termination.

Customer may terminate service under this rate upon written notice to BMU.

BMU shall terminate this rate on the billing cycle following the billing cycle in which notice was given.

If the power factor is less than 85% and the customer does not expeditiously take corrective action, the BMU shall adjust the Customer’s billed demand in accordance with the following formula:

\[\text{Bill Demand (kw)} = \text{Actual Demand (kw)} \times \frac{0.85}{\text{Actual Power Factor}}\]

Continued failure to maintain an 85% power factor may result in discontinuance of service to the customer until such time the customer installs suitable devices to bring the power factor up to 85%, or higher, or BMU may install necessary corrective equipment on its lines to improve the customer's power factor to at least 85% and will charge the customer for the total installed cost for same (including material, labor, and overhead costs).

Subject: Authorization to Extend Farm Lease – Sikeston Airport

Action Options:

1. Farm Lease

Background:

In early 2017, staff sought bids to raise crops on land to the north end of Sikeston Airport (103 acres). We received 3 bids, and council awarded the bid to T&B Wade Farms in March of 2017 for an annual payment of $4,144.40 divided over two semi-annual payments.

This farm lease arrangement has gone exceptionally well with little to no complications. In a couple cases, the farmers encountered drainage/ditch issues that they fixed on their own rather than having us address the issues.

This lease ends in December of 2019, and rather than put these out for bids again at this time, staff is seeking to offer a 2 year extension for the agreement to T&B Farms at the same annual amount.

We would then put this out for bids a new lease in early 2022.

Staff has spoken to the Wade Family, and they are favorable to the lease being extended.
CROPLAND FOR RENT

The City of Sikeston will accept cash rent bid proposals to farm certain tracts of land located at the Sikeston Memorial Municipal Airport of approximately 103.61 acres. Proposals will be accepted at City Hall, 105 East Center Street until 10:00 a.m. on March 3, 2017. For additional information and proposal forms, contact Lee Dunn, Airport Manager, 160 Airport Drive, Sikeston, MO 63801, Phone 573.471.2037 between 8:00 a.m. and 5:00 p.m., Monday through Friday. Visit The City’s website www.sikeston.org for a link to the bid packet or pick up at City Hall or the airport. The City of Sikeston reserves the right to accept or reject any and all bids or any part thereof.
