Whitfield County

Board of Commissioners

Board Members Jevin Jensen, Chairman Robby Staten Greg Jones Barry Robbins John Thomas

August 7, 2024

The Honorable Jevin Jensen, Chairman Members of the Board of Commissioners and Citizens of Whitfield County, Georgia

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year, unless an extension has been approved, a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the annual comprehensive financial report of Whitfield County for the fiscal year ended December 31, 2023.

This report consists of management's representations concerning the finances of Whitfield County. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of Whitfield County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Whitfield County financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Whitfield County comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that to the best of our knowledge and belief this financial report is complete and reliable in all material respects.

Whitfield County's financial statements were audited by Mauldin & Jenkins, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of Whitfield County for the fiscal year ended December 31, 2023, were free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Whitfield County financial statements for the fiscal year ended December 31, 2023, were fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Whitfield County's MD&A can be found immediately following the report of the independent auditors.

Overview of the Annual Comprehensive Financial Report

The Annual Comprehensive Financial Report is presented in three sections: Introductory, Financial, and Statistical. The Introductory Section includes this letter of transmittal; a list of Whitfield County's principal officials, department directors and elected officials, and organizational chart. The Financial Section includes management's discussion and analysis, basic financial statements and schedules, as well as the independent auditor's report on these financial statements and schedules. The Statistical Section includes selected financial and demographic information, generally presented on a multi-year basis.

Reporting Entity

The financial reporting entity (Whitfield County, Georgia) includes all of the funds of the primary government, as well as all of its component units. Component units are legally separate entities for which the primary government is financially accountable. Blended component units, although legally separate entities, are, in substance, part of the primary government's operations and are therefore also included as part of the primary government. Based on the blended component unit criteria, no blended component units are included in this report.

Discretely presented component units are reported as a separate column in the combined financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position, results of operations and cash flows from the primary government. The Whitfield County Department of Public Health is included as a discretely presented component unit.

Profile of the Government

Whitfield County is located in the northwestern portion of Georgia. Considered to be the economic hub of the region, it occupies a land area of 290 square miles and serves an estimated population of 103,687. The County is empowered to levy a property tax on both real and personal properties located within its boundaries. Formed from a portion of Murray County in 1851 - making it Georgia's 97th county - it was named for the Reverend George Whitefield, the founder of the Bethesda Orphan House in Savannah. The spelling of the county's name was later changed to reflect its pronunciation.

Located at the foothills of the Appalachian Mountains, the County is blessed with natural beauty and a mild climate. It also is the gateway to the 150 miles long Chieftain's Trail, which traces the path of the Cherokee Indian sites, located in the Northwest Georgia area. Dalton/Whitfield County is, additionally, known as the "Floor Covering Capital of the World". Being located in 'Auto Alley' on Interstate 75, only 25 miles south of Chattanooga and 85 miles north of Atlanta, Whitfield is also a prime location for business expansion, relocation and economic development. This places the County within a day's drive of half the country's population, making it a great location for distribution.

The County has been operating under a Board-Administrator form of government since 1971. Policy-making and legislative authority are vested in the Board of Commissioners consisting of a Chairman elected at-large and four commissioners from four separate districts, elected by district on a partisan basis. The Chairman and Commissioners serve four-year staggered terms. The Board of Commissioners are responsible for passing ordinances, adopting the budget, appointing committees, and hiring the government's administrator, attorney and auditors, among other duties. The County Administrator is responsible for carrying out the policies and ordinances of the Board of Commissioners, for overseeing the day-to-day operations of the government, and for the hiring/dismissing of the Directors of various departments under the Board of Commissioners.

A full range of services, including police protection via the Sheriff's Office, maintenance of roads and other infrastructure, inspections and enforcement, court services, jail, 911, fire protection, animal control, parks and recreation, emergency management, planning and zoning, storm water management, and transit bus operations, are provided.

The annual budget serves as the foundation for Whitfield County's financial planning and control. In accordance with state law, an operating budget consistent with generally accepted accounting principles is adopted annually, after both the required public notices have been issued and a required public hearing held. The final, appropriated budget must be adopted no later than December 31, and is prepared by fund and department. Departmental Directors may make transfers of appropriations within a department, except for salaries and benefits and capital. Transfers of appropriations from salaries and benefits and capital, or between departments, however, require the approval of the Board of Commissioners. Therefore, other than for this exception of salaries and benefits and capital, the legal level of budgetary control is at the Departmental level, and applies to every fund for which a budget is adopted. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. Annual appropriated budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund, debt service fund, and all special revenue funds. Annual operating budgets are not legally required for enterprise funds, but are prepared for use in planning, control, and evaluation purposes.

Factors Affecting Financial Conditions

Information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment within which the County operates.

Local Economy

For decades, Dalton/Whitfield County has been known as the "Floor Covering Capital of the World." However, recent community and economic development planning processes in Whitfield County have consistently arrived at a fundamental conclusion: in order to realize a sustainable economic future, the County must diversify its local economy. Specifically, studies have repeatedly concluded that the community is highly dependent on a single business sector: the carpet and flooring industry. The Board of Commissioners, along with the Joint Development Authority and other County-based municipalities, recognize the need for a more diversified local economy and thus, the necessity of recruiting new businesses to the area. The Dalton/Whitfield County Joint Development Authority focuses on economic growth of the community by attracting and retaining jobs, diverse investments, and growing the tax base by identifying and recruiting "targeted" industries (plastics/chemical, datacenters, auto suppliers, high-end retail, distribution, and food processing); employing accelerated marketing techniques; collaborating with existing businesses and industries and working to ensure long-term competitiveness in order to both attract new companies and grow existing companies by actively promoting the identification and studying the feasibility of all available properties for business and industrial development.

The most visible results – to date – of these efforts are the recent capital investment of \$130 million to construct the world's largest solar cell manufacturing facility in the County's southern-located industrial park, Carbondale Business Park, along the I-75 corridor. This facility added approximately 525 employment positions to the County workforce when it opened in early 2019. During 2022, this enterprise undertook a major - \$379 million - expansion, which was completed in 2023, adding 980 additional jobs to the region. A second major investment of \$85 million occurred in 2020 with the commitment of Gedia Automotive Group - with 200 hundred planned positions - to open its first Southeastern-based plant, also in Carbondale Business Park. This international company based in Germany provides structural automotive parts to Volkswagen, BMW, Mercedes-Benz, Volvo, and others.

Both public and private schools in Whitfield County are major contributors to the local economy in the form of employment opportunities and capital investments being made in new and expanded school facilities.

The largest single influence upon the local economy since the Great Recession of 2008 has been the COVID-19 pandemic of 2020. At the pandemic's height during the middle of the year, almost all business and industry came to a complete halt. In the longer term, as State-mandated restrictions were eased, the most impacted businesses were those of a social-exposure nature: restaurants and stores. By the end of 2020, many of these had yet to fully re-open. Some enterprises did not survive the long shutdown.

As the nation has emerged from the COVID-19 era, Whitfield County's economic recovery has progressed largely in lockstep with most of the rest of the country. While the average national unemployment rate for 2023 was 3.6%, it was 3.3% in Whitfield. Prior to the onset of the pandemic in early 2020, the County unemployment rate was 4.4% at the end of December 2019. For the County at least, a rebound effect of business openings and a return to a largely normal lifestyle have occurred during the past three years.

However, another economic danger surfaced in 2021. Spikes in consumer spending – largely attributed by economic analysts as being due to the unprecedented federal government's monetary stimulus designed to offset the COVID-19 pandemic – sparked the beginning of an inflationary cycle. By December 2022, inflation was up 6.5% from December 2021 – increasing at the fastest pace since 1982. While economic conditions and consumer sentiment have remained robust thus far, it is unknown what long-term effect the combination of the highest inflation in forty years and rapidly rising interest rates may have on the local economy.

During 2023, the average Whitfield County worker earned roughly \$54,028: a 4.6% wage increase over the prior year. The only counties with a higher annual wage than this are tied to the strong regional economies of Atlanta. As of 2022 however, per capita income (PCI) remained below that of its peers, equaling \$45,299, lower than the statewide amount of \$56,589. There are several likely factors which may explain the gap between Whitfield County's high wages and low per capita income: Per Capita Income (PCI) is calculated based on total population. A relatively large portion of the County's population consists of individuals aged 19 and under who are not yet prime working age.

Long-Term Financial Planning

As is the case with most local governmental entities, the majority of services provided by Whitfield County are funded through an ad valorem tax levied against real and personal property. In the past, the fair market value of real property had served as an excellent basis for funding governmental services since it had proven to be extremely stable and reliable. In terms of the benefits being received from these taxes, there is often said to be a direct relationship between the quality of the services being provided and the fair market value of the property being served.

Whitfield County experienced a steady decline in Net M&O Digest Totals since the downturn in the economy in 2008 through 2012. The county experienced less than a 1% increase in the Net M&O digest in the years 2013 and 2014. In 2015 and 2016 the net digest experienced a 1.89% and .24% decline due to the effects of the elimination of the motor vehicle digest. In an effort to remain competitive with surrounding counties and to attract new business and jobs to the area, the Board of Commissioners voted in 2011 (effective 2012) to expand the Freeport Exemption to 100%. This increased Whitfield County's exemptions on the Gross Digest from approximately \$491 million dollars to \$835 million dollars, costing approximately \$4.7 million dollars in property tax revenue in 2016. In 2017 the county Board of Assessors office performed an urban land uniformity project intended to ensure equitability in land values across the county, and due in part to positive reassessments combined with new construction, a 6% increase in the total net digest occurred. The 2024 millage rate will be set in August of 2024. In accordance with state law, the millage rate is assessed on only 40% of the property valuation.

The County M&O millage rate for 2023 was set in September at 6.00. Due to a rollback of the rate for the portion which represents a positive reassessment county wide, plus an additional amount enacted by the Board of Commissioners, this totaled a reduction of 1.3 mils from the 2022 rate of 7.3. The special tax district millage rate for 2023 was simultaneously set at 3.0410. This rate was reduced from the 2022 rate of 3.438 mils due to the elimination of the Jointly Funded District. This rate is applied to tax bills of only unincorporated county residents as well as residents of all municipalities in the county other than the City of Dalton.

Local Option Sales Tax (LOST) is one of the County's most significant sources of revenue. This and TAVT receipts provide the vast majority of the County's recurring monthly operating revenue. As required by state law, the County negotiated LOST percentages with the cities within its borders in 2022. The county faces the continuing challenge of providing both necessary and expected services, while balancing reductions of revenue against unwanted millage rate increases.

Whitfield County voters passed a \$48,000,000 special purpose local option sales tax (SPLOST) in 2008 for the main purpose of financing capital outlay projects involving roads, streets, and bridges. The one remaining project involves a realignment of the intersection of Dawnville-Beaverdale Road with Beaverdale road. Assorted paving operations are planned to be undertaken with any remaining funds.

On March 17, 2015, voters approved a four year 1% 2015 SPLOST effective July 1, 2015. Approximately \$65 million worth of collections funded various county paving/resurfacing projects, a new public safety communications system, public safety equipment, recreation improvements, and a new county fire department facility.

On June 9, 2020, voters approved a four year 1% 2020 SPLOST effective October 1, 2020. This is set to expire in September of 2024. Approximately \$66 million worth of anticipated collections are expected to fund various county paving/resurfacing projects, public safety equipment, construction of Riverbend Park and other recreation improvements, and library capital improvements.

Other Information

Independent Audit

The Georgia Code requires an annual audit of the books of account, financial records, and transactions of all administrative departments of the County by independent certified public accountants selected by the Board of Commissioners. The auditor's unqualified opinion has been included in this report.

Awards

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Whitfield County for its annual comprehensive financial report for the fiscal year ended December 31, 2022. In order to be awarded the Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of this annual comprehensive financial report could not have been accomplished without the dedication and contributions of the entire Finance Department staff and the cooperation of the various elected officials and appointed management. We would also like to express our gratitude and appreciation to the staff of Mauldin & Jenkins, LLC, Certified Public Accountants, for their technical guidance and assistance to make this a quality report.

In closing, we also wish to acknowledge the valuable contribution of the Board of Commissioners. Without their guidance and leadership, preparation of this report would not have been possible.

Respectfully Submitted,

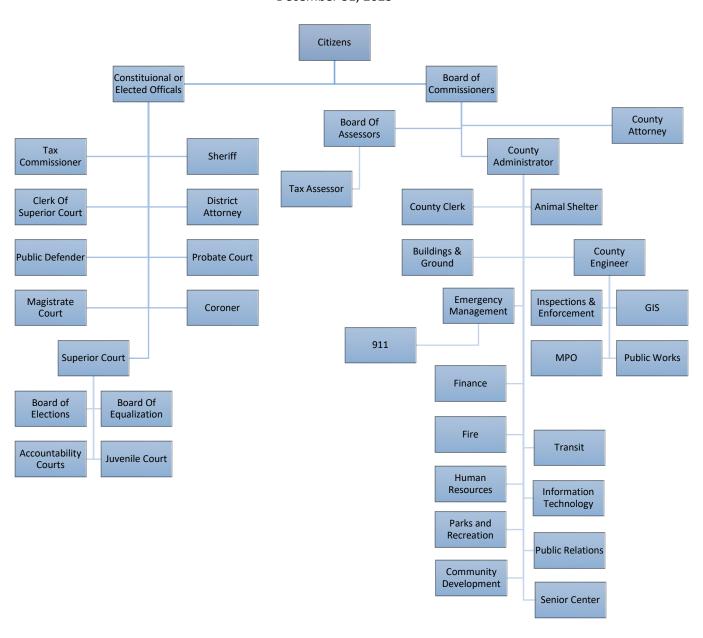

Robert Sivick

FINANCIAL SECTION

The financial section includes the independent auditor's report on the financial statement audit, the MD&A which provides a narrative introduction, overview and analysis of the financial statements, the basic financial statements including footnotes, combining and individual fund presentations, and supplementary information.

INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners of Whitfield County, Georgia Dalton, Georgia

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of **Whitfield County, Georgia** (the County), as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Whitfield County, Georgia as of December 31, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund, Special Fire District Fund, and the American Rescue Plan Act Special Revenue Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Whitfield County Department of Public Health, which represent 100 percent of the assets, net position, and revenues of the discretely presented component unit as of December 31, 2023. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the County, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (Government Auditing Standards), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectives of the County's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
 accounting estimates made by management, as well as evaluate the overall presentation of the
 financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Changes in the County's Total OPEB Liability and Related Ratios, the Schedule of Changes in the County's Net Pension Liability and Related Ratios, and the Schedule of County Contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules, the Schedule of Projects Constructed with Special Purpose Local Option Sales Tax Proceeds, as required by the Official Code of Georgia 48-8-12, and Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

Mauldin & Jenkins, LLC

In accordance with *Government Auditing Standards*, we have also issued our report dated August 7, 2024, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis (MD&A) is a narrative introduction, overview and analysis of the basic financial statements prepared by the County's Finance Director.

WHITFIELD COUNTY, GEORGIA MANAGEMENT'S DISCUSSION AND ANALYSIS Year Ended December 31, 2023

Management's Discussion and Analysis of Whitfield County Government's Annual Comprehensive Financial Report (ACFR) provides an overall narrative and analysis of the County's financial statements for the fiscal year ended December 31, 2023. This discussion and analysis are designed to provide insight regarding the County's financial performance as a whole. The reader should also review the information presented here in conjunction with additional information which has been furnished in the financial statements and the notes to the financial statements to gain an enhanced understanding of Whitfield County's financial performance.

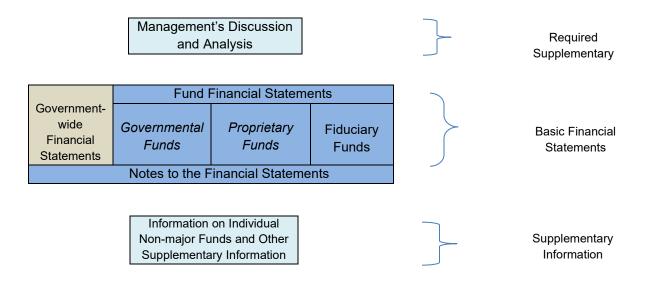

FINANCIAL HIGHLIGHTS

Key financial highlights for 2023 are as follows:

- ♦ The County's combined net position totaled \$269.1 million. Of this amount, \$252.1 million represents governmental activities and \$17 million represents business-type activities. This is an increase of \$4.4 million from the prior year.
- ♦ Total net position is comprised of the following:
 - (1) Net investment of capital assets of \$209.8 million includes property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of capital assets.
 - (2) Net position of \$16.8 million is restricted by constraints imposed from outside the County such as debt covenants, grantors, laws, or regulations.
 - (3) Unrestricted net position of \$42.5 million represents the portion available to maintain the County's continuing obligations to citizens and creditors.
- ♦ Combined revenue totaled \$110.3 million, of which governmental activities totaled \$109.6 million and business-type activities totaled \$.7 million.
- ♦ Overall expenses totaled \$106 million of which governmental activities totaled \$102.5 million and business-type activities totaled \$3.5 million.
- ♦ The County's governmental funds reported a total ending fund balance of \$54.5 million for this year, which is an increase of \$4.5 million from the prior year.
- ♦ At December 31, 2023, the County's General Fund reported an unassigned fund balance of \$34.8 million.

OVERVIEW OF THE FINANCIAL STATEMENT

This is the twentieth Annual Comprehensive Financial Report (ACFR) Whitfield County has issued under the Governmental Accounting Standards Board (GASB) Statement 34. The following illustration is provided as a guide for the financial statements:

This discussion and analysis are intended to serve as an introduction to Whitfield County's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The County also includes in this report additional information to supplement the basic financial statements. Comparative data is presented when available.

Government-wide Financial Statements

The Government-wide financial statements provide a broad view of the County's operations in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the County's financial position, which assists in assessing the economic condition at the end of the fiscal year. These statements are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. This means the statements consider all revenues and expenses connected with the fiscal year even if cash involved has not been received or paid. There are two government-wide financial statements, the Statement of Net Position and the Statement of Activities, which are both described below.

The Statement of Net Position presents information on all the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with residual of all other elements reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. This means that revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods. An example of this would be uncollected taxes and earned but unused paid time off.

Both of the government-wide financial statements distinguish functions of Whitfield County Government that are principally supported by taxes and intergovernmental revenues from other functions that are intended to recover all or a significant portion of their costs through user fees and charges. The governmental activities include general government, judicial, public safety, public works, health and welfare, culture and recreation and housing and development. The business-type activities include the Northwest Georgia Trade and Convention Center, Whitfield Transit System, and Dalton-Whitfield Solid Waste Management Authority. The government-wide financial statements also include a discretely presented component unit which is the Whitfield County Health Department. Component units are legally separate organizations for which the elected officials of the County are financially accountable.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

The fund financial statements focus on individual parts of the County government, reporting the County's operations in more detail than the government-wide statements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds. It is important to note that these fund categories use different accounting approaches and should be interpreted differently.

Governmental Funds – Most of the basic services provided by the County are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide statements, the governmental fund financial statements focus on short-term financing requirements. This approach is known as using the flow of current financial resources measurement focus and the modified accrual basis of accounting. These statements provide a detailed short-term view of the County's finances that assists in determining whether there will be adequate financial resources available to meet the County's current needs.

The County maintains four governmental fund types: General Fund, Special Revenue Funds, Debt Service Fund, and the Capital Projects Funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, American Rescue Plan Act Fund, SPLOST 2020 Fund, and the Special Fire District Fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. The basic governmental fund financial statements are presented on pages 20 through 26 of this report.

Individual fund information for non-major governmental funds is found in combining statements in a later section of this report.

Proprietary Funds – These funds are used to account for activities that operate similar to those commercial enterprises found in the private sector. Because these funds charge fees for services provided to outside customers including local governments, they are known as enterprise funds. Proprietary funds use the accrual basis of accounting, thus there is no reconciliation needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements.

The Whitfield County Transit System is the only proprietary fund operated by the County. Services provided by the two joint ventures to customers include the Dalton-Whitfield Solid Waste Management and the Northwest Georgia Trade and Convention Center. Internal service funds are an accounting device used to account for services provided and billed on an internal basis. The County utilizes internal service funds for workers' compensation and health insurance. The internal service funds are reported as governmental activities on the basic proprietary fund financial statements which can be found on pages 32 through 35.

Fiduciary Funds – These funds are used to account for assets held by the County as an agent for individuals, private organizations, other governments and other County departments. The county is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and only by those to whom the assets belong. These funds are not reflected in the government-wide financial statements because the resources are not available to support the County's operations or programs. The accounting used for fiduciary funds is much like that used for proprietary funds. Whitfield County maintains six fiduciary agency funds which include the Clerk of Superior Court, Probate Court, Magistrate Court, Sheriff, Juvenile Court and Tax Commissioner. The statement of fiduciary assets and liabilities for these agency funds can be found in a later section of this report.

Budgetary Comparisons

Whitfield County adopts an annual appropriated budget for the General Fund, Special Revenue Funds, and Capital Projects Funds. Although not required, the County also adopts an annual appropriated budget for the Whitfield Transit System which is a non-major enterprise fund. A budgetary comparison schedule has been provided for the General Fund and can be found on pages 27 through 29. Budget to actual comparisons for other funds are provided in individual schedules elsewhere in this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 38 through 72 of this report.

Other Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 73 through 75 of this report.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The County's combined net position (governmental and business-type activities) totaled \$269.1 million as of December 31, 2023.

WHITFIELD COUNTY, GEORGIA STATEMENT OF NET POSITION

	Governmen	tal Activities	Business	Activities	Total

Deferred Inflows								
of Resources	3,395,433	7,538,553			3,395,433	7,538,553		
Net position:								
Invested in capital assets	209,697,143	205,037,958	89,104	124,126	209,786,247	205,162,084		
Restricted	16,763,292	14,929,662	-	-	16,763,292	14,929,662		
Unrestricted	25,680,694	25,035,767	16,828,895	19,569,567	42,509,589	44,605,334		
Total net position	\$ 252,141,129	\$ 245,003,387	\$ 16,917,999	\$ 19,693,693	\$ 269,059,128	\$ 264,697,080		

A large portion of the County's net position reflects its investment in capital assets such as land, buildings, equipment and infrastructure less any related debt used to acquire those assets that is still outstanding. Net investment in capital assets increased by \$4.6 million (2.3%) in 2023.

The County uses these capital assets to provide services to its citizens; therefore, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

Changes in Net Position

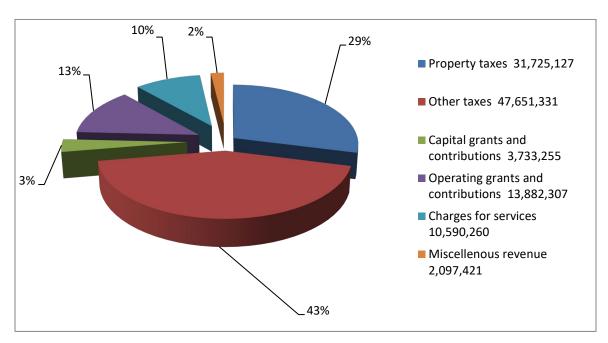

Governmental and business-type activities increased the County's net position by \$4.4 million in 2023. The following table indicates the changes in net position for governmental and business-type activities in 2023 and 2022.

Revenues: Program: Charges for services \$ 10,590,260 \$ 8,703,507 \$ 318,420 \$ 1,211,314 \$ 10,908,680 \$ Operating grants \$ 13,882,307 9,287,053 381,075 274,744 14,263,382 20,200 20,200 274,744 14,263,382 20,200	2022

Governmental Activities

The following chart depicts revenues of the governmental activities for the year ended December 31, 2023.

Revenues by Source - Governmental Activities

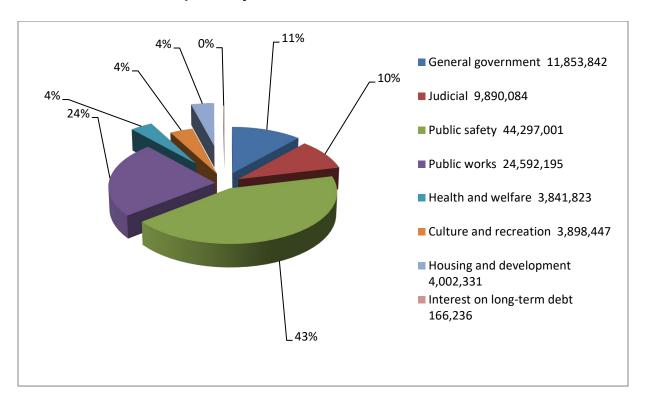

As indicated by the revenue diagram above, property taxes and other taxes were the largest sources for governmental activities. Other taxes include sales tax, insurance premium tax, hotel-motel tax and alcohol beverage tax. The two largest portions of the County's program revenue were shared by Charges for Services and Operating Grants and Contributions, accounting for 37.5% and 49.2% respectively, of total program revenues each. Charges for Services include licenses and permits, fines and forfeitures related to judicial activity, fees for real estate transfers, fees associated with the collection of property taxes and fees charged through various County governmental departments. Operating Grants and Contributions revenues were largely related to American Rescue Plan Act grant revenue for general government and public safety operations.

The County's governmental activities total revenue increased 12.6%, or \$12.3 million, in 2023. The largest contributing factor to this change was earned revenue related to the American Rescue Plan Act grant.

The following chart depicts expenses of the governmental activities for the year ended December 31, 2023.

Expenses by Function – Governmental Activities

As indicated by the expense diagram, the largest uses of County resources were for Public Works and Public Safety services such as Sheriff's Department Enforcement and Corrections divisions, Fire, Coroner, Animal Control and Emergency Management.

The County's governmental activities total expenses increased 18.9%, or \$16.3 million during the year ended December 31, 2023.

The following table presents the cost of each of the County's programs, including the net costs (i.e., total cost less revenues generated by the activities). The net costs illustrate the financial burden placed on the County's taxpayers by each of these functions.

Governmental Activities

Governmental activities

	Total cost of services			Net cost of services		
General government	\$	11,853,842	\$	3,423,353		
Judicial		9,890,084		6,447,408

Interest		166,236		166,236		
Total	\$	102,541,959	\$	74,336,137		

Business-type Activities

The County's business-type activities total revenues decreased \$787 thousand, while expenses increased \$2.7 million for 2023; accordingly, net position for business-type activities decreased 14.1%.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Governmental Funds

Whitfield County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Whitfield County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

The focus of the County's governmental funds is to provide information on short-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the County's financial requirements. In particular, the unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The County ended 2023 with strong fund balances in its governmental funds. The combined balance of all governmental funds was \$54.5 million. Of this total, \$34.8 million or 63.8% represented unassigned fund balance, which is available for spending in the coming year. The remainder of fund balance was non-spendable, restricted, committed, or assigned, to indicate that it was not available for new spending because it had already been designated: (1) to liquidate contracts, purchase orders and inventories of the prior period, (2) to pay debt service and (3) for a variety of other restricted purposes.

Major Governmental Funds

General Fund:

The General Fund is the County's primary operating fund and is used to account for all governmental financial resources not restricted by state or federal laws, local ordinances, or other externally imposed requirements. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$34.8 million, and the total fund balance was \$35.3 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 60.8% of total General Fund operating expenditures and total fund balance represents 61.8% of the same amount.

The fund balance of the General Fund increased \$2 million in 2023 for a total of \$35.3 million. The Board of Commissioners made a collaborative effort to focus on maintaining the County's excellent financial position. Revenues increased \$7.6 million (15.3%) while operating expenditures increased \$6 million. Property and sales tax revenues increased most. Various departmental budget increases related to expected price increases per the consumer price index (CPI), coupled with salary and benefits increases, contributed to the operating expenditures increase.

Special Revenue Funds:

- The Special Fire District Fund was established in 2013 to account for the funding and expenditures incurred in conjunction with the establishment of a special tax district used to provide adequate and equitable funding of fire protection services to all areas of Whitfield County outside the municipal limits of the City of Dalton. Revenues are derived primarily from property and insurance premium taxes. At the end of 2023, the fund balance was \$1.7 million, reflecting a \$554,000 fund balance increase. Property tax revenues and insurance premium tax increased which contributed to the fund balance increase.
- ◆ The American Rescue Plan Act Fund incurred \$5.9 million of eligible expenditures and recognized the same in revenues from the grant funding. The County has \$5.5 million of unearned grant funds remaining to expend in this fund.

Capital Projects Funds:

Capital Projects SPLOST 2020 Fund is used to account for the acquisition and construction of major capital assets. Revenues are derived from special purpose local option sales taxes. Collections for these funds are restricted for construction and capital outlay. Collections for the 2020 SPLOST began in October 2020, and will end in September 2024. Projects related to the 2020 SPLOST, as well as bond debt service, are funded as taxes are collected and include road, street and bridge projects, sewer extensions, and library capital improvements. At the end of 2023, the 2020 SPLOST fund balance was \$8.6 million.

Proprietary Funds

The proprietary funds share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status. This provides a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

GENERAL FUND BUDGETARY HIGHLIGHTS

Whitfield County operated under an annual balanced budget (budgeted revenues equal or exceed budgeted expenditures), which is adopted by resolution and administered in accordance with State law. The legal level of control (the level at which expenditures may not legally exceed appropriations) for each legally adopted annual operating budget is at the fund/department level. Over the course of the year, the General fund was amended by the Board of Commissioners.

The most significant expenditure amendments are summarized as follows:

General Government

♦ General government had an overall increase of \$1.7 million. Salary and benefit increases, leased office space, and inflationary effects contributed to the increase.

Judicial

♦ Judicial budgets increased \$563,000 due to salary and benefits increases and inflationary effects of the cost of supplies and court costs.

Public Safety

Public safety had an overall increase of \$3.8 million mainly due to selective pay increases, greater fuel costs, higher inmate medical costs and the need to budget salary and benefits to actual employment levels. This year Public Safety departments were very close to being fully staffed.

Public Works

• Public works had an overall increase of \$384,000 mainly due to salary and benefits increases, paving materials and fuel cost increases as a result of inflationary effects.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The County's investment in capital assets for its governmental and business-type activities as of December 31, 2023 amounts to \$209.8 million (net of accumulated depreciation and related debt). This investment in capital assets includes land, buildings, improvements, equipment, infrastructure and construction in progress. Infrastructure assets are items that are normally immovable and of value only to the County, such as roads, bridges, streets and sidewalks, drainage systems and other similar items.

Whitfield County's Capital Assets (Net of Depreciation)

	Governmental Activities			Business Activities			ities	Total Primary Government		
	2023	3		2022		2023		2022	2023	2022

Infrastructure	133,01	8,568		135,453,900				-	133,018,568	135,453,900
Total	\$ 219,08	1.747	\$:	220.925.600	\$	89,104	\$	124.126	\$ 219.170.851	\$221,049,726

The County's total decrease in capital assets for the current fiscal year was .9%.

Governmental assets that were moved from construction in progress to the asset records during the year total approximately \$2.1 million. Completed items include several major road projects designed to increase drivability/safety. These were primarily SPLOST expenditures. See Note 5 for more detailed information on capital asset activity.

Long-term Debt

As of December 31, 2023, Whitfield County's subscription payable, revenue bonds, notes payable and intergovernmental liabilities totaled \$8.2 million. This is a decrease of \$7.2 million from the prior year. See Note 7 for additional information on Whitfield County's long-term debt.

	Governmental Activities

Total	\$	8,242,010	_:	\$	15,392,103						

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

As of December 2023, Whitfield County's unemployment rate was 3.5%, slightly lower than the prior year. The local and regional economies have struggled to fill positions as the industry and service sectors seek to fulfill demand since the exit of the pandemic era began. Under normal economic circumstances, the Board of Commissioners, along with the Joint Development Authority and municipalities, recognizes the need for a more diversified local economy and the need to recruit new businesses to the area. The Dalton-Whitfield County Joint Development Authority's economic development mission is to facilitate the long-term, positive economic growth of the community by attracting jobs, diverse investments, and growing the tax base. These efforts led to the capital investment of \$130 million to construct the world's largest solar cell manufacturing facility in the County's southern-located industrial park, Carbondale Business Park, along the I-75 corridor. This facility added approximately 525 employment positions to the County workforce when it opened in early 2019, and an additional 980 were created when they completed a major - \$379 million - expansion in 2023. A second major investment of \$85 million occurred in 2020 with the commitment of Gedia Automotive Group - with 200 hundred planned positions - to open its first Southeastern-based plant, also in Carbondale Business Park. This international company based in Germany provides structural automotive parts to Volkswagen, BMW, Mercedes-Benz, Volvo, and others.

The County's assessed net taxable digest increased by 24.3% in 2023 to \$3.497 billion. Total exemptions on the gross digest were \$1.2 billion. The 2022 millage rate of 7.3 was reduced by the Board of Commissioners to 6.0, set in September. In 2012, the Whitfield County Board of Commissioners created three special tax districts to include all areas of Whitfield County outside the municipal limits of the City of Dalton for the purpose of providing adequate and equitable funding of certain jointly funded services between Whitfield County and the City of Dalton for the benefit of all such areas. A total millage rate of 2.0 mills was set for these special tax districts when they were created. In 2023, the jointly funded tax district, one of the special tax districts, was dissolved. For 2023, the millage rate was 2.755 for the Fire district and .2860 for the Solid Waste authority.

The County entered into LOST negotiations as required by state law with the City of Dalton and the other cities located within the county's borders in 2022. As a result of these negotiations the County's percentage of LOST collections will remain unchanged, which constitutes a 22.8% reduction since the beginning of the prior agreement in 2012. Understandably, County leadership has been challenged to continuously provide the same level of services which have come to be expected by the citizenry with this sustained downward trend of reduced revenue. Positive economic conditions saw a 16.5% increase of budgeted collections in sales tax revenue in 2023 when compared with 2022 actual sales tax collections. TAVT collections began in the County in March 2013. Actual TAVT collections for 2023 were \$5.3 million which was an increase of 6.6% over 2022.

Voters passed a 1 penny sales tax in June of 2020 which raised the sales tax rate from 6% to 7% effective October 1, 2020. This one penny SPLOST is expected to raise approximately \$66 million dollars and will be used to fund public safety equipment enhancements for local law enforcement, fire, road paving and improvements, bridge and culvert repair, construction of a new park and recreation facility, and many park improvements, including improvements to Miracle Field.

Other factors considered when preparing the 2024 budget included:

- ♦ A flat millage rate for 2024 for M&O and the special tax districts was assumed; however, economic factors may dictate a higher rate.
- ♦ OBEP costs will be funded on the pay-as-you-go basis.

- ♦ No defined benefit pension contributions have been budgeted for in 2024. However, it is the intention of the Board to keep the plan at a 100% funded level so the payment will be made to the plan at the end of 2024.
- Based upon estimates from the insurance broker and the decision of the BOC, a flat rate of \$11,050 was applied to each full-time employee in allocating health insurance expense to departments.
- Extremely limited capital requests were considered in the 2024 general fund budget, as other large capital needs are expected to be acquired via the 2020 SPLOST.
- ♦ The County continues to evaluate the level of services desired by citizens and how to provide those services as economically as possible. Based on demographic considerations, demands for all types of public safety, courts, and general services are expected to continue at 2023 levels.
- ♦ The 2024 budget includes 3% pay raises for most full-time County employees.
- ♦ Departmental operating budgets will be held to prior year levels except where sufficient justification is provided.
- ♦ Due to the 2020 SPLOST, which includes a total of \$9.4 million for paving and various other road projects, paving was not included in the 2024 general fund budget.

Robust economic conditions coupled with prudent fiscal management resulted in the County's not needing a tax anticipation note (TAN) to help fund operations during 2023. Again for 2024, no TAN is anticipated. Cash flow projections are constantly updated through the year. Should forecasts indicate the need for short-term borrowing, the County has procedures for quickly obtaining such funding.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of Whitfield County finances, comply with finance-related laws and regulations, and demonstrate the County's commitment to public accountability. If you have questions about this report or would like to request additional information, contact:

Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities December 31, 2023

TOTAL GOVERNMENTAL FUND BALANCES		\$ 54,473,776
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds.		
Cost Less accumulated depreciation/amortization	\$ 969,172,836 (750,091,089)	219,081,747
Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the governmental funds.		
Property taxes		2,379,130
Internal service funds are used by management to charge the costs of workers' compensation and health insurance to individual funds. The assets and liabilities of the internal service funds are included in		4 507 055
governmental activities in the Statement of Net Position.		1,637,866
Total OPEB liabilities are not due and payable in the current period and therefore not reported in the governmental funds.		
Total OPEB liability Deferred outflows of resources - OPEB related items	(8,872,600) 2,438,284	
Deferred inflows of resources - OPEB related items	(3,159,600)	(9,593,916)
Investment in joint venture		1,349,809
The net pension liability and the related deferred outflows of resources and deferred inflows of resources are not expected to be liquidated with current available financial resources and therefore are not reported in the governmental funds.		
Deferred outflows of resources - pension related items	9,475,302	
Deferred inflows of resources - pension related items Net pension liability	(235,833) (16,132,328)	(6 902 950)
Net pension hability	(10,132,328)	(6,892,859)
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds.		
Bonds payable	(1,095,000)

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2023

NET CHANGES IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS		\$ 4,480,023
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation/amortization expense. This is the amount by which capital outlays exceeded depreciation/amortization expense in the current period.		
Depreciation/amortization expense	\$ (10,539,544)	(1 042 052)
Capital outlay	 8,695,691	(1,843,853)
The net effect of various miscellaneous transactions involving noncurrent assets (investment in joint venture) is to decrease net position.		13,700
Revenues in the statement of activities that do not provide current financial resources are reported as deferred inflows of resources in the funds.		
Property taxes		(121,837)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items. Principal retirement Payment on intergovernmental agreement Issuance of subscriptions payable	649,822 6,654,000 (153,729)	7,150,093
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	 (300): 307	,,===,===
Change in compensated absences	(244,265)	
Change in OPEB expense Change in pension expense	(199,421) (2,267,868)	(2,711,554)
The internal service funds are used by management to charge the costs	 	, . , , ,
of workers' compensation and health insurance to individual funds.		 171,170
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES		\$ 7,137,742

NOTES TO THE FINANCIAL STATEMENTS

The notes to the financial statements are a required component of the basic financial statements of the County. The notes present required and essential information for the fair presentation of the statements that have not been disclosed on the face of the financial statements.

Notes to the Basic Financial Statements For the Year Ended December 31, 2023

Whitfield County, Georgia (the County), was incorporated in 1851 under the provisions of the Constitution of the State of Georgia. The County operates under a Board-Administrator form of government. The County is governed by a board of five commissioners elected by the voters of the County.

Note 1 Summary of Significant Accounting Policies

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting.

The most significant of the County's accounting policies are described below.

A. Reporting Entity

The reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the County consists of all funds, departments, boards, and agencies that are not legally separate from the County.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organizations; (2) the County is legally entitled to or can otherwise access the organization's resources; (3) the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the County is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the County in that the County approves the budget, levies their taxes, or issues their debt.

The component unit columns included on the government-wide financial statements identifies the financial data of the County's discretely presented component units is reported separately to emphasize that it is legally separate from the County.

Whitfield County Department of Public Health (Board of Health) – The Board of Health provides health care services and health education to residents of Whitfield County. The Board of Health receives financial support from Whitfield County, Georgia, the State of Georgia, and the Federal Government. The County Commission appoints a majority of the Board of Directors and approves the budget of the Board of Health. The Board of Health issued separately audited financial statements with a fiscal year ended June 30, 2023. Copies of these financial statements may be obtained from their administrative office at:

Whitfield County Department of Public Health 1710 Whitehouse Court Dalton, Georgia 30720

B. Basis of Presentation

The County's basic financial statements consist of government-wide statements, including a statement of net position, a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements – The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the County as a whole. The primary government and the component unit are presented separately within these financial statements with the focus on the primary government. Fiduciary activities are not included at the government-wide reporting level. Individual funds are not displayed but the statements distinguish governmental activities which are generally supported by taxes and County general revenues, from business-type activities which are generally financed in whole or in part with fees charged to external customers. The activity of the internal service funds (i.e., Health Insurance Fund and Workers' Compensation Fund) is eliminated to avoid duplicating revenues and expenses.

The statement of net position presents the financial position of the governmental and business-type activities of the County and the County's discretely presented component unit at year-end.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities and for each identifiable activity of the business-type activities of the County. Direct expenses are those that are specifically associated with a function and, therefore, clearly identifiable to that particular function. The County does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services, which report fees and other charges to users of the County's services; (2) operating grants and contributions, which finance annual operating activities including restricted investment income; and (3) capital grants and contributions, which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for *charges for services* is which function *generates* the revenue. For *grants and contributions*, the determining factor is to which functions the revenues are *restricted*.

Taxes and other revenue sources not properly included with program revenues are reported as general revenues of the County. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business-type activity is self-financing or draws from the general revenues of the County.

B. Basis of Presentation (Continued)

Fund Financial Statements – During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. Fund financial statements are provided for governmental, proprietary, and fiduciary funds.

Major individual governmental and enterprise funds are reported in separate columns with composite columns for non-major funds. The internal service funds are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting – The County uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The County uses three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds — Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used and fund liabilities are assigned to the fund from which they will be liquidated.

The following are the major governmental funds:

- **General Fund** The General Fund accounts for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the County for any purpose, provided it is expended or transferred according to the general laws of Georgia.
- **Special Fire District Fund** This major special revenue fund is used to account for the revenues of a specific property tax levy for all areas outside of the City of Dalton for funding the fire departments located in Whitfield County.
- **American Rescue Plan Act Fund** This major special revenue fund is used to account for the revenues and subsequent expenditures relating to the American Rescue Plan funds.
- **SPLOST 2020 Fund** This major capital projects fund is used to account for the acquisition and construction of major facilities funded by the 2020 special purpose local option sales tax.
- **Proprietary Funds** Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. The County reports the following major proprietary funds:
- **Dalton/Whitfield Solid Waste Management Fund** This major enterprise fund is used to account for the County's 50% equity interest in the joint venture with the City of Dalton.

B. Basis of Presentation (Continued)

Northwest Georgia Trade and Convention Center – This major enterprise fund is used to account for the County's 50% equity interest in the joint venture with the City of Dalton.

Additionally, the County reports the following fund types:

- **Special Revenue Funds** These funds are used to account for the various grant funded revenues as well as various court imposed fines and forfeiture revenues and the expenditures of those restricted and committed revenues.
- Capital Project Funds These funds are used to account for the capital related outlays of the County's older SPLOST dollars, bond financed projects, and other general capital outlays of the County.
- **Debt Service Fund** This fund is used to account for the debt service payments on County backed long-term financing instruments.
- **Enterprise Fund** This fund is used to account for the operating income, intergovernmental grants, and changes in net position for County's transit system.
- **Internal Service Funds** Internal service funds are used to account for the accumulation of resources to be used for health and workers' compensation insurance costs, as the County is partially self-insured.
- **Fiduciary Funds** Fiduciary fund reporting focuses on net position. The County's fiduciary funds are custodial funds. Constitutional officers use these funds to temporarily hold assets.

C. Measurement Focus

Government-wide Financial Statements – The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the County are included on the statement of net position. The statement of activities reports revenues and expenses.

Fund Financial Statements – All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

C. Measurement Focus (Continued)

Like the government-wide statements, all proprietary fund types and fiduciary funds are accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of these funds are included on the statements of net position. The statements of changes in net position present increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statements of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, governmental funds use the modified accrual basis of accounting and fiduciary funds use the accrual basis of accounting. Proprietary funds and fiduciary funds use the accrual basis of accounting at both reporting levels. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred revenue and in the presentation of expenses versus expenditures.

Revenues – Exchange Transactions – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the County, the phrase "available for exchange transactions" means expected to be received within 60 days of year-end.

Revenues – **Non-exchange Transactions** – Non-exchange transactions in which the County receives value without directly giving equal value in return, include sales tax, property tax, grants, and donations. On an accrual basis, revenue from sales tax is recognized in the period in which the taxable sale takes place.

Revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 4). Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the County must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions also must be available (i.e., collected within 60 days for property taxes and one year for all other revenue) before it can be recognized. Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: property tax, sales tax, interest, and federal and state grants.

Unearned Revenue – Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied in voluntary exchange transactions.

D. Basis of Accounting (Continued)

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

E. Cash, Cash Equivalents and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the County.

State of Georgia law authorizes the County to invest in the following types of obligations:

- Obligations of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligations fully insured or guaranteed by the government or governmental agency
- Obligations of any corporation of the government
- Prime bankers' acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund 1)
- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

Any investment or deposit in excess of the Federal Deposit Insurance Corporation (FDIC) insured amount must be secured by either (a) security pledges of 110% of an equivalent amount of State or U.S. obligations, or (b) the financial institute participating in the Georgia Secure Deposit Program, administered by the Office of State Treasurer.

Georgia Fund 1, created by OCGA 36-83-8, is a stable asset value investment pool that follows Standard and Poor's criteria for AAAf rated money market funds and is regulated by the Georgia Office of the State Treasurer. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on \$1.00 per share. The pool also adjusts the value of its investments to fair value as of year-end and the County's investment in the Georgia Fund 1 is reported at fair value. The County considers amounts held in Georgia Fund 1 as cash equivalents for financial statement presentation.

The County's nonparticipating interest-earning investment contracts are recorded at cost. The remaining investments are recorded at fair value. Increases or decreases in fair value during the year are recognized as a component of interest income.

F. Receivables

All trade and property tax receivables are reported net of an allowance for uncollectibles. Unbilled charges are accrued as receivables and revenue at December 31, 2023.

G. Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2023, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reported as nonspendable as this amount is not available for general appropriation.

I. Restricted Assets

Sinking fund resources in the 2015 SPLOST Fund and 2020 SPLOST Fund are restricted to the payment of bond principal and interest requirements as they become due.

J. Capital Assets and Right-to-Use Assets

General capital assets and right-to-use assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The County reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the governmental fund financial statements. Capital assets utilized by enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the enterprise fund statement of net position.

All capital assets and right-to-use assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their estimated acquisition values as of the date received. The County maintains a capitalization threshold of \$10,000 and an estimated useful life in excess of two years. The County's infrastructure consists of roads, bridges, water lines, detention ponds, and runways. Improvements to capital assets are capitalized.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets utilized by the enterprise fund is capitalized.

J. Capital Assets and Right-to-Use Assets (continued)

All reported capital assets and right-to-use assets are depreciated except for land, rights-of-way, detention ponds, and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Infrastructure assets acquired subsequent to January 1, 2003, are included in the amounts reported. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Buildings	7 - 40 years
Equipment and fixtures	3 – 20 years
Vehicles	5 – 10 years
Infrastructure	40 years
Right-to-use subscription asset	2 – 3 years

K. Subscription-Based Information Technology Arrangements

Lessee

The County is a lessee for noncancellable arrangements for subscription-based information technology. The County recognizes a subscription liability and an intangible right-to-use subscription asset in the government-wide financial statements. The County recognizes these liabilities with an initial, individual value of \$10,000 or more.

At the commencement of an agreement, the County initially measures the liability at the present value of payments expected to be made during the term. Subsequently, the liability is reduced by the principal portion of payments made. The asset is initially measured as the initial amount of the liability, adjusted for payments made at or before the commencement date, plus certain initial direct costs. Subsequently, the asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to the agreements include how the County determines: 1) the discount rate it uses to discount the expected payments to present value, 2) term, and 3) payments:

• The County uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the County generally uses its estimated incremental borrowing rate as the discount rate for the liabilities.

K. Subscription-Based Information Technology Arrangements (Continued)

• The lease term includes the noncancellable period of the agreement. Payments included in the measurement of the liability are composed of fixed payments and purchase option prices that the County is reasonably certain to exercise.

The County monitors changes in circumstances that would require a remeasurement of its agreement and will remeasure the asset and liability if certain changes occur that are expected to significantly affect the amount of the liability.

Assets are reported with other capital assets and liabilities are reported with long-term liabilities on the Statement of Net Position.

L. Compensated Absences

Compensated absence benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. Employees are permitted to accumulate paid time off up to 20 days. The total compensated absence liability is reported on the government-wide financial statements. Proprietary funds report the total compensated liability in each individual fund at the fund reporting level. Governmental funds report the compensated absence liability at the fund reporting level only "when due."

M. Bond Premiums, Discounts and Issuance Costs

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the term of the bonds using the effective interest method. Bonds payable are reported net of the applicable discount or premium. Issuance costs are expensed in the period in which they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

N. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance — Generally, fund balance represents the difference between the assets, liabilities, and deferred inflows of resources under the current financial resources management focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash), or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when they include amounts that can be spent only for the specific purposes stipulated by the constitution, external resource providers, or through enabling legislation.

Committed – Fund balances are reported as committed when they include amounts that can be used only for the specific purposes determined by passage of a resolution by the Board.

Assigned – Fund balances are reported as assigned when they include amounts intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. The resolution passed by the Board of Commissioners establishing the County's fund balance policy has delegated the County Administrator the authority to assign amounts to be used for specific purposes.

Unassigned – Fund balances are reported as unassigned as the residual classification for the County's General Fund and includes all spendable amounts not contained in the other classifications. The County reports positive unassigned fund balance only in the General Fund. Negative unassigned fund balances may be reported in all funds.

Flow Assumptions — When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the County's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the County's policy to use fund balance in the following order: (1) Committed, (2) Assigned, and (3) Unassigned.

N. Fund Equity (Continued)

Net Position — Net position represents the difference between assets, deferred outflow of resources, liabilities, and deferred inflows of resources in reporting which utilizes the economic resources measurement focus. Amounts shown as net investment in capital assets are made up of capital asset costs, net of accumulated depreciation/amortization and outstanding debt used to acquire, construct, or improve the associated assets. Net position is reported as restricted when there are legal limitations or external restrictions imposed upon their use. All other net position is reported as unrestricted.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

O. Operating Revenues and Expenses and Non-operating Items

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for solid waste, trade and convention center operations, transit system, health insurance, and the workers' compensation programs. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of each fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

P. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after the non-operating revenues/expenses section in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business-type activities column are eliminated.

Q. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

R. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then.

R. Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has one item that qualifies for reporting in this category. This item arises only under a modified accrual basis of accounting and, accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

The County also has deferred outflows of resources and deferred inflows of resources related to the recording of changes in its net pension liability and total OPEB liability. Certain changes in the net pension liability and total OPEB liability are recognized as pension expense and OPEB expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the County's actuary which adjust the net pension liability and total OPEB liability for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension or OPEB expense over the expected remaining service lives of plan members. Changes in actuarial assumptions which adjust the net pension liability and total OPEB liability are also recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense and OPEB expense over the expected remaining service lives of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five (5) year period. Additionally, any contributions made by the County to the pension plan or OPEB plan before year end but subsequent to the measurement date of the County's net pension liability and total OPEB liability are reported as deferred outflows of resources. These contributions will reduce the County's net pension liability and total OPEB liability in the next fiscal period.

S. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Whitfield County Defined Benefit Retirement Plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 2 Stewardship, Compliance and Accountability

Budgetary Information

The County adopts an annual operating budget for the General Fund, each Special Revenue Fund, and each Capital Projects Fund. The budget resolution reflects the total of each department's appropriation in each fund.

The General Fund budget is adopted on a basis consistent with GAAP. Budgets for the Special Revenue Funds and the Capital Projects Funds are adopted on a basis consistent with GAAP.

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget is the department level within the General Fund and at the functional level for each of the remaining individual funds. Any change in total to a fund or departmental appropriation within the General Fund requires approval of the Board of Commissioners. During the year, the Board of Commissioners approved budget revisions. All unexpended annual appropriations lapse at year-end.

Excess of Expenditures over Appropriations. For the fiscal year ended December 31, 2023, the following were instances of expenditures by fund exceeding appropriations in each fund:

General Fund:

General Government

Finance \$ 33,504 Information Technology 28,160 Debt Service

Principal payments 76,537

Note 3 Deposits and Investments

A. Credit Risk

The County does not have a formal policy to address credit risk aside from adherence to State statutes for investments. State statutes authorize the County to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime banker's acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia. As of December 31, 2023, the County's investment in Georgia Fund 1 was rated AAAf by Fitch. At December 31, 2023, the County held \$24,948,503 of investments with Georgia Fund 1. These investments are included in cash equivalents on the financial statements due to their high liquidity and an average maturity of 26 days as of December 31, 2023.

The County's investment practices have been to invest available funds locally mainly through money market accounts or through the State's investment pool (Georgia Fund 1).

Note 3 Deposits and Investments (Continued)

B. Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the County's investment policy limits at least half of the County's investment portfolio to maturities of less than one year.

C. Custodial Credit Risk – Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be (a) collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities, or (b) held by a participant in the Georgia Secure Deposit Program. As of December 31, 2023, the County was fully collateralized or secured under the State statutes.

D. Fair Value Measurements

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

As of December 31, 2023, the County did not have any recurring fair value measurements. The Georgia Fund 1 is an investment pool which does not meet the criteria of GASB Statement No. 79 and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the County does not disclose the investment in the Georgia Fund 1 within the fair value hierarchy.

Note 4 Receivables

Receivables at December 31, 2023, consisted of taxes, interest, accounts (billings for user charges, including unbilled receivables), and intergovernmental receivables arising from grants. Receivables and payables are recorded on the County's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectability.

Receivables at December 31, 2023, consist of the following:

					Due from Other	Allo	wance for		Net
	 Taxes		Accounts		Governments	Und	collectibles	F	Receivables
General Fund	\$ 2,817,981	\$	511,773	\$	1,747,488	\$	50,000	\$	5,027,242
Special Fire District Fund	864,631		192,010		-		-		1,056,641
American Rescue Plan Act Fund	-		-		75,908		-		75,908
SPLOST 2020 Fund	-		-		2,291,728		-		2,291,728
Other Governmental Funds	102,555		1,950,426		677,269		-		2,730,250
Whitfield Transit System	-		34,664		220,660		-		255,324
Internal Service Funds	 -		23,632		-		-		23,632
Total	\$ 3,785,167	\$	2,712,505	\$	5,013,053	\$	50,000	\$	11,460,725
		_		_				=	

Note 4 Receivables (Continued)

The Board of Commissioners levies property taxes by or about October 20th of each year. Property taxes attach as an enforceable lien on property as of December 20th. Property taxes are billed on or about October 20th of each year and are due and payable on or about December 20th. The County bills and collects its own property taxes and also collects property taxes for the Whitfield County Board of Education, the City of Dalton, and the State of Georgia. Collection of the County's taxes, and for the other government agencies, is the responsibility of the Tax Commissioner's Office, which is accounted for in a Custodial Fund. County property tax revenues at the fund reporting level are recognized when levied to the extent that they result in current receivables (i.e., collectible in 60 days).

Note 5 Capital Assets

Capital asset activity for the year ended December 31, 2023, was as follows:

Governmental activities:	Balance 12/31/22	Additions	Deductions	Transfers	Balance 12/31/23
Capital assets not being depreciated:					
Land	\$ 14,110,145	\$ 120,750	\$ -	\$ -	\$ 14,230,895

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:	
General government	\$ 779,747
Judicial	827,021
Public safety	2,724,670
Public works	5,124,501
Culture and recreation	1,033,673
Housing and development	49,932
Total depreciation/amortization expense - governmental activities	\$ 10,539,544
Business-type activities:	
Whitfield Transit System	\$ 35,022

Note 5 Capital Assets (Continued)

The following table provides a summary of the County's investment in capital assets less any related debt:

	Governmental		В	usiness-type	
Net Investment in Capital Assets		Activities	Activities		Total
Capital assets, nondepreciable	\$	20,881,395	\$	-	\$ 20,881,395
Capital assets, depreciable, net		198,200,352		89,104	198,289,456
Intergovernmental contracts		(6,715,000)		-	(6,715,000)
Bonds payable		(1,095,000)		-	(1,095,000)
Notes payable		(354,818)		-	(354,818)
Subscriptions payable		(77,192)		-	(77,192)
Construction payables - restricted		(1,017,495)		-	(1,017,495)
Construction payables - committed		(125,109)		-	(125,109)
Unspent bond proceeds		10			 10
	\$	209,697,143	\$	89,104	\$ 209,786,247

Note 6 Interfund Balances and Transfers

Interfund balances at December 31, 2023, consisted of amounts representing charges for services or reimbursable expenditures. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. The County expects to repay all interfund balances within one year.

Interfund balances at December 31, 2023, consisted of the following:

	P	Payable to:	
Payable from:		General Fund	Total
American Rescue Plan Act Fund Non-major	\$	5,168,423	\$ 5,168,423
Gov. Funds		122,652	122,652
Total	\$	5,291,075	\$ 5,291,075

Note 6 Interfund Balances and Transfers (Continued)

Interfund transfers for the year ended December 31, 2023, consisted of the following:

		Transfers to:							
Transfers from:	General Fund	Special Fire District Fund	Nonmajor Governmental Funds	Nonmajor Proprietary Funds	Total				
General Fund	\$ -	4	\$ 892,250	\$ -	\$ 892,250				
American Rescue Plan Act Fund	2,336,069	802,178	349,679	, - -	3,487,926				
Non-major	2,000,000	002,170	3.13,073		3, 107,320				
Governmental Funds	59,333				59,333				
Total	\$ 2,395,402	\$ 802,178	\$ 1,241,929	\$ -	\$ 4,439,509				

Transfers are used to report revenues from the fund that statute or budget requires to collect them, to the fund that statute or budget requires to expend them and unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed. All County transfers either occur on a regular basis or are consistent with the purpose of the fund making the transfer.

Note 7 Long-Term Debt

Debt Summaries

The long-term liability activity for the year ended December 31, 2023, was as follows:

	utstanding 2/31/2022	Additions	Deductions			Outstanding 12/31/2023		nounts Due o One Year
Governmental Activities: Direct Borrowing -	· ·		•					
Notes payable	\$ 404,103	\$ -	\$	(49,285)	\$	354,818	\$	-
Intergovernmental	12 200 000			(C CE 4 000)		C 71F 000		C 71F 000
liabilities Direct Placement -	13,369,000	-		(6,654,000)		6,715,000		6,715,000
Revenue bonds	1,619,000	-		(524,000)		1,095,000		539,000

Total Business-type Activities	\$ 14,310	\$ 14,489	\$	(14,233)	\$	14,566	\$	6,891

For governmental activities, the total OPEB liability, net pension liability, subscriptions payable, and compensated absences are generally liquidated by the General Fund. For business-type activities, the compensated absences are liquidated by the Whitfield Transit System.

Direct Borrowing - Notes Payable – In April 2018, the County entered into a loan agreement with the Georgia Environmental Finance Authority (GEFA) to secure financing of \$1,600,000 from the Clean Water State Revolving Fund to fund a sewer expansion project. The note is secured by the County's taxing authority. As part of the agreement, the County covenants to maintain a Fixed Charges Coverage Ratio of at least 1.05 at any fiscal year end. Failure to maintain such coverage is a result of default and the creditor has the right to call the full outstanding balance of the loan. The County has only incurred eligible costs of \$354,818 on the project; as such, the balance of \$1,245,182 was not drawn down from GEFA as of December 31, 2023 and a maturity schedule will be provided upon completion of the project.

Note 7 Long-Term Debt (Continued)

Debt Summaries (Continued)

Intergovernmental contracts payable — On August 21, 2020, the City of Dalton Building Authority issued \$26,500,000 of revenue bonds at 0.92% for the purpose of acquiring, constructing, equipping, maintaining and operating projects embracing buildings and facilities and related equipment for use by the City of Dalton, Georgia. At that time, the County executed a contract that obligates them to pay the debt service obligations on the full bond. Payments of principal and interest are due on April 1 and October 1, maturing in 2024.

Intergovernmental contracts payable requirements are as follows:

	Governmental Activities									
		Intergovernmental Contracts Payable								
Year	Principal			lı	nterest	Total				
2024	\$	6,715,000		\$	61,778	\$	6,776,778			
Total	\$	6,715,000		\$	61,778	\$	6,776,778			

Direct Placement Revenue Bonds – On June 10, 2015, the County issued Series 2015 Taxable Refunding Revenue bonds through the Dalton-Whitfield Joint Development Authority in the amount of \$4,885,000. These bonds bear interest of 2.99%, with annual installments of \$426,000 to \$556,000, with a final maturity of June 15, 2025. Proceeds from these bonds were used to repay the County's outstanding Series 2010B bonds of \$4,775,000, plus issuance costs. The refunding reduced the total debt service payments by \$614,097 over the next ten years, and the net present value of cash flow savings is \$428,329.

Pursuant to these bond issues, the County entered into intergovernmental contracts with the Dalton-Whitfield Joint Development Authority whereby the County has an unconditional obligation to provide funds for the bond payments. The County will exercise its power of taxation to the extent necessary, to meet the debt service obligations.

Annual debt service requirements to amortize all obligations outstanding, as of December 31, 2023 follow:

Governmental Activities								
Revenue Bonds Payable								
	Principal	lı	nterest		Total			
\$	539,000	\$	24,682	\$	563,682			
	556,000		8,312		564,312

Note 7 Long-Term Debt (Continued)

Debt Summaries (Continued)

Subscriptions payable — As of January 1, 2023, the County had a 33 month subscription for the use of Softdocs. An initial subscription liability was recorded in the amount of \$95,980. As of December 31, 2023, the value of the subscription liability is \$48,723. The County is required to make annual fixed payments of \$49,270. The subscription has an interest rate of 2.7960%. The value of the right to use asset as of December 31, 2023 of \$95,980 with accumulated amortization of \$34,902 is included with right-to-use subscription asset within the capital assets table.

As of January 1, 2023, the County had a 24 month subscription for the use of CISCO. An initial subscription liability was recorded in the amount of \$57,749. As of December 31, 2023, the value of the subscription liability is \$28,469. The County is required to make annual fixed payments of \$29,280. The subscription has an interest rate of 2.8470%. The value of the right to use asset as of December 31, 2023 of \$57,749 with accumulated amortization of \$28,875 is included with right-to-use subscription asset within the capital assets table.

Annual debt service requirements to maturity for subscriptions payable are as follows:

		Governmental Activities							
		9	Subscriptions Payable						
Year	Principal		In	terest	Total				
2024	\$	77,192	\$	2,173	\$	79,365			
Total	\$	77,192	\$	2,173	\$	79,365			

Note 8 Defined Benefit Pension Plans

Plan Description – The County, as authorized by the Board of Commissioners, has established a defined benefit pension plan, The Whitfield County Defined Benefit Plan (the Plan), covering substantially all of the County's employees. The County's pension plan is administered through the Association of County Commissioners of Georgia Third Restated Defined Benefit Plan (the ACCG Plan), an agent multiple-employer pension plan administered by GEBCorp and affiliated with the Association of County Commissioners of Georgia (ACCG). The Plan provides retirement, disability, and death benefits to plan members and beneficiaries. All full-time eligible employees participate in the Plan immediately upon employment and benefits vest after five (5) years. Participants become eligible for normal retirement, which is the later of age 65 or five (5) years of vesting service. Early retirement eligibility is the later of age 60 or 10 years of vesting service. The retirement benefit to be paid is calculated as the sum of the following components:

- For employees with a date of hire prior to January 1, 2003: 1% of Average Annual Compensation up to \$6,600, plus 1.50% of Average Annual Compensation in excess of \$6,600, plus \$36 multiplied by years of service;
- For employees with a date of hire on or after January 1, 2003: 1% of Average Annual Compensation multiplied by years of service.

Compensation is defined as the highest five (5) years of the most recent ten (10) year period of base wages during employment with the County. The Plan also provides benefits in the event of death or disability.

The ACCG, in its role as the Plan sponsor, has the sole authority to establish and amend the benefit provisions and the contribution rates of the County related to the Plan, as provided in Section 19.03 of the ACCG Plan document. The County has the authority to amend the adoption agreement, which defines the specific benefit provisions of the Plan, as provided in Section 19.02 of the ACCG Plan document. The Board of Commissioners retains this authority. The ACCG Plan issues a publicly available financial report that includes financial statements and required supplementary information for the pension trust. That report may be obtained at www.gebcorp.com or by writing to the Association of County Commissioners of Georgia, Retirement Services, 191 Peachtree Street, NE, Atlanta, Georgia 30303 or by calling (800) 736-7166.

Plan Membership – As of January 1, 2023, the date of the most recent actuarial valuation, the Plan's membership consisted of the following:

Retirees, Beneficiaries and Disableds receiving benefits	247
Terminated plan participants entitled to but not yet	
receiving benefits	314
Active employees participating in the Plan	349
Total number of Plan participants	910

Contributions – The Plan is subject to minimum funding standards of the Georgia Public Retirement Systems Standards law. The Board of Trustees of the ACCG Plan has adopted a recommended actuarial funding policy for the plan which meets state minimum requirements and will accumulate sufficient funds to provide the benefits under the plan. The funding policy for the Plan, as adopted by the Board of Commissioners, is to contribute an amount equal to or greater than the actuarially recommended contribution rate. This rate is based on the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. Plan participants are not required to contribute to the Plan. For the year ended December 31, 2023, the County's contribution rate was 13.0% of annual payroll. County contributions to the Plan were \$2,357,168 for the year ended December 31, 2023.

Net Pension Liability of the County – The County's net pension liability was measured as of December 31, 2022. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2022, with update procedures performed by the actuary to roll forward to the total pension liability measured as of December 31, 2022.

Actuarial assumptions. The total pension liability in the January 1, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.00%
Salary increases	4.00% plus an age based scale
Investment rate of return	7.00%, net of pension plan
	investment expense, including inflation

The mortality table used was the Pub-2010 Amount weighted Mortality Table with a blend of 50% of the General Employees Table and 50% of the Public Safety Employees with Scale AA to 2022. The table was changed to adopt the mortality tables developed specifically for governmental employees by the Society of Actuaries which were released late in 2018. The tables were projected to 2022, to reflect that mortality rates in Georgia are in the highest quartile in the nation.

The actuarial assumptions used in the January 1, 2022, valuation were based on the results of an actuarial experience study through February 2019.

The long term expected rate of return of 7.00% is based on analysis performed by the Board of Trustees in 2019, and comprised of the estimated 65th percentile return based on UBS Capital Market Assumptions of 6.10%, combined with a five year performance addition in excess of benchmarks of 0.90%.

Net Pension Liability of the County (Continued) – Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2022, are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
US Fixed income	30%	3.60%
US Equity Large Core	30%	8.20%
International Core	15%	8.90%
Mid Cap Core	10%	9.10%
Private Real estate	5%	8.50%
Global Core	5%	8.50%
US Equity Core	5%	8.30%
Total	100%	

^{*} Projected returns based on UBS capital market assumptions.

Discount rate – The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that County contributions will be made based on the average County contribution made to the Plan over the prior five years. Based on this assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability of the County – The changes in the components of the net pension liability of the County for the year ended December 31, 2023, were as follows:

	То	Total Pension		n Fiduciary	Net Pension
		Liability		et Position	Liability
		(a)	(b)		(a) - (b)
Balances at 12/31/21	\$	61,376,479	\$	57,136,336	\$ 4,240,143
Changes for the year:					
Service cost		666,693		_	666,693
Interest		4,211,018		-	4,211,018
Differences between expected and actual experience		1,393,325		-	1,393,325
Changes in actuarial assumptions		103,332		-	103,332
Contributions—employer		-		3,963,335	(3,963,335)
Net investment income		-		(8,145,943)	8,145,943
Benefit payments, including refunds					
of employee contributions		(2,438,174)		(2,438,174)	-
Plan change		961,768		-	961,768
Other changes		-		(272,188)	272,188
Administrative expense		-		(101,253)	101,253
Net changes		4,897,962		(6,994,223)	11,892,185
Balances at 12/31/22	\$	66,274,441	\$	50,142,113	\$ 16,132,328

Plan changes – The Plan was amended effective January 1, 2023 to provide for an unreduced early retirement upon the attainment of age fifty-five with twenty-five years of vesting service as of the participant's termination of employment.

The required schedule of changes in the County's net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate – The following presents the net pension liability of the County, calculated using the discount rate of 7.0%, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0%) or 1-percentage-point higher (8.0%) than the current rate:

		Current						
	1% Decrease		[Discount Rate		1% Increase		
	_	(6.0%)		(7.0%)		(8.0%)		
County's net pension		_		_	_			
liability	\$	27,769,097	\$	16,132,328	\$	8,959,450		

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of December 31, 2022, and the current sharing pattern of costs between employer and employee.

Pension Benefit and Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions – For the year ended December 31, 2023, the County recognized pension expense of \$4,625,036. At December 31, 2023, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred	Deferred
	0	utflows of	Inflows of
	F	Resources	Resources
Differences between expected and actual experience	\$	1,301,239	\$ 235,833
Differences resulting from changes in actuarial assumptions		532,396	-
Net difference between projected and actual earnings on			
pension plan investments		5,284,499	-
Contributions subsequent to the measurement date		2,357,168	 _
Total	\$	9,475,302	\$ 235,833

Pension Expense and Deferred Outflows of Resources and, Deferred Inflows of Resources Related to Pensions (Continued) — County contributions subsequent to the measurement date of \$2,357,168 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the fiscal year ending December 31, 2024. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending December 31:	
2024	\$ 1,008,554
2025	1,712,867
2026	1,708,459
2027	 2,452,421
Total	\$ 6,882,301

Note 9 Other Postemployment Benefits

Plan Administration and Benefits - The County, as authorized by the County Commission, administers a single-employer defined benefit other postemployment benefit plan (the OPEB Plan). The OPEB Plan is administered by the County management, under the direction of the County's Board of Commissioners. The Board of County Commissioners authorizes participation in the OPEB Plan and sets the contribution rates and benefits. Coverage under the OPEB Plan includes medical, prescription drug, and dental benefits for retirees and dependents. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75 and the OPEB Plan does not issue a separate, stand-alone financial report. Substantially all of the County's employees are eligible for the OPEB Plan; however, the requirements and sharing of costs between employer and employee vary depending on the employee's start date as follows:

Any employee which was hired after January 1, 2009, will not have the option to benefit from the plan after leaving the County. For all eligible retired employees that are at least sixty-five (65) years of age and have a minimum of five (5) years of continuous service, the County will provide a discounted insurance premium for the retiree, the retiree +1, or the retiree and family. The premium information effective January 1, 2023 are as follows:

	M	onthly	Employee		
 Medical	Pr	emium	Pre	emium	
Retiree only	\$	803	\$	240	
Retiree + 1		1,606		428	
Retiree + Family		2,409		526	

Note 9 Other Postemployment Benefits (Continued)

Plan Membership - Membership of the OPEB Plan consisted of the following at January 1, 2022, the date of the latest actuarial valuation:

Active participants	226
Retirees and beneficiaries currently receiving benefits	15
Total	241

Contributions - The Board of Commissioners has elected to fund the OPEB plan on a "pay as you go" basis. Plan members, once retired, contribute to the plan based on number of years of creditable service. Per a County resolution, the County is required to contribute the current year benefit costs of the Plan which are not paid by the retiree. For the year ended December 31, 2023, the County contributed \$271,784 for the pay as you go benefits for the OPEB Plan.

Total OPEB Liability of the County - The County's total OPEB liability was measured as of January 1, 2023, and was determined by an actuarial valuation as of January 1, 2022.

Actuarial assumptions - The total OPEB liability in the January 1, 2023 actuarial valuation, was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Discount Rate: 4.05% Salary Scale: 2.50%

Healthcare Cost Trend Rate: 6.75% for fiscal year 2023, decreasing 0.25% per

year to an ultimate rate of 5.00%

Actuarial Cost Method: Entry age actuarial cost method

Participation rate:

Participants and their spouses are assumed to elect coverage in retirement based on the rates shown in the following table:

	Years of Service			
Type of Participant	10-24	25+		
Retirees who elect coverage	50%	70%		
Retirees who elect spousal coverage	50%	70%		
Retired elected officials who elect coverage	80%	80%		
Retired elected officials who elect spousal coverage	40%	40%		

Mortality rates were based on the RP-2014 Mortality Table, fully generational with base year 2006, projected using two-dimensional mortality improvement scale MP-2021.

The actuarial assumptions used in the January 1, 2022 valuation, were based on the results of an actuarial experience study performed concurrently with the January 1, 2022 valuation.

Note 9 Other Postemployment Benefits (Continued)

Discount rate - The discount rate used to measure the total OPEB liability was 4.05%. This was an increase in the rate from the prior year's rate of 1.84%. This rate represents the municipal GO AAA 20-year yield curve rate as of the measurement date.

Changes in the Total OPEB Liability of the County - The changes in the total OPEB liability of the County for the year ended December 31, 2023, were as follows:

	Total OPEB
	Liability
Balances at 12/31/22	\$ 11,056,700
Changes for the year:	
Service cost	350,300
Interest	209,100
Assumption changes	(1,723,800)
Difference between expected and actual experience	(931,400)
Benefit payments	(88,300)
Net changes	(2,184,100)
Balances at 12/31/23	\$ 8,872,600

The required schedule of changes in the County's total OPEB liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about the total OPEB liability.

Sensitivity of the total OPEB liability to changes in the discount rate - The following presents the total OPEB liability of the County, as well as what the County's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.05%) or 1-percentage-point higher (5.05%) than the current discount rate:

	1% Decrea	ise Di:	Discount Rate		1% Increase	
	(3.05%)		(4.05%)		(5.05%)	
Total OPEB liability	\$ 9,619,6	500 \$	8,872,600	\$	8,183,300	

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates - The following presents the total OPEB liability of the County, as well as what the County's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (5.75% decreasing to 3.75%) or 1-percentage-point higher (7.75% decreasing to 5.75%) than the current healthcare cost trend rates:

	19	6 Decrease	Discount Rate		19	% Increase
		(5.75%		(6.75%		(7.75%
	decreasing to decreasing to			decreasing to		
		4.00%)	5.00%)			6.00%)
Total OPEB liability	\$	7,951,200	\$	8,872,600	\$	9,936,900

Note 9 Other Postemployment Benefits (Continued)

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates (continued) - Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revisions as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of January 1, 2023, and the current sharing pattern of costs between employer and inactive employees.

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB - For the year ended December 31, 2023, the County recognized OPEB expense of \$480,705. At December 31, 2023, the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	-	Deferred utflows of	Deferred Inflows of		
	R	esources	Resources		
Differences between expected and actual experience Changes in assumptions Contributions subsequent to the measurement date	\$	1,244,700 921,800 271,784	\$	1,557,500 1,602,100 -	
Total	\$	2,438,284	\$	3,159,600	

The amounts reported as deferred outflows of resources related to OPEB resulting from County benefit payments subsequent to the measurement date, of \$271,784, will be recognized as a decrease of the total OPEB liability in the year ending December 31, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending December 31:	
2024	\$ (83,400)
2025	(83,400)
2026	(83,400)
2027	(63,600)
2028	(242,300)
Thereafter	 (437,000)
Total	\$ (993,100)

Note 10 Defined Contribution Plans

Effective February 1, 2016, the County adopted the Association of County Commissioners of Georgia Defined Contribution Plan (the Plan), a 401(a) defined contribution plan administered by GEBCorp. All full-time employees hired after January 31, 2016, are required to participate in the Plan. Participants are required to make a mandatory contribution into the 401(a) equal to 2% of their compensation, and the County contributes an equal amount. There is a graduated vesting schedule for employer contributions as follows: 0-3 years (0%), 4-5 years (60%), and 5 years or more (100%). Participants are always 100% vested in their own contributions to the 401(a) Plan.

Also effective on February 1, 2016, the County adopted the Association of County Commissioners of Georgia Deferred Compensation Plan (the Comp Plan), a 457(b) deferred compensation plan administered by GEBCorp. All full-time employees hired after January 31, 2016, are eligible to participate in the Comp Plan. If participants elect to contribute to the 457(b) Comp Plan, the County will make a matching contribution equal to 50% of the first 4% a participant contributes, up to 2%. Participants are always 100% vested in their contributions.

Plan provisions and contribution requirements are established and amended by the Board of Commissioners for both plans. For the year 2023, employer matching contributions totaled \$952,896.

Note 11 Risk Management

Insurance Claims

The County maintains third party coverage for claims arising from property and casualty claims, general liability claims, and medical claims. Settlements have not exceeded coverage for each of the past three fiscal years.

The County participates in the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund and the Association of County Commissioners of Georgia Group Self-Insurance.

As part of these risk pools, the County is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pools' agents and attorneys, to follow loss reduction procedures established by the pools, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in one of the pools being required to pay any claim of loss. The County is also to allow the pools' agents and attorneys to represent the County in investigation, settlement discussions, and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the pools.

The fund is to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The fund is to pay all costs taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation, or defense.

Note 11 Risk Management (Continued)

Insurance Claims (Continued)

The County maintains a Workers' Compensation Self-Insurance Fund, which is an internal service fund, to account for resources used in payment of workers' compensation claims. The County has entered into a contract with a third party to administer the Workers' Compensation Program. The County maintains third party insurance coverage from a private insurance carrier for claims that exceed \$250,000 per occurrence or a \$1,000,000 aggregate, stop loss limit. The County is a member of the State of Georgia Subsequent Injury Trust Fund, which provides reimbursement to individual participants, should a claim be filed by an employee who has suffered previous injury before employment with the County. During 2023, the County was reimbursed from the Subsequent Injury Trust Fund for claims above the stop loss limit. The County accrued a liability for workers' compensation claims that were incurred prior to year-end but were not paid until the following fiscal year. For purposes of estimating the unpaid claims liability as of December 31, 2023, the County's third-party administrator computed the reserve liability based on the estimated cost of each outstanding claim from claims experience of similar claims. Changes in balance in claims liabilities can be summarized below:

		Be	ginning of		Current Year				End of
			Year	Clai	ims and Changes	Claim			Year
	Date	Liability		in Estimates		Payments		Liability	
_	2022	\$	736,128	\$	401,084	\$	(661,994)	\$	475,218
	2023		475,218		509,372		(684,695)		299,895

The County also maintains a Group Health Benefits Self-Insurance Fund, which is an internal service fund, to account for resources used in providing employee benefits for medical, dental, disability, and losses of life claims. The County maintains third-party insurance coverage from a private insurance carrier for claims that exceed \$100,000 per employee with an aggregate stop loss liability of \$6,900,000, based on an annual policy term using a 12/15 run out formula on specific employee claims and 12/12 run out on aggregate claims. Changes in the balance of the health and dental claims liability for the past two (2) years is as follows:

Beginning of					Cla	im Payments	End of		
Fiscal Year			C	Current Year	ar and Changes		Fiscal Year		
Date	L	iability		Claims in Esimates Lia		in Esimates		Liability	
2022	\$	237,343	\$	7,233,489	\$	(7,161,868)	\$	308,964	
2023		308,964		9,611,995		(9,527,244)		393,715	

Note 12 Joint Ventures

Dalton-Whitfield Regional Solid Waste Management Authority – The County participates with the City of Dalton in the Dalton-Whitfield Regional Solid Waste Management Authority (the DWRSWMA). All budgetary and financial records are maintained by the City of Dalton. The DWRSWMA issued separate audited financial statements dated May 24, 2024. A copy of the separately issued financial statements can be obtained at their administrative office at 4350 Gazaway Drive SE, Dalton, Georgia 30720.

Note 12 Joint Ventures (Continued)

Dalton-Whitfield Regional Solid Waste Management Authority (continued) — The County and the City of Dalton share equally in operations of the DWRSWMA, which operates solid waste disposal sites within Whitfield County. Administration is accomplished through a five-member board with each government appointing two members and those four appointing the fifth member. Current expenditures are funded through user fees and, if necessary, equal transfers from both governments. The County's equity interest in this joint venture is reported as an enterprise fund. The County's share of the resulting income or loss from the joint venture is shown separately as expenses in the statement of activities.

State and federal laws and regulations require the DWRSWMA to place a final cover on its landfill sites when they stop accepting waste and to perform certain maintenance and monitoring functions at each site for thirty years after closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the DWRSWMA reports a portion of the closure and post-closure care costs as a non-operating expense in each period based on landfill capacity used as of each balance sheet date. The accrual for closure and post-closure cost is summarized by location as follows:

			Old	Dixie II, IV &				
Landfill sites:	W	Vestside		V	0	ld Dixie VI	Balefill	Total
Estimated future costs:				_		_	_	
Closure		Closed		Closed	\$	14,574,000	\$ 1,492,000	\$ 16,066,000
Post-closure		966,000		2,517,000		8,300,000	1,497,000	 13,280,000
		966,000		2,517,000		22,874,000	2,989,000	29,346,000
Percentage of capacity as								
of December 31, 2023		100.0%		100.0%		64.3%	99.4%	
Liability at Dec 31, 2023	\$	966,000	\$	2,517,000	\$	14,699,000	\$ 2,970,000	\$ 21,152,000

The DWRSWMA will record the remaining estimated cost of closure and post-closure care costs of \$8,194,000 as the remaining capacity is filled. Estimated remaining landfill life is more than 30 years. The above estimates are based on what it would cost to perform all closure and post-closure care in 2023. Actual costs when incurred may be higher due to inflation, changes in technology, or changes in laws and regulations. As of December 31, 2023, the DWRSWMA reported an ending net position of \$26,761,840; which was a decrease of \$5,267,854 from the December 31, 2022 net position.

The DWRSWMA landfill closure and post-closure requirements are being funded from user fees and interest earned from investments. If these revenues are inadequate or additional post-closure care requirements are determined, these costs may need to be covered by charges to future landfill users.

Northwest Georgia Trade and Convention Center Authority - The County participates with the City of Dalton in the Northwest Georgia Trade and Convention Center Authority (Convention Center). All budgetary and financial records are maintained by the City of Dalton. The Convention Center issued separate audited financial statements dated May 22, 2024. A copy of the separately issued financial statements can be obtained at their administrative office at 2211 Dug Gap Battle Road, Dalton, Georgia 30720.

Note 12 Joint Ventures (Continued)

Northwest Georgia Trade and Convention Center Authority (continued) - The County and City of Dalton share equally in operations of the Convention Center, which operates to promote tourism within Whitfield County by hosting conventions, special events, and trade shows. Current expenditures are funded through user fees and, if necessary, equal transfers from both governments. The County's equity interest in this joint venture is reported as an enterprise fund. The County's share of the resulting income or loss from the joint venture is shown separately as charge for services on the statement of activities. As of December 31, 2023, the Convention Center reported an ending net position of \$9,327,386; which was a decrease of \$288,483.

Dalton-Whitfield Joint Development Authority – The County participates with the City of Dalton in the Dalton-Whitfield Joint Development Authority and the Dalton-Whitfield Economic Development Authority, which are reported as one entity (the JDA). All budgetary and financial records are maintained by the JDA, which is housed at the Dalton-Whitfield Chamber of Commerce. The JDA issued separate audited financial statements dated June 19, 2024. A copy of the separately issued financial statements can be obtained at their administrative office at 100 S. Hamilton Street, Dalton, Georgia 30720.

The County and the City of Dalton share equally in operations of the JDA, which operates to promote economic development within Whitfield County. Current expenditures are funded through equal transfers from both governments and a large donation from a local advised fund. The County's transfer to this entity is shown as an expenditure of the general fund, and the County's equity interest in this joint venture is shown as an investment in a joint venture for governmental activities in the government-wide statement of net position. The County's share of the resulting income or loss from the joint venture is shown as an expense for economic development on the statement of activities. As of December 31, 2023, the JDA reported an ending net position of \$2,699,618; which was an increase of \$27,401 from the December 31, 2022 net position.

Note 13 Jointly Governed Organizations

Northwest Georgia Regional Commission – Under Georgia law, the County, in conjunction with other cities and counties in the Northwest area, is a member of the Northwest Georgia Regional Commission (NWGRC). Membership in NWGRC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organizational structure of the NWGRC. Membership in the NWGRC includes the chief elected official of each county and municipality of the area. OCGA Section 50-8-39.1 provides that the member governments are liable for obligations of the NWGRC. During the year, the County paid \$64,813 in dues to the NWGRC. The financial requirements of the County related to the NWGRC are limited to the amount of its annual dues. Separate financial statements may be obtained from the NWGRC at 503 W. Waugh Street, Dalton, Georgia 30720.

Note 14 Commitments and Contingencies

A. Contractual Commitments

In addition to the liabilities enumerated in the balance sheet, at December 31, 2023, the County has contractual commitments on uncompleted contracts of approximately \$5,215,000.

B. Litigation

The County is a defendant in certain legal actions in the nature of claims for alleged damages to persons and property and other similar types of actions arising in the course of County operations. Although the outcome of these cases is not presently determinable, in the opinion of management and legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the County.

C. Grant Contingencies

The County has received Federal and State grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, County management believes such disallowances, if any, will not be significant.

Note 15 Hotel/Motel Tax

The County imposes a 7% hotel/motel lodging tax for the purpose of promoting tourism as authorized in Georgia Law (O.C.G.A 48-13-51). The County collected tax revenues of \$225,585 and expended the full 100% of the revenues on the promotion of tourism.

Note 16 Tax Abatements

The Dalton-Whitfield Joint Development Authority (a joint venture between the County and the City of Dalton, as disclosed in Note 12) has entered into several agreements for abatement of property taxes. The JDA provides tax incentives, based upon certain criteria, to potential and existing entities for the purpose of furthering economic growth in the Dalton-Whitfield area. The JDA is not a taxing authority. The tax abatements offered are abatements of Whitfield County, Georgia property tax and City of Dalton, Georgia property tax. Whitfield County and the City must approve the tax incentive agreements prior to their execution.

The criteria that makes an entity eligible for tax abatements through the JDA include providing new capital investment and/or new jobs in the Dalton-Whitfield area. The amount of the tax abatement transaction is determined based upon a specified rubric. Planned new jobs, community investment, diversification, wage levels, project location, and other factors are considered in determining the amount of tax abatement offered to an entity. The tax abatement period for a project can last up to fifteen years.

The entity must be willing to enter into a contractual agreement with the JDA and willing to enter into a bond financed sale leaseback transaction (Industrial Revenue Bonds) which transfers title to improvements (land, buildings, equipment) during the life of the tax deferment/abatement plan to the JDA, as provided by Georgia state law. The local taxing jurisdictions and the public receive notice of the title transfer pursuant to an Industrial Revenue Bond validation.

Note 16 Tax Abatements (Continued)

Entities with tax abatements are required to file an annual report with the JDA which certifies the number of jobs created, the cumulative amount of capital investment, and other applicable measurements. In the event the entity fails to meet specified goals, a percentage method described in each agreement is used to determine the shortfall. The shortfall percentage is multiplied by the amount of taxes abated for the year for the project to arrive at a recovery payment. The recovery payment is due with the annual report.

Thirty-one tax abatement agreements are outstanding as of December 31, 2023. Reductions in tax revenues attributable to Whitfield County, Georgia were \$1,834,765.

Schedules of Required Supplementary Information Schedule of Changes in the County's Total OPEB Liability **And Related Ratios**

For the Year Ended December 31, 2022

Notes to the Schedule
The schedule will present 10 years of information once it is accumulated.

Changes since prior valuation:
The Plan was amended effective January 1, 2023 to provide for an Unreduced Early Retirement upon the attainment of age fifty-five with twenty-five years of Vesting Service as of the participant's termination of employment.

In 2020, the Plan was amended effective January 1, 2021, to designate two new classes of Eligible Employees, Class 5 and Class 6, who will be eligible for an unreduced early retirement benefit upon the attainment of age 55 with 25 years of Vesting Service.

STATISTICAL SECTION

This part of Whitfield County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

- (2) Data provided by City of Varnell City Manager

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the County. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Whitfield County. Applicable percentages were estimated by determining the portion of another government unit's assessed value that is within the County's boundaries and dividing it by each unit's total assessed value. Entities are situated entirely within the geographic boundaries of the County.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners of Whitfield County, Georgia Dalton, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing* Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Whitfield County, Georgia (the County) as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 7, 2024. Our report includes a reference to other auditors who audited the financial statements of the Whitfield County Department of Public Health as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal* control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2023-001.

Whitfield County's Response to Findings

Mauldin & Jerkins, LLC

Government Auditing Standards requires the auditor to perform limited procedures on the Whitfield County's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Whitfield County's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Commissioners of Whitfield County, Georgia Dalton, Georgia

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Whitfield County, Georgia's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of County's major federal programs for the year ended December 31, 2023. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the County's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the County's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and
 perform audit procedures responsive to those risks. Such procedures include examining, on a test basis,
 evidence regarding the County's compliance with the compliance requirements referred to above and
 performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the County's internal control over compliance relevant to the audit in order
 to design audit procedures that are appropriate in the circumstances and to test and report on internal
 control over compliance in accordance with the Uniform Guidance, but not for the purpose of
 expressing an opinion on the effectiveness of the County's internal control over compliance.
 Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

WHITFIELD COUNTY, GEORGIA NOTE TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED DECEMBER 31, 2023

NOTE 1. BASIS OF PRESENTATION AND ACCOUNTING

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual bases of accounting. Under the modified accrual basis of accounting, expenditures are recognized when the related fund liability is incurred.

Federal grant programs which are administered through State agencies (pass-through awards) have been included in this report.

The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and therefore, some amounts presented in this schedule may differ from amounts presented or used in the preparation of the financial statements.

The County elected not to utilize the 10% de minimus indirect cost rate.

The County had six subrecipients and expenditures for the year ended December 31, 2023 were as follows:

	Federal		
	Assistance	Contract or	
Federal Grant	Listing Number	Project Number	Amount
COVID-19: Coronavirus State and Local			
Fiscal Recover Funds	21.027	GA-0013857	\$ 1,444,485

The County has \$354,818 of outstanding loans from the Clean Water State Revolving Fund (66.458) as of December 31, 2023.

WHITFIELD COUNTY, GEORGIA SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED DECEMBER 31, 2023

Auditee qualified as low-risk auditee?	yes <u>X</u> _no

WHITFIELD COUNTY, GEORGIA SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED DECEMBER 31, 2023

SECTION II FINANCIAL STATEMENT FINDINGS

2023-001 Governmental Fund Budgets

Criteria: State of Georgia law (OCGA 36-81-3) states:

- Each unit of local government shall adopt and operate under an annual balanced budget for the general fund, each special revenue fund, and each debt service fund in use by the local government. The annual balanced budget shall be adopted by ordinance or resolution and administered in accordance with this article;
- b) a budget ordinance or resolution is balanced when the sum of estimated revenues and appropriated fund balances is equal to appropriations.

Condition: State law requires local governments to adopt and operate under annual appropriated balanced budgets for all governmental funds. Management did not adopt and operate under a balanced budget for the American Rescue Plan Act Special Revenue Fund, the SPLOST 2020 Fund, and the SPLOST Fund. Each of the funds' budget was amended to utilize additional fund balance, however the budgeted utilization exceeded available balances.

Context/Cause: The County did not adopt or operate under a balanced budget for the above funds.

Effects: The County failed to operate under a balanced budget for the American Rescue Plan Act Special Revenue Fund, the SPLOST 2020 Fund, and the SPLOST Fund, which has resulted in a compliance violation with State law. The American Rescue Plan Act Special Revenue Fund, the SPLOST 2020 Fund, and the SPLOST Fund utilized fund balance in excess of available amounts by \$11,834,584, \$696,655, and \$144,915, respectively.

Recommendation: We recommend the County timely adopt and operate under balanced budgets for all governmental funds reported in the financial statements.

Auditee's Response: The County will ensure the budgets presented to the Board are balanced and that any supplemental amendments consider the available fund balance available.
