Welcome to the R&S Dance Program

This handbook will serve as your guide to the Rhythm & Spirit Dance Program of Williamson County Parks and Recreation and its philosophy of dance education. We provide classes for children and teens to dance and express themselves in a positive, non-competitive environment. The coordinators and instructors take our roles as mentors/teachers in your child's life very seriously. It is our objective to inspire a passion for the art of dance in every child who passes through our doors. In the process, we strive to set the right example and help your child (and you) create memories that will last a lifetime.

Philosophy

R&S Dance program is committed to providing high-quality dance classes to enhance the overall development of the child. We provide a safe and child-centered environment to encourage our students to explore dance with qualified, nurturing teachers. We believe that dance training encourages young people to develop a positive self-image as they increase awareness of their physical being. Along with improving coordination skills and developing muscular awareness, dance classes give children the freedom to express themselves through movement. The highest educational standards are expected from all Rhythm and Spirit Dance instructors.

Introduction to Dance

For Our Students

The first step to becoming a successful dancer is making a solid commitment to your classes. Strong technique is a key ingredient and class is where you develop that technique. Come to each class prepared to learn and without personal distractions. Class time is your chance to focus on yourself, so try to leave your concerns or worries at the studio door. True progress is made when you look at each class as an opportunity to become better at what you love to do. Dance full-out, stretch a little further, become more aware of your technique, and make the most of every class.

Respect for the teachers is essential. Listen to each correction given, whether it's directed at you or another dancer. A correction is an honor; it shows you how much a teacher cares about your progress as a dancer. Always say thank you when a teacher or choreographer offers you constructive criticism. Nothing can stop those students who apply themselves in every class and appreciate their teachers' knowledge and experience.

For Our Parents/Guardians

We believe that children's success depends on the support of their parents or guardians. Because your commitment to the process makes an enormous difference, we encourage you to be a part of your child's dance education. Our programs rely on a positive atmosphere and educational experience for our instructors and students and their parents. Cooperation between all parents is expected. Showing respect—for other parents, the students, and the instructors—makes an important impression on the children. You are a role model for your child about how to interact with others in a professional setting.

Parents/Guardians and teachers may look at a child's learning from different perspectives. However, we believe they share a common goal: to ensure that every child receives the best possible training, both physically and mentally. As a parent, you play an important role in supporting your student financially, but your emotional support is of equal—and perhaps even greater—value. Encourage your child to be the best that he or she can be regardless of what others may achieve. Dance is an individual art form, and children need to be allowed to achieve at a pace that's comfortable. No two students will progress at the same rate, even if they experience the exact same training. It's important to encourage children to focus on themselves, give their all, and be satisfied with their own accomplishments.

Dance education encompasses far more than technique and the steps your children learn. We believe the discipline of dance training gives young people a better understanding of commitment through learning, experiencing the spirit of teamwork, and discovering what they can accomplish through hard work. Our goal is to educate the minds, bodies, and souls of our students, teaching them the skills needed for a successful life, whether or not they stay involved in dance.
